WARRANT FOR ANNUAL TOWN MEETING

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

To any of the Constables of the Town of Wayland, in said County:

Greetings:

In the name of the Commonwealth you are required to notify and warn the inhabitants of said Town qualified to vote in town election to meet at their respective polling places, Precinct 1 in the High School Gymnasium, Precinct 2 in the Legion Hall, on

MONDAY MARCH 3, 1952

at six o'clock in the forenoon, there and then to bring in their ballots for a Moderator, Town Clerk, Treasurer, Collector of taxes, Tree Warden and seven Constables, all for one year;

One Selectman, one member of the Board of Public Welfare, one member of the School Committee, one Assessor, one Water Commissioner, two Trustees of the Public Library, one Cemetery Commissioner, one member of the Board of Health, one Park Commissioner, one Road Commissioner, one Commissioner of Trust Funds, all for three years;

One member of the Planning Board for five years.

All the foregoing to be voted on the official ballot. The polls will be open at 6:00 o'clock in the forenoon and will remain open continuously until 7:00 in the afternoon, when they shall be closed.

And you are required to notify and warn the inhabitants of said Town qualified to vote in Town affairs to meet at the High School Gymnasium on

WEDNESDAY, MARCH 5, 1952

at 7:45 P. M., then and there to act on the following articles.

Article 1. To hear reports of the Town Officers, Agents and Committees, and act thereon.

Article 2. To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Article 3. To grant money for necessary Town purposes
See Finance Committee Report

Article 4. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by Section 108, Chapter 41, General Laws, as amended, and set the effective date of such salary and compensation.

Since 1947, it has been necessary for the Town to fix, annually, the salary or compensation of each elective officer.

The Finance Committee recommends that the salary for the elective officers be set as indicated in the budget and that they be effective from January 1, 1952.

Article 5. To see if the Town will vote to authorize the Board of Selectmen: (1) to sell, or otherwise dispose of, the present police car in connection with the purchase of a new car; (2) to sell, or otherwise dispose of, the Board of Welfare's present visitor's car in connection with the purchase of a new car; (3) to sell, or otherwise dispose of the Water Department's present 1/2-ton Ford pick-up truck in connection with the purchase of a new 1/2-ton pick-up truck; and (4) to sell, or otherwise dispose of the Highway Department's 1946 1 1/2-ton Ford in connection with the purchase of a new 2 1/2-ton truck — the funds for the police car, the visitor's car and the highway truck being provided for in the budget of the respective departments and the funds for the truck for the Water Department being provided for in Article 7, or do or act.

The sale or disposal of equipment requires a vote of the Town. The police car is regularly purchased on the basis of an annual trade-in. The Welfare Department would like to carry its purchase on the basis of a trade-in every two years — this from money supplied by the Federal Government for administration. The present Water Department truck was purchased in 1946 and the disposal of the highway truck is in line with the regular replacement program.

The Finance Committee recommends the approval of the article.

Article 6. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1952 and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

The Finance Committee recommends the approval of the article

Article 7. To see if the Town will appropriate sums of money for the following: (1) Water coupon notes, water bonds and water registered note — maturing in 1952 — payment of principal; (2) water coupon notes, water bonds and water registered note — payment of interest due in 1952; (3) Water Department maintenance; (4) Town office clerical salaries; (5) purchase of a new truck; (6) installation of a water main connection on Westway Road and State Road East at Plain Road; (7) installation of three new hydrants, one each, on Concord Road, Plain Road and Cochituate Road; (8) construction work on Water Department roads to pumping stations; and (9) the installation of electrical controls between the standpipe and the pumping station, the entire amount to be taken from Water Available Surplus, or do or act.

The sums of money required in this article are as follows: (1) Water Department debt — payment of principal — \$13,000.00; (2) Water Department debt — interest — \$2,665.00; (3) Water Department maintenance — \$30,000.00; (4) Town office clerical salaries — \$1,000.00; (5) purchase of new 1½-ton pick-up truck — \$1,600.00; (6) installation of water main connection at Plain Road — \$2,150.00; (7) installation of three new hydrants — \$1,050.00; (8) construction work on Water Department roads to pumping

stations — \$1,200.00; (9) installation of electrical controls between the standpipe and the pumping station — \$4,500.00.

The Finance Committee recommends the approval of this article

Article 8. To see if the Town will vote to cancel the authorization for expenditure and borrowing of the unused \$10,000.00 of the \$20,000.00 voted under Article 6 of the Special Town Meeting of April 28, 1948 and Article 1 of the Special Town Meeting of November 30, 1949, or do or act.

Because of the complications which have arisen in connection with the borrowing under this vote and, since funds have been otherwise provided for, the Finance Committee recommends the approval of this article in order to clear the books of the Town Accountant and the Town Treasurer.

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action in relation thereto.

The State and County propose to join the Town in the rebuilding of Oak Street from the Natick Line to Commonwealth Road East — the Town of Natick having completed, within recent years, its portion of this road from the Turnpike to the Wayland line. The work involves some substantial regrading, lowering of the water line, provided for in the budget, and complete new surfacing. It is estimated that the over-all job will cost between \$28-30,000.00. The State and County have allotted respectively, \$5,000.00 and \$2,500.00, which would call for an appropriation by the Town of \$2,500.00, making a total of \$10,000.00 for this year. If, as in the past, the State and County are willing to increase their allotments for the current year, it seems desirable that the Town be ready to supply matching funds.

The Finance Committee therefore recommends the appropriation of \$5,000.00, which would be sufficient to do \$20,000.00 worth of work toward the total job of \$30,000.00 and would make possible the completion of the work in two years.

Article 10. To see if the Town will vote to appoint a Committee of nine persons, composed of one member from each of the following boards or committees: the Board of Health, Planning Board, Road Commissioner, Selectmen and the Finance Committee and four persons to be chosen at large by the representatives so designated, to make a study and prepare recommendations for presentation to the Town at the next Special or Annual Meeting, for additional dump facilities in Cochrane, or do or act.

The present dump area behind the highway garage is rapidly being filled and it is imperative that additional facilities be obtained in the immediate future.

The Finance Committee recommends the approval of the article.

Article 11. To see if the Town will vote to raise and appropriate a sum of money for the following: (1) purchase of two 750-gallon fire truck pumpers; (2) construction of a garage for the Fire Department, on the easterly portion of Town-owned land at the corner of Leary Street and East Plain Street, Cochrane; (3) extension of the fire alarm system from Wayland Center to the Weston line; to determine whether the money shall be provided by transfer from other appropriations previously voted, by taxation, and/or by borrowing; and to authorize the committee appointed under Article 12 of the Annual Town Meeting of March, 1951, with the approval of the Selectmen, to purchase the equipment, to construct, equip and furnish the fire station and to extend the fire alarm system, and to enter into the necessary contracts and agreements therefor; or take any other action relative thereto.

At the last Annual Town Meeting, a Special Fire Survey Committee was appointed by the Town and \$5,000.00 was voted as a start on replacements and extensions for the Fire Department, but without authorization as to expenditure. The Special Committee has made a full study of the department and its needs and advises the Finance Committee that it proposes the following program: (1) purchase of two new 750-gallon fire truck pumpers at \$17,500.00 each to replace the 350-gallon 1925 LaFrance pumper at Cochrane and the 350-gallon 1934 Chevrolet at Wayland Center, both of which are over age and have insufficient pump capacity; (2) erection of a new fire building at a cost of about \$46,000.00 at the corner of Leary Street and East Plain Street on town-owned land, the building

to be of sufficient size to: (a) house three modern-sized fire trucks, (b) provide fireproof space for the alarm system headquarters and (c) provide an office and a room for the fire company personnel; (3) extension of the fire alarm system at a cost of \$6,500.00, from the Town Hall to the Weston line and at that point to connect with a mutual-aid circuit, with the Weston Fire Department.

The Finance Committee, for a number of years, has steadily pointed out, in its annual report, that modernization and improvements in the Fire Department would have to be undertaken at the earliest possible date. With a comprehensive study of the needs of the department completed, the Finance Committee is of the opinion that the next step is to proceed with the program here outlined. It wishes to refer the Town to the Special Committee's report for the balance of the recommendations.

The Finance Committee recommends approval of the article and that the expenditures be financed as follows: (1) \$35,000.00 for two trucks by inclusion of \$15,000.00 in the rate for 1952 and \$20,000.00 through borrowing for two years, \$10,000 payable in 1953 and \$10,000.00 in 1954; (2) \$45,942.02 for Cochituate Fire Station by placing \$5,000.00 in the rate for 1952, \$942.02 by transfer from the "Cochituate Civic Center Building" account and \$40,000.00 through borrowing over a 20 year period and (3) \$6,500.00 for fire alarm extension from the Center to the Weston line by including \$500.00 in the 1952 rate, \$1,000.00 by transfer from "Fire Department — Truck Overhaul" account and \$5,000.00 from "Fire Survey Committee" account.

Article 12. To see if the Town will vote to raise and appropriate a sum of money for the purpose of constructing an addition to the Wayland High School Building, and for originally equipping and furnishing the said addition; determine whether the money shall be provided for by appropriation from available funds in the treasury, by taxation, and/or by borrowing; authorize the committee appointed in accordance with the vote under Article 19 of the Annual Town Meeting of March, 1947 and continued in office by vote under Article 1 of the Special Town Meeting of June 20, 1951, to construct, equip and furnish an addition to the Wayland High School Building and to enter into the necessary contracts and agreements therefor; or take any other action relative thereto.

The necessity for additions to the school plant were fully reported on at the Special Town Meeting of December 19, 1951 and funds for the plans and specifications were voted at that time. The program here requested is that which is proposed by the Special School Building Committee. It calls for the construction of an addition to the high school of eight rooms, six of which are needed in the fall of 1952. The Committee will have final bids for the work by the time of the meeting.

The Finance Committee is satisfied that the plan proposed, by which the Town will obtain classrooms at about \$25,000.00 per room, contrasted with normal current costs of about \$40,000.00 per room is considerably cheaper than could be obtained under any other plan. No site expense, no additional heating plant and only a minimum of services and landscaping are involved. The proposed addition is part of any long-range program.

The Finance Committee therefore recommends that the work be done at an overall cost of about \$215,000.00, the funds for the work to be provided as follows: \$200,000.00 through borrowing on 20-year notes; \$10,000.00 through funds previously appropriated; \$5,000.00 to be appropriated and assessed.

Article 13. To see if the Town will vote to establish a Salary and Wage Co-ordinating Committee to consist of one member each from the following boards: Selectmen, School Committee, Water Commissioners, Cemetery Commissioners, Road Commissioners, two members of the Finance Committee and two members-at-large who shall hold no other Town office and who shall be selected by the committee so designated, such committee to act as a coordinating agency to see that standard rates of salaries and wages are being uniformly applied, revised and kept up-to-date, or do or act.

The Finance Committee feels that the establishment of such a committee is advisable to maintain uniformity and a proper relationship of salaries and wages for all Town employees and therefor recommends the approval of the article.

Article 14. To see if the Town will vote to appropriate a sum of money for the purpose of leasing, renting or otherwise providing suitable

headquarters for Wayland Post Veterans of Foreign Wars, or otherwise act thereon.

The Veterans of Foreign Wars purchased their present quarters from the Commonwealth on November 6, 1951 through a building corporation — Wayland Post No. 6260 Building Association, Inc., which has leased the building to the local post for five years from January 25, 1952 at \$500 per year. There were about thirty-five paid members in 1951. Under the circumstances outlined, if a town so chooses, it is permitted, under state law, to pay rental for post quarters.

Based on these facts and, considering the value of the quarters, the Finance Committee feels that the Town would be warranted in paying the rental involved so long as the active membership justifies the expenditure. The Finance Committee therefore recommends the approval of the article.

Article 15. To see if the Town will vote to appropriate and raise a sum of money for the installation of fire sprinkler systems in the high school building and determine how the money shall be raised — by assessment, transfer, borrowing or otherwise, or do or act.

Two of the three stages of the sprinkler program for the schools have been completed and the present article contemplates the final step at a cost of about \$16,000.00 for an installation in the high school building. This is a logical move and would effect a substantial saving in the annual fire insurance costs and would also provide better protection. In any normal year, the Finance Committee would recommend this expenditure, the benefits of which would accrue to the entire town. The Finance Committee believes, however, that this is an item which can and should be deferred until a year when there is less capital expenditure called for on the part of the Town.

The Finance Committee does not, therefore, recommend the approval of the article at this time.

Article 16. To see if the Town will vote to appropriate and assess a sum of money for mosquito control, or do or act.

To be effective, mosquito control should be carried out as a co-operative venture by several adjoining towns under a plan which

would include drainage and spot spraying as well as general spraying. The program should be on a permanent basis. There are two plans at state level currently being considered — one through the State Health Department and the other through the proposed Sudbury Valley Commission. Under these circumstances and in view of the increases in the Town's regular expenditures, the Finance Committee feels that the \$1,500.00 which has been suggested to carry out only a general spray program should not be appropriated by the Town this year.

The Finance Committee does not, therefore, recommend the approval of this article.

Article 17. To see if the Town will vote to accept as public Town ways, under the provisions of the Betterment Act, in that part of the Town known as "Riverview Terrace," the roads known as "Riverview Circle" and "Shore Drive," or either of them, or any portion of them, as laid out by the Board of Selectmen and as shown on a plan or plans on file with the Town Clerk; and to authorize the Board of Selectmen to acquire any necessary land by eminent domain, by purchase, gift or otherwise; and to appropriate a sum of money for acquisition of any such land and the construction of such way or ways, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

This and the succeeding two articles have not been properly processed under the Betterment Act for consideration by the Town at this meeting. Plans have not been drawn, complete estimates of costs have not been submitted and the project is not ready to be voted on.

The Finance Committee therefore recommends that the article be passed over.

Article 18. To see if the Town will vote to install water pipes and hydrants in the ways named in the foregoing article, or in any portion thereof, and to appropriate a sum of money for the expenses thereof and determine how the money shall be raised and will authorize such sum, or any portion thereof, to be included in any betterments that may be assessed under the preceding article, or take any action relative thereto.

For the reasons stated respecting the previous article, the Finance Committee recommends that this article be passed over.

Article 19. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, that portion of Hayward Road lying between Rich Valley Road and Sylvan Way which has not been previously accepted, and that portion of Sylvan Way lying between Hayward Road and Lundy Lane, or either of them, or a portion of them, and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of Selectmen to acquire necessary land by purchase, gift, eminent domain, or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or ways, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

For the reasons stated respecting the previous article, the Finance Committee recommends that this article be passed over.

Article 20. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, the roads known as "Edgewood Road", "Ridgefield Road", "Fairfield Road" and "Parkridge Road", or any of them, or a portion of them, as laid out by the Board of Selectmen, and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of Selectmen to acquire necessary land by eminent domain, purchase, gift or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or ways, or any portion thereof, and determine how the money should be raised, or take any action relative thereto.

This, and the following three articles calling for improvement of streets and water systems under the Betterment Act, have been properly processed and are ready for consideration by the Town. This particular article involves a relocation and reconstruction of 3,700 feet of road, with the necessary change in drainage on Edgewood Road, Ridgefield Road, Fairfield Road and Parkridge Road, and the installation of 1,850 feet of water line. The cost of the job is estimated at \$22,200.00 for the road, drainage, and engineering, and \$9,500.00 for the water line, making a total of \$31,700.00

This is the type of improvement which the Finance Committee has normally favored, since, over a period of years, half of the expenditure would be returned through betterment taxes and a real benefit would inure to the Town through the improvement.

To complete the betterment program requested in this and the following articles would involve an expenditure of approximately \$50,000.00. This would increase the tax rate by about \$5.50. In a year in which the normal expenses of operating the Town have risen sharply — some \$70,000.00 — and when there are other unusually large capital expenditures which should not be postponed — School and Fire Department programs totalling some \$300,000.00, of which \$35,000.00 is scheduled to be raised in the tax rate for 1952 — the Finance Committee feels that the expenditures requested in this and the following articles should be deferred and brought up for reconsideration next year.

The Finance Committee therefore recommends that this article be passed over.

Article 21. To see if the Town will vote to install water pipes and hydrants in the ways named in the foregoing article, or in any portion thereof, and to appropriate a sum of money for the expense thereof and determine how the money shall be raised; and will authorize such sum, or any portion thereof, to be included in any betterments that may be assessed under the preceding article, or take any action relative thereto.

For the reason stated under the previous article, the Finance Committee recommends that the article be passed over.

Article 22. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, the roads known as "Blossom Lane" and "Westway Road", or either of them, or a portion of them as laid out by the Board of Selectmen, and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of Selectmen to acquire necessary land by eminent domain, purchase, gift, or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or ways, or any portion thereof, and determine how the money should be raised, or take any action relative thereto.

This article calls for improvement and acceptance of 1,775 feet of Blossom Lane and Westway Road at a cost of \$3,500.00. The roads were originally laid out under Planning Board control and require only surface reconstruction and a limited amount of drainage.

For the same reasons as stated under Article 20, the Finance Committee recommends that this Article be passed over.

Article 23. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, the roads known as "Timber Lane", "Haven Lane" and "Eden Road", or a portion thereof, as laid out by the Board of Selectmen and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of Selectmen to acquire necessary land by eminent domain, purchase, gift, or otherwise and to appropriate a sum of money for the acquisition of any such land and the construction of such way, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

This article calls for improvement and acceptance of about 2,000 feet of Timber Lane, Haven Lane and Eden Road at a cost of \$5,650.00. These roads were originally laid out under Planning Board control and require only surface reconstruction. A limited amount of drainage is needed for which the developer has agreed to provide the necessary funds.

For the same reasons as stated under Article 20, the Finance Committee recommends that this article be passed over.

Article 24. To see if the Town will vote to accept as public ways the following roads, or any of them, or any portion thereof, as laid out by the Board of Selectmen, and as shown on plans on file with the Town Clerk; and to authorize the Board of Selectmen to acquire any necessary land or interests therein by deed or gift and/or by eminent domain without any appropriation of money for further construction of any of said roads, under the Betterment Act, or otherwise; or take any action relative thereto, the roads above referred to being the following:

Woodridge Road, from Cochituate Road to Fox Meadow Lane;

Fox Meadow Lane, from Woodridge Road to Shaw Drive;

Shaw Drive, from a point about 650 feet southerly from Old Connecticut Path to a point about 2,900 feet southerly from Old Connecticut Path:

Happy Hollow Road, from Cochituate Road to Rice Spring Lane;

Rice Spring Lane, from Happy Hollow Road to Goodman Lane.

This article contemplates the acceptance of certain roads in Woodridge subdivision where lots have been sold, houses erected, water installed and roads built according to Planning Board regula-

tions. It is proposed that the roads now be accepted without any expenditure by the Town for further construction, without assessment of betterments, and without any taking by eminent domain, the land to be given to the Town by the owners, who will pay all costs of transfer of title. The owners have agreed to make minor changes in drainage suggested by the Highway Department. No work is to be done on Woodridge Road. On Shaw Drive, a culvert and two catch basins are to be installed and on Rice Spring Lane, a catch basin is to be lowered and the surface given an additional coat of bituminous treatment.

The Finance Committee recommends the approval of the article and the acceptance of the roads after the work has been completed to the satisfaction of the Highway Department.

Article 25. To see if the Town will appoint a committee to study the adoption of a Board of Public Works.

This is a matter which has been discussed from time to time and the article is introduced by the Dudley Pond Improvement Association for the purpose of making a full investigation.

The Finance Committee recommends the appointment of a committee to consist of seven members — one each from the Road Commissioners, the Water Commissioners, the Cemetery Commissioners, the Park Board, the Finance Committee and two members-at-large chosen by these so designated, and that a report be submitted at the next Annual Meeting.

Article 26. To see if the Town will vote to amend the Zoning By-Laws as follows: to change from a residential to a business district that portion of the land on the southerly side of State Road East and Old Connecticut Path owned by Harold J. Lundy and Sally A. Lundy, bounded and described as follows:

According to the plan of land formerly owned by Helen L. Clifford, and conveyed to petitioners as follows: Bounded easterly by the Weston-Wayland line to a depth of 300 lineal feet from the State Road East to a point; thence westerly about 300 lineal feet in a parallel line to State Road East and Old Connecticut Path to a point; thence northerly 300 lineal feet along Westway Road to Old Connecticut Path; thence northeasterly 232.20 lineal feet along Old

Connecticut Path; and 55.41 lineal feet along State Road East to a point of beginning,
or do or act.

The amendment to the Zoning Laws here suggested is one on which the Planning Board will make a full report to the Town, and the Finance Committee feels that the Town should be guided by the recommendations so made.

Article 27. To see if the Town will vote to transfer from available funds, the sum of \$25,000.00 to meet any of the appropriations made in the foregoing articles.

The Finance Committee recommends the approval of this article.

And you are required to serve this Warrant by posting copies thereof, attested by you, at the Town Hall, at each Post Office in Town, and at the Legion Hall, at Cochituate, seven days, at least, before the time of holding said election.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk on or before March 3, 1952.

Given under our hands and seal this thirty-first day of January in the year of our Lord one thousand nine hundred and fifty-two.

GERALD HENDERSON,
JOHN W. LEAVITT,
WILLIAM A. LOKER,
Selectmen of the Town of Wayland

A true copy, attest:

Constable of the Town of Wayland

REPORT OF THE FINANCE COMMITTEE

The Finance Committee deems it to be an annual responsibility to report to the Town its stewardship of the "Reserve Fund." The following breakdown accounts for the \$10,041.68 transferred: Treasurer — expense, \$656.00; Town Counsel and Legal Claims, \$2,913.00; Fire Department — expense, \$1,244.00; Highway — Snow Removal, \$2,007.00; Water Department — maintenance, \$590.00; Cemetery Department, \$1,149.00; the remaining \$1,482.00 to 18 other accounts.

Set up last year within the Reserve Fund for Civilian Defense in case of need was \$2,500.00 of which \$141.90 was expended and the balance of \$2,358.10 was included in the total of \$2,458.32 returned to the Town Treasury. With world conditions remaining unsettled \$2,500.00 is again provided under the same restrictions.

There are a number of items in the budget calling for comment. (1) Funds for Town office supplies frequently purchased jointly and used by the Collector, Accountant, Assessors, Selectmen, and Building Inspection Department have all been combined in a single account — and corresponding amounts deducted from the individual expense accounts. (2) Sufficient additional funds have been provided to assure the publication in 1952 of the valuation list. (3) The expenses of the Town Treasurer in 1951 and 1952 have been higher than normal to provide for modern equipment.

The total cost of local government in Wayland continues to rise with increases in salaries and wages accounting for most of the lift — but a substantial part arises out of the growth of the town. Generally speaking, no new services are being added — and no old services expanded except to care for the growth in population. The overall assessment of real estate increased about \$800,000.00 in 1950 and may well approach that figure again in 1951.

The 1952 budget, as reported, amounts to \$610,815.50, an increase of \$75,818.00 over 1951.

The increase of 1951 over 1950 amounted to \$41,200.00, 1950 over 1949 — \$77,000.00; 1949 over 1948 — \$81,500.00.

The principal items increased are as follows:

Assessors' Maps	\$1,200.00
Town Hall Maintenance	1,350.00
Police Department	1,600.00
Highway — New Equipment	1,000.00
Highway Lighting	1,000.00
Aid to Dependent Children	5,800.00
Old Age Assistance	12,000.00
Schools	44,400.00
Preliminary Town Expense — Betterments	3,000.00
Relocation Oak Street — Water Main	2,600.00
Cemeteries	2,700.00

The articles as recommended in 1952 amount to \$308,000.00 compared with \$47,985.00 voted in 1951. The amounts involved in the 1952 recommendations are as follows:

Chapter 90 — New Construction	\$5,000.00
Fire Department	(about) 87,500.00
School Department	215,000.00
Veterans Foreign Wars — rent	500.00

of these amounts — (1) \$6,942.02 it is proposed be transferred from items included in the tax rate of previous years — (2) \$10,000.00 was voted at Special Meetings in 1951 and will be included in the 1952 tax rate — (3) \$31,000.00 would be directly in the 1952 tax rate and — (4) \$260,000.00 would be raised through borrowing.

This year the Town is being asked to pass on the second major step in the expansion of the school plant and the first stage in the modernization of the Fire Department building and equipment. Both departments will over the next five to ten years need further major capital outlays. If new house construction continues at the current rate of about 150 houses a year, the Water Department requirements for additional capital outlay will likewise have to be provided for within a matter of a few years. The pressure of increased expense resulting from growth will make it mandatory that the Town explore every possibility of economy.

In recent years there have been more and more calls on the Town for road and water work under the Betterment Act — so much so that it seems desirable that some sort of plan be worked out by which a limit could be set on the dollar total which would be set aside in any one year

for Betterments — for, obviously, there is a limit which the Town can stand regardless of the worthiness of the project or the willingness of abutters to pay a portion of the expense.

Provision should be made in the Town Hall to accommodate the office of the Town Clerk. The volume of records and the number of calls are such that it is too much to expect or ask of anyone holding the position that the individual's home be used as a Town office. Under such an arrangement it would be proper for the service to the public that some sort of office hours be established.

The Water Department is particularly to be commended for the forward strides it has made. Under the billing and collection arrangement through the Town Hall initiated two years ago, the collection of all forms of revenue has vastly improved, to the point where uncollected bills on the first of 1952 had been reduced to about \$1,000.00 out of 1951 gross billings of \$50,000.00. The station and equipment are in fine condition — a real credit to the superintendent and his men — and the field clerical work which has previously had to be neglected is now being put in good shape. There should, however, be no let up in the program to lay away in Water Available Surplus funds for future expansion of the plant, and the Commissioners are quite conscious of the need for following such a course.

The Finance Committee budget for the year 1952 is as follows:

Finance Committee's Budget for 1952

The Finance Committee recommends that:

The Town office force be constituted as follows: Town Accountant, Chief Clerk, also serving as Deputy Collector; and such other clerical assistants as is deemed necessary to perform the duties and assume the responsibility for work as outlined in the Finance Committee report of 1949; and that such force supply clerical assistance to the Town Collector;

The operation of dumps be under the supervision of the Highway Department;

The money from Dog Taxes be allocated in its entirety to the Library Expense Account;

The District and School Nurse continue under the supervision of the School Committee;

The work on Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

The Tax Collector continue to act as collector for the Water Department;

The office of the Town Clerk be established in the Town Hall;

The unexpended balance in the following accounts be transferred to Excess and Deficiency:

Fire Department:

Tree Trimming	\$41.50
---------------------	---------

Highway Department:

Chapter 90 Maintenance	.22
------------------------------	-----

Chapter 90 Construction:

Main Street, Wayland	598.87
Main Street, Cochituate	5.60
Main Street, Cochituate	33.22
Street Betterment — Riverview Circle 2nd	27.31

School — Special Accounts:

Sprinkler System — Cochituate School	22.89
--	-------

Purchase of Lake Cochituate Shore Property:

Survey Expense	7.55
Maguire	175.00

Water Installation — River Road	368.62
North Cemetery Rehabilitation	120.00
Development and Improvement — Lakeview	.64
Water Department Maintenance	1.95

and the following accounts be transferred to "Water Available Surplus".

New Pumping Station Equipment	\$2.98
Interest in anticipation of borrowing	100.00

In addition to the sum of \$2,000.00 included in the budget to meet the Town's share of the cost of Chapter 90 Maintenance, and \$5,000.00 in Article 9 to meet the Town's share of Chapter 90 New Construction, the sum of \$4,000.00 for Chapter 90 Maintenance and \$15,000.00 for Chapter 90 New Construction be transferred from "Unappropriated Available Funds" in the Treasury to meet the County's and State's share of the cost of the work, the reimbursement from County and State to be restored in their receipt to "Unappropriated Available Funds" in the Treasury.

The Finance Committee wishes to call to the attention of the Town the wholehearted co-operation which it has received from elected and appointed officials and department heads.

Respectfully submitted,

GEORGE V. DEVERELL,
ROBERT M. MORGAN,
CHARLES Y. WADSWORTH,
FREDERICK S. WHITESIDE,
JOHN F. YEAGER,

Finance Committee, Town of Wayland.

January 31, 1952

ANNUAL REPORT — BOARD OF SELECTMEN

During the fiscal year 1951 the Board held 26 regular meetings, 7 special meetings, and 31 Public Hearings. The Board issued 158 Licenses and granted 4 additional permits to store gasoline.

All regular appointments, as required by statute have been made, and these appear in the list of Town Officers and Committees. Messrs. Richard Burchill, Donald L. Emerson and Frank Hahn were appointed to serve on the Fire Department Advisory Committee. The Board reluctantly accepted the resignation of Frank G. MacKenna as Town Treasurer who has served the Town honestly and faithfully for thirty years. Mrs. Dorothy Damon accepted our appointment to serve as Town Treasurer until the 1952 Town Meeting. Mr. J. C. Massie, after many years of service as Plumbing Inspector, retired as required by the Middlesex County Retirement System.

The report of the State Audit as of July 31, 1951 may be found under a separate heading in the Town Report. The financial statement of the Town in detail is available for public inspection at the Town Hall.

The Board with the Allen Fund Trustees and Welfare Board distributed the income received in 1950 from Charitable Funds.

Certification of betterment assessments were delivered to the Board of Assessors on the following:

<i>Water Betterments</i>	<i>Street Betterments</i>
1. Riverview Circle	1. Adelaide Avenue
2. Shore Drive	2. Overlook Road
	3. Riverview Circle
	4. Shore Drive
	5. Riverview Avenue

Parmenter Road and Fuller Road were acquired as Public Ways.

The Board disapproved 3 applications for permission to erect billboards on State Road East. We wish to congratulate the Wayland Garden Club for its assistance in controlling the abuse of roadside advertising. The Junior Town House volunteered to post and remove all public notices at the Post Office.

The following were drawn as jurors:

Roy E. Ames
Georges H. Barrel
Kendall F. Dickey
Roger L. Furbush

Joseph G. Hallenbrook
Percy E. Jensen
Albert J. Lizotte
Gilbert Small

The jury list may be found under a separate heading in the Town Report.

An agreement with Antonio R. English, et als for use of some of their land for dump purposes, was signed. We recommend that the Town instruct the Planning Board and the Board of Health to immediately proceed to study the Dump requirements. A new location in Cochituate Village will be needed within a few months.

Acting under advice of Town Counsel certain parcels of land located in Riverview Terrace were purchased from Daniel J. McNeill.

The Board has continued to oppose all proposed plans to erect overhead power lines in Wayland. We are cooperating with the Selectmen of Weston, Lincoln and Sudbury in this matter.

We authorized the New England Gas Transmission Co. to install pipes to carry natural gas below Concord and Old Sudbury Roads.

New Traffic Lights were installed at our request in Wayland Square by the Department of Public Works of Massachusetts. They also have agreed to replace and maintain the traffic lights adjacent to the Cochituate Post Office.

A lease was signed with the Boston & Maine Railroad for the use of land adjacent to Station for public parking.

An agreement was reached with Wayland Motors, Inc. for use of land on northerly side of Pelham Island Road as a public sidewalk. The Board voted to prohibit parking on the northerly side of Pelham Island Road.

The use and operation of commercial vehicles with capacity of more than two tons has been forbidden on School Street and Old Connecticut Path from Cochituate Road to Route No. 20. The installation of "Stop and Enter" sign at junction of Route No. 30 and East Plain Street was approved by the Department of Public Works.

The Board denied the appeal of "Ford Factory Homes, Inc." to erect residences in Wayland.

Clarence O. Baker was awarded the garbage contract after bids were obtained by the Board of Health. The previous collector declined to renew his contract.

The Town Counsel has been instructed to take by eminent domain the land described in Article 28, 1951 Town Meeting. Negotiations to purchase the land were unsuccessful.

We called Special Town Meetings, one to consider zoning and the other to consider school problems.

There have been no infractions of the Liquor Control Act reported to your License Board or to the A. B. C. Commission during 1951.

We recommend that sufficient funds be provided for the removal of shrubbery and poison ivy from the public ways.

We recommend that a suitable building or addition to an existing public building be erected in Cochrane to garage fire equipment.

This year has been another active one for many elected and appointed Town Officials and Committees, both paid and unpaid, due to the continued rapid growth of the Town. We wish to thank them for their assistance.

Together with all the residents of Wayland we pray for the safe return of all our men now serving in the armed conflict in Korea.

GERALD HENDERSON, *Chairman*
JOHN W. LEAVITT, *Clerk*
WILLIAM A. LOKER

REPORT OF THE STATE AUDIT

October 9, 1951

To the Board of Selectmen
Mr. Gerald Henderson, Chairman
Wayland, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Wayland for the period from July 4, 1950 to July 31, 1951, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,
Director of Accounts.

FXL:ACD

Mr. Francis X. Lang
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Wayland for the period from July 4, 1950, the date of the previous audit, to July 31, 1951, and report thereon as follows:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and verified by comparison with the reports and records of the treasurer and the town accountant.

The ledger accounts were analyzed for the period covered by the audit, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments. The appropriation accounts and loan authorizations were checked with the town clerk's records of town

meeting proceedings and the recorded transfers from the reserve fund were checked with authorizations of the finance committee.

The necessary correcting entries resulting from the audit were made, a trial balance was taken off, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on July 31, 1951.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with the other sources from which money was paid into the treasury, while the payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book additions were verified, and the cash balance on July 31, 1951 was proved by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited.

The payments made for maturing debt and interest were compared with the amounts falling due and with the cancelled securities and coupons on file.

The savings bank books and securities representing the investment of the trust funds in the custody of the town treasurer were examined and listed. The income was proved and the transfers to the town were verified by comparison with the treasurer's recorded receipts.

The records of tax titles held by the town were examined and checked. The amounts transferred to the tax title account were verified by comparison with the collector's records, the reported redemptions were checked with the treasurer's cash book, and the tax titles on hand were listed and reconciled with the controlling accounts in the general ledger. The tax title transactions were further verified by comparison with the records at the Registry of Deeds.

It is recommended that steps be taken by the treasurer toward foreclosure of rights of redemption on tax titles held over two years.

The books and accounts of the tax collector were examined and checked in detail. The accounts outstanding at the time of the previous examination and all subsequent commitments were audited and compared with the assessors' warrants issued for their collection. The payments to the treasurer were verified, the recorded abatements were compared

with the assessor's records of abatements granted, the transfers to the tax title account were checked, and the outstanding accounts were listed and reconciled with the controlling accounts in the general ledger.

The collector's cash balance on July 31, 1951 was verified by reconciliation of the bank balance with a statement furnished by the bank of deposit and by actual count of cash in the office.

It is again recommended that prompt action be taken by the collector to effect a settlement of all prior years' taxes.

The records of deferred assessments were examined and checked. The accounts outstanding at the time of the previous examination and all subsequent apportionments were audited and proved. The payments in advance were verified by comparison with the treasurer's recorded receipts, the amounts added to taxes were checked with the collector's records, and the amounts not due were listed and proved with the deferred accounts in the town accountant's ledger.

The records of departmental and water accounts receivable were examined and checked in detail. The accounts outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and proved. The reported payments to the treasurer were verified, the abatements were compared with the records in the departments authorized to grant them, and the outstanding accounts were listed and reconciled with the respective controlling accounts in the accountant's ledger.

Verification of the outstanding accounts was obtained by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereon indicating that the accounts, as listed, are correct.

The financial accounts of the town clerk were examined for licenses issued. The recorded receipts from dog, sporting and miscellaneous licenses were checked, the payments to the town being verified by comparison with the treasurer's recorded receipts and the payments to the State being verified by inspection of the receipts on file. The cash balance was proved by reconciliation of the bank balance with a statement furnished by the bank of deposit and by actual count of cash in the office.

The surety bonds of the various officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts of the board of health and the board of selectmen, of the sealer of weights and measures, and the building inspector, of the school, library, and cemetery departments, as well as of all other departments collecting money for the town or committing bills for collection, were examined and checked with the treasurer's cash book and with the records of the town accountant.

In addition to the balance sheet, there are appended to this report tables showing a reconciliation of the treasurer's, the tax collector's, and the town clerk's cash, summaries of the tax, motor vehicle and trailer excise, assessment, tax title, tax possession, departmental, and water accounts, as well as tables showing the condition and transactions of the trust funds.

During the progress of the audit cooperation was extended by the various town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts.

HBD:ACD

REPORT OF THE TOWN ACCOUNTANT

For the Year 1951

To the Honorable Board of Selectmen:

T. H. HARRINGTON,
Tax Collector.

REPORT OF THE BOARD OF ASSESSORS

FOR THE YEAR 1951

In its annual report last year the Board of Assessors pointed out the increased volume and difficulty of assessing real estate for purposes of taxation and explained the steps which the Board was taking to keep up with these developments:

(1) The establishment of a uniform rule for valuing real estate at approximately 50 per cent of current market value.

(2) The collection of a permanent card file describing each parcel of real estate and the buildings thereon together with its selling prices and mortgages.

(3) Revaluation of older properties.

(4) The devotion of additional months each year to field work on the valuation of property.

During the past year the Assessors have continued this program. The large volume of new building and the numerous transfers of property have prevented the work of revaluation from going forward as rapidly as we hoped. Thus, there were 155 new building permits issued during the year and many buildings started during 1950 had to be re-examined for additional work during 1951. The Registry of Deeds forwarded abstracts of approximately 400 transfers of property in Wayland which required corresponding changes in the Assessors' files and their personal examination of the premises in order to check the assessments.

Nevertheless, the work of revaluation has also progressed. Not only have many additional properties been revalued but also the card file containing the information necessary to equalize assessments has been completed for many areas and started in all. Since the cards show the character of the buildings in some detail — the number of stories, rooms, baths, age, etc. — and are permanent records of the property, the existence of this file is the foundation of a system of valuation which will go far to avoid unfairness and inequality.

The Planning Board has been most helpful in supplying the Approved Plans for all subdivisions. Their availability makes it possible to identify each parcel of land and prepare its permanent record even before a building has been erected or the property sold. The Building Inspector

has been most helpful in allowing the assessors to use his plans in order to get complete information concerning the type of construction, number of rooms, etc., of all new buildings. We wish to thank both the Planning Board and Building Inspector for their cooperation.

The cost of government in a growing town like Wayland constantly increases. The cost of proposed additions to the schools is the best example. Under such circumstances it is the more imperative that taxes be fairly assessed. The Assessors are deeply conscious of the importance of keeping up a continuous effort to eliminate unfairness and inequality. We also need the assistance of the people of Wayland not only in understanding the reasons for re-examination of property but also in pointing out instances in which inequalities are thought to exist. We therefore welcome any suggestions and advice.

MARRIAGES

Registered in the Town of Wayland for the Year 1951

JANUARY

- 2 John Gardner Fisher, Audrey Marie Evans, at Wayland, by Rev. Raymond George Manker.
- 6 Kenneth Francis Harpell, Barbara Marie Stevens, at Natick, by Rev. Francis P. Connors.
- 7 Henry James Christie, Jr., Anita Delphine Shepard, at Waltham, by Rev. Timothy M. Howard.
- 12 Robert Joseph Smith, Diana Morgan Yarrish, at Wayland, by Rev. John T. O'Neil.
- 24 Lawrence Richard Brown, Muriel Irene Patterson, at Newton, by David C. Lombard, Justice of the Peace and Asst. Clerk Dist. Court.
- 27 George Michael Celorier, Helen Marie Underhill, at Natick, by Rev. Francis P. Connors.
- 28 Paul Frederick Daly, Dorothy Mary McGillicuddy, at Brighton, by Rev. William J. Daly.

FEBRUARY

- 3 Robert Eugene Foss, Jacqueline Ann Black, at Wayland, by Rev. John T. O'Neil.
- 5 Arthur Moore Hogan, Olive Pearl Congdon, at Boston, by Charles Eliot Worden, Justice of the Peace.
- 10 Leicester Sargent Johnston, Jr., Joan Constance Kelly, by Rev. John N. Harris.
- 22 Robert William Lupien, Ruth Caroline Wenzel, at Saugus, by Rev. Claude H. Voorheis.

MARCH

- 11 John Joseph Carroll, Eugenia Jacqueline Briggs, at Wayland, by Rev. John T. O'Neil.
- 24 Ronald Eugene Bradley, Marie Rita Poirier, at Wayland, by Rev. Otis F. Kelly.
- 31 James Arthur Tufts, Katherine Kulak, at Natick, by Rev. Carl Bloomquist.

APRIL

- 1 Donald Arthur Frazier, Sally Teresa Devlin, at Wayland, by Rev. George P. McColgan.
- 14 Allan Norman Littman, Caroline Jane Russell, at Cambridge, by Rev. Austin P. Guiles.

- 22 Robert C. Burns, Emily Frances Teele, at Weston, by Rev. E. F. Chauncey.
- 22 Wayne Edward Wales alias Spreadbury, Ruth Teresa Monahan, at Watertown, by Rev. Joseph W. Leahy.
- 28 John Leavitt Stoddard, Barbara Jean Bruce, at Providence, Rhode Island, by Rev. Arthur E. Wilson.
- 28 Thomas R. Morris, Caroline B. Way, at Wayland, by Rev. George P. McColgan.

MAY

- 5 Herbert James Henderson, Agnes Catherine Wilson, at Wayland, by Rev. George P. McColgan.
- 5 James Nicholas Rempelakis, Claire Grace Merritt, at Roxbury, by Rev. Charles L. Mihos.
- 12 George Robert Toohill, Helen Nancy Carlin, at Wayland, by Rev. Otis F. Kelly.
- 12 Robert P. Hackett, Marie M. Wingate, at Waban, by Rev. Joseph C. MacDonald.
- 15 Robert James Moran, Alice Marie Thorne, at Wayland, by Rev. Otis F. Kelly.
- 19 Harry Chester William Stewart, Loretta Marie DeSimone, at Merrimack, New Hampshire, by Claude M. Maker, Justice of the Peace.
- 23 Robert Chase Hicks, Alice Belle Messom, at Wayland, by Rev. George C. Gutekunst.

JUNE

REPORT OF THE BOARD OF PUBLIC WELFARE

We are happy to report that for the first time in four years our case load on Old Age Assistance has dropped below ninety due to changes in residences, and possibly the new Lien Law which becomes mandatory on January 1, 1952, and deaths. Under this law, the Town of Wayland will be able to recover, after the decease of the Old Age Assistance property owners, all money spent after January 1, 1952. A \$1500.00 exemption is allowed before the enforcement of the lien.

On Aid to Dependent Children, we are also glad to state that our case load has decreased to 15 cases and 39 children. In this particular category it is difficult to forecast either a reduction or increase in 1952. The circumstances which cause families to seek assistance in this category are unforeseen and unpredictable.

On General Relief we are able to report that we have dropped 3 cases over last year. A great percentage of our Welfare cases are chronic unemployables, which, together with the rising cost of living, make it impossible to predict any substantial decrease in the coming year.

In conclusion, the Board wishes to compliment the Board of Health for the co-operation received from that Department. If the other departments in town would co-operate with the Welfare Board in like manner, we feel sure that the facilities for housing welfare cases would soon be cut to a minimum.

We are at all times cognizant of the fact that we are the guardians of the taxpayers in our distribution of money for relief.

Respectfully submitted,

CARLISLE D. SCOTLAND, *Chairman*
J. SIDNEY STONE
RONALD H. WOOD, *Clerk*

REPORT OF THE HIGHWAY COMMISSIONERS

In submitting our budget, we feel that the same appropriation will be sufficient for our general maintenance work. The Highway Department has accomplished the additional work of Betterment construction projects and Chapter 90 Construction as well as their regular maintenance with no increase in the number of employees.

The New Equipment appropriation was used to purchase a Caterpillar D-4 with a Dozer Shovel. This machine has made it possible for us to use sand and gravel from town owned pits. We recommend that the 1946 truck be replaced this year, as we feel that our equipment should be kept up to date in order to take care of the extra work due to new construction.

Chapter 90 Construction for 1952 will be the rebuilding of Oak Street from the Natick Town line to Commonwealth Road.

JOSEPH DECATUR
GUSTAF M. BLOMGREN
RONALD S. CAMPBELL

REPORT OF THE HIGHWAY SURVEYOR

The Highway Department has had another busy year due to several Betterment Construction projects in addition to the regular work of maintenance and construction.

A section of Concord Road and two sections of Commonwealth Road were resurfaced this year under Chapter 90 Maintenance. At Lake Cochituate, on Commonwealth Road, 700 ft. of old wooden guard rail was replaced by cable guard rail with cement posts. This appropriation also allows for patching and general maintenance of Chapter 90 roads.

Under the Baldwin Pond appropriation, the Outlet Brook was cleaned, thereby eliminating a drainage problem.

Construction of Rich Valley Road and Section 2 of Riverview Circle has been completed. Fuller Road and Parmenter Road have been prepared for surfacing, but due to the weather will not be completed until Spring. The Station Parking Lot at Wayland Center is under construction at the present time.

Construction of Main Street, Cochituate, has been completed. New sidewalks will be built as soon as possible.

I would like to take this opportunity to express my thanks to the Road Commissioners for their help and to the men of the Department for their splendid co-operation.

Respectfully submitted,

ALBERT E. POTVIN,
Highway Surveyor.

REPORT OF THE MOTH SUPERINTENDENT

The Gypsy Moth has been kept under control by successful spraying. This year the Selectmen asked that a survey be made of the Town, both roadways and private property for signs of the gypsy moth that may have developed during the season. This survey is to be made during the month of December.

The threat to our elm trees is still in existence due to the Dutch Elm Disease, which is destroying and causing the death of many of our elms. This year thirty-two elms were removed and the wood destroyed by burying and burning. Also, a number of dead trees, large and small, in the vicinity of the condemned trees were removed and burned.

There are twelve more elms that have been ordered removed by the State. Samples of more elms have been taken to determine if these trees are also affected.

If the townspeople would like to aid in the fight against this disease, I will be willing to take samples of any elms that the owners may be doubtful about and have them analyzed. I will also answer any questions that may prove helpful to the land owners.

This disease is a serious threat and can and will destroy our elms if we do not constantly watch for it and try to combat it.

Respectfully submitted,

JOHN E. NELSON,
Superintendent.

REPORT OF THE WAYLAND PUBLIC LIBRARY FOR THE YEAR 1951

The year 1951 has witnessed a considerable expansion of library activities which have been made necessary by the increased demands of the community. To those who are new to the community, I would call to your attention the fact that the year just completed is the one hundred and fourth year of operation.

We have had the usual number of problems. One of the most pressing has been that of finding additional space, so that books might be better arranged for your convenience. Also we are constantly adding new books to the Library's collection which requires still more space. Another problem has been the need for the Library to keep pace with the steadily increasing school population.

I have been very pleased with the cooperation which we have had from the school system during the past year. A large number of children are being taught to enjoy the advantages of a public library, and I sincerely hope that this education will mean much toward their future pleasure.

As you all know, Mrs. Rita Abbott was employed in 1950 by the Trustees to serve as Librarian at the Cochituate Branch. That her performance was remarkable is evidenced by the circulation figures. Such a record was too much to expect, and the result of her performance was the common one. She attracted outside attention, and in November, 1951, resigned her position with us in order to become Head Librarian in Westwood. It is with sincere regret that we part with Mrs. Abbott. To succeed her, the Trustees have employed Mrs. Dwight B. Steele of Wellesley, who, after attending the University of Iowa, served for nineteen years in the public library system of that State. The Trustees feel that they are fortunate in having Mrs. Steele available to succeed Mrs. Abbott.

The Trustees wish to thank the several library patrons who have rendered such very valuable aid to us voluntarily. Also, they wish to thank those who have made gifts to the Library of books, decoration, etc. Following its custom, the Garden Club has kept the Library attractively decorating during the year, and has also presented us with four outstanding books dealing with horticulture. The Francis Shaw Room

continues to provide a pleasant and convenient meeting place for gatherings of public interest.

I wish to extend my sincere thanks to the people of Wayland, the members of the Library Board and the Library Staff for their excellent support and assistance.

Sincerely yours,

MRS. DORIS BUSSE

Report of the Assistant Librarian — Cochituate

The past year has been a most interesting and enjoyable one in Cochituate. The people were most cooperative and enthusiastic. The Girl Scout Library Aids have given over three hundred hours of voluntary help to the Library, and this gave me much more time for reference work and general public service. I am sure that a great deal of the credit for the success of the past year should go to the Scouts.

The attendance at the "Story Hour" on Saturday mornings was gratifying. In fact, it was difficult to find room for all in one or two instances. The children used the library in ever increasing numbers, and working with them has been a great joy. The classes of the elementary school in Cochituate had regular attendance, and I have attempted to collect material which would be useful to them in their school work.

This phase of the librarian's work is in its infancy, but it has a great future, and both the teachers and children are eager and helpful.

Mr. George C. Lewis very kindly gave us bookmarks for the convenience of the readers, and we wish to thank Mrs. Marston for the several delightful flower arrangements which she provided during the year.

I wish to thank all of those who have been so kind and helpful to me during the year, and I regret that I am unable to continue longer with you.

Respectfully yours,

MRS. RITA ABBOTT

Report of Friends of Wayland Library

This year, as in the past, the emphasis of the Friends of the Library activities was on children. The most successful and gratifying project in this respect was Children's Book Week, November 12-17, with the children being treated to new book displays by Houghton Mifflin Co., and Little Brown & Co., story-telling by the Cronans and folklorist Richard Chase, and class visits to the library. The program was cooperatively conducted by Mrs. Charles T. Morgan, Otis W. Murphy, the Wayland Schools and the librarian.

Other activities included the regular winter film program for children under the supervision of Mrs. Carl W. Kearsley; open meetings featuring such speakers as Rudolph Elie, Boston Herald columnist, George Fingold, former assistant attorney general, and Craig Wylie, a Houghton Mifflin editor. This year, also, a committee appointed by Friends' chairman B. Allen Benjamin began working with the library Trustees and the librarian in a continuing effort to select and preserve the library's valuable old books and documents as well as to increase available shelf space for new books and to improve display facilities.

MR. ROBERT SCHUETTE

REPORT OF THE CEMETERY COMMISSIONERS

The unusual rainfall of the summer made necessary greatly increased labor in keeping the grass trimmed, and the several heavy downpours washed out roads repeatedly, and much time and labor was required to make repairs. However, in the course of the year, the first section of the land acquired from the heirs of Dr. Edward E. Dammers has been graded and made ready to be divided into lots; some of which are already spoken for. The roads adjacent to this section are in fair shape and the water pipes are all in place. Some of the other recently acquired lands adjoining have been cleaned up, small growth and undesirable trees removed as a first preparation for future use.

At the North Cemetery, the new addition has been cleared of old apple trees and stumps, and the land cultivated and enriched preparatory to grading and laying out the area and setting out the required hedge. The heavy stone posts at the entrance have been reset and the crumbling face wall adjoining has been relaid. In resetting the posts, we gained two or three greatly needed feet in the width of the gateway.

The rebuilding of this entrance road from the highway to the top of the slope in permanent form is one of the greatly needed improvements. Twice this year, it has been washed out and the material scattered down the highway.

At the South Cemetery, the most needed thing is the rebuilding of the face wall across the front; it has gotten to the point where piecemeal repairs fail to keep it in shape.

In Lakeview Cemetery, the main roadway from the entrance to the tomb should be excavated and thoroughly rebuilt, as it is a constant source of trouble and expense. The rebuilding would, in the end, save money for the town. At the same time, the connecting roadways, Lakeview Avenue and Ridge Avenue, should be repaired to the top of their slopes to prevent washing out.

These three projects — especially those at the North and Lakeview Cemeteries — seem to the Commissioners of first importance, and will be carried out as soon as funds are made available.

Owing to the number of drivers who were cutting through the cemetery to come out on Pemberton Road and thus escaping from the traffic jams on Route 30 after the opening of the "Shoppers' World,"

the Commissioners felt obliged to close the entrance at 5 o'clock P. M. to protect the avenues and the grounds from damage.

Forty-two burials were made in the town cemeteries in the past year; seven less than in the preceding year. The sum of \$1,025.00 was received for this service.

Two foundations for monuments were built at a cost of \$32.50.

Ten lots were sold; nine in Lakeview and one in the North Cemetery; \$365.00 being received for the ten.

108 lot owners paid small sums for yearly care of their lots; the amount received being \$445.00.

Two perpetual care gifts were received during the year as follows:

One gift of \$225.00 from William J. Malcolm for the care and decoration of lot 87 Sec. C Lakeview.

One gift from Alice L. Harriman of the sum of \$150.00 for perpetual care of lot 67 Sec. G Lakeview.

ERNEST W. SCHLEICHER
RALPH H. YETTON
WARREN D. VALENTINE

REPORT OF TREE WARDEN

The general trimming of dead wood, and hanging limbs of trees throughout the Town was done. Several decayed and dangerous trees were taken down.

Special high trimming was done.

There were 32 maples planted throughout the Town.

Respectfully submitted,

CHARLES L. FULLICK,
Tree Warden.

REPORT OF THE BOARD OF HEALTH

December 31, 1951

The Board of Health submits the following report for the year ending December 31, 1951.

The Board registered fifty-two complaints during the year and some of these complaints are a public nuisance.

The Board wishes to thank the Planning Board for their cooperation in the past year.

The Board in the past year made two hundred forty-two inspections of cesspools, and unfit buildings. The Board will continue to do all in its power to prevent the building on land where the construction of a cesspool, or a suitable disposal is impossible.

The Board issued the following permits:

To construct cesspools	170
To maintain undertaker establishment	1
To manufacture Ice Cream	1
To sell Methyl Alcohol	13

There were one hundred-six cases of communicable diseases reported.

Chicken Pox	5
Dog Bites	17
Measles	24
Mumps	58
Scarlet Fever	1
Whooping Cough	1
Tuberculosis	6

The Board feels that there are many cases of diseases dangerous to the public health that are not reported. If you have a case of this nature in your house and you do not have a doctor, it should be reported by the head of the family.

Respectfully submitted,

WALDO L. LAWRENCE, *Chairman*
NORMAN G. FAIR, *Clerk*
KATHERINE M. ANDREWS

REPORT OF THE PLANNING BOARD FOR THE YEAR 1951

Subdivisions

The most time-consuming work of the Planning Board during the past year has been the work in connection with consideration and approval of new subdivisions. Nine subdivisions have been approved up to December 15, 1951, representing 262 new building lots, and approximately two miles of new roads. In considering proposed subdivisions, the principles and rules established by earlier Planning Boards have been followed and every effort has been made to insure that the new subdivision shall provide desirable building lots without any added financial burden to the Town. In order to reduce even further the cost to the Town, the Planning Board, early in May, adopted a new rule which requires roads in new subdivisions to be of the quality required for acceptance by the Town under the Betterment Act. Roads in subdivisions approved since that time may thus be accepted by the Town without further cost either to the Town or to the abutters. In addition, subdividers are now required to plant trees along roadways. Data on the subdivisions approved through December 15, 1951, are given in the following table.

Consideration has been given in each case to the reservation of areas for park or other municipal uses and up to 5% of the land has been dedicated to public use where such a step seemed desirable.

Subdivisions Approved In 1951

<i>Subdivision</i>	<i>Date of Approval</i>	<i>Number of New Building Lots</i>

Thomas Road		
Spagnuolo	November 13	20
Anthony Road		

Connecting Link Between Stonebridge Road and Cochituate Road

In accordance with a vote taken on Article XXV at the March 7, 1951, Town Meeting, the Planning Board has carefully reconsidered the proposed laying out of a connecting link between Maiden Lane and Cochituate Road at School Street. After conferring with former members of the Planning Board and obtaining additional technical advice from its engineers, the Board has reached the conclusion that both on the basis of initial cost to the Town as well as good engineering practice, the route proposed by the Board at that Town Meeting appears to be the most desirable. Initially, the building of approximately 1,300 feet of road from Maiden Lane to connect approximately 1,100 feet of road which the Wayland Real Estate Company proposes to build soon in extending its present subdivision, would permit laying of a 12-inch main to provide the essential water connection between Stonebridge Road and Cochituate Road along established roads. Building of the more costly portion of the

complete link (from the center section to Cochituate Road) may thus be postponed until such time as the Town feels ready to undertake the added financial burden.

A more complete report of the engineering and estimated costs of the proposed road will be presented at the regular Town Meeting in 1952.

Zoning Changes

Following the recommendations of the Planning Board, changes in the zoning by-laws of the Town were voted at a special Town Meeting on June 20, 1951. In essence, these changes provided for increases of 50% in the area and approximately 25% in the frontage requirements for the three types of residential zones. In addition, a new type of zone permitting limited commercial use was established and an area of approximately 16 acres adjoining Route 20 at the western boundary of the Town was zoned for this new usage. These changes were approved by the Attorney General's office on November 30 and are now in effect.

The Planning Board introduced into the warrant articles providing for these changes in the belief that the rapidly increasing tax rate could be held at a reasonable level only by moderating the recent rapidly increasing rate of growth while at the same time providing for a type of land usage which would have an increased tax return to the Town while requiring a minimum of increased services. The Board believes that the increased requirements in the residential areas will keep new building more nearly in conformity with the established rural atmosphere of the Town without any significant penalty on the builder or purchaser of these new homes.

The establishment of a limited commercial area was admittedly experimental in nature. It is the intent of the Board that structures permitted under this usage shall be wholly unobjectionable in design and as a matter of fact may very well be of a type which would fit into a residential neighborhood. It is believed that the required approval of the Board of Appeals as written into the new zoning by-law should be sufficient to secure the intended type of usage.

Street Numbering

In accordance with the vote taken at the Town Meeting of November 30, 1949, plats have been prepared by the Planning Board for street numbering throughout the Town. The system adopted after careful

consideration is believed to provide maximum flexibility while keeping the numbers as low as possible. Property owners are being notified of their newly assigned numbers as rapidly as possible.

Boston Edison Power Line

The Planning Board is continuing to cooperate with the other Boards of the Town in fighting the proposed overhead power line through Wayland. Representatives of the Board have been present at all public hearings and have attended meetings of Officers of Weston, Wayland, Lincoln, and Sudbury to discuss methods of opposing the proposed line.

Following the newly established procedure for betterments, the Planning Board during the past year has considered plans for betterment on —

Fuller Road

Edgewood, Fairfield, Parkridge, and Ridgefield Roads

Timber, Eden, and Haven Lanes

and has made recommendations on each to the Selectmen.

The Planning Board deeply appreciates the help it has received from individuals and from officers of the Town and members of the various boards. We particularly wish to thank the members of the Water Board, the Road Commissioners, and the Board of Health for their cooperation when considering new subdivisions, and the Town Counsel whose advice has been most essential in all phases of the work of the Planning Board.

LEO F. McKENNEY, *Chairman*

KATHARINE HODGES, *Clerk*

FRANK S. TARR

GERALD B. LISCOMBE

CARL T. EMERY

R. DOUGLAS PILLSBURY

REPORT OF WAYLAND WATER DEPARTMENT

To the Inhabitants of the Town of Wayland:

The new electric pumps at the Baldwin's Pond Pumping Station were put into service January 1, 1951. The addition to the station, including an office, bins for fittings and garage room for the compressor, was finished and used later in the year. The old bath house was moved, enlarged and rebuilt to make storage room and a garage for the new truck. The old part of the station was cleaned and repainted inside and out.

The new truck was put into service and greatly facilitated the work of the department.

All services on Main Street, Cochituate, were renewed, and new gates were cut into mains where needed before the new surface was put on by the Highway Department.

A new 8" main was laid on Fuller Road and all services were connected to it, with the curb boxes relocated in relation to the new road.

The 6" main on Old Sudbury Road, which formerly crossed the river on the bridge, was relaid under the river. This obviated the necessity of continually repairing the insulation and opening a blow-off each winter to keep the main from freezing. It also removed any danger of its being broken by cars running off the road.

Approximately 180 million gallons of water were pumped during the year, an average use of almost 500,000 gallons per day. The highest single day was 1,169,000 gallons.

115 new services were installed up to December 1st and 27 new applications were still on hand to be done.

41 services were renewed, and 5 hydrants repaired. 4 hydrants were moved to new locations, and 15 leaks, none of a very serious nature, were taken care of.

FERN A. TAYLOR, *Chairman*
ALFRED C. DAMON, *Clerk*
CHARLES E. POTTER

ANNUAL REPORT OF WAYLAND PARK DEPARTMENT, 1951

Although manpower was the department's chief concern, it's land holdings plus equipment was maintained satisfactorily.

The following list shows the Park Department holdings and the work that was done during 1951 and proposed for 1952.

1. *Riverview Playground*

Construction of this new playground was completed in August and put into immediate use by the people in the area.

The small wooden dwelling that existed on the Playground was put in good condition through the efforts of the Riverview Circle Improvement Association and the Park Department. This building will be used for whatever a civic building is used.

A great deal of money was expended by the Riverview Circle Improvement Association in bringing this building up to requirements. Some of the items installed by the Riverview Circle Improvement Association were — Oil-fired heating system, complete re-wiring of building, fluorescent lighting, and the complete refinishing of the interior and exterior.

The Park Department will maintain this playground during 1952 by fertilizing in the Spring, and mowing it weekly and, if funds are available, a wire link backstop will be provided on the baseball field.

2. *Whittier Memorial*

This triangular shaped park was fertilized and mowed weekly. Two evergreens were planted, one on each side of the granite monument.

This area will again be fertilized in the Spring and then mowed weekly.

3. *Lake Cochituate Recreation Area*

This property was thoroughly cleaned in the Spring of the year and the toilet building was reconditioned.

Upon approach of the swimming season, the steel floats and cork markers were put in place in the water.

A wooden life-guard tower, approximately 10 feet in height was constructed, located and then secured.

On exceptionally warm days an attendance of approximately 400 persons was recorded; of this number, only about one half were residents of this Town.

The building acquired by the Town, is still inhabited and the Park Department hopes to be able to occupy this dwelling in the Spring.

The three other dwellings, still on Park property and owned by others, will be removed before Spring.

At the time of this report's printing, the department was rebuilding the beach by removing approximately 50 dead tree stumps and diseased trees.

The huge sand cliffs were being leveled-off, thereby increasing the length of the sandy beach three-fold.

During 1952 the following work will be done, if possible:

1. Convert the Park dwelling at the beach into a serviceable building with adequate toilets, dressing quarters and a first aid station.
2. Bull-doze cellar holes and foundations flat and fill with gravel
3. Provide area for systemized parking.
4. Provide benches and bicycle racks.
5. Provide drinking fountain.
6. Seek adequate police patrol to reserve area for residents only.
7. Oil road to area when heavy building moving and building construction has finished.

4. *Wayland Greens*

This area was cleaned in the Spring, then fertilized and mowed weekly.

During 1952, the Greens will be extended eastward by removing undesired growth, then mowed. This area can be one of the Town's beauty spots and the Park Department feels that this goal will be reached in a few years.

5. *Cochituate Ball Field*

This area was cleaned, fertilized and mowed weekly.

A soft-ball diamond was super-imposed over the existing baseball diamond, thereby providing a single facility to accommodate two different types of sports.

Permission was granted to Mr. Howard Phillips, of the Cochituate Motors to install lighting equipment. This system belongs solely to Mr. Phillips and will be given to the Park Department when he has been re-imburshed through collections at the games he has scheduled.

This lighting system was also used by the Cub Scouts during an Athletic Jamboree.

During 1952, we plan to do the following work

1. Clean entire field, fertilize and mow weekly.
2. Provide new players benches.
3. Provide an ice-skating surface for residents — night skating will be possible through the co-operation of Mr. Howard Phillips who has consented to turn on one or more of his light-towers, to light the skating area.
4. Partial fencing off, of the field, at the junction of the Schlosky property and Bradford Street — this fencing was requested so that walking through the center of the ball diamond would be eliminated.

6. *High School Field*

This area was cleaned, fertilized and mowed weekly. During the Fall, goal posts were installed and the field outlined for football.

During the year 1952 this field will be maintained as it was in 1951.

7. *Bus Shelter*

This building was painted and repaired, also new blinds were made and installed.

During the Eve of Halloween, the shelter was moved from its base and tipped over. The Park Department had the shelter restored to its original location and condition.

During the year 1952 the shelter will be maintained as in 1951.

8. *Honor Rolls*

During 1951, both Honor Rolls were re-painted and repaired where necessary. In 1952 both will again be repainted. The names that presently exist, will be left in place and no new names will be added unless requested by a vote of the Town or by the two veterans organizations.

9. *Heater Piece — East Plain Street and Commonwealth Road*

Cleaned, fertilized and mowed weekly. Through the co-operation of the Cochituate Garden Club, this little park has become the Park Department's most beautiful holding.

An accident to grass, plants, etc., was caused by the over-turning of a large truck. Repairs were made and the bills sent to the Insurance Company covering the owner of the Truck.

During 1952 the same maintenance will be provided as in 1951.

10. *Heater Piece — Concord Road*

In 1951 this area was kept clean of debris and during 1952 the same program will be followed.

11. *Heater Piece — Plain Road*

In 1951 this area was kept clean of debris and during 1952 the same program will be followed.

12. *Dudley Beach*

In 1951 the grass area and beach were cleaned and maintained. No swimming program was sponsored. The program for 1952 will be the same.

13. *Mill Pond*

During 1951 the dam was put in temporary repair and a portion of the lower pond was cleaned of fallen trees, etc. Lights will be installed to provide night time skating.

14. *Tennis Courts — Wayland and Cochituate*

In 1951 the court in Cochituate was not used and was a source of unnecessary spending. Children used it as a play area thereby ruining the court for tennis. The court will be discontinued during 1952 and when it becomes evident that people in the area are interested, then the Park Department may strive to build a hot top court. The court in Wayland was used occasionally and the Department will continue it's maintenance during 1952.

The Park Department wishes to thank the Officials and people of the Town who aided in making 1951 such a successful season.

Respectfully submitted,

NATHANIEL HAMLEN
FRANK S. TARR
THOMAS F. MURRAY

REPORT OF THE BOARD OF FIRE ENGINEERS

The Fire Department answered the following alarms for the year ending 1951.

<i>Number of alarms answered by</i>	<i>Cochituate</i>	<i>Wayland</i>
House	10	3
Grass	16	16
Barn	1	1
Garage	1	1
Electric Stove		2
Brush	2	8
Building		1
Chimney	5	3
Woods	7	5
Car	3	2
Call to Sudbury		1
Cat in Tree	3	1
Accident		1
Pump out Cellar		1
False	7	5
Refrigerator	2	2
Truck	1	1
Stand By	2	2
Shed	1	1
Oil Burner	5	3
Car in River	1	1
Washing Machine		1
Lost Child	1	1
Dump	2	1
By Lightning	2	1
Leaves	1	
Rubbish	1	
Brooder House	1	
Electric Motor	2	
Rescue	1	
Call for Boat	2	
	80	65

Seven new fire alarm boxes were added to the system during 1951. Box 132 was installed at the Public Bathing Beach at Lake Cochituate so that the life guards would have some means of summoning aid for rescue work. Box 272 was installed at the corner of Timber Lane and Eden Road which now gives that new development complete fire alarm coverage. Box 31 was installed at the corner of Pollock Road and East Plain Street at the entrance of a new development where 29 new houses are under construction. The following four boxes were installed on existing fire alarm circuits: Box 43 at the corner of Main Street and Pond Drive, Box 451 at the corner of Dudley Road and Crest Road, Box 612 at the corner of Millbrook and Nob Hill Roads and Box 67 on State Road West at St. Ann's church.

The sprinkler systems of both the Cochituate and Wayland Grammar Schools have been tied in electrically to the fire alarm system, which means that the Fire Department will be notified on the air whistle immediately, should any of the sprinkler heads start delivering water either for fire or mechanical injury. •

The mutual aid system between the Natick Fire Department and the Cochituate Fire Station has been in operation now for about a year and it has worked out very satisfactorily. However the Natick Fire Department has borne the lion's share of this agreement and at this time the Board of Fire Engineers wish to thank Chief Lyman Brown and the members of his department for their aid.

A major change in pole relocations by both the Boston Edison Company and the New England Telephone and Telegraph Company on Cochituate Road and Old Connecticut Path during 1951 has made it necessary for the Fire Department to also relocate its wires to these new poles. One mile of wire has to be relocated on Cochituate Road at a cost of \$800.00, and eight tenths of a mile on Old Connecticut Path at a cost of \$700.00.

Thanks are also in order to Police Chief Ernest H. Damon for his quick apprehension of some local boys who recently pulled a false alarm. These boys were given a chance to reimburse the Town, both for the cost of the pay roll to the Fire Department plus the cost of operation of the fire trucks with the warning that if they pulled any more false alarms much sterner measures would be employed against them.

At the last annual town meeting a Board of Fire Survey was appointed to study the needs of the Fire Department, both in expansion and replace-

ment of the fire trucks, stations and alarm system and to make a report of their findings at the March meeting in 1952, and it is hoped by the Board of Engineers that the citizens of the Town will vote their acceptance of the articles by the Fire Survey Committee in the 1952 warrant at the annual town meeting.

There were 422 oil storage inspections made this year, plus 156 new installations. 17 installations were found defective and permits were denied until repairs were made by the owners.

Fees collected from new oil burner installations for 1951 amounted to \$78.00 which has been turned over to the Town Treasurer.

Respectfully submiteed,

F. CLIFTON HAYNES, *Chief*
H. L. MacDONALD, *Assistant Chief*
FRANK H. CARTER, *Deputy Chief*
PARKER GROTON, *Deputy Chief*
ERNEST H. DAMON, *Engineer*
Board of Fire Engineers

REPORT OF THE ANIMAL INSPECTOR

I wish to submit my report as Animal Inspector for the Town of Wayland for the year 1951.

623 Cows
177 Heifers
17 Bulls
8 Goats
345 Swine
27 Horses
2 Mules
295 Interstate Cattle
19 Dogs Quarantined

Respectfully submitted,

WARREN F. LAWRENCE

REPORT OF CHIEF OF POLICE

For the year ending December 31, 1951

Drunkenness	10
Driving under the influence	2
Driving so as to endanger	14
Speeding	6
Operating without a license	1
Violation of laws of the road	1
Leaving the scene after causing property damage	1
Driving recklessly	2
Allowing improper person to operate	1
Malicious destruction of property	1
Failing to show hunting license	1
Refusing to obey a police officer	1
Non-support	5
Lewdness and Lasciviousness	2
Adultery	1
Carrying a gun without a permit	1
Armed Robbery	3
Receiving stolen goods	1
Accessory before the fact	4

58

This list includes arrests made by the State Police.

This list does not include the juvenile arrests.

The Wayland Police served, during 1951, Ninety-seven summonses, eight subpoenas, three summonses to show cause, two summonses to children and eight warrants.

The total number of automobile accidents has increased over the past year; however, again no fatalities are recorded. In an attempt to decrease the accident rate additional directional and warning signs have been conspicuously posted along our roads.

There have been several attempted and a few robberies executed since last I reported to you. In all possible instances proper court action has been taken after apprehension of the derelicts and gunmen and stolen goods have been returned to their rightful owners. One

"would be" robber of Red Coach Grill was so intent in his efforts that a two hundred yard chase by me and two gun shots over his head were necessary to persuade him that he had best desist.

May I express at this time my indebtedness to Chief Shea of Natick and his department for the excellent service rendered me not only in the use of the cruisers' radio but in other equally as helpful but less concrete ways.

My fellow officers, the various department heads and the loyal citizens of Wayland have again been most cooperative with me. The end result of this intergrated effort has been the completion of another highly successful year. Wayland can rightly say that its Town is a safe place in which to live and play. My sincere thanks.

Respectfully submitted,

ERNEST H. DAMON,
Chief of Police.

REPORT OF COMMISSIONERS OF TRUST FUNDS

During the past year no changes in investments have been made.

The only new funds received have been Cemetery Perpetual Care Funds, which funds have been deposited in approved savings banks.

Full information relating to income and expenditures and the investments of the funds will be found in the Report of the Town Treasurer.

REPORT OF BUILDING INSPECTOR

The Building Inspection Department submits the following report for the year ending December 31, 1951.

The Number of permits issued during 1951 are as follows:

Building Permits:

- 31 Alterations
- 155 New Houses
 - 1 Hen House
 - 1 Guest House
- 10 Garages
- 1 Silo

Wiring Permits:

- 46 Alterations
- 128 New Houses
 - 1 Old House
- 57 Oil Burners
- 17 Hot Water Heaters
- 18 Ranges
 - 3 Electric Controls on Gas Heaters
- 4 Temporary Services
 - 1 Club House
 - 1 Lumber Shed
 - 1 Service on Ball Park

The total estimated cost of new buildings and alterations in 1951 was \$875,000.00. There were more new homes built this year than in any year since the Building Code was adopted in 1941 and probably more than any year in the existence of the Town. A list of comparisons to show the development of new homes in the past six years are shown below.

<i>Year</i>	<i>New Houses</i>	<i>Estimated Cost</i>
1946	32	\$221,075.00
1947	64	406,100.00
1948	40	243,200.00
1949	63	405,550.00
1950	141	754,500.00
1951	155	875,000.00

NEW HOUSE DEVELOPMENT BY PRECINCT

<i>Year</i>	<i>Cochituate</i>	<i>Weyland</i>
1946	15	17
1947	38	26
1948	23	17
1949	28	35
1950	30	111
1951	62	83

Eleven new home developments were added in 1951 as compared to four in 1950. In many cases, due to difficulties in financing these new houses, there was a definite trend away from building for speculation. By mid-year, many contractors were building houses only on individual specifications. The houses built this past year have passed code requirements and in many cases, the houses were built stronger than code rules.

There were 287 wiring permits issued this year, which was 32 more than the previous year.

Thirty-one cases of zoning variations were prepared and brought to the Zoning Board of Appeals for decision. There were eighteen less cases than the previous year.

Fees collected from both wiring and building permits during 1951 amounted to \$1,747.00 and have been turned over to the Town Treasurer.

The Building Department would like to thank the Town Officials and Citizens who have helped in the affairs of this office during the past year.

Respectfully submitted,

HOMER L. MacDONALD,

Building Inspector.

REPORT OF THE DISTRICT NURSE

I hereby submit my annual report for the year ending December 31, 1951.

Nursing visits, bed side care, dressings and other treatments	885
Prenatal Visits	48
Postnatal Visits	53
Infant Visits	13
Tuberculosis Visits	7
Advisory Visits	36
Friendly Visits	29
Patients Accompanied to Hospital	1

During the year, conferences were held with Social Service Workers and the State Nursing Consultant.

Respectfully submitted,

MARY E. McNEIL,

District Nurse

REPORT OF PLUMBING INSPECTOR

During 1951, there were one hundred and sixty-four Plumbing Permits issued for which Seven Hundred and Eighty-six Dollars was collected and turned over to the Town Treasurer.

Respectfully submitted,

TIMOTHY J. DALY

Plumbing Inspector

REPORT OF MILK INSPECTOR

I hereby submit my report for the year 1951.

Thirty-six milk dealer's permits have been issued to sell milk in Wayland, from June 1, 1951 to June 1, 1952.

These establishments and dealers are operating according to the rules and regulations of the Board of Health and are under the supervision of the laws of the Commonwealth of Massachusetts.

Respectfully submitted,

NORMAN G. FAIR

VOTES ENACTED AT THE ANNUAL TOWN MEETING, MARCH 7, 1951

Town Clerk's Office,
Wayland, Massachusetts,
March 7, 1951

Howard S. Russell, Moderator:—

Pursuant to the following warrant the inhabitants of the Town of Wayland met this day and after the Moderator declared a quorum present proceeded to transact the following business.

Article 1. To hear reports of the Town Officers, Agents and Committees, and act thereon.

Mr. John A. Brownell read the report of the Committee appointed to investigate the feasibility of the Town's setting up, on its own or in conjunction with neighboring towns, a system for manufacture and/or distribution of electric power for use by the town and sale to citizens of the town, with instructions to report back to the Town at the next Annual Meeting. Voted to accept the report and the committee to continue its investigations.

Mr. Ronald Wood gave the report of the Committee on the advisability of consolidating the Park and Cemetery Departments, stating for the best interests of both departments that they continue to function separately. Voted to accept the report and that the committee be discontinued.

Voted to accept the reports of the Town Officers as reported in the Town Report with the exception of the Finance Committee Report.

Article 2. To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Voted that John Connelly, Frederic A. Gibbs and George W. Shepard act as Trustees of the Allen Fund.

Voted that the Selectmen act as Fence Viewers.

Voted that the Constables act as Field Drivers.

Voted that Thomas F. Linnehan, Melville Loker and Arthur F. Marston act as Surveyors of Lumber.

Voted that Joseph Decatur, Thomas F. Linnehan and Arthur F. Marston act as Measurers of Wood and Bark.

Voted that the Moderator appoint the committee for Memorial Day.

Cornelius J. Maguire

Charles L. Fullick

George J. Monreau, Jr.

F. Clifton Haynes

Edward Perry

James J. Bolton

Frank S. Tarr

Voted that there be appointed a committee of seven to be composed of the three members of the Board of Health, one member of the Planning Board, one member of the Finance Committee and two at large to be chosen by the members so designated to investigate and report to the next Town Meeting on the feasibility of joining a Health Union.

Article 3. To grant money for necessary Town purposes.

Voted that the report of the Finance Committee be accepted and its recommendations be adopted, that the sums of money, with the addition of \$2500 for Snow Removal; \$280 for Fire Department salaries; \$500 for Purchase of Land in Riverview; \$700 for Garbage Collection; \$900 for Station Lot Parking Improvement and with the subtraction of \$100 for Chapter 90 Maintenance; \$300 for Fire Department Expenses, be granted, appropriated and assessed for the several specific purposes designated, making a total budget appropriation of \$534,997.50 and that the same be expended only for the purposes shown, and under the direction of the respective boards, committees and officers of the Town;

The Town office force be constituted as follows: Town Accountant, Chief Clerk, also serving as Deputy Collector; and such other clerical assistants as is deemed necessary to perform the duties and assume the responsibility for work as outlined in the Finance Committee report of 1950; and that such force supply clerical assistance to the Town Collector; all personnel to be under the supervision of the Selectmen;

The operation of dumps be under the supervision of the Highway Department;

The money from Dog Taxes be allocated in its entirety to the Library Expense Account;

The District and School Nurse continue under the supervision of the School Committee;

The work on Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

The unexpended balance in the following accounts be transferred to Excess and Deficiency:

Assessors' Appraisal Survey	\$4.00
Fire Department	
Equipment for Riverview	3.60
Alarm Box — Dudley Road	2.84
Alarm Box — Valley View Road and Oak Street	1.72
Highway Department: Chapter 90 Maintenance	.38
Street Betterment	
Overlook Road	28.31
Riverview Avenue	82.84
Adelaide Avenue	.26
Riverview Circle No. 1	25.67
School — Special Accounts	
Sprinkler System — Center School	5.13
Committee on Veterans Services — Expense	159.93
Water Department: Water Betterment	
Riverview Avenue	59.40
Riverview Circle, Second Section	546.07
Maturing Debt and Interest	
Interest — High School (140,000 issue 1949)	22.64
Purchase of Land at North Cemetery (Art. 20 — 11-30-49)	32.50

and the following accounts be transferred to "Water Available Surplus:"

Maturing Debt and Interest	
Interest — Pump Station and Water Extension	
Registered Notes (\$19,000 issue 1950)	57.50
Water Department:	
Water Main Extension — West Plain Street	22.47

In addition to the sum of \$1400 included in the budget to meet the Town's share of the cost of Chapter 90 Maintenance and \$6000 in Article 8 to meet the Town's share of Chapter 90 New Construction, the sum of \$2800 for Chapter 90 Maintenance and \$18,000 for Chapter 90 New Construction be transferred from "Unappropriated Available Funds" in the Treasury to meet the County's and State's share of the cost of the work, the reimbursement from County and State to be restored upon their receipt to "Unappropriated Available Funds" in the Treasury.

The Finance Committee's budget for the year 1951 is as follows:

Article 4. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by Section 108, Chapter 41, General Laws, as amended, and set the effective date of such salary and compensation.

Voted that the Town fix the salary and compensation of all elective officers as provided in the budget as voted under Article 3, the effective date of such salary and compensation to be from January 1, 1951.

Article 5. To see if the Town will vote to authorize the Board of Selectmen to sell or otherwise dispose of the present police car in connection with the purchase of a new car, provided for in the budget of the Department, and will grant the School Committee the right to sell, or otherwise dispose of, obsolete furniture and equipment presently stored in the several school buildings, or do or act.

Voted that the Town authorize the Board of Selectmen to sell or otherwise dispose of the present police car in connection with the purchase of a new car and that the Town authorize the School Committee to sell or otherwise dispose of obsolete furniture and equipment presently stored in the several school buildings.

Article 6. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1951 and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

Voted unanimously that the Town authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1951 and to issue any note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

Article 7. To see if the Town will appropriate sums of money for the following: (1) water coupon notes, water bonds and water registered note — maturing in 1951 — payment of principal; (2) water coupon notes, water bonds and water registered note — payment of interest due in 1951; (3) Water Department maintenance; (4) Town office and

clerical expense; (5) purchase of a new truck — the entire amount to be taken from "Water Available Surplus," or do or act.

Voted unanimously that the Town appropriate the sum of: (1) \$12,000 for the payment of water coupon notes, water bonds, water registered note and water extension and pump station notes — principal — maturing in 1951; (2) \$2827.50 for the payment of water coupon notes, water bonds, water registered note and water extension and pump station notes — interest — due in 1951; (3) \$21,000 for Water Department Maintenance; (4) \$1000 for joint Town office and Clerical expense; (5) \$2000 for a new truck, the entire sum \$38,827.50 to be taken from "Water Available Surplus."

Article 8. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action in relation thereto.

Voted that the Town appropriate and assess the sum of \$6,000 for the reconstruction and improvement of Main Street, Cochituate and/or other Chapter 90 roads, said money to be used in conjunction with any money which may be allocated by the State or County or both for this purpose, provided that only so much of \$6,000 shall be used as is matched as follows — \$1.00 from the County and \$2.00 from the State for each dollar of Town money, the work to be done under the supervision of the Road Commissioners.

Article 9. To see if the Town will vote to raise and appropriate, by borrowing, or otherwise, a sum of money for the installation of water mains of not less than 6 inches in diameter in such accepted streets and town roads as may be recommended by the Water Board and approved by the majority of the Selectmen and by a majority of the Finance Committee to authorize the Water Board, with the approval of the Selectmen, to enter into any necessary contracts and agreements or take any action relative thereto.

Voted unanimously that the Town appropriate the sum of \$10,000 for the installation of water mains of not less than 6" in diameter in such accepted streets and town roads and on such basis as may from time to

time be recommended by the Water Board and approved by a majority of the Selectmen and by a majority of the Finance Committee and that to meet this appropriation, the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow from time to time not exceeding \$10,000 and to issue bonds or notes of the town therefor, payable in accordance with the provisions of G. L. (Ter. Ed.) Chapter 44 as amended, provided, however, that such borrowing shall be in one or more separate issues in the amount of \$5,000 or a multiple thereof, as determined by the Treasurer with the approval of the Board of Selectmen and that each such issue shall constitute a separate loan and be payable in not more than fifteen years from the date of the bonds or notes of that issue.

Article 10. To see if the Town will vote to appropriate and raise a sum of money for the installation of fire sprinkler systems in any or all of the school buildings and determine how the money shall be raised, by assessment, transfer, borrowing or otherwise, or do or act.

Voted unanimously that the Town appropriate and assess the sum of \$13,500 for the installation of a fire sprinkler system in the Cochituate Grade School building, the work to be done under the supervision of the School Committee.

Article 11. To see if the Town will vote to authorize the purchase of a bulldozer for the Highway Department and appropriate a sum of money for the purpose, or do or act.

Voted that the Town appropriate and assess the sum of \$6600 to be used together with the \$5,000 provided in the Budget for Highway Department Equipment for the purchase of a medium-sized caterpillar-bulldozer shovel, together with a suitable trailer for transportation, purchase to be made by the Road Commissioners with approval of the Selectmen.

Article 12. To see if the Town will vote to appoint a committee to make a complete survey of the Fire Department and make recommendations to the Town with respect to a long-range program of capital expenditures involving fire stations, alarm systems, and fire fighting equipment, and will vote to appropriate and assess a sum of money for the construction of housing for the Fire Department, additions to the alarm system and for the purchase of new trucks, or do or act.

Voted that the Town appoint a Committee of 7 to be composed of 2 engineers of the Fire Department to be designated by the Engineers, 1 member of the Planning Board to be designated by the Planning Board, 1 member of the Finance Committee to be designated by the Finance Committee, and 3 members to represent the public at large to be designated by the Selectmen, to make a complete survey of the Fire Department, including:

- (1) a long-range program of capital expenditures involving fire stations, alarm system and fire-fighting equipment
- (2) a study of fire insurance rates in the Town
- (3) recommendations as to probable costs, priority and scheduling of the steps to be taken and procedure to be followed.

and that the Town appropriate and assess the sum of \$5,000 for the construction of housing for the Fire Department, additions to the alarm system and the purchase of fire-fighting equipment, none of the money to be spent until a report has been made to the Town and instructions for its use voted.

Article 13. To see if the Town will vote to appropriate and assess the sum of \$18,500, for the purchase of a 750-gallon fire truck pumper, to replace the present pumper at the Wayland Fire Station, or do or act.

Voted to pass over the Article.

Article 14. To see if the Town will vote to appropriate and assess the sum of \$6,400, for the purchase of fire alarm boxes, for the intersection of Millbrook Road and Nob Hill Road; the intersection of Plain Road and Glen Road; the intersection of Draper Road and Plain Road; the intersection of State Road East and Westway Road; the intersection of Rich Valley Road and State Road East; the intersection of Morse Road and State Road East; the intersection of Bennett Road and State Road East, and the necessary material for its installation, or do or act.

Voted to pass over the Article.

Article 15. To see if the Town will vote to appropriate and assess the sum of \$950 for the purchase of a fire alarm box and the necessary material for its installation, to be located 2,750 feet in on Rice Road from Commonwealth Road East, or do or act.

Voted to pass over the Article.

Article 16. To see if the Town will vote to appropriate and assess the sum of \$430 for the purchase of a fire alarm box and the necessary material for its installation at the intersection of King Street and Mitchell Street, or do or act.

Voted to pass over the Article.

Article 17. To see if the Town will vote to appropriate and assess the sum of \$485 for the purchase of a fire alarm box and the necessary material for its installation at the bathing beach on Lake Cochituate, or do or act.

Voted that the Town appropriate and assess the sum of \$485 for the purchase and installation of a fire alarm box at the Lake Cochituate bathing beach, the work to be done under the supervision of the Engineers of the Fire Department.

Article 18. To see if the Town will vote to appropriate and assess the sum of \$2,020 for the purchase of a fire alarm box and the necessary material for its installation, to be located at the intersection of Stonebridge Road, Shore Drive and Overlook Road, a distance of 6,320 feet from Old Connecticut Path, or do or act.

The motion under this article was defeated.

Article 19. To see if the Town will vote to appropriate and assess the sum of \$460 for the purchase of a fire alarm box and the necessary controls, and material for its installation, to work in conjunction with the automatic sprinkler system at the Wayland Grammar School, or do or act.

Voted to pass over the Article.

Article 20. To see if the Town will vote to accept as a public town way, under the provisions of the Betterment Act, the road known as "Fuller Road," or a portion thereof, as laid out by the Board of Selectmen, and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of Selectmen to acquire necessary land by purchase, gift or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or any portion thereof, and determine how the money should be raised, or take any action relative thereto.

Voted to dispense with the reading of the Laying Out of Fuller Road

Voted that the Town accept the laying out as a public way of Fuller Road, as described in the Order of Laying Out of the Board of Selectmen dated February 26, 1951, and as shown on a plan entitled "Plan and Profile of Fuller Road in Wayland, Mass." dated January 15, 1951, drawn by Everett M. Brooks Company, Civil Engineers, which has been on file in the Office of the Town Clerk, with assessment of betterments under the Betterment Act as provided in the Order of Laying Out; that the Board of Selectmen be authorized to acquire any necessary land by eminent domain, by purchase, gift or otherwise; and that \$7000 be appropriated and assessed for the acquisition of any such land and the construction of such ways and other costs in connection with the project.

Vote

Yes 203

No 1

Article 21. To see if the Town will vote to install water pipes and hydrants in the ways named in the foregoing article, or in any portion thereof, and to appropriate a sum of money for the expense thereof, and determine how the money shall be raised; and will authorize such sum, or any portion thereof, to be included in any betterments that may be assessed under the preceding article, or take any action relative thereto.

Voted unanimously that the Town appropriate and assess the sum of \$6500 for the installation of water pipes and hydrants in Fuller Road for a distance of about 1550' from West Plain Street to the end of Fuller Road, work to be done under the supervision of the Water Department and that the Board of Selectmen be authorized to assess betterments therefor under the Betterment Act.

Article 22. To see if the Town will vote to accept as a public town way, under the provisions of the Betterment Act, the road known as "Parmenter Road," or a portion thereof, as laid out by the Board of Selectmen, and as shown on a plan, or plans, on file with the Town Clerk and authorize the Board of Selectmen to acquire necessary land by purchase, gift or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or any portion thereof, and determine how the money should be raised, or take any action relative thereto.

Voted to dispense with the reading of the Laying Out of Parmenter Road.

Voted unanimously that the Town accept the laying out as a public way of Parmenter Road, as described in the Order of Laying Out of the Board of Selectmen dated February 26, 1951, and as shown on a plan entitled "Plan and Profile of Parmenter Road in Wayland, Mass." dated January 6, 1951, drawn by Everett M. Brooks Company, Civil Engineers, which has been on file in the Office of the Town Clerk, with assessment of betterments under the Betterment Act as provided in the order of laying out; that the Board of Selectmen be authorized to acquire any necessary land by eminent domain, by purchase, gift or otherwise; and that \$3500 be appropriated and assessed for the acquisition of any such land and the construction of such ways and other costs in connection with the project.

Voted unanimously to consider Article 25 before Articles 23 and 24.

Article 25. To see if the Town will take any action with respect to the establishment of a new public way leading from Maiden Lane to Cochituate Road at a point near its intersection with School Street, and the establishment of the exterior lines of such a way under General Laws, Chapter 41, section 81-J, or otherwise, and authorize the Board of Selectmen to acquire any necessary land for such a way by eminent domain, purchase, gift or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, and determine how the money shall be raised, or take any such action with respect to such a way or any portion thereof, or take any action relative thereto.

Voted that the Town authorize the Planning Board, with the approval of the Board of Selectmen, to secure an option for the laying out of a new route between Cochituate Road and Old Connecticut Path over such land as the Wayland Real Estate Company is prepared to give to the Town;

That the Planning Board be instructed to proceed with the negotiations for the acquisition of land necessary for the western third of the route;

That the Planning Board prepare detailed plans, exact layouts and estimates of all costs that might be involved in land acquisition, road construction and water pipe installation in the route and submit these to the next town meeting.

Article 23. To see if the Town will vote to appropriate and assess a sum of money for the installation of a 12-inch line instead of an 8-inch

line, for about 1,700 feet on Happy Hollow Road Extension, or do or act.

Voted unanimously that the Town appropriate and assess the sum of \$3500 for the excess cost of installing a 12" water line instead of an 8" line for a distance of about 1700' on Happy Hollow Road Extension, the money to be used only in conjunction with, and at such time as, the developer of such road is ready to install an 8" line and has had installation of the water line approved by the Water Board and installation of the road by the Planning Board.

Article 24. To see if the Town will vote to appropriate a sum of money to be applied to the additional cost of installation of water mains in new roads in subdivisions resulting from requirement by the Planning Board of water mains larger than those necessary to serve the subdivision itself, in order to provide for water mains of adequate size to serve land not included in the subdivision, and determine how the money shall be raised, or take any action relative thereto.

Voted to pass over the Article.

Article 26. To see if the Town will vote to appropriate and assess a sum of money for the installation of a 6-inch water line in River Road from the end of the existing water line to the land of Joseph S. Vacaro, a distance of about 350 feet, or do or act.

Voted that the Town appropriate and assess the sum of \$1400 for the extension of a 6" water line for a distance of 350' along the River Road to the end of the existing water line to the land of Joseph S. Vacaro on the condition that there be deposited, with the Town Treasurer, \$350 by Joseph S. Vacaro under the same terms and conditions as were in effect on December 15, 1950 in connection with funds voted under Article 6 of the Special Town Meeting of April 28, 1948.

Article 27. To see if the Town will vote to amend the Zoning By-Laws in any or all of the following respects:

1. By striking out from part (a) 4 of Section X, the phrase "existing at the time this by-law is adopted."
2. By striking out the phrase "two family house" in part (a) 4 of Section X, and substituting therefor the phrases "multiple family house."
3. By adding at the End of the Second sentence of part (h) of

Section IX the phrase, "and none of which shall extend within ten feet of any lot line except as authorized by special permit issued by the Board of Appeals," so that said second sentence shall read as follows:

"A back yard many contain accessory buildings each of which shall not be more than one and one-half stories high and which together shall cover not more than thirty per cent of its area, and none of which shall extend within ten feet of any lot line except as authorized by special permit issued by the Board of Appeals."

4. By adding at the end of part (c) of Section IX an additional sentence as follows:

"In single residence districts when there are four or more dwellings on the same side of a street between two streets consecutively intersecting such street and within four hundred feet of the lot in question (whether such dwellings are constructed before or after this by-law shall take effect) any new building shall extend only as near such street line as the average alignment of such dwellings."

Each section under this article was considered separately.

1. Voted No.
2. Voted to pass over this section.
3. Voted to lay this section on the table.
4. Voted to pass over this section.

Article 28. To see if the Town will vote to authorize the purchase, taking by eminent domain and/or acquisition by other means, on behalf of the Town, for park, school or other municipal purposes, of all or any part of a parcel of now vacant land on the southerly side of Pelham Island Road constituting a part of premises now or formerly owned or believed to be owned by Susie K. Erwin, or any interests therein, with or without any trees and structures thereon, said parcel being described substantially as follows:

Beginning at a stone bound on the southerly side of Pelham Island Road about thirty (30) feet westerly from the westerly side line of the dwelling house on said premises of Susie K. Erwin; thence running
SOUTHERLY by a line parallel with the easterly boundary of said

premises of Susie K. Erwin to land of the Town of Wayland;
thence turning and running

WESTERLY by said land of the Town of Wayland to a point; thence
turning and running

NORTHERLY by a line parallel with said easterly boundary of said
premises of Susie K. Erwin to Pelham Island Road; thence turning
and running

EASTERLY by Pelham Island Road five hundred fifty (550) feet
to the point of beginning;

and appropriate a sum of money for the foregoing purposes, and determine how the money shall be raised; or take any action relative thereto.

Voted unanimously that the Board of Park Commissioners be authorized to acquire on behalf of the Town, in fee simple, the following parcel of land being described substantially as follows:

Beginning at a stone bound on the southerly side of Pelham Island Road about thirty (30) feet westerly from the westerly side line of the dwelling house on said premises of Susie K. Erwin; thence running

SOUTHERLY by a line parallel with the easterly boundary of said premises of Susie K. Erwin to land of the Town of Wayland; thence turning and running

WESTERLY by said land of the Town of Wayland to a point; thence turning and running

NORTHERLY by a line parallel with said easterly boundary of said premises of Susie K. Erwin to Pelham Island Road; thence turning and running

EASTERLY by Pelham Island Road five hundred fifty (550) feet to the point of beginning;

Located in the Wayland Center, the exact lines and boundaries to be established by the Board of Park Commissioners, together with all trees thereon and all rights of way and other rights appurtenant thereto and with or without any structures thereon as said Board may determine in its discretion, such acquisitions to be taken by eminent domain, by purchase or by acceptance of deed or gift or release, as said Board may determine in its discretion, that any purchase hereunder made shall be subject to the approval of the Board of Selectmen and that there be appropriated for such acquisition the sum of \$1000.

Article 29. To see what sum, if any, the Town will vote to transfer from available funds to meet any of the appropriations made in the foregoing articles.

Voted that the sum of \$25,000 be transferred from available funds to meet any of the appropriations made under the foregoing articles.

Voted to return to Article 27.

Vote	Yes 94	No 4
------	--------	------

Voted unanimously that Section 3 under Article 27 be taken from the table.

A request for a count of the voters present was made to determine if a quorum was still present. One hundred five voters counted. Counted by tellers.

Section 3.

Voted that the second sentence of part (h) of Section IX of the Zoning By-Laws be amended by adding at the end thereof the phrase "and none of which shall extend within ten feet of any lot line except as authorized by special permit issued by the Board of Appeals," so that said second sentence shall read:

"A back yard may contain accessory buildings each of which shall not be more than one and one-half stories high and which together shall cover not more than thirty per cent of its area, and none of which shall extend within ten feet of any lot line except as authorized by special permit issued by the Board of Appeals."

Vote	Yes 88	No 5
------	--------	------

A request for a count of the voters present was made to determine if a quorum was still present. One hundred fifteen voters counted. (Section 3 approved by Attorney General Francis E. Kelly, August 17, 1951.)

Section 4. Reconsidered.

Voted that at the end of part (c) of Section IX of the Zoning By-Laws be amended by adding at the end thereof an additional sentence;

"In single residence districts when there are four or more dwellings on the same side of a street between two streets consecutively intersecting such street and within four hundred feet of the

lot in question (whether such dwellings are constructed before or after this by-law shall take effect), any new building shall extend only as near such street line as the average alignment of such dwellings."

VOTES ENACTED AT THE SPECIAL TOWN MEETING, JUNE 20, 1951

Town Clerk's Office
Wayland, Massachusetts,
June 20, 1951

Howard S. Russell, Moderator:

Pursuant to the following warrant the inhabitants of the Town of Wayland met this day after the Moderator declared a quorum present proceeded to transact the following business.

Article 1. To see if the Town will vote to authorize the School Building Committee, appointed under Article 19 of the Warrant for the 1947 Annual Town Meeting, to bring up to date its studies on school building and equipment needs of the Wayland school system and to appropriate a sum of money for expenses incidental thereto, said Committee to report its findings and recommendations to the Town at its next meeting.

Voted that the Town authorize the School Building Committee appointed under Article 19 of the Warrant for the 1947 Annual Town Meeting, to bring up to date its studies on school building and equipment needs of the Wayland school system and appropriate and assess \$2500 for expenses incidental thereto, said Committee to report its findings and recommendations to the Town at its next meeting.

Article 2. To see if the Town will vote to amend the existing zoning by-laws, section IX, paragraphs (e) and (f) in any or all of the following ways:

1. In every instance where the wording "Residence Zone 10,000 sq. ft. 80 ft. Front" appears, the number "80" shall be amended to read "100"; and in every instance where the wording "eighty feet" appears, it shall be amended to read "one hundred feet."
2. In every instance where the wording "Residence Zone 15,000 sq. ft. 100 ft. Front" appears, the number "100" shall be amended to read "125"; and in every instance where the wording "one hundred feet" appears, it shall be amended to read "one hundred and twenty-five feet."
3. In every instance where the wording "Residence Zone 20,000 sq. ft. 110 ft. Front" appears, the number "110" shall be amended to read "150"; and in every instance where the wording "one hundred and ten feet" appears, it shall be amended to read "one hundred and fifty feet."

Or to amend said by-laws by increasing the frontage required by said paragraphs (e) and (f) otherwise, or do or act.

Each section of this article was considered separately and the entire article voted afterwards.

Section 1. In every instance where the wording "Residence Zone 10,000 sq. ft. 80 ft. Front" appears, the number "80" shall be amended to read "100"; and in every instance where the wording "eighty feet" appears, it shall be amended to read "one hundred feet."

Voted that the Town amend the zoning by-law, Section IX, paragraphs (e) and (f) as follows:

1. In every instance where the wording "Residence Zone 10,000 sq. ft. 80 ft. Front" appears, the number "80" shall be amended to read "100"; and in every instance where the wording "eighty feet" appears, it shall be amended to read "one hundred feet"; and by adding at the end of paragraph (e), the following: "provided, however, that if a parcel or lot of land is shown on a plan recorded at the Registry of Deeds on or before the effective date of an amendment to the Zoning By-Law increasing the area or frontage requirements enacted at the Special Town Meeting called for June 20, 1951, and if such parcel or lot conformed to the requirements of the Zoning By-Law before such amendment, but not afterwards, then such parcel or lot shall be considered to meet the requirements of such amendment; but no division of such parcel or lot shall be made which will increase the extent of non-conformity between the parcel or lot and the amended requirements of the Zoning By-Laws."
2. In every instance where the wording "Residence Zone 15,000 sq. ft. 100 ft. Front" appears, the number "100" shall be amended to read "125"; and in every instance where the wording "one hundred feet" appears, it shall be amended to read "one hundred and twenty-five feet."
3. In every instance where the wording "Residence Zone 20,000 sq. ft. 110 ft. Front" appears, the number "110" shall be amended to read "150"; and in every instance where the wording "one hundred and ten feet" appears, it shall be amended to read "one hundred and fifty feet."

Vote

Yes 257

No 28

Approved by Attorney General, Francis E. Kelly, November 30, 1951.

Article 3. To see if the Town will vote to amend the existing zoning by-laws, section IX, paragraphs (e), (f) and (g) in any or all of the following ways:

1. In every instance where the wording "Residence Zone 10,000 sq. ft. 80 ft. Front" or the like appears, the number "10,000" shall be amended to read "15,000"; and in every instance where the wording "ten thousand square feet appears, it

shall be amended to read "fifteen thousand square feet."

2. In every instance where the wording "Residence Zone 15,000 sq. ft. 100 ft. Front" or the like appears, the number "15,000" shall be amended to read "22,500"; and in every instance where the wording "fifteen thousand square feet" appears, it shall be amended to read "twenty-two thousand and five hundred square feet."
3. In every instance where the wording "Residence Zone 20,000 sq. ft. 110 ft. Front" or the like appears, the number "20,000" shall be amended to read "30,000"; and in every instance where the wording "twenty thousand square feet" appears, it shall be amended to read "thirty thousand square feet."

Or to amend said by-laws by increasing the area required by said paragraphs, (e), (f) and (g) otherwise, or do or act.

Each section of this article was considered separately and the entire article voted afterwards.

Section 1. In every instance where the wording "Residence Zone 10,000 sq. ft. 80 ft. Front" or the like appears, the number "10,000" shall be amended to read "15,000"; and in every instance where the wording "ten thousand square feet" appears, it shall be amended to read "fifteen thousand square feet."

Article 4. To see if the Town will vote to amend the present zoning by-laws by inserting a new Section VIIA establishing a new type of district to be designated as a "Limited Commercial District" and providing for the uses permitted in such a district, as follows:

LIMITED COMMERCIAL DISTRICTS

- (a) Buildings and structures in a limited commercial district may be constructed, reconstructed, altered, enlarged or used, and premises may be used for the following purposes and no others:
 - (1) Any use permitted in a single residence district.
 - (2) Research laboratories, offices, warehouses, facilities for distributing merchandise, and light manufacturing, all to be subject to the approval of the Zoning Board of Appeals, in accordance with the provisions of Section V(r).
- (b) In a limited commercial district, buildings, structures and premises used for purposes permitted in a single residence district shall conform to the height, area, yard, frontage and other regulations of sections VIII and IX applicable to the single residence district nearest to the premises.

- (c) In a limited commercial district, buildings, structures and premises used for purposes other than those permitted in a single residence district shall be subject to the following provisions:
- (1) No building or structure shall extend within 100 feet of any street line or within 100 feet of any property line or within 75 feet of any other detached building or structure on the premises.
 - (2) All buildings and structures shall conform to the height and lot coverage provisions of sections VIII(a) and IX-(k)1.
 - (3) Premises shall have an adequate area for off-street parking of motor vehicles incident to the use of the premises. The issuance of a building permit shall not be construed as approving the adequacy of such parking area.
 - (4) Not more than one billboard or other advertising sign within public view shall be permitted on each premises other than signs not subject to Town regulation.
 - (5) All facilities and all articles stored on the premises shall be located within enclosed buildings unless a special permit is granted by the Board of Appeals for the use of an adequately screened storage yard.
 - (6) No loading platforms shall be located on the street side of any building, or on the side of any building facing a residence district on any lot which adjoins a residence district.
 - (7) Buildings and structures shall conform to Class I construction as defined by the Massachusetts Building Code.

Voted that the Town amend the present zoning by-law by inserting after Section VII a new Section VII-A establishing a new type of district to be designated as a "Limited Commercial District" and providing for the uses permitted in such a district, as follows:

LIMITED COMMERCIAL DISTRICTS

SECTION VII-A

- (a) Buildings and structures in a limited commercial district may be constructed, reconstructed, altered, enlarged or used, and premises may be used, for the following purposes, and no others:
- (1) Any use permitted in a single residence district.
 - (2) Research laboratories, offices, warehouses, facilities for distributing merchandise, and light manufacturing, all to be

subject to the approval of the Board of Appeals in accordance with the provisions of Section V(r).

- (b) In a limited commercial district, buildings, structures and premises used for purposes permitted in a single residence district shall conform to the height, area, yard, frontage and other regulations of sections VIII and IX applicable to the single residence district nearest to the premises.
- (c) In a limited commercial district, buildings, structures and premises used for purposes other than those permitted in a single residence district shall be subject to the following provisions:
 - (1) No building or structure shall extend within 100 feet of any street line or within 100 feet of any property line or within 75 feet of any other detached building or structure on the premises.
 - (2) All buildings and structures shall conform to the height and lot coverage provisions of section VIII(a) and IX(k)1.
 - (3) Premises shall have an adequate area for off-street parking of motor vehicles incident to the use of the premises. The issuance of a building permit shall not be construed as approving the adequacy of such parking area.
 - (4) Not more than one billboard or other advertising sign within public view shall be permitted on each premises other than signs not subject to Town regulation.
 - (5) All facilities and all articles stored on the premises shall be located within enclosed buildings unless a special permit is granted by the Board of Appeals for the use of an adequately screened storage yard.
 - (6) No loading platforms shall be located on the street side of any building, or on the side of any building facing a residence district on any lot which adjoins a residence district.
 - (7) Buildings and structures shall conform to the following requirements: structural members shall be of non-combustible construction having the necessary strength and stability and having fire resistance ratings of not less than four hours for exterior non-bearing walls and for wallpanels, for columns, and for wall supporting girders and trusses; and not less than three hours for floors, for roofs, and for floor and roof-supporting beams, girders and trusses; and shall have

exterior bearing walls and interior bearing walls if any, of masonry or reinforced concrete.

Article 5. To see if the Town will vote to amend the Zoning By-Laws as follows:

To change from a residential to a "Limited Commercial District" that portion of land on State Road West bounded on the south by the Boston and Maine railroad tracks and on the east, north and west by the Wayland-Sudbury line now or formerly owned by Chester A. Hull, Garden City Gravel Corp., Eileen Whitworth and Paul and Clara E. Ecke.

Voted that the Zoning Plan, Town of Wayland, Mass., be amended as follows:

That a portion of land on State Road West be changed from a residential to a Limited Commercial District, being bounded and described as follows: southerly by the Boston and Maine Railroad Tracks, and easterly, northerly, and westerly by the Wayland-Sudbury Town line if and when the amendment providing for a Limited Commercial District becomes effective.

No 56

Approved by Attorney General Francis E. Kelly, November 30, 1951.

Article 6. To see if the Town will vote to direct the Selectmen to petition the General Court for authorization to transfer from Park Department a portion of the premises adjacent to and north and west of, Lakeview Cemetery, such portion to be placed under the control and supervision of the Cemetery Commissioners as an addition to Lakeview Cemetery to permit the use for burial purposes of any land so transferred, or do or act.

Voted unanimously that the Town direct the Selectmen to petition the General Court for authorization to transfer a certain parcel of land from the Park Department to the control and supervision of the

Cemetery Commissioners for use as an addition to Lakeview Cemetery; and that the Town permit the parcel to be used for burial purposes; said parcel being bounded as follows:

SOUTHEASTERLY by land of Lakeview Cemetery about 330 feet;

EASTERLY by land of Lakeview Cemetery, 198.94 feet;

NORTHWESTERLY by land of the Park Department about 387 feet;

WESTERLY by land of the Park Department and by land of the Commonwealth of Massachusetts, 175 feet.

Voted to dissolve the meeting 10 P. M.

VOTES ENACTED AT THE SPECIAL TOWN MEETING, DECEMBER 19, 1951

Town Clerk's Office,
Wayland, Massachusetts,
December 19, 1951

Howard S. Russell, Moderator:—

Pursuant to the following warrant the inhabitants of the Town of Wayland met this day and after the Moderator declared a quorum present proceeded to transact the following business.

A warrant of five articles with recommendations of the Finance Committee was mailed to each voter, the warrant being signed by the Selectmen and the Finance Committee. Through error the name of Mr. John R. McEnroy was included.

Article 1. To see if the Town will vote to appropriate a sum of money to be expended under the direction of the committee originally appointed in accordance with the vote under Article 19 of the Annual Town Meeting in March, 1947, and continued in office by vote under Article 1 of the Special Town Meeting held June 20, 1951,

for the preparations of plans and specifications and for other preliminary steps for the construction, equipping and furnishing of an addition to the high school building; authorize the committee to enter into necessary contracts and agreements in connection therewith; or take any action relative thereto.

Voted that the town appropriate and raise under the 1952 tax levy the sum of \$7,500, to be used together with the sum of \$2,500 appropriated under Article 1, at the Special Town Meeting on June 20, 1951, for the preparation of plans and specifications and for preliminary expense in connection with the construction, equipping and furnishing of an addition to the high school building; that the money be expended under the direction of the committee originally appointed under Article 19 of the Annual Town Meeting on March, 1947, and continued in office by vote under Article 1 of the Special Town Meeting held June 20, 1951; that the committee be authorized to prepare plans and specifications, to take other preliminary steps, and to enter into necessary contracts and agreements in connection therewith.

Article 2. To see if the Town will authorize the Selectmen to petition the legislature for the introduction and favorable action on a bill authorizing the Town to borrow, from time to time within the period of the next five years, such sums as may be necessary, but not exceeding \$225,000 outside the debt limit, for the purpose of constructing additions to existing school buildings, and of constructing new school buildings and providing original equipment and furnishings of the same; or take any other action relative thereto.

Voted that the town request the General Court to approve the bill introduced by the Selectmen of the town of Wayland authorizing the town to borrow such sums as may be necessary, not exceeding \$225,000, outside the debt limit for the purpose of constructing an addition to the high school.

Vote unanimous excepting two votes in the negative.

Article 3. To see if the Town will vote to authorize the Selectmen to petition the Legislature to transfer park land to the School Department for use as a site for an addition to the Wayland High School Building; or take any other action relative thereto.

Voted unanimously that the town request the General Court to approve the bill, introduced by the Selectmen of the Town of Wayland, transferring certain park land near the high school to the School Department.

Article 4. To see if the Town will vote to appropriate a sum of money to be used, together with money appropriated under Article 2 of the Special Town Meeting held December 11, 1950, for the installation of a water line and hydrants as additional fire protection for the high school building and determine how the money shall be raised; or take any action relative thereto.

Voted that the Town appropriate and raise under the 1952 tax levy the sum of \$4,500, said amount, together with funds appropriated under Article 2 of the Special Town Meeting of December 11, 1950 to be used for the installation of hydrants and a water line from Pelham Island Road around the rear of the high school, connecting with the existing service to the high school, the work to be done at private contract, under the supervision of the Water Department with the concurrence of the Selectmen and the School Committee, and in accordance with engineering plans submitted by Weston & Sampson.

Article 5. To see if the Town will vote to appropriate and transfer from available funds a sum of money for the operation of the Water Department for the year ending December 31, 1951, or do or act.

Voted that the Town appropriate and transfer from "Water Available Surplus" the sum of \$4,000 to cover operating expenses of the Water Department through December 31, 1951.

Voted unanimously with the exception of one vote in the negative not to return to Article 1.

Voted to dissolve the meeting 9 P. M.

REPORT OF THE SCHOOL COMMITTEE

The School Committee herewith submits its annual report for the year 1951.

After seven years of unstinting effort on behalf of Wayland's school children, Dr. Owen B. Kiernan resigned as Superintendent of Schools to become administrative head of the Milton, Massachusetts, school system on September 1, 1951. The members of the Committee wish it were possible to express adequately their appreciation of Owen Kiernan's constructive work within the system, his ability for organization and administration, the high ideals which always motivated him, and the cooperative spirit which made working with him a pleasure. It is noteworthy that his abilities were also recognized outside of the local sphere by such honors as appointment to the Massachusetts Board of Education, the highest public school authority in the Commonwealth. The best wishes of the School Committee for continued success, progress, and happiness in his work go to Owen Kiernan on his departure from Wayland.

The Committee believes that our school system is most fortunate in having obtained the services of Dr. Rexford S. Souder as Superintendent beginning September 1, 1951. Dr. Souder brings to Wayland a wealth of experience in all phases of public school education from his several years' work as Assistant Superintendent of the Brookline, Massachusetts, school system, preceded by an equal period as Administrative Assistant in the San Diego, California, schools. His work with the School Committee to date has fully confirmed the confidence of its members in his ability, experience and good judgment. The School Committee takes this opportunity to welcome Dr. Souder and his family to the community.

As representatives of the community in school matters, the members of the School Committee recognize as of first importance their obligation to carry out the aggregate wishes of the townspeople in the education of their children. Accordingly, it has been a regular policy of the Committee to keep in touch with community thinking on school affairs, and to keep the community informed of its decisions, both in so far as limited time, funds, and local communication facilities have permitted. The rapid growth in Wayland during recent years has made it increasingly difficult to carry out this policy effectively. With this in mind the School Committee in 1951 took steps to form a School Committee Advisory Council, composed of representatives of the various active community group organizations. The first meeting of the Advisory Council was

held during the fall and further meetings will be held periodically. A constant attempt will be made to keep the Council as fully representative of the various community groups, areas, and interests as possible. This is frankly an experiment in give-and-take public relations, and the members of the School Committee earnestly solicit the cooperation of the community in this important matter.

Following are the reports of the Superintendent and other school officials and supervisors. The School Committee believes that these accurately describe the program of education being carried on in the public schools. We hope that they will be thoughtfully read by all in the community.

A more complete understanding of the schools' policies, activities and needs may be obtained by attending meetings sponsored by the schools and related community groups and by visiting classes. The Committee extends a most cordial invitation to all citizens to become more familiar with their schools.

The Committee and the school staff extend their appreciation for the continuing support of the community in meeting the many school needs arising from Wayland's rapid growth.

Respectfully submitted,

ALLAN R. FINLAY, *Chairman*
CORNELIUS J. MAGUIRE
HARVEY C. NEWTON

SCHOOL CALENDAR, 1952

Schools open—January 2
Winter Vacation—February 18-22
Spring Vacation—April 11-18
Memorial Day—May 30
Schools close—June 20
Schools open—September 8
Columbus Day—October 13
Armistice Day—November 11
Thanksgiving Vacation—November 20, 21
(Elementary Schools dismiss at 11:45 and
High School dismisses at 12:15 on November 19)

Christmas Vacation—December 24-January 2
(Elementary Schools dismiss at 11:45 and
High School dismisses at 12:15 on December 23)

SCHOOL ENTRANCE

Any child who is five years and eight months of age on September first of the current school year may be admitted to the first grade, but in every case the admission of a child under six shall be dependent upon the fitness of the child to profit by the work of the school, such fitness to be determined by the Superintendent. Pupils under the age of seven years who have not previously attended school shall not be permitted to enter later than thirty days after the opening of school in September except by special permission of the Superintendent. Certificates of birth and vaccination shall be required at the time of entrance.

NO-SCHOOL SIGNAL

In the event of exceptionally severe weather conditions or when the transportation system is disrupted, WBZ, WEEI, WNAC, and WKOX will broadcast the no-school announcements between 7:00 and 8:00 A. M. In addition, five blasts will be sounded on the fire alarm in Wayland and Cochituate at 7:30 A. M.

We feel these signals are clear and, therefore, urge parents to refrain from flooding the Telephone Office and homes of School Department personnel with telephone calls.

On days when the signal is not used weather conditions may warrant the non-attendance of certain children. Lack of normal health would tend to make it advisable for parents to keep the child at home. Since weather reports are not always reliable, and since the School Department desires to render maximum education service by having the schools open the greatest number of days, storm signals will not be used on ordinary rainy or snowy days or when there is reasonable doubt.

A good education can be built only on good health. Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee
Wayland, Massachusetts

Gentlemen:

I am submitting herewith my first annual report and the fifty-fifth in the series of reports of the Superintendent of Schools. In presenting this report I am reflecting the outstanding service of Owen B. Kiernan, retiring Superintendent, the excellent staff, the members of the School Committee, and other community leaders who have contributed so much to the development of the school system.

The following policy statement, which was unanimously reaffirmed at the last annual meeting of the Chamber of Commerce of the United States, expresses the partnership that exists between education and business:

"Education is an investment in people . . . Increased economic and cultural well-being will accompany a continuing use in the educational levels of the American people . . . An adequate educational opportunity is the birthright of every American citizen . . . This takes money . . . Businessmen should analyze the resources of the community and then assume their fair share of the responsibility for securing the necessary funds on an equitable basis."

Mrs. John E. Hayes, President, National Congress of Parents and Teachers, emphasizes the broader relationship between education and the public welfare when she comments:

"There can be no outsiders in education today. From the moment the child wakes in the morning until he climbs into bed at night, he never stops learning. It is necessary, therefore, constantly to improve not only the school but also the general environment in which the child receives his education. Recognizing that the lasting defenses of this nation lie in the character and citizenship of its children — home, school, and community share as equal partners. Theirs is the responsibility for the growth of all our children toward maturity into useful, fruitful citizens able to sustain and enhance the free ways of free men."

These clear expressions of the dependence of society upon the proper functioning of the educational system emphasize the fact that schools exist not only for the benefit of the individual but also for the needs of the community.

The best possible public schools are essential if these fundamental functions of education are to be achieved. In this time of Wayland's rapid growth it will be easy for the schools to be down graded by the press of numbers of children. Not only will it be difficult to maintain the present good qualities of the schools but also even more difficult to continue the trend toward improved schools.

GROWTH OF WAYLAND SCHOOLS

The continuous and rapid growth of school enrollment results from two major factors. During the 1930's the birth rate declined to the lowest level in our history. Entering classes during the late 30's and early 40's were small. Then the birth rate increased sharply during the 1940's. By the late 40's and continuing to the present, entering classes became much larger than the graduating classes. This trend will continue for at least the next five years.

During the post-war years a startling increase in the number of new homes being built in Wayland has occurred. In 1950 and again in 1951 new homes have equaled 10% of the total homes in the community. Improvements in roads, the development of light industry and shopping facilities along the Worcester Turnpike, the extensive growth of suburban towns located nearer Boston, together with the availability of desirable land, seem to indicate that it is inevitable for Wayland to continue this growth trend. The exact rate of growth will be affected by national policy concerning allocation of strategic materials, general economic conditions, and the policy of the Town of Wayland. The new families moving to Wayland are, generally speaking, younger than average.

Both the birth rate and new homes trends not only increase the total enrollment in the schools but also increase the enrollment in the lower grades much more than in the upper grades. These trends have resulted in the following grade distribution of enrollment on October 1, 1951:

1—127	5— 91	9— 64
2—106	6— 83	10— 58
3—138	7— 85	11— 52
4—106	8— 64	12— 54

The growth in enrollment during the next several years may be measured by a comparison of the number of pupils graduating each year with the number entering the first grade. The estimate of the number of

the graduating class each successive year is based on the present enrollment in the 12th, 11th, 10th, etc., grades. The estimate of the number in the entering class is based on the census of pre-school children taken by the Town Clerk on January first of each year. This measure does not take into account increases in enrollment due to children from new homes and decreases due to pupils leaving the high school before graduation.

A second measure has been developed which takes these two important facts into consideration. The following chart shows the trend of October 1 enrollments since 1945 and the estimates of future enrollments using each of the measures described above.

TREND OF OCTOBER 1 ENROLLMENTS

This growth of the school system presents the community with a great challenge. An active interest by community groups in evaluating the needs, progress, and problems of the schools in relationship to the financial resources of the Town can result in a school system which offers an instructional program closely related to the individual needs of boys and girls; a school system with a stable and professionally competent staff; a system with school sites which are properly located and school buildings which are planned as attractive functional units.

If this challenge is not met, the schools can quickly cease to be an asset to the community as well as a means of providing a modern educational program for our children.

It is for these reasons that the creation of the School Committee Advisory Council during the past year is of such great importance. This Council's active participation together with that of other community groups in planning for the growth of the school system can contribute much to maintaining the Town as a community of which every citizen can be proud.

Recognizing the need to increase the school facilities, the Town appropriated \$2,500 at a Special Town Meeting held on June 20, 1951, for use by the School Building Committee in studying the solution to the problem. A further appropriation of \$7,500 was voted at a Special Town Meeting held on December 19, 1951, to prepare detailed plans and specifications for an eight-classroom addition to the High School. Firm bids are to be received prior to the Annual Town Meeting as a basis for the construction appropriation. It is expected that these rooms will be available by January, 1953. Until these classrooms are available the schools will remain overcrowded. They will be seriously overloaded beginning in September, 1952.

These eight classrooms will be used, as soon as available, primarily to relieve the Center and Cochituate Elementary Schools. By September, 1954, additional classrooms will be needed. Studies now being made by the School Building Committee are designed to develop information necessary to the selection of sites for one or more new elementary schools. As soon as these studies are completed, an orderly program for the construction of elementary school facilities can be established.

Since the immediate need is for additional elementary school classrooms, it would be preferable for the new elementary facilities to be built before the addition to the High School. The time required to establish and obtain agreement concerning the best location for a new school site

in relation to existing houses and probable future houses, together with the time required to select and acquire land, makes it completely impractical to follow this procedure.

Since the eight-classroom addition to the High School will be needed for high school students by the time the new elementary facilities can be made available, there is justification for building the High School addition first.

Three factors will be of considerable help in financing the construction of these school buildings. First, the State grants school building aid to the Town approximating 40% of the cost of buildings, equipment, and site development. Second, the local tax for payments of principal and interest on the existing school bonds will decrease from year to year. These provide a cushion to absorb a portion of the cost of new facilities. Thus, their impact on the tax rate is reduced. Third, the construction of new homes, improvements to existing houses, additions to commercial property, reassessment following sales of existing property are among the reasons why the assessed valuation of the Town will continue to increase.

PERSONNEL

During 1951, thirteen new teachers were employed. Nine replaced teachers who resigned, and four filled new positions. In addition, Miss Louise Winston, Remedial Reading teacher, resigned and has not been replaced. Miss Marguerite Peaslee, part-time Art Supervisor, also resigned and has been replaced by increasing the assignment of Mrs. Lillian Jones.

Three other members of the staff resigned, including Miss Barbara Cipoletta, secretary to the Superintendent; Miss Marie Weeks, secretary to the High School Headmaster; and Louis Bourette, Center School custodian. These staff members were replaced by Miss Gladys Orr, Miss Marie Perodeau, and James McDonald, respectively.

During 1951, there were changes in one third of the school personnel. While some change is inevitable and desirable, so much change tends to reduce the effectiveness of the school system. Means to minimize staff turnover are being actively explored by the School Committee.

TRANSPORTATION

The increasing enrollment in the Wayland Schools has made it necessary for the School Committee to increase the number of school buses from five to six on January 2, 1952.

This need to develop new bus schedules provided an opportunity to accomplish several desirable objectives. With the exception of two small areas in North Wayland, all elementary and high school students will be transported separately.

In the morning and afternoon, high school students will be transported first. The high school day will begin at 8:15 and end at 2:10. The elementary school routes will start second, with the school day beginning at 8:45 and ending at 2:30 in both the Center and Cochrane Schools.

Through this system many elementary pupils will leave their homes later and some will arrive home sooner. No reduction in school time will occur. High school pupils will have their day increased by ten minutes. This, together with the elimination of the present activities period in the High School, will permit lengthening the individual class periods. More supervised study with the aid of the subject teacher will be possible.

A late bus, covering the southern half of the town beginning at 3:30 and the northern half of the town beginning at 4:15, will make it possible to have activities and help for students after school hours.

INSTRUCTIONAL PROGRAM

The curriculum and teaching methods in a school system are always being evaluated and adjusted to meet changing conditions. Adjustments worthy of reporting in any one year represent only a small portion of the total school program. Only the reports for several years will provide a full recognition of the improvements being accomplished.

HIGH SCHOOL

The progress of Wayland High School continued during the year under the leadership of Stanley Clement, Headmaster.

The high school provides basic fundamental training for those planning to enroll in advanced schools, as well as the final formal education of many students. It is essential that the school help all students to become happy and useful citizens. The success of Wayland High School in this direction is well evidenced by the steady increase in its holding power. A survey of students leaving school before graduation shows dropouts in 1948-49 to be 6%. In 1949-50 dropouts were 3.6%, while in 1950-51 they declined to 1.7%.

Since the building of the additions to the High School three years ago the school became able to offer not only a full college course, but also a complete business and general course. Students may now take courses in keeping with their needs, interests, and aptitudes. The success of the large number of graduates from the business curriculum who go directly into business show this department to be outstanding. The general course features Industrial Arts, Home Economics, General Math, Business Training, Economic Geography, Consumer Economics, Consumer Science, Salesmanship, and Physiology.

The 1950 report contained an outline of the curricula and co-curricula program of the school. This year's report supplements this outline by highlighting special features.

Nineteen members of the class of 1951 have entered advanced schools, including twelve in colleges, two each in business and preparatory schools, and one each in music, art, and nursing schools. Five entered the armed services, six office work, five sales work, five telephone operation, and five other work.

Eileen Costello received the scholarship awarded by the Wayland Woman's Club. The Cochituate Mothers' Club scholarship went to Henry Munsey. Barbara Bragg, Marilyn LeDrew, Betty Smith, and Norman Vlass were granted scholarships by the Wayland High School P. T. A.

Marilyn LeDrew received the American History and Reader's Digest prizes and the Becker Business Scholarship Key. The D. A. R. Good Citizenship prize was earned by Eileen Costello.

College Club

A College Club comprising all students taking the college course was established early last spring. Its purpose is to provide better preparation for college through stress on entrance requirements, accurate knowledge about colleges, tutorial help, and added social assurance.

A college tea was held last spring with an appropriate atmosphere being provided in dress, receiving line, and refreshments. Mr. Roland Darling, of the Public Relations Department of Northeastern University, challenged the club members to do a thorough job of preparing for college.

Visitation tours of college campuses and buildings were sponsored by the club. During the coming spring many additional schools will be included in the tours.

A new, successful venture was the sponsoring of College Night in October when representatives from sixteen colleges talked to over two hundred college preparatory students and their parents in a schedule planned to allow each student an opportunity to attend the meetings of three schools of his choice. Students and parents from Weston and Sudbury High Schools were guests.

Plans are under way to invite Wayland citizens to contribute further information about occupations and colleges.

The College Mothers have furnished refreshments for the spring tea and College Night and provided transportation for trips.

Future Teachers Club

The Wayland High Future Teachers Club encourages able young people to enter the teaching profession. In the bimonthly discussions the importance of and satisfaction in teaching are stressed and a systematic study of the profession is made. Observation of teaching is carried on in both the high and elementary schools. The group works closely with College Club activities.

Future Business Leaders Association

The F. B. L. A. is made up of students in grades 11 and 12 who are majoring in business. It aims to create greater understanding and interest in the choosing of business occupations. Meetings are devoted to visiting speakers, demonstrations, and discussions covering business procedure. A large number of our seniors successfully enter the business field directly from high school.

School Service

Many vital school services essential to the smooth running of a school take much extra time on the part of pupils and teachers. These have educational value and are included in regular class work whenever possible. School services centered in regular classes include: Office Practice — office work, duplicating, teacher secretaries, magazine campaign; Shop — appearance of building and grounds, fire squad; Home Economics — school nurses, cafeteria helpers; Consumer Economics — the school store (Wayco); English — library, school news. Students

who give time as librarians, office workers, traffic officers not only get valuable experience in assuming responsibilities, but also perform a function most worth-while to the school itself.

On the Air

For the second year Wayland High is participating in WCRB's School Time monthly broadcast on the first Thursday of each month from 2:15 to 2:30. The program presents information concerning the school and its activities, while giving students a most worth-while experience. The program this year includes:

- October — Wayland High Activities
- November — Future Teachers Club — Education Week
- December — Junior High Dramatics
- January — Social Studies Panel Discussion
- February — Junior High Dramatics
- March — Senior High Dramatics
- April — Talent Show Winners
- May — Music Clubs

Help Sessions

A regular schedule of after-school help sessions has been established this year for those who have been absent or who need individual assistance. This plan does much to prevent failure.

Faculty Meetings

A constructive faculty meeting program can do much toward coordinating the school faculty and enabling it to keep up to date in curriculum, activities, methods, material, and basic philosophy.

To meet this need, individual folders for thirty pertinent educational topics have been set up and educational magazines screened for practical articles of real value. One of these is chosen for the first faculty meeting each month. Each teacher chooses a topic and committees are formed to make a resumé of the articles and a list of guiding questions for discussion.

Topics this year are Philosophy of Education, Salary, Audio Visual Aids, Life Adjustment Education, Athletics, Slow Learners, Gifted Pupils, and the Junior High School.

A second faculty meeting each month features organization, coordination of activity, and case studies.

Parents

A student has but one opportunity to make a good school record. Close cooperation between parents and the school staff is necessary for the school to make its maximum contribution. Both the home and school need to insist on regular attendance, cooperation, and work done up to capacity. Only absences involving sickness are excusable. All personal needs of the student should be cared for when school is not in session since each day's absence from school is costly. It is well to contact the school in advance for any absences about which there is any question.

In addition to rank cards, supplementary reports, individual reports, letters to parents, and school publications and handbooks, parents are urged to listen to the monthly radio broadcast and watch for the weekly school news in the *Waltham News Tribune* and the *Framingham News*. These always have feature articles about one particular school activity. Parents also are encouraged to attend P. T. A. meetings. The headmaster, guidance director, and teachers are always ready to talk over problems when not directly concerned with other duties. An appointment may save waiting.

CENTER SCHOOL

James A. McLaughlin, Principal, continued his leadership of the Center School during the year.

During the past school year the faculty has reviewed the grade placement of subject matter, the use of unit teaching methods, and the methods of reporting progress to parents.

Disciplinary action and remedial help after school hours has been difficult due to transportation problems. A plan denying recess and free-time privileges to pupils who need discipline or additional help has been inaugurated. Purposeful work, which supplements classroom work, has been accomplished under teachers' supervision during the noon hour. This plan teaches the child the importance of cooperative effort in behavior and work. When dealing with discipline cases, teachers are encouraged to take time to reason, reprimand, and recommend.

In the teaching and activity programs the privilege of participation is stressed. Every pupil is encouraged to participate in the activities of the school regardless of ability. Cooperative effort, tolerance, fair play, and sportsmanship are taught through group acceptance of all as equals. Independent work and study skills are emphasized.

COCHITUATE SCHOOL

For the second year, the Cochituate School is under the leadership of Hubert W. Ward, Principal.

In the Cochituate building we have been primarily concerned with establishing a coordinated and integrated course of study throughout the six grades in order to avoid duplication and "blind areas" of learning.

To help in securing this end we have actively introduced the Massachusetts Department of Education Curriculum Guide. These guides are not intended to be used as a stereotyped course of study but rather as a "guide" to a coordinated and progressive yearly educational experience for the child.

To enrich this directed course of study we have attempted to supplement the children's experimental knowledge by the use of related films, library books, and records to aid in a better understanding of the particular field of study. We will select textbooks and other materials to tie-in with the specific areas of study prescribed for each grade. Each year our study activities will be directed to a graduated and comprehensive pattern of study so that each staff member will become aware of the specific areas being covered by teachers in all other grades as well as the particular areas to which she is responsible.

GUIDANCE

The guidance program has been carried on by Miss Jean T. Nelson in the High School and by Mrs. Mabel Draper in the Junior High School.

Certain factors are accepted as justifying guidance programs, such as the recognition that young people vary widely in mental, physical, and personality capacities and attributes, regardless of economic and environmental factors; that the demands of society are dynamic and increasingly complex; and that public education must provide for *all* the children of *all* the people.

The purpose of the guidance program is to give professional aid to students with their educational, vocational, and personal plans and problems; to inform the individual about himself and his environment; and to help him toward an effective performance in his life work. Emphasis is placed upon the individual in the effort to contribute and to foster everything which is desirable to better growth and to finer adjustments between the child and his environment.

These plans are carried out in Wayland in many ways.

Orientation. The educational plans or problems of our students are particularly acute in the freshman year and in the senior year. The freshmen need to know what subjects to choose, and their problem divides itself into what subjects they are best fitted for and what subjects will lead them toward their final goal. For this reason we offer Orientation to ninth graders. In this course, by discussion method students learn how to understand themselves and those around them. Students are encouraged to make arrangements for individual conferences when their problem is of a more specific nature.

Here specific methods for studying different courses and ways of handling various subjects are discussed.

At this age students need to know of the world of work, training and educational requirements necessary for various kinds of work, and the satisfactions to be expected in each field.

Advanced Schools. The Guidance Department maintains active catalogues of colleges, junior colleges, technical schools, and vocational schools. Visits to college and training school campuses in and around Boston are arranged. Throughout the year college admission officers visit the school to confer with students.

Vocational Information. The Guidance Department has on file material in the form of booklets and brochures on hundreds of occupations, their funds, requirements, duties, remunerations, and the like. With the help of Mr. Roland Darling of Northeastern University, seven occupational meetings are being sponsored to discuss the following with our students:

October — Planning for Training Beyond High School

November — Planning Your Career

December — Where High School Graduates Work, Paying Your Way Through College

January — Nursing, Engineering, Office Work, Retailing

February — The Learned Professions, Careers in the Fine Arts and Language Arts, Opportunities for Women in Other Professions

March — Working for the Government, What a High School Senior Should Know About Unions

April — Jobs for the Summer, and Jobs for the 1952 High School Graduate

Testing. The Guidance Department oversees the testing program of the high school, which includes intelligence tests (individual testing where needed) and achievement testing. Such tests serve as a record for the individual pupil and help the school evaluate its curriculum and instruction. Interest inventories are given during the ninth and eleventh grades.

Interviews. Each student has at least two individual interviews each year. A large number of students are given individual counseling time beyond this schedule. Conferences are held with parents frequently.

FINE ARTS

In September of this year Mrs. Lillian M. Jones assumed responsibility for the Art program and reports the following:

"It is our endeavor to encourage a program of creative art in our schools. While it may be of some value to the child to learn to 'color inside the lines,' to 'make a tree that looks like a tree,' and to 'do this just so' in his regular activities, greater growth is attained if he is allowed to work things out in his own way within the limits of the chosen medium.

"As many different materials as are feasible should be presented to the child, and he should have time to explore and experiment as he desires without constant guidance or criticism. This is particularly true of little children who meet materials for the first time. After an exploratory period the child is ready to go to the 'make a picture stage.' The playing and dabbling is very important. The parent and the teacher who do not understand or accept the purpose of art may feel that these experimentations are confusing or a waste of paper or other materials. Because the child does not make things acceptable by adult standards, his work often is rejected by the ones who should appreciate it most, and whose approval he most desires.

"We have introduced the child to all the materials furnished by the school this year, and hope in the future to increase our scope. We have added tempera painting to many groups who have never before used it — some of them in the seventh grade! Many of the grades have used clay for the first time. We would like to make this a regular part of our art program. The older young people have been introduced to charcoal, to art pencil work, and to pen and ink and water color combinations. Some of the high school groups have had work with metal modeling and with shell craft in addition to their regular art work. Crafts could well be added more and more with great advantage, especially to those who find it hard to draw or paint 'pictures.' The older pupils will have opportunity to work with wire and with simple puppets in addition to other things this year."

MUSIC

Mrs. Pauline N. Radford, Vocal Music Supervisor, has continued the development of the music activities in the high and elementary schools during the year.

Basic music training, reading, and appreciation continue to be developed in the elementary and intermediate grades. On December 13 the Center School presented the Christmas masque by Irma A. Clarke entitled "The Crib at Greccio." The Cochituate School expects to put on a musical in the spring.

In February the high school students participated for the first time in the Massachusetts State Music Festival which was held in Worcester. This venture proved so successful that plans are now under way for twice as many pupils to attend this coming year when Framingham is to be the host city.

One hundred members of the High School Chorus presented the musical comedy, "Bon Voyage," and participated in the Commencement exercises.

A Girls' Glee Club and a Mixed Glee Club, each containing forty voices, were organized this September to replace the large single chorus. With balanced groups, more progress with part music is possible. In addition, an opportunity is given weekly to all students who wish to sing for enjoyment.

PHYSICAL EDUCATION

Miss Bernice F. Daly replaced Miss Marjorie P. Sisson as Supervisor of Physical Education for Girls in September.

The physical education program for grade 1 to 3 boys and girls and grade 4 to 6 girls includes fundamental skills, relays, low organization games, and games that foster an awareness of team play. Rhythmical activities consisting of free rhythmic movements, creative rhythms and dances, traditional folk dances and singing games, dramatizations in rhythm, and marching constitute a large part of the program. These activities arise from natural impulses for rhythmic movements. They are invaluable opportunities for self-expression, appreciation, and creativeness.

The high school girls have two required periods of physical education per week. Senior high girls have a third period for the First Aid training. Activities include team sports, individual sports, conditioning exercises, dancing, tumbling, and posture.

Varsity teams include field hockey, basketball, and softball. There are opportunities for extra-curricular activities three afternoons a week. A round-robin, intramural program tournament has been played off in hockey and basketball, and there will be one in softball in the spring.

These after-school activities contribute to social development and social adaptability of the students.

Participation in physical education contributes to health, strength, and physical fitness, social education, and the development of enduring interests and skills.

Mr. Samuel P. Strickland, Jr., is the Supervisor of Physical Education for Boys. This program includes fundamental skills in soccer and lead-up games. A period of warm-up and basic drills has been carried forward as in the past. During the winter a parallel type of participation in indoor games, some gymnastics, and basketball will be concluded.

The Junior and Senior High, which meets twice weekly, has a program of limited outdoor skills, soccer, and touch football. A pre-activity period consisting of warm-ups and basic drills was used. A winter basketball program has been set up which provides for practice of fundamentals and actual play with all classes divided into a little league. Records of results and scoring are to be kept and posted. Gymnastic games will be added during the last half of the season. Work is planned in field events, baseball, and softball for the spring. After fundamental training in handling balls, clubs, bats, rackets and other implements, boys are gradually introduced to various features of organized teamwork.

An intramural program in touch football was carried on in the fall, with basketball and baseball to follow during the winter and spring.

The basketball team reached the semi-finals of the Eastern Massachusetts Tournament before receiving the first defeat of the year. Experience will be lacking on this winter's squad since the starting five and the top three substitutes were graduated.

This year's football team gave a creditable performance despite the return of only five letter men from the 1950 untied, undefeated team.

The baseball team will compete next spring in the newly formed Dual County League.

It's congratulations and thanks again to the Wayland High Association for the splendid All-Sports Banquet of last spring.

REPORT OF THE SCHOOL PHYSICIAN

To the Superintendent of Schools:

I herewith submit my report as School Physician for the year 1951.

All students were given physical examinations.

Physical examinations started in early September and were completed in the middle of December.

The majority of defects noted were enlarged tonsils and adenoids averaging five to six in grade schools.

Triple diphtheria injections were started in December.

I attended all home football games and the Weston game.

Respectfully submitted,

DAVID R. COREY, M. D.

REPORT OF THE DENTAL CLINIC

To the Superintendent of Schools:

The dental clinic is set up primarily to initiate the young students into establishing the proper health habit of attending to their teeth conscientiously. This includes not only mouth rehabilitation, which is the dentist's duty on the days allotted the clinic, but also the awakening of realization that periodic check-ups are of prime importance to their individual health. Thus, it is impressed on these youngsters that the yearly examinations, producing their new "crop" of cavities, forestall many a toothache by the early institution of proper treatment.

In order to make this program most successful, close supervision of the proper home care by the parents is essential.

Respectfully submitted,

LAWRENCE F. CUSOLITO, D.D.S.

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

There has been a daily check on absentees either by telephone or contact with principals of the three buildings. Home visits were made if the absence was of three or more days.

Inspection is carried out frequently and when infection or contagion is reported by the principal, all rooms are checked.

Weight and height are recorded on health cards three times during the school year in the elementary grades.

The pre-school clinic was conducted in May for the groups entering in September, 1951. If any were not examined by the physician in charge, the parents were advised to consult the family physician.

The dental program functioned two mornings each week.

The Toxoid Clinic, sponsored by the Board of Health, is conducted yearly in the schools.

The school physician was assisted at the yearly physical examinations during the fall term, and notices of defects were sent to parents.

Students were given the Massachusetts Vision Test and if defects were apparent, notices were sent home.

Home visits to school children	257
Children accompanied home from school	15
Children excluded because of infection	27
Children accompanied to hospital	1
Children accompanied to physician's office	1
Children referred to hospitals	3

In cases of infection, disease, or accident, pupils were referred to the family physician.

Respectfully submitted,

MARY E. McNEIL

REPORT OF THE SUPERVISOR OF ATTENDANCE

To the Superintendent of Schools:

During the year I have investigated forty-one cases of questionable absence reported to me.

Number of students accompanied to school	3
Number of truants	16
Number having no legitimate excuse	25
Number referred to a social service agency	2

Respectfully submitted,

MARY E. McNEIL

WARRANT FOR ANNUAL TOWN MEETING

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

To any of the Constables of the Town of Wayland, in said County:

Greetings:

In the name of the Commonwealth you are required to notify and warn the inhabitants of said Town qualified to vote in town election to meet at their respective polling places, Precinct 1 in the High School Gymnasium, Precinct 2 in the Legion Hall, on

MONDAY, MARCH 2, 1953

at six o'clock in the forenoon, there and then to bring in their ballots for a Moderator, Town Clerk, Treasurer, Collector of Taxes, one Assessor, Tree Warden, one member of the Planning Board and seven Constables, all for one year;

One member of the Planning Board for two years.

One Selectman, one member of the Board of Public Welfare, one member of the School Committee, one Assessor, one Water Commissioner, two Trustees of the Public Library, one Cemetery Commissioner, one member of the Board of Health, one Park Commissioner, one Road Commissioner, one Commissioner of Trust Funds and one member of the Planning Board, all for three years;

One member of the Planning Board for five years.

All the foregoing to be voted on the official ballot. The polls will be open at 6:00 o'clock in the forenoon and will remain open continuously until 7:00 in the afternoon, when they shall be closed.

And you are required to notify and warn the inhabitants of said Town qualified to vote in Town affairs to meet at the High School Gymnasium on

WEDNESDAY, MARCH 4, 1953

at 7:45 P. M., then and there to act on the following articles.

Article 1. To hear reports of the Town Officers, Agents and Committees, and act thereon.

Article 2. To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Article 3. To grant money for necessary Town purposes.

See Finance Committee Report

Article 4. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by Section 108, Chapter 41, General Laws, as amended, and set the effective date of such salary and compensation.

Since 1947, it has been necessary for the Town to fix, annually, the salary or compensation of each elective officer.

The Finance Committee recommends that the salary for the elective officers be set as indicated in the budget and that they be effective from January 1, 1953.

Article 5. To see if the Town will vote to appoint a committee to study the problem of compensation of all Town employees; to prepare a plan classifying all such employees into groups doing substantially similar work or having substantially equal responsibilities, and providing minimum and maximum salaries to be paid to such employees in positions so classified, and for the attainment of such maximum salaries by periodic step-rate increases, such salaries to be related, if possible, to a reliable cost-of-living index, and to report at the next Annual Town Meeting its recommendations as to what action should be taken with respect thereto, or take any other action relative thereto.

The approval of this article is jointly recommended by the Finance Committee and the Salary and Wage Coordinating Committee appointed under Article 13 at the last Annual Town Meeting.

Article 6. To see if the Town will vote to authorize the Board of Selectmen: (1) to sell, or otherwise dispose of the present police car in connection with the purchase of a new car; (2) to sell, or otherwise dispose of the Water Department's present 1952 Chevrolet in connection with the purchase of a new truck; and (3) to sell or otherwise dispose of 5 traction type sand spreaders — the funds for the police car being provided for in the budget of the department and the funds for the Water Department truck being provided for in Article 8, or do or act.

The sale or disposal of equipment requires a vote of the Town. The police car is regularly purchased on the basis of an annual trade-in. The Water Department has just completed arrangements for a similar regular annual trade for a nominal price. The Highway Department is purchasing 3 modern bin-type automatic sand spreaders — motor driven and is asking for authority for disposal of 5 of its present 7 old style traction type sand spreaders.

The Finance Committee recommends the approval of the article.

Article 7. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1953 and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

It is through this article that the Treasurer obtains authority to borrow money in case of need prior to the receipt of the bulk of the tax money in October and November.

The Finance Committee recommends the approval of this article.

Article 8. To see if the Town will appropriate sums of money for the following:

- (1) Water Coupon Notes, Water Bonds and Water Registered note — maturing in 1953 — payment of principal;
- (2) Water Coupon Notes, Water Bonds and Water Registered note — payment of interest due in 1953;
- (3) Water Department maintenance;
- (4) Town Office clerical salaries;
- (5) Purchase of a new truck;
- (6) Installation of a water main connection and hydrant in Glezan Lane;

- (7) Installation of two new hydrants — one on Hazelbrook Lane and one on Lincoln Road.

the entire amount to be taken from "Water Available Surplus," or do or act.

The sums of money required under this article are as follows:

- | | | |
|-----|---|--------------|
| (1) | Water Department debt — payment of principal | \$13,000.00; |
| (2) | Water Department debt — interest | 2,410.00; |
| (3) | Water Department maintenance: | |
| | Salaries: Superintendent | \$4,500.00 ; |
| | 2nd Man | 3,550.00 ; |
| | | ; |
| | Appropriation | \$32,050.00; |
| (4) | Town Office — Clerical Salaries | 1,500.00; |
| (5) | Purchase of a new 1/2-ton pick-up truck | 200.00; |
| (6) | Installation of 6-inch water main connection of
about 1,350 ft. and hydrant in Glezan Lane | 5,000.00; |
| (7) | Installation of 2 new hydrants — 1 on Hazelbrook
Lane and 1 on Lincoln Road | 700.00. |

The Finance Committee recommends the approval of the article.

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action in relation thereto.

Last year, a start was made on the rebuilding of Oak Street from the Natick line to Commonwealth Road East. It is now contemplated that the work will be completed during the coming year. To provide the necessary funds and to continue with Chapter 90 construction, the Finance Committee feels that the Town should continue its long-term policy of appropriating as much money as is likely to be matched by the County and State. The normal arrangement is for the Town to appropriate about \$5,000.00, against which the County allocates \$5,000.00 and the State \$10,000.00.

The Finance Committee therefore recommends the approval of the article and the appropriation of \$5,000.00 at this time.

Article 10. To see if the Town will vote to authorize the purchase, taking by eminent domain and/or acquisition by other means, on behalf of the Town, for school purposes, of all or any part of a parcel of land containing about 15 acres, more or less, and bounded westerly by Old Connecticut Path, northerly by land of the Commonwealth of Massachusetts Weston Aqueduct; easterly by land of George L. Nolan and land of the Wayland Real Estate Company; and southerly by Pequot Road, by land of Theodore L. and Eloise D. Parker, by Maiden Lane, and by other land of Theodore L. and Eloise D. Parker; and appropriate a sum of money for the foregoing purpose, and determine how the money shall be raised; or take any action relative thereto.

The Special School Site Committee appointed at the October Town Meeting, has recommended the acquisition of approximately 15 acres of land located east of Old Connecticut Path and north of Maiden Lane. The Finance Committee has studied the background for the choice of the site, has consulted the various boards involved, and is satisfied that all proper steps have been taken to arrive at a reasonable conclusion.

The Finance Committee feels that the site chosen is the best available and is well located from the point of view of the expanding school population. The site, if purchased, would provide land over which the necessary contemplated connecting trunk water main and roadway between Old Connecticut Path and Cochituate Road could be built. A substantial part of the cost of this long-contemplated improvement can, therefore, be absorbed in the cost of a new school.

The owners of the land involved have given options by which the Town can acquire the land for \$750.00 an acre — totalling approximately \$12,000.00, including surveying and other costs.

The Finance Committee feels that the price is fair, recommends the approval of the article, and the appropriation of \$12,000.00.

Article 11. To see if the Town will vote to authorize the purchase, taking by eminent domain and/or acquisition by other means, on behalf of the Town, for school purposes, or for road purposes, or for a water line, of an easement or fee, in the following: (1) land of the Wayland Real Estate Company, from the intersection of Juniper Lane and Pequot Road running in a westerly direction to land of Theodore L. and Eloise D. Parker; (2) land of said Theodore L. and Eloise D. Parker running in a westerly direction to Maiden Lane; (3) land in and along Maiden

Lane in a northwesterly direction to Old Connecticut Path; and appropriate a sum of money for the foregoing purpose, and determine how the money shall be raised; or take any action relative thereto.

This article is inserted in the Warrant, in part, as a supplement to the previous article, which was inserted by the Special School Site Committee. If the Town votes the approval of the purchase of the land for the school site, this article will be needed to provide for the acquisition of a fee or easements over property between the school site and Old Connecticut Path and between the school site and Pequot Road.

If the Town does not vote approval of the purchase of the land for the school site, this article will be needed if the Town, none the less, wishes to acquire the land for a connecting road and/or water line to Pequot Road and Old Connecticut Path.

Approval of this article would give the Town a complete right-of-way from Old Connecticut Path to Pequot Road, both for the installation of a road and/or water line. Some 1,600 feet of road would ultimately have to be built, a substantial portion of which might be done as a part of the school job.

The Finance Committee approves the principle involved in connection with the acquisition of land here involved, but will defer making its specific recommendation until the Town Meeting. Its recommendation is partially contingent on the action the Town may conclude to take on the previous article.

Article 12. To see if the Town will vote to authorize the School Building Committee, appointed under Article 19 of the Warrant for the 1947 Annual Town Meeting, to proceed with the preparation of building plans and specifications for an elementary school; and to see if the Town will vote to raise and appropriate a sum of money for the purpose of employing an architect to prepare plans and specifications for said school, including a provision for such road and water developments within and beyond the site which are related to the school building; and for other necessary expenses of the Committee.

The Special School Building Committee estimates that the sum of \$21,000.00 will be needed for the preparation of plans and specifications for a new 12-room elementary school. The need for this appropriation is contingent upon the approval of the purchase of land under a previous article.

If the Town votes the purchase of a site, the Finance Committee recommends the approval of the article and the appropriation of \$21,000.00.

Article 13. To see if the Town will vote to appropriate a sum of money for the construction of a road from the intersection of Juniper and Pequot Road, westerly to Maiden Lane and along Maiden Lane to Old Connecticut Path, or take any action relative thereto; and determine how the money shall be raised; or take any action relative thereto.

This article contemplates the construction of about 1,600 feet of road — about 1,000 feet of which would be new and about 600 feet of which would be reconstruction of Maiden Lane. In order to properly lay the 12-inch pipe line called for in the following article, the road right-of-way should at least be rough-graded. It would then be unnecessary to relay the line at a later date. If the work on the road is done in conjunction with the development of the school site, as a part of establishing access roads for a school, state financial assistance would be available for a large piece of the job. Whether all the road in its finished form should be built at this time would depend partly on the decision of the Town with respect to the purchase of the school site.

The Finance Committee approves the principle involved in the construction of this connecting road, but will have to defer its specific recommendation until the time of the meeting, by which time estimates of costs will be available.

Article 14. To see if the Town will vote to raise and appropriate a sum of money for the construction of a connecting 12-inch water line from the existing 12-inch water line in Pequot Road across the land of the Wayland Real Estate Company and the land of Theodore L. and Eloise D. Parker to Maiden Lane, along Maiden Lane to Old Connecticut Path and along Old Connecticut Path to the existing 12-inch water main from the Happy Hollow well, and determine whether the money shall be provided for by appropriation from available funds in the treasury, by taxation and/or by borrowing, or do or act.

The water line contemplated in this article is 2,700 feet in length and would form the connection between the existing and the proposed new well at Happy Hollow and the main north-south trunk water line located in Cochituate Road. The rest of the connections are

already in place, some \$4,000.00 having been spent in 1951 and 1952 under previous authorizations of the Town.

The Water Department feels that the installation of a 12-inch line in this location is necessary in order to maintain a proper supply of water and to have the supply available at the proper points in the water system. It is contemplated that this line would be laid with 12-inch pipe and would cost about \$18,000.00. This one of two necessary steps to augment the supply of water for the Town. The income of the Water Department is sufficient to carry the debt and interest involved in the construction of the line and the Finance Committee is satisfied that this connecting line should be put in place as soon as possible.

The Finance Committee recommends the approval of this article and the borrowing of necessary funds, provided a right-of-way has been obtained in one of the previous articles.

Article 15. To see if the Town will vote to authorize and appropriate a sum of money for the installation of a new well, pump station, pump and controls and a connecting water line with the existing Happy Hollow water line and will transfer from available funds and/or borrow a sum of money for the purpose, or do or act.

The Water Department estimates that 208 million gallons of water were pumped in 1952 as contrasted with 181 million in 1951. The present wells and pumping equipment can take care of a water demand at the rate of 1,600,000 gallons per day for a few hours only in each day as against which we have a peak water demand estimated at 2,000,000 gallons per day. For the past two years, therefore, the Water Department has felt that it would be necessary to increase our water supply to take care of the growth in demand.

The Finance Committee has been supplied with figures which indicate that a new 24-inch gravel packed well will cost about \$7,000.00; pumping equipment about \$9,000.00, and building and necessary engineering and connections would add another \$4,000.00, making \$20,000.00 in all.

The Finance Committee feels that the Water Department is entirely justified in its request, that the income of the department is sufficient to carry the expense involved and that the work should be done forthwith.

The Finance Committee therefore recommends the approval of the article and that a substantial portion of the necessary funds be borrowed for a period not to exceed 15 years.

Article 16. To see if the Town will vote to appoint a special committee to study the desirability and practicability of fluoridating the Town water supply and to make recommendations to the Town, or do or act.

The Finance Committee does not feel that it has adequate information to make a proper recommendation with respect to the subject matter of this article, but it sees no harm in the appointment of a committee to gather factual information for presentation to the Town at a later date.

The Finance Committee therefore recommends the approval of the article.

Article 17. To see if the Town will vote to appropriate and assess a sum of money for the purpose of installing a traffic light, safety island and a "stop" sign at the junction of West Plain Street and Old Connecticut Path, or do or act.

There have been repeated requests, either for the installation of a traffic light, a safety island or a "stop" sign at the westerly end of West Plain Street, at the junction of Old Connecticut Path. The Selectmen have been advised by the State Department of Public Works that approval would be granted for the installation of such a "stop" sign, but that the construction of an island at the location was of far greater importance as a safety measure and, further, that the "stop" sign could be installed on the island, if necessary.

Sudbury has recently installed such an island, with a blinking light, at the junction of Maynard and Hudson Road, the island having been built by the Highway Department at a cost of \$200.00 and the light installed at a cost of \$800.00.

The Finance Committee feels that the Town ought to follow the recommendation of the Department of Public Works. It therefore recommends that a safety island be built, in general, in accordance with the State Highway plan, that a "stop" sign be erected and that the matter of installing a blinking light be deferred until the effectiveness of this program can be observed.

The Finance Committee recommends the appropriation of \$200.00 for the work it has suggested.

Article 18. To see if the Town will vote to authorize the School Site Committee created under Article 5 of the Special Town Meeting held on October 22, 1952, to continue a study of additional school site or sites and to prepare recommendations for presentation to the Town at future Town Meetings with regard to said site or sites as they may determine, and to appropriate a sum of money for engineering service and other necessary expenses of the Committee, or do or act.

The continuing growth of the Town makes it advisable that the School Site Committee be continued.

The Finance Committee therefore recommends the approval of the article, but suggests that no appropriation be made at this time.

Article 19. To see if the Town will vote to appoint a Special Committee to make a study and prepare recommendations for presentation to the Town with regard to sites for additional park, playground or recreational facilities and to obtain options on such site or sites as they may determine, or do or act.

This article has been inserted in the Warrant for the purpose of determining whether or not the Town would be willing to have a study made of the probable future needs for park, playground and recreational areas which may become necessary with the continued development of the Town and as less open areas remain available for such purposes. Such a study is part of a forward-looking plan as far as the Town is concerned and the Finance Committee therefore recommends the approval of the article.

Article 20. To see if the Town will vote to accept as a public Town way under the provisions of the Betterment Act, the road known as "Orchard Lane," or a portion thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk and authorize the Board of Selectmen to acquire by eminent domain, purchase, gift or otherwise and to appropriate a sum of money for the acquisition of such and the construction of such way, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

This article calls for the improvement of Orchard Lane under the Betterment Act. The application has been properly processed and is ready for consideration by the Town. The work called for involves the surfacing of 1,400 feet of road and the installation of necessary drainage. There are 13 abutters and the estimated cost is \$4,700.00.

At the Special Town Meeting held last October, \$29,000.00 was appropriated to be expended and charged against the tax rate in 1953 for betterment work. At the time, the Finance Committee advised the Town that it would not recommend any further expenditure for this type of work during 1953. On a first-come, first-served basis, this project should have priority in 1954 against any money recommended for betterments in that year.

The Finance Committee does not recommend the approval of the article at this time, nor the appropriation of any money.

Article 21. To see if the Town will vote to abandon a right-of-way across land of Fred Berg, running to Dudley Pond, and will vote to accept a right-of-way to Dudley Pond across land of Fred Berg, or do or act.

As far as the Town itself is concerned, there is probably no reason why the action suggested in this article will not be satisfactory, but since other owners in the neighborhood may have rights in the right-of-way, the Finance Committee feels that the Town should be guided by the advice of the Town Counsel, who will be prepared to make a recommendation at the time of the Annual Meeting.

Article 22. To see if the Town will vote to amend the Zoning By-Laws as follows: to change from a residential to a business district, the following portions of land located on Old Connecticut Path:

- (a) Land owned by Francis J. and Nora M. Lavin described as follows: Northwest from Old Connecticut Path and Commonwealth of Massachusetts 329.95 feet to a point; thence Northeast 298.42 feet to Stonebridge Road; thence Southeast 10.36 feet to a point; thence Southwest 102.73 feet to a point; thence Southeast 177.23 feet to a point; thence Northeast 47.86 feet to a point; thence Southeast 139.26 feet to Old Connecticut Path; thence Southwest 248.06 feet to the point of beginning.
- (b) Land owned by Dorothy W. Emerson described as follows: Northwest from Old Connecticut Path and land of Francis J. and Nora M. Lavin 139.26 feet to a point; thence Southwest 47.86 feet to a point; thence Westerly 177.23 feet to a point; thence Northeast 102.73 feet to Stonebridge Road; thence Southeast 309.5 feet to Old Connecticut Path; thence Southwest 79.4 feet to the point of beginning.
- (c) Land owned by Percy H. Steele described as follows: Southeast from Old Connecticut Path 174 feet to a point; thence Northeast 242.1

- feet to Massasoit Path; thence Northwest 174 feet to Old Connecticut Path; thence Southwest 260.3 feet to the point of beginning.
- (d) Land owned by Ralph E. and Alice J. McMillen described as follows: Southeast from Old Connecticut Path 174 feet to a point; thence Northeast 245 feet to land of Charles F. and Esther B. Flynn; thence Northwest 174 feet to Old Connecticut Path; thence Southwest 242.4 feet to the point of beginning.
- or do or act.

This and the following two articles call for an amendment to the Zoning Laws which would change certain areas from a residential to a business district.

The Planning Board will make a full report to the Town and the Finance Committee feels that the Town should be guided by the recommendations so made.

Article 23. To see if the Town will vote to amend the Zoning By-Laws as follows: to change from a residential to a business district that portion of land designated as Section "B" on plan of land in Wayland, Massachusetts, prepared by Everett M. Brooks, C. E., November 8, 1946, containing 26,864 square feet, more or less, located on the southerly side of Stonebridge Road at the intersection of Old Connecticut Path, Cochrane, Massachusetts, and extending 304.07 feet from Old Connecticut Path to the land designated as that owned by Alfred W. and Frances A. Hommel.

This article calls for an amendment to the Zoning Laws which would change a certain area from a residential to a business district.

The Planning Board will make a full report to the Town and the Finance Committee feels that the Town should be guided by the recommendations so made.

Article 24. To see if the Town will vote to amend the Zoning By-Laws as follows: to change from a residential to a business district that portion of land bounded by Commonwealth Road, School Street and E. Plain Street containing about 34,292 sq. ft., owned by Raphael P. and Ethel R. Porcella.

This article calls for an amendment to the Zoning Laws which would change a certain area from a residential to a business district.

The Planning Board will make a full report to the Town and the Finance Committee feels that the Town should be guided by the recommendations so made.

Article 25. To see if the Town will vote to appropriate and assess a sum of money for mosquito control, or do or act.

The Town voted \$1,500.00 for mosquito control at the last Annual Meeting. The money was spent entirely on an airplane spray program. There is considerable doubt as to the effectiveness of the program, even in the areas which the plane could reach. The Finance Committee is still of the opinion that to be successful, a control program requires the co-operative effort of adjoining towns and, in addition to general spraying, calls for spot-spraying, and above all else, drainage. In order to arrive at a program which will be of lasting benefit, and in order to have adequate knowledge as to the full cost, the Finance Committee feels that a special committee should be appointed to investigate and report at the next Annual Meeting. Until a complete program can be established, the Finance Committee feels that any expenditure is largely wasted.

The Finance Committee therefore recommends the appointment of a committee and does not recommend the approval of the article.

Article 26. To see if the Town will vote to accept Section 30A of Chapter 40 of the General Laws (Ter. Ed.), which reads as follows:

"§30A. Reconsideration of Appeal or Petition for Variance from Terms of Ordinance or By-Law after Unfavorable Action. — After acceptance of this section as provided in section four of chapter four, no appeal or petition under paragraph 3 of section thirty for a variance from the terms of such an ordinance or by-law with respect to a particular parcel of land, and no application under section thirty for a special exception to the terms of any such ordinance or by-law, which has been unfavorably acted upon by the board of appeals shall be considered on its merits by said board within two years after the date of such unfavorable action except with the consent of all the members of the planning board, or of the board of Selectmen in a town having no planning board."

This article is inserted at the request of the Zoning Board of Appeals. It would deny reapplication or reconsideration for a period of two years of any matter on which the Appeal Board had rendered a decision. Such action on the part of the Town would be directly in line with a previous vote of the Town to refuse to reconsider any

request for a zoning change for a period of 2 years once action has been taken on the matter by the Town.

The Finance Committee therefore recommends the approval of this article.

Article 27. To see if the Town will vote to amend the Town By-Laws so as to provide for the appointment of a Planning Board of Appeals, in accordance with the provisions of General Laws (Ter. Ed.), Chapter 41, Section 81R.

This article is inserted in the Warrant at the request of the Town Counsel to provide a better appeal procedure on matters involving a decision by the Planning Board. It is contemplated that it would not be necessary to set up an additional Appeal Board, but that the members of the Zoning Board of Appeals could also act as a Planning Board of Appeal.

The Finance Committee recommends the approval of the article.

Article 28. To see if the Town will vote to amend Article 4 of the Town By-Laws so as to increase the membership of the Finance Committee from five to seven, and to change the provisions regarding the appointment of the members, or take any other action relative thereto.

This article was inserted at the request of the Finance Committee, the members of which feel that, due to the increase in the population of the Town, a broader representation should be provided for.

The Finance Committee therefore recommends favorable action on this article.

Article 29. To see if the Town will vote to appoint a Special Committee to make recommendations to the Town regarding revision of the Town By-Laws.

Town Counsel has brought to the attention of the Finance Committee that, as a result of gradual additions and changes in our By-Laws, they now need to be revised, renumbered and brought up-to-date.

The Finance Committee recommends the approval of the article and the appointment of a Special Committee.

Article 30. To see if the Town will vote to transfer from available funds, the sum of \$25,000.00, or any other amount, to meet any of the appropriations made in the foregoing articles.

The Finance Committee will make its recommendation respecting this article at the time of the meeting.

And you are required to serve this Warrant by posting copies thereof, attested by you, at the Town Hall, at each Post Office in Town, and at the Legion Hall, at Cochituate, seven days, at least, before the time of holding said election.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk on or before March 2, 1953.

Given under our hands and seal this twenty-seventh day of January in the year of our Lord one thousand nine hundred and fifty-three.

GERALD HENDERSON,
JOHN W. LEAVITT,
WILLIAM A. LOKER,
Selectmen of the Town of Wayland.

A true copy, attest:

Constable of the Town of Wayland

REPORT OF THE FINANCE COMMITTEE

In accordance with its annual practice, the Finance Committee herewith reports its stewardship of the "Reserve Fund." The following breakdown accounts for the \$12,495.71 transferred: Civilian Defense, \$1,970.41; Fire Department — expense, \$1,567.41; Health Department — appropriation, \$1,557.12; Moth Department — Dutch Elm Disease, \$1,194.90; Park Department — expense, \$2,117.65; Welfare Department — Temporary Aid — appropriation, \$1,476.58; School Department — custodian's salaries, \$656.80; the remaining \$1,954.84 to 16 other accounts.

The Reserve Fund recommended for 1953 of \$12,500.00 is the same in amount as that appropriated for 1952, including funds for Civilian Defense.

The Town continues to grow with the accelerated speed commenced in the Korean war period, as is indicated by the following table of new house building permits and increases in real estate valuations:

	1949	1950	1951	1952
Building Permits	63	141	155	140
Increases in Real Estate				
Assessed Valuations ..	374,000	342,000	800,000	1,071,000

Accompanying the increase in population, there has been an unabated increase in costs of materials and labor, as for example, the increase in wage rates from \$1.25 in 1952 to \$1.35 in 1953, adopted generally in the towns of this area. The increases in the budget recommended below have been caused primarily by these factors, and to some degree by additional services to the Town.

The 1953 budget as reported, amounts to \$716,842.43. The following table shows the total budget amounts appropriated at the Annual Town Meeting of the prior five years, as well as the increase in budget amounts for each year. Because of this substantial proportion of the budget applicable to school use, there has also been included, the amount of the School budget for each year and the increase of the same over the prior year.

	1948	1949	1950	1951	1952	1953
Budget	347,210	414,676	491,328	534,997	614,445	716,842
Increase over						
prior year	77,210	67,466	76,652	43,669	79,448	102,337

School

Budget	114,960	131,640	171,540	196,540	240,941	291,132
Increase over prior year	————	16,680	39,900	25,000	44,401	50,191

The principal increases in the 1953 budget are as follows:

Town Hall — Alterations	\$3,400.00
Town Building, Cochituate — Maintenance and Equipment	3,450.00
Fire Department — Hose and Equipment for New Trucks	3,900.00
Highway — Maintenance	3,000.00
Highway — Main Street — Sidewalk	3,000.00
Schools	50,100.00
Library — Equipment for New Cochituate Reading Room	4,000.00
Library — General Appropriation	2,200.00
Park Department — Appropriation	2,100.00
New Truck and Equipment	3,100.00
Town Counsel	4,100.00
Town Debt:	
Interest	2,200.00
Principal Payments	28,000.00

A welcome change appears in the Welfare Budget, in that the amounts to be appropriated have been decreased by approximately \$15,000.00.

The articles recommended for 1953 are as follows:

Chapter 90 — New Construction	\$5,000.00
New School Site	12,000.00
New School Building Committee	21,000.00
Water Main connecting Old Connecticut Path with Pequot Road	18,000.00
Water Department — New Well Pump and Station	20,000.00
Safety Island at junction of West Plain Street and Old Connecticut Path	200.00
Road construction in connection with New School Site	Not yet determined.

Of the total amount recommended, namely \$76,200.00, \$38,200.00 would be charged to the current tax levy and \$38,000.00 would be handled by the Water Department without burden to the tax rate. At the Special Town Meeting held October 22, 1952, \$29,000.00 was appropriated for use in 1953. The total covered by articles, to be raised through the 1953 tax levy, will therefore come to \$67,200.00. The comparative article figures for 1952 were as follows: — recommended at the Annual Town Meeting — \$320,000.00, of which \$43,000.00 was charged to the current tax levy and \$277,000.00 borrowed or raised from available funds; appropriated at an earlier Special Meeting — \$14,000.00, making the total of the articles absorbed by the 1952 tax levy — \$57,000.00.

In recent years, steps have been taken to make accommodations for the Town officials in the Town Hall. Pursuant to this practice, it is planned to make sufficient alterations in 1953 to provide space for the Town Treasurer whose work is so closely connected with the Town Accountant and other personnel in the Town Hall. It is also planned to make a hearing room for the general use of Town Boards. A much needed painting program will be undertaken in the Town offices to improve the working conditions of our efficient Town office group.

The Finance Committee recommends that:

The Town office force be constituted as follows: Town Accountant, Water Clerk, Assessors' Clerk, Collector's Clerk (also serving as Deputy Collector) and such other clerical assistants as is deemed necessary to perform the duties and assume the responsibility for work as outlined in the Finance Committee Report of 1949;

The operation of the dumps be under the supervision of the Highway Department;

The money from Dog Taxes be allocated in its entirety to the Library — Expense account;

The District and School Nurse be under the supervision of the Health Department and assigned for school work during appropriate hours of the day;

The work on Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

The Tax Collector continue to act as Collector of the Water Department;

The office of the Town Treasurer be established in the Town Hall;

The salaries of the Cemetery Superintendent and the Moth Superintendent be paid as one salary;

The salaries of the Building and Wire Inspector and Oil Burner Inspector be paid as one salary;

The wage rate for hourly paid employees in all departments be not in excess of \$1.35 per hour, with the exception of the second man in the Highway Department whose rate be not in excess of \$1.48 per hour.

The unexpended balance in the following accounts be transferred to Excess and Deficiency”:

Highway Department:

Chapter 90 Maintenance	.13
Street Betterment Construction:	
Rich Valley Road and Hayward Road	5.88
Parmenter Road	1.81
Timber Lane	12.44

Library and Reading Room:

General Repairs	19.94
-----------------------	-------

Recreation:

Preliminary Expense — Purchase:	
Sudbury River Meadows	200.00
Lake Cochituate Beach Expense	1.14

Public Service Enterprises:

Water Betterment — Fuller Road	55.98
--------------------------------------	-------

and the following accounts be transferred to “Water Available Surplus”:

Public Service Enterprises:

Water main connection — Plain Road	\$.76
New Truck	400.00
Installation of 3 hydrants	65.90

In addition to the sum of \$2,000.00, included in the budget to meet the Town’s share of the cost of Chapter 90 Maintenance, and \$5,000.00, in article 9 to meet the Town’s share of Chapter 90 New Construction, the sum of \$4,000.00 for Chapter 90 Maintenance and \$15,000.00 for Chapter 90 New Construction be transferred from “Unappropriated Available Funds” in the Treasury to meet the County’s and State’s shares of

the cost of the work, the reimbursement from County and State to be restored upon their receipt to "Unappropriated Available Funds" in the Treasury.

The Finance Committee recognizes that the volume of work for the Town Officials and employees, both paid and unpaid, has increased materially with the growth of the Town and wishes to express its appreciation to them for the successful carrying on of these added burdens.

The Finance Committee budget recommendations for the year 1953 are set forth in the attached schedule.

Respectfully submitted,

RICHARD H. BURCHILL,
GEORGE V. DEVERELL,
ROBERT M. MORGAN,
CHARLES Y. WADSWORTH,
FREDERICK S. WHITESIDE,

Finance Committee, Town of Wayland.

January 27, 1953

ANNUAL REPORT — BOARD OF SELECTMEN

During the fiscal year 1952 the Board held 24 regular meetings, and 4 special meetings, and 26 Public Hearings. The Board issued 168 licenses and granted 4 additional permits to store gasoline.

All regular appointments, as required by statute, have been made, and these appear in the list of Town Officers and Committees. It was with deep regret that the Board accepted the resignation of Archibald Cox as Assessor. Mr. B. Allen Benjamin was appointed to fill the vacancy. Mr. John Yeager, who has so ably served the Town as a member of the Finance Committee, declined reappointment because of increased private business. Mr. Richard Burchill was appointed for a term of three years starting December 1, 1952.

Mr. Clarence O. Baker was reawarded the garbage collection contract after bids were obtained by the Board of Health.

The Board met with the Allen Fund Trustees and the Welfare Board and distributed the income received from Charitable Funds.

The following were drawn as jurors:

Richard N. Owens
Charles F. Dufresne
Edwin A. Hillier
Harold G. Marston

Maurice J. McCarthy
Arthur Ahlman
Stanley Siok
Dayton G. Nelson

The Jury list may be found under a separate heading in the Town Report.

The Board expresses its thanks to Town Counsel, Roger P. Stokey, for his counsel and devotion to the Town of Wayland, and his untiring efforts in assisting the Board of Selectmen and other Town Departments. The Town has been successful in all trials in which the Town has been involved.

One Special Town Meeting was called mainly to consider School and Fire Department problems.

A petition was received to lay out Orchard Lane under the Betterment Act. The plan prepared by the Engineers has received the approval of the Planning Board. A public hearing will be held prior to the annual Town Meeting.

The use and operation of commercial vehicles with a capacity of more than two tons has been forbidden on:

- (a) Oak Street — from the Natick-Wayland line to Commonwealth Road East.
- (b) West Plain Street — from the corner of Old Connecticut Path and West Plain Street to Main Street.
- (c) East Plain Street — from Main Street to Commonwealth Road East.

The use and operation of vehicles at a rate of speed in excess of fifteen miles per hour has been forbidden on Pleasant Street from Parkland Drive to Pemberton Road.

This has been a busy year for the Selectmen and the problems have been many and varied. The attendance of all citizens is necessary at all Town Meetings, regular or special, due to the fact that our Town is growing very rapidly and many expensive appropriations will be presented from time to time.

The Board is most appreciative of the continued cooperation received from the Town Officers, Department Heads, and various special committees who have met the Board during the year to assist in solving the many problems which arose.

Together with all the residents of the Town of Wayland we pray for the safe return of all our men now serving in the armed conflict in Korea.

JOHN W. LEAVITT, *Chairman*
WILLIAM A. LOKER, *Clerk*
GERALD HENDERSON

REPORT OF THE TOWN ACCOUNTANT

For the Year 1952

To the Honorable Board of Selectmen:

In compliance with the provisions of Chapter 41, of the General Laws and amendments, I hereby submit the following report of the Accountant's Department.

1952 January 1 — Cash	\$270,636.82	
1952 Receipts	1,229,739.27

Respectfully submitted,

THEODORE H. HARRINGTON,
Tax Collector.

REPORT OF THE BOARD OF ASSESSORS FOR THE YEAR 1952

On July 31, 1952 the Board of Assessors received, with sincere regret, the resignation of Archibald Cox, who was asked to serve as Chairman of the Wage Stabilization Board, by the President of the United States. Because of the large volume of new building and the increased property transfers, the Selectmen appointed Mr. B. Allen Benjamin, as Assessor, to complete the three-man board.

Re-valuation of older properties has progressed during the year to get a better proportional value of all properties. The assessors have been doing their Field Work during the months of October, November and December on all finished or nearly finished buildings, to be able to present a better picture of the valuations as of January 1, 1953.

The Assessors have had to put in much more time and effort during the year 1952 than in any previous year, due to the extraordinary growth of the Town and because they are making a concerted effort to eliminate any irregularities for the year 1953.

The Board members are deeply conscious of the importance of keeping up a continuous effort to eliminate unfairness and inequality and realize fully that it is imperative that taxes be fairly assessed.

The permanent card file system, which was started last year, is proving to be quite valuable and when finished, the cards will make it much easier to compare properties and to help to avoid unfairness and inequities. Re-evaluation has been speeded-up during 1952 because of the additional information which was accessible from these cards.

Below are the figures showing the increased valuation over the last ten year period:

	<i>January 1, 1942</i>	<i>January 1, 1952</i>
Real Estate Assessed	\$5,370,794.50	\$8,580,002.56
Personal Property Assessed	473,400.00	463,263.00
	\$5,844,194.50	\$9,043,265.56
Increase in Valuation		\$3,199,071.06

Statistics for the year ending December 31, 1952

Real Estate Assessed January 1, 1951	\$7,466,660.00
Personal Property Assessed January 1, 1951	560,418.00
Real Estate Owned by Metropolitan District Commission	41,892.56
	\$8,068,970.56

MARRIAGES

Registered in the Town of Wayland for the Year 1952

JANUARY

- 19 Whitford B. Dashiell, Lena M. Pentes, at Needahm, by Winthrop M. Southworth, Justice of the Peace.
- 26 George Amos Sherman, Frances Theresa Martines, at Bedford, by Rev. William E. Kerrigan, Priest.

FEBRUARY

- 16 Camile Louis Perodeau, Viola E. Stewart, at Wayland, by Rev. John T. O'Neil, Priest.

MARCH

- 8 Gordon L. Hunt, Faith Wade, nee Anderholm, at Wayland, by Rev. Frederick C. Wilson, Clergyman.
- 12 Theodore Samaros, Marjorie Rita Sherman, at Boston, by Ross H. Currier, Justice of the Peace.
- 14 David Cameron Mercer, Betty Jean Barry, at Framingham, by Rev. Richard B. Hardy, Minister of the Gospel.
- 22 Frederick Morton Torrance, Florence Idella McWilliams, at Nashua, New Hampshire, by Rev. Willis Hubert Porter, Minister.
- 28 George John Bohlan, Louise Hunt, at Wayland, by Rev. George C. Gutekunst, Clergyman.

APRIL

- 5 Albert Ames, Priscilla Woods, at Wayland, by Rev. George C. Gutekunst, Clergyman.
- 19 Maurice M. Williams, Jr., Diane Tunnell, at Wayland, by Rev. Raymond G. Manker, Minister.
- 19 Joseph Bucci, Norma Jean Gladu, at Wayland, by Rev. John T. O'Neil, Priest.
- 19 Francis Stephen Davis, Jean Elenor Merritt, at Boston, by Charles Eliot Worden, Sr., Justice of the Peace.
- 23 Kendall Franklin Dickey, Blanche Genevieve McManus, at Nashua, New Hampshire, by Rev. Thomas B. Donnelly, Priest.
- 27 James Phillips Ambrose, Ann Lee Stacy, at Wayland, by Rev. Francis P. Connors, Priest.

MAY

- 4 Alfred J. Zonghi, Marie Ann McEnroy, at Wayland, by Rev. John T. O'Neil, Priest.

- 4 James E. Eagan, Evelyn Caroline Anderson, at Wayland, by Rev. James E. Fahey, Priest.
- 17 William Augustin Heard, Evelyn Earl Dickins, at Wayland, by Rev. Palfrey Perkins, Clergyman.
- 17 Placido Joseph Fornaro, Charlotte Anne Ballard, at Wayland, by Rev. John T. O'Neil, Priest.
- 25 Samuel Stephen Crisafulli, Janet Rose Perodeau, at Wayland, by Rev. John T. O'Neil, Priest.
- 31 Andrew Paul Dallamore, Barbara Ann Tarr, at Wayland, by Rev. John T. O'Neil, Priest.
- 31 William Carver Stoddard, Barbara Jean Verity, at Somerville, by Rev. Guy H. Warne, Minister.

JUNE

- 1 Harold Leroy Carver, Helen Susan Lane, at Wilmington, by Rev. Otis A. Maxfield, Clergyman.
- 8 Irwin K. Rosenberg, Barbara Fay, at Sudbury, by Rev. Raymond G. Manker, Minister.
- 22 Paul Leo Perodeau, Margaret Mary Curley, at Framingham, by Rev. Robert W. Kirchmeyer, Priest.
- 27 Henry Clifford Boshan, Sara Jane Hammer, at Wayland, by Rev. Morris R. Robinson, Clergyman.
- 28 Richard Bannister, Ann Morton, at Newton, by Rev. G. F. Chauncey, Clergyman.
- 29 Robert Gregory Walcott, Rena Irene Albert, at Wayland, by Rev. John T. O'Neil, Priest.

JULY

- 1 John Creco Peters, Leta Elizabeth Rhoades, at Bangor, Maine, by Rev. Alger W. Geary, Clergyman.
- 5 Arthur Ivison Schofield, Shirley Ann Buckingham at Wayland, by Rev. George A. Hodgkins, Minister.
- 6 Francis James Sheehan, Betty Jane Rokes, at Framingham, by Rev. Robert W. Kirchmeyer, Priest.
- 19 Gerard Robert Frechette, Florence Frances Hynes, at Wayland, by Rev. Francis C. Frechette, Priest.
- 24 Austin Neil Stevens, Cynthia Fisher, at Lincoln, by Rev. Morris R. Robinson, Clergyman.

AUGUST

- 9 Joseph Anthony Wenners, Jr., Jean Catherine Fannon, at Wayland, by Rev. Otis F. Kelly, Priest.

- 22 Michael C. Moore, Dorothy H. Poirier, at Cambridge, by Rev. William J. Donlon, Priest.
- 23 Richard Warren Little, Sandra Lee Stewart, at Weston, by Rev. G. F. Chauncey, Clergyman.
- 23 Whitney Blair, Susan Bridge, at Rockingham, Vermont, by Rev. Robert S. Kerr, Clergyman.
- 28 James George Marcantonio, Fern Olive Wood, at Framingham, by Rev. Ivan C. Bys, Minister.

SEPTEMBER

- 7 Domenic Soldicick, Frances M. Krivicick, at Wayland, by Rev. Otis F. Kelly, Priest.
- 7 Joseph R. Tierney, Louise J. Cafarella, at Watertown, by Rev. George T. Carrozza, Priest.
- 13 Charles Allen McKenney, Margaret Janet Heavey, at Wayland, by Rev. James E. Fahey, Priest.
- 18 John Stanley MacArthur, Mary Margaret Flanagan, at Newton, by Rev. Francis X. Bramfield.
- 20 Malcolm Albert Tenney, Martha Mary Dudley, at Waltham, by Rev. Donald W. Lawson, Minister.
- 27 Donald M. Larson, Dorothy E. Povall, at Boston, by Rev. Eason Cross, Clergyman.

OCTOBER

- 4 James L. Burbridge, Annie Rose Morrissey, at Needham, by Winthrop M. Southworth, Justice of the Peace.
- 12 Andrew L. Burke, Anita V. Paganelli, at Marlboro, by Rev. Francis L. Gallagher, Priest.
- 19 Paul Edward Carter, Dora Mary Dischino, at Wellesley, by Rev. Robert H. Lord, Priest.
- 19 Herbert Donald Place, Bette Louise Richardson, at Wayland, by Rev. David M. Angell, Clergyman.
- 20 John O'Connor, Elizabeth Jane (Lewis) Diggins, at Wayland, by Rev. Raymond G. Manker, Minister.
- 25 John Lawrence Daly, Catherine M. Heavey, at Framingham, by Rev. John J. Connolly, Priest.
- 26 Paul Edward Kohler, Joann Dorothy Gleason, at Framingham, by Rev. George D. Cleland, Jr., Minister.
- 26 Libero C. Georgini, Josephine A. Mascia, at Wayland, by Rev. John T. O'Neil, Priest.

NOVEMBER

- 15 Calvin H. Hollowell, Muriel L. Taylor, at Wayland, by Rev. George C. Gutekunst, Clergyman.
- 23 Richard Alfred Gladu, Janet Marie Byrne, at Natick, by Rev. John J. McNally, Priest.
- 23 Henry Albert Ulrich, Marie Adeline Richardson, at Wayland, by Rev. William J. Carty, Priest.
- 26 William Gene Schneider, Kathryn Jean Kiefer, at Weston, by Edward M. Dickson, Justice of the Peace and Town Clerk of Weston.
- 29 Joseph W. Lydon, Jr., Helen Agnes Gladu, at Wayland, by Rev. Bernard A. St. Hilaire, Priest.
- 29 Joseph S. York, Jr., Gertrude Belle (Carter) Johnson, at Framingham, by Rev. Robert L. H. Miller, Clergyman.

DECEMBER

- 8 Edward Joseph Flynn, Helen Mae Sellar at Manchester, New Hampshire, by Rev. Harold W. Woodbury, Minister.
- 20 Gary Charles Foreman, Patricia Emily McLellan, at Wayland, by Rev. John T. O'Neil, Priest.
- 27 James J. Brown, Mary T. Coyle, at Wayland, by Rev. Otis F. Kelly, Priest.
- 27 Joseph Michael Angelosanto, Margaret Marie Dimodica, at Wayland, by Rev. John T. O'Neil, Priest.
- 28 John Melville Dahlan, Shiela P. Noonan, at Wayland, by Rev. Otis F. Kelly, Priest.

Distrurbing the peace	1
Assault and Battery	7
Search Warrants	2

143

This list includes arrests made by the State Police.

This list does not include juvenile arrests.

The Wayland Police served during 1952, One Hundred and nineteen summonses, Fifteen subpoenas, Eight summonses to show cause, Two summonses to children and Twelve warrants.

The total number of automobile accidents has again increased over the past year; however, again fatalities are recorded. In an attempt to decrease the accident rate additional directional and warning signs have been conspicuously posted along our roads.

It was an honor, indeed, for me to receive last October a certificate bearing recognition of our 1951 safety record. The award was made by the Governor's 6th Highway Safety Conference to the Town of Wayland because there was not a single motor vehicle fatality during the twelve month period. Let us strive to maintain this record which — at the present writing is still unmarred. Already large, thought provoking safety calendars have been purchased and distributed through the courtesy of the Wayland Lumber Company.

With great anticipation I watch the construction of the Town's first police station. As the building is progressing — so is the Town — not only in population but in its forward thinking ideas. It is sincerely hoped that upon completion of the station the total number of permanent police officers will be changed from one to three. Surrounding towns of comparable size do employ this many policemen. It goes without saying that with a larger department more beneficial services can — not only be expected — but rendered.

I wish to thank Chief Shea and the Natick Police Department, my fellow officers, the various department heads and the loyal citizens of Wayland for their tolerance and continued cooperation. It is this type of stimulated cooperation combined with an integration of efforts that makes it possible for me to say to all — "a job well done." Again accept my sincere thanks and my pledge that ever continuing advances will be made by the department which I so proudly head.

Respectfully submitted,

ERNEST H. DAMON,
Chief of Police.

REPORT OF COMMISSIONERS OF TRUST FUNDS

During the past year no changes in investments have been made.

The only new funds received have been Cemetery perpetual care funds which funds have been deposited in approved savings banks.

Full information relating to income and expenditures and the investments of the fund will be found in the Report of the Town Treasurer.

JOHN W. LEAVITT, *Chairman*
J. REED MORSS,
J. SIDNEY STONE.

The Board of Engineers, as members of the Special Fire Survey Committee, have spent much time and thought in developing the program, authorized at the last annual town meeting, for the better fire protection of Wayland. To carry out this program, the town meeting

voted the money to purchase two new fire trucks, one for Cochituate and one for Wayland, to construct and equip a fire station in Cochituate, and to extend the fire alarm system from the Center to the Weston line. It was voted also at this time that all the Board of Engineers be members of the Special Fire Survey Committee.

Many trips were made to neighboring towns and cities to view the latest in fire trucks and fire stations. These trips were time consuming, and so it was late summer before the Board of Engineers and the rest of the Survey Committee were acquainted fully with the various makes of fire trucks and types and construction of fire stations. Then three separate proposals were drawn up with the aid of the Town Counsel, and duly advertised in the local paper for bids.

The bid for the two fire trucks, each of 750 gallon pumping capacity, was awarded to the Mack Motor Truck Company for the sum of \$34,519.90 on June 10, 1952. This company is an old established concern in the motor truck field, with one of its divisions of manufacturing devoted solely to the fire truck industry. Moreover this concern manufactures its own trucks, and does not make a composite truck from assembled parts of various makes. Another favorable point in awarding this bid to the Mack Truck Company, is the fact that it has a sales and parts department in Boston with twenty-four hour service.

The bid of \$43,900 for a brick colonial fire station in Cochituate was awarded on September 25, 1952 to Dan Canning of Natick. This contractor has had twenty-five years experience in general contracting, and this has included the construction of many public buildings.

The bid for the mutual aid circuit to Weston was awarded for \$4,780 to Louis Bills of Lexington on September 9, 1952. The contract called for four fire alarm boxes to be installed on State Road East, and three fire alarm boxes on Plain Road, with a mutual aid circuit joining the Wayland and Weston Fire Departments alarm systems.

At the time of the writing of this report in December 1952, the work on the fire station in Cochituate is reaching the half way mark, and should be completed, barring adverse weather conditions by the last of February. Delivery of the fire trucks is expected also at this time. The line construction on the mutual aid project has been installed, and sometime in January, with the alarm boxes installed and the electrical equipment in the Town Hall completed, this system should be in working order.

During the summer the Fire Department was badly hampered by children on bicycles and automobiles getting in the way of the fire trucks and call firemen, who respond to the alarms in their own cars. The situation

became so serious, that the Board of Engineers asked the clergy of their respective churches to speak of this problem and explain it to their parishioners. Scout officials were asked to co-operate also, and to explain the seriousness of obstructing the Fire Department when answering an alarm. This difficulty has been experienced in other towns and cities, and as a result the following legislation was passed by the General Court this year.

An Act Further Restricting The Use Of Ways In Case Of Fire
[CHAP. 172]

AN ACT FURTHER RESTRICTING THE USE OF WAYS IN CASE OF FIRE.

Be it enacted, etc., as follows:

Chapter 89 of the General Laws is hereby amended by striking out section 7A, as appearing in the Tercentenary Edition, and inserting in place thereof the following:—

Section 7A. — Upon the approach of any fire apparatus which is going to a fire or responding to an alarm, every person driving a vehicle on a way shall immediately drive said vehicle as far as possible toward the right-hand curb or side of said way and shall keep the same at a standstill until such fire apparatus has passed. No person shall drive a vehicle over a hose of a fire department without the consent of a member of such department. No person shall drive a vehicle within three hundred feet of any fire apparatus going to a fire or responding to an alarm, nor drive said vehicle, or park or leave the same unattended, within eight hundred feet of a fire or within the fire lines established by the fire department, or upon or beside any traveled way, whether public or private, leading to the scene of a fire, in such a manner as to obstruct the approach to the fire of any fire apparatus or any ambulance, safety or police vehicle, or of any vehicle bearing an official fire or police department designation. Violation of any provision of this section shall be punished by a fine of not more than one hundred dollars.

Approved March 25, 1952.

In the spring, at a date to be announced later, open house will be held at both fire stations. Members of the Fire Department will be present and will be pleased to have the citizens inspect the new equipment and the new station in Cochrasset, and the new equipment in Wayland Center.

For the past four years an oil storage tank and oil burner inspection program has been in progress by this department. Every house, apartment,

store and public building has been visited. Where the oil equipment was found to be in order a permit was issued. In cases where the equipment was defective, the permits were withheld until the necessary repairs were made. In January oil dealers will be notified not to put oil in any storage tank unless there is an inspection slip posted near the tank. This oil burner inspection has been conducted in accordance with the provisions of Chapter 148 of the General Laws.

There were 729 oil storage inspections made this year, plus 202 new installations; 52 installations were found defective and permits were denied until repairs were made by the owner. Fees collected from new oil burner permits for 1952 amounted to \$101, and have been turned over to the Town.

The Board of Engineers, with the rest of the Fire Survey Committee, have spent many hours during the past two years on the program outlined above, and 1953 brings many more problems. The biggest one facing the Board of Engineers is the change to be made in the telephone system in Wayland. In the past the telephone operators have done an outstanding job in handling the fire calls, but with the introduction of the dial system a change must be made in this method of fire calls. Some system will have to be worked out for fire calls, and when it is, each citizen will be notified by letter as to the change.

It was unfortunate that due to the early morning hours, the fire at St. Ann's Rectory was not observed, nor reported, until the interior of the house was consumed entirely in flames. The death of Rev. Father James E. Fahey in this fire was felt deeply by the Department, for in the short time he had lived here, he had become interested in the Fire Department and the work of its Relief Association.

The Board of Engineers would like to thank the neighboring Towns of Natick, Weston, Framingham, Sudbury and Lincoln for their mutual aid service. The Board extends also its thanks to the men who have so loyally served the Department, and to those citizens who, from time to time, have offered their services in times of emergency.

Respectfully submitted,

F. CLIFTON HAYNES, *Chief*
H. L. MacDONALD, *Assistant Chief*
FRANK H. CARTER, *Deputy Chief*
PARKER H. GROTON, *Deputy Chief*
ERNEST H. DAMON, *Engineer*
Board of Fire Engineers.

CIVIL DEFENSE ANNUAL REPORT

REMEMBER

RED ALERT — short blasts for
3 minutes on the fire alarm.

REMEMBER

ALL CLEAR — 5-5 repeated 3
times at two minute intervals.

Much has been accomplished, thanks to the interest and loyal support of many of our citizens, during this first year of civil defense activity and we can say with some confidence that our organization is already prepared, if necessary, to cope with a natural or military disaster. Nevertheless, much remains to be done.

We have followed the excellent and thoughtful report prepared by the Civil Defense Planning Board. It was the concensus of the Board that Wayland should not, at present at least, attempt to prepare against direct enemy attack, there being no military target close to our town of sufficient importance to merit bombing with atomic weapons. This is admittedly a gamble, or perhaps better, a calculated risk which we are taking. Hence our efforts have been directed toward planning and building an organization and educating our people to protect life and property in our town, to handle refugees who pass through our area, to care for those who can go no further, and finally to send aid to other areas harder stricken than our own under orders of our Regional Director of Region III — Worcester. Likewise, we have attempted to formulate a program which would not unduly tax the time and good nature of our personnel, believing that if we have our plans made, essential equipment on hand, and leaders trained, the additional man-power we need can be quickly mobilized when and if the time comes. With respect to equipment, we have adopted the principle that nothing should be purchased which will not be of permanent use to the town, even after our organization has been disbanded in a more peaceful time.

With this background there follows a brief statement concerning each of the different phases of our activities.

REPORT CENTERS — COMMUNICATIONS

The civil defense report center, in time of crisis, will be the heart of our organization. The office and principal report center, now virtually complete, is located in a specially constructed room in the basement of the Public Library. A secondary command post has been built in the basement of Legion Hall in Precinct 2. Both centers are equipped with essential furnishings and telephone service. The files are maintained at the principal office, but, if necessary, control of operations could be had from either

center. Two complete radio stations, one in each center, have been acquired for communications, both within the town and within our regional headquarters. Emergency electric plants will permit operation of these stations should Edison power fail. It is contemplated that an additional small number of portable radio units will be acquired to work with the existing fixed stations from any desired locations. One of our radio stations has already been on the air in civil defense service. The radio equipment will always be available for emergency and for police and fire communications as the town grows. Certain of the radio amateurs through their untiring efforts and generosity, have made possible the successful establishment of our emergency radio communications network.

PERSONNEL — MAN-POWER SURVEY

The deputies and assistants of each department are representative leaders of the town and our program would have failed without their enthusiastic support. At the commencement of our program we mailed a questionnaire to every adult resident of the town. The response has been excellent. Returned questionnaires show a wealth of talent capable of mobilization for almost any type of emergency service. These questionnaires have been studied and classified for ready reference. The head of each department has available a list of all residents who either expressed an interest or indicated previous experience in the work of such department. It must be evident that Wayland might be severely handicapped by a man-power shortage should a disaster occur during a business day since most of its male population is employed elsewhere. Residents who have not returned questionnaires, and new residents, are therefore urged to contact the Director so that their names and talents may be added to our files. Oaths of office of 115 persons are already on file.

AUXILIARY POLICE

Recruiting, equipping and training of an adequate auxiliary police force built about a nucleus of special officers with previous experience during World War II has top priority in our program. Two platoons now stand organized, one for each precinct, and as of December 31st approximately 35 applications had been received from each precinct, bringing us well toward our immediate goal of 100 men. Under the Civil Defense Act those men who qualify will receive commissions as auxiliary police officers with police authority when called to active duty by the Chief of Police in an emergency. Experience has shown that such an emergency may arise from other than military causes and the Wayland Auxiliary Police should never be permitted to lapse.

The training program calls for monthly meetings, including lectures and practical work and training films. Those interested may participate in weekly pistol training at the range in the Town Hall. Only those officers who qualify on the range will receive revolver permits. Two auxiliary police pistol teams are now competing regularly and with a considerable degree of success in matches sponsored by the New England Police Revolver League.

Police Manuals and notebooks have been issued to the police trainees and all officers, when they are commissioned, will receive badges, arm-bands, whistles and billies. Police operations will be conducted from the auxiliary police office already constructed next to the pistol range and from another headquarters in Precinct 2.

MEDICAL AND HEALTH

Wayland, under present plans, is to share a large scale first aid station (not yet established) with neighboring towns. Our medical and health division has selected locations within the town for additional local emergency stations, at least one in each precinct. If the Commonwealth should, in the future, allocate first aid equipment to us, we will be prepared to meet the requirements for care and storage of the same.

In addition, our files contain the names of persons trained in first aid or nursing and of all doctors within the town. These persons could be mobilized on short notice. The Red Cross is planning a first aid training program for civil defense workers.

BLOOD PROGRAM

An atomic attack would create an urgent demand for whole blood on a scale not even approached in any previous war. For his own protection everyone should carry a card on his person at all times showing his blood type. In August 1952, under the sponsorship of this office, mass blood typing of 459 townspeople was carried on during two afternoons and evenings. An index is maintained of all these persons, classified by type. To this file will be added the blood type data presently maintained by the Red Cross.

FIRE DEPARTMENT

Recruitment and training of auxiliary firemen has necessarily been deferred to permit the Fire Department to build a new fire house and acquire two new fire engines. Upon completion of these projects it is hoped that the department can be expanded to include an auxiliary force sufficiently trained either to aid other communities or to stand by while

the regular force is called to such aid. The danger of fires of secondary origin is one of the principal hazards of the atom bomb. Every resident should survey his house to eliminate fire hazards and be prepared to extinguish incipient fires quickly and without outside help.

CIVILIAN WAR AID DIVISION

This department is charged with a variety of duties primarily concerned with emergency feeding and housing, not only our own people but also many refugees whom we may be required to accommodate.

A fairly complete survey of the housing facilities of the town has been made, including statistics on the number of rooms and baths in each house surveyed and an indication of the number of persons of each sex who could, if necessary, be accommodated. The survey was extended to barns and other outbuildings which might be pressed into service and it is believed that we know about how many additional persons can be temporarily housed if the need should arise.

Likewise this division has contacted all commercial food establishments and they have been found to be adequate to feed the numbers of persons that we are equipped to house. Our retailers normally maintain about a two-weeks stock of food on hand based upon normal consumption. Perishables, of course, would be used up rapidly, although the town is fortunate in having several local dairy farms which could furnish milk on a rationed basis to everyone. *Residents should maintain at all times an emergency stock of canned foods sufficient to supply the family for several days.*

The warden section of Civilian War Aid has yet to be organized. The town will be divided into convenient districts and a warden appointed to act as local leader in time of disaster. This warden will be directly responsible for the housing of refugees in his district, and for liaison with the Report Center.

CIVILIAN DEFENSE IN THE SCHOOLS

Liaison has been established between the Civil Defense organization and the school authorities who have received all material suggested by state and federal civil defense officials for school purposes. The excellent training film for younger people, "Duck and Cover," has been made available for showing to all grades in the schools.

TRANSPORTATION AND EVACUATION

A survey has been completed of trucks registered in Wayland. The data thus obtained are under study and the leaders of this department

contemplate the organization of a small emergency transportation corps whose members, recruited from this list, will go into action in accordance with a prearranged plan in case of disaster. Additional transportation will be mobilized as needed. This group will be prepared to transport personnel and equipment within the town and also to go to the aid of other areas if called upon.

PLANS FOR 1953

Continuation, especially of the police training program, and building of those departments which are behind the others will highlight activities for the year 1953. We will purchase essential additional equipment, especially mobile radios, field telephones, and wire to supplement the radio network, and alarm boxes to sound the RED ALERT and the ALL CLEAR, possibly an electric generating plant of sufficient capacity to operate the fire alarm air horn and furnish emergency lighting to town hall offices. Billies and belts will be needed for the police. The Warden Department must be greatly expanded to include a warden for every district.

In 1952 we spent only about \$1,900 of our allotted \$2,500. For the year 1953 we have every reason to believe that our activities can be conducted adequately on an equally modest budget.

Respectfully submitted,

W. R. HULBERT,
Director.

BENJAMIN BEALE,
Assistant to the Director.

REPORT OF PLUMBING INSPECTOR

During 1952, there were two hundred and six Plumbing Permits issued for which Nine Hundred and Fifty-three Dollars was collected and turned over to the Town Treasurer. All jobs were inspected and passed.

At this time I recommend that the Town of Wayland adopt the State Examiners of Plumbers Code in the near future.

Respectfully submitted,

TIMOTHY J. DALY

REPORT OF THE BOARD OF PUBLIC WELFARE

There has been no appreciable change in our Old Age Assistance case load since the first of the year but, as it has not risen over ninety during the whole year, our average for 1952 is much lower than the average for 1951. Costs have not decreased much due, in part, to an increase in the State minimums which went into effect January 1, 1952, and in part to a high incidence of rest home cases. The federal reimbursement was increased on October 1, 1952 which will lower the net cost to the town.

There has been an increase in the Aid to Dependent Children cases for the year, our highest being 18 cases with 44 children. This caused an increase in the total cost of maintenance, of course, but the federal share for this category was also increased on October 1, 1952 which will help to keep the net costs down.

We have been able to reduce the General Relief case load quite appreciably during the year. Most of the cases on this category are chronic and some have been judged eligible for the new form of aid, Disability Assistance. Costs have remained about the same as last year due partly to heavier medical expenses.

Disability Assistance is available for people who are permanently disabled through sickness or accident and who are in need. The eligibility for this form of aid is determined by a State Medical Board. We have been able to transfer five of our former General Relief cases to this form of aid and two new cases were also judged to be eligible. Because of the nature of the cases, medical expenses may prove high but as there is a 75% reimbursement to the town, divided between the State and Federal governments, the final cost to the town should be fairly low.

We will continue to distribute Welfare Funds in the way which seems best for the interests of the taxpayer.

Respectfully submitted,

RONALD H. WOOD, *Chairman*
J. SIDNEY STONE,
CARLISLE D. SCOTLAND, *Clerk*.

REPORT OF THE BUILDING INSPECTOR

The Building Inspection Department submits the following report for the year ending December 31, 1952:

The number of permits issued during 1952 are as follows:

Building Permits

- 31 Alterations
- 140 New Houses
- 14 Garages
- 4 Storage Sheds
- 1 Tool Shed
- 1 Fire Station

Wiring Permits

- 42 Alterations
- 141 New Houses
- 15 Hot Water Heaters
- 7 Ranges
- 38 Oil Burners
- 1 Fire Station
- 1 Signal System
- 4 Electric Dryers
- 1 Filling Station
- 1 Air Conditioning Unit
- 1 Store
- 1 Temporary Service
- 1 Electric Sign

The total estimated cost of new buildings and alterations was \$1,203,150.00. There were 140 homes built this year which was 15 less than last year's record of 155. One contributing factor in this year's lower amount of new houses was that very little interior land was developed in 1952 as compared to 1950 and 1951. A list of comparisons to show the development of new homes in the past two years are shown below.

<i>Year</i>	<i>New Houses</i>	<i>Estimated Costs</i>
1950	141	\$ 754,500.00
1951	155	875,000.00
1952	140	1,203,150.00

NEW HOUSE DEVELOPMENT BY PRECINCT

<i>Year</i>	<i>Cochituate</i>	<i>Wayland</i>
1950	30	111
1951	62	93
1952	40	100

A large percentage of the houses built this year, as in former years, were made for individual requirements rather than for speculation. There were more costlier homes built this year, as has been shown in the estimated cost column. Good workmanship prevailed on these houses and the code requirements were followed except in one case on an alteration. The contractor refused to comply with good building practice so a court case was brought against him by the home owner, with a favorable verdict to the owner.

Four buildings were found this year that were deemed a menace to life and limb, and also a fire hazard. Three of these buildings were as follows: a large barn; a storage shed; and a small store. All of which had outlived their usefulness, and were in a bad state of repair. These three buildings were torn down on a voluntary basis without condemning procedures which was a commendable gesture on the part of the owners. The fourth building, which was a former camp, was torn down and a house was built on its site.

There were 254 wiring permits issued this year which was 23 less than the previous year.

Forty-one cases of zoning variations were prepared and brought to the Zoning Board of Appeals for decision. There were ten cases more than the previous year.

Fees collected from both wiring and building permits during 1952 amounted to \$2,202.00 and have been turned over to the Town Treasurer.

The Building Department would like to thank the Town Officials and Citizens who have helped in the affairs of this office during the past year.

Respectfully submitted,

HOMER L. MacDONALD

Building Inspector.

REPORT OF THE CEMETERY COMMISSIONERS

The development of the new areas at Lakeview and North Cemeteries have been carried on as rapidly as the limited time remaining from the care of the existing cemeteries would permit; and the first section of the extension will be opened in the spring. At the North Cemetery the hedge of evergreens required in the deed for the land has been set. About 160 arbor-vitae trees were required and we have others for replacement if necessary.

One long felt need has been supplied by the erection of a substantial cinder block toolhouse at the North Cemetery, well located and of ample size. This was built at an expense of \$1,222.00; \$1,000 given by the Town, the remainder taken from the James Maynard Parmenter fund for perpetual care and improvement. It will now be possible to safely keep tools and supplies there over night or longer if necessary.

It is hoped that funds will be provided this year to resurface the entrance roads to both of these cemeteries with hot top. This would be an investment that would in coming years, save money for the town. In the past two years the sloping entrance to the North Cemetery has been washed far down the street a half dozen times by heavy rains, necessitating much labor to repair; and piecemeal repairs at Lakeview have proved but temporary stop gaps.

Following the opening of several tombs at the South Cemetery and the looting of one by roving groups of boys, all tombs were closed and the fastenings welded to guard against any further violation.

Five perpetual care gifts have been received this year, amounting to \$640.00; all for lots in Lakeview Cemetery as follows:

\$100.00 bequest of S. B. Homer Whitney to establish the S. B. H. Whitney fund, for the care of Lot 17, Sec. C.

\$40.00 given by Myrtie M. Nelson to establish the Nelson fund for the care of grave No. 8 Lot 97, Sec. C.

\$200.00 given by Henry M. Kelley as an addition to the Jones Kelley fund for the care of lots 99 and 100, Sec. C.

\$150.00 given by Hazel B. Taylor to establish the Harold Taylor fund for the care of Lot 104, Sec. C.

\$150.00 given by Howard Garfield to establish the William Garfield fund for the care of Lot 37, Sec. B.

Seven lots and three single graves have been sold; two lots in the North Cemetery, two in the Center and three lots and three single graves in Lakeview for which we received \$385.00. Quite a list of applicants are awaiting the opening of the new section next summer.

Foundations were built for six monuments at a cost of \$139.00.

One hundred and thirty nine lot owners paid for the yearly care of their lots, the sum of \$597.00.

The year 1952 has been widely marked as more than normally healthful and the record of the town follows this trend. In spite of the considerable increase in the population, only 39 burials have been made in the town's cemeteries this year as compared with 42 last year and 47 the year before.

Respectfully submitted,

ERNEST W. SCHLEICHER
RALPH H. YETTON
WARREN D. VALENTINE

REPORT OF THE ANIMAL INSPECTOR

I herewith submit my report as Animal Inspector for the year 1952 for the Town of Wayland.

595 Native Cows
133 Young Stock
22 Bulls
54 Sheep
305 Swine
23 Horses
2 Mules
3 Steers
9 Goats
183 Interstate Cattle
25 Dogs Quarantined

Respectfully submitted,

WARREN F. LAWRENCE
Inspector of Animals

1952 REPORT OF THE WORK OF THE MIDDLESEX COUNTY EXTENSION SERVICE IN WAYLAND

The Middlesex County Extension Service is an organization maintained by the County in cooperation with the University of Massachusetts and the U. S. D. A., to serve the citizens of the town in the field of agriculture and home economics. The work is carried on under the guidance of the town director who is assisted by the chairman in homemaking and boys and girls 4-H Club work.

The County office makes farm and home visits to help when requested, and, in addition, carries on organized projects County-wide, under the guidance of farmers' and homemakers' service on County Committees.

Radio service is maintained weekly on WBZ; monthly on WHDH, and five days a week during the summer on WKOX. A monthly bulletin with a circulation of 5,000, is maintained, and timely notices of interest to dairymen, fruit growers, market gardeners, poultrymen, and commercial florists are sent to anyone on request.

Some of the special activities of local interest follow. Dairymen were primarily interested in cooperating in the New England-wide Green Pastures Program, the Dairy Herd Improvement Association, Owner Sampler work, and Selective Breeding.

The Extension Poultry Program in 1952, was keyed to help poultrymen and turkey growers to improve the efficiency of their operations, maintain flock health, and take better advantage of their marketing opportunities. Efforts were made to provide breeders with information which might help them to hold their prominent place in the industry and routine service was provided in all phases of poultry and turkey farming.

A spray service is maintained by radio to all fruit growers as well as market gardeners. Fruit growers also follow closely the weekly twilight meetings held during the growing season to keep abreast of production and marketing problems. There has been an increased demand from home owners for information on vegetables, flower gardens, and lawns.

Wayland continues an active interest in Extension programs with Mrs. Frederick Walther representing the center section, and Mrs. Fred Gelinas and Mrs. Harold King representing Cochrasset on the Women's Advisory Council. Demonstrations include "Effective Windows," "New Ideas in Food Preparation," and "New Laundry Products." The "Christmas Everywhere" program was presented and discussion meetings were

held on "Managing the Family Income." Slip-cover making and chair seating classes were held, as well as furniture refinishing.

Coat making leadership classes were attended in Cochituate, and classes taught by Mrs. Kay Tobin, and Mrs. Grace Irwin.

Mrs. W. C. Wolff, Mrs. E. J. O'Neill, Mrs. Edward Coe, Mrs. Harold King, Mrs. Helen Wadland and Mrs. Fred Gelinat attended leadership classes in Textile Painting and taught local groups.

Seventy boys and girls were enrolled in 4-H activities in garden, poultry, livestock, horse, handicraft, tractor maintenance, clothing, and food preparation. These clubs were under the leadership of John Arnold, Elmer Bigwood, Mrs. Archibald Cox, Mrs. Lawrence Hollis, Mary Reid, Marjorie Sisson, George Small, and Louise Taylor. Eleven girls took part in the activities of County Girls' Day in Lexington. Two Club members attended Camp Middlesex. Carol Deverell won two Firsts on her poultry at the County 4-H Fair.

The 4-H Committee of Cochituate sponsored a well-attended Talent Show with twenty numbers on the program. The purpose was to acquaint local people with 4-H and to earn money for 4-H Activities.

JOSEPH DECATUR

REPORT OF THE MOTH SUPERINTENDENT

The Moth Superintendent is pleased to report that the Gypsy Moth Spray Program has been successful in control work throughout the Town. The trees on all existing streets and roadways, including new developments, have been sprayed and examined. All private contract spraying has been completed satisfactorily.

In the past year, a number of Elm Trees have been removed and destroyed due to the Dutch Elm Disease. To date the serious threat of this disease to our Elms has been curbed to a certain extent and with continued work, we should be able to lessen this threat.

Samples of the remaining suspects have been taken and sent to Amherst for culture.

Respectfully submitted,

JOHN E. NELSON

Moth Superintendent

ANNUAL REPORT OF WAYLAND PARK DEPARTMENT, 1952

The Board of Park Commissioners sets forth below its report for the year 1952.

1 *Riverview Playground*

Further improvements in the quarters allocated to the Riverview Improvement Association were made during the past year by the members of the Association, such improvements having been approved by the Park Commissioners. The playing field was maintained during the season by the Park Department. Plans for somewhat enlarging the recreational facilities of the playground are in the Park Department's 1953 Program.

2. *Whittier Memorial*

Customary care of this Memorial was given during the season. The Department is considering a change in the curbing to improve its appearance and facilitate the mowing and care of the grass.

3. *Lake Cochituate Recreation Area*

The Beach House was altered and renovated to provide proper dressing and other facilities for the inhabitants of the Town who use the beach. Mr. William Gray, Jr., Director of Athletics at the Boston Y. M. C. A. was engaged as Beach Supervisor for the bathing season, which commenced on June twenty-second and ended on September seventh. Adequate life-guard protection, under his direction, was provided. A Matron was employed to be at the Beach House during the hours the beach was opened during the season. A system of identification control was established to insure that the beach facilities be used only by inhabitants of the town and their guests. The Beach, in general, was improved by the removal of certain trees and levelling and grading, thereby extending the actual area of the beach.

According to daily reports of the life-guards, submitted by the Beach Supervisor to the Board, the attendance at the beach totalled 28,967. Of this total, 28,393 represented attendance by the townspeople; 574 by guests of the townspeople. The department instituted a program of voluntary contributions, which produced the sum of \$1,088.75 — this amount has been turned over to the Town Treasurer.

The Department would like to take this opportunity to thank those who, by their contributions, furthered the department's progress toward

its goal of making every provision for the enjoyment and safety of those using the beach.

Of the three houses on the property, other than the Beach House, the Park Department has demolished the house south of the Beach House. Of the remaining two houses the Park Department has permitted the Boy Scouts of America, Troop No. 1, Wayland, to occupy the most easterly dwelling, on their agreement to rehabilitate it. It is anticipated that in the coming season, the other remaining house will be demolished, with the Boy Scouts using any salvageable materials. The Park Department proposes to continue its efforts to make this area more enjoyable for the citizens of Wayland during the 1953 season.

4. *Wayland Greens*

In this area, through the generous co-operation of the Wayland Garden Club in not only supplying plants and shrubs, but also generally assisting the Park Department the members arranged to have an additional portion of the easterly side of the Brook skirting the Greens landscaped. It is the hope of the Park Department to continue to beautify this area.

5. *Cochituate Ball Field*

In addition to the usual care, a survey was made in this area by a Civil Engineer to determine accurately certain boundaries to permit eventual installation of a suitable fence from the easterly end of the Tennis Court along Bradford Street. The lighting system in this area recently installed by Mr. Howard Phillips, has been offered to the Town for purchase. As of this date, negotiations have not proceeded sufficiently far enough to enable the department to formulate a policy to recommend to the Town and to the Finance Committee.

6. *Wayland High School*

The use of the Wayland High School Field and the Cochituate Ball Field by the Little League was enthusiastically endorsed by the department. The department contributed certain equipment to further this activity.

7. *Heater pieces, Bus Shelter, Mill Pond and Dudley Pond Area*

These areas were mowed, fertilized and cared for by the Park Department. The Department hopes to continue its program to improve these areas.

8. *Arts and Crafts*

In addition to the recreational activities pursued on Park Department Property as set forth above, the department also supported with

enthusiasm and financial assistance the Arts and Crafts Program which was conducted in the High School during the Summer season.

The Commissioners wish to express their sincere thanks to the secretary of the Board and their employee, Mr. Stephen McEnroy for their unflagging devotion to duty during the year 1952, and further, would like to thank the officials and the many citizens of the Town who assisted and cooperated with the Department in its activities.

FRANK S. TARR, *Chairman*
NATHANIEL HAMLEN, *Clerk*
THOMAS F. MURRAY

REPORT OF SEALER OF WEIGHTS AND MEASURES

I submit my report for the year 1952 as Sealer of Weights and Measures.

Number of places visited 41.

14 Gasoline Filling Stations	1 Hay and Grain Store
11 Markets and Grocery Stores	1 Hardware Store
9 Farm Stands	1 Candy Dealer
1 Coal Scales	1 Food Processing Plant
1 Lumber Yard	1 Drug Store (tested by Mr. Dawson)

Total fees collected were \$90.60 and have been turned over to the Town Treasurer.

2 Scales were condemned.

4 Tank Trucks were sealed by the sealers of Framingham, Waltham and Marlboro. The fees go to these towns as we have no means of testing same.

I wish to thank these sealers of Framingham, Waltham, and Marlboro, and also Mr. Dawson of the State Department for their help during the year.

Respectfully submitted,

WILLIAM J. SMITH
Sealer of Wayland — 1952

REPORT OF THE BOARD OF HEALTH

The Board of Health submits the following report for the year ending December 31, 1952.

The Board held nine regular meetings during the year and one special meeting.

The Board registered twenty-one complaints during the year and all have been taken care of. The Board inspected 276 building lots and issued 167 cesspool permits for new dwellings. The Board has condemned 42 building lots as unfit for sewage or drainage. The Board feels that all subdivisions should be approved only if they comply with the Board of Health regulations. We also feel that all departments should hold one joint meeting a month so as to keep a careful check on all subdivisions.

The Board issued 35 milk licenses, 1 ice cream license, 7 vehicle licenses to sell oleomargarine, and 14 methyl alcohol licenses.

There were two hundred twenty cases of communicable diseases reported.

Chicken Pox	61
Measles	117
Dog Bites	28
Mumps	1
Whooping Cough	6
Tuberculosis	5
Diphtheria	2

The Board feels that there are many cases of diseases dangerous to the public health that are not reported and should be reported by the head of the family or the doctor.

Dog Clinics

A total of 105 dogs were inoculated and protected against rabies at the first clinic conducted under the direction of Dr. Paul R. Granholm of Weston. Protection against rabies should be given freely, as a sudden outbreak of dog bites can be injurious to the welfare of the community.

It must also be remembered that dogs should be inoculated every year.

WAYLAND COMMUNITY X-RAY PROGRAM

October 2 - 9, 1952

Population (1950) Census — Preliminary Count	4,393
Estimated Eligible Population (65% 1950 Census)	2,855
Number X-Rayed	1,813
Percent of Eligible Population	63.50

Findings:

Pulmonary Tuberculosis	7
(1) Letters to physicians	1*
(2) Previously known or reported cases	3
(3) X-ray findings considered insignificant — "negative letters sent	3
Pulmonary TB Suspects	3
(1) Letters to physicians	3*
Non-Tuberculous Pul. Disease	5
(1) Letters to physicians	3*
(2) Previously known	2
Cardiovascular	18
(1) Letters to physicians	8*
(2) Previously known	10
Other Conditions	5
(1) Letters to physicians	3*
(2) Previously known	2

We express our sincere thanks to all the townspeople for their splendid co-operation during this X-ray program.

Mosquito Control

The following areas were sprayed Wayland Center, Dudley Pond and Riverview Terrace; the results are not known at this time.

Milk Inspections

Thirty-five milk dealers' permits have been issued to sell milk in Wayland, from June 1, 1952 to June 1, 1953.

These establishments and dealers are operating according to the rules and regulations of the Board of Health. Norman G. Fair visited farms selling milk to local dealers. This is being done to give the consumer the best milk and to aid in the growing of children.

We express our sincere thanks to all the townspeople, and the various departments, for their splendid co-operation during the past year.

Respectfully submitted,

DR. KATHERINE S. ANDREWS,
Chairman

NORMAN G. FAIR, *Clerk*
BENJAMIN BEALE

REPORT OF THE DISTRICT NURSE

I hereby submit my annual report for the year ending December 31, 1952.

Nursing visits, bedside care, dressing, and other treatments	918
Prenatal visits	51
Postnatal visits	46
Infant visits	14
Tuberculosis (follow-up)	16
Advisory	32
Friendly visits	26
Patients accompanied to Hospital	1
During the year, conferences were held with social service workers.	

Respectfully submitted,

MARY E. McNEIL

REPORT OF THE TREE WARDEN

The annual high trimming, and cleaning of dead and dangerous limbs on Town trees were done.

There were sixteen trees that had to be taken down because they were dangerous due to decay, and were replaced with twenty-two maple trees.

There was a Maple tree planted in the Cochituate School yard on Arbor Day by the Girl Scouts with appropriate exercises following.

Respectfully submitted,

CHARLES L. FULLICK
Tree Warden

REPORT OF THE PLANNING BOARD FOR THE YEAR 1952

The Wayland Planning Board has held thirty-six regular meetings and six special meetings. This year's Board has worked under difficulties due to the unavoidable changes in the membership of the Board.

In March, Mr. Gerald Liscombe resigned and Mr. Cedric Carter of Timber Lane was appointed at a joint meeting of the Selectmen and the members of the Planning Board.

In May, Mr. Leo McKenney resigned due to a business transfer to New Jersey and Mr. Thayer Rudd, Bow Road, was duly appointed.

In June, Mr. Cedric Carter was transferred to the Mid-west and Mr. Frederick G. Perry, Jr., of Timber Lane was appointed to fill the vacancy.

In August, Mr. Carl Emery resigned and Mr. Robert Spang, Plain Road, was appointed.

In November, Mr. R. Douglas Pillsbury resigned due to a business transfer to Pennsylvania. At a meeting with the Selectmen, it was decided to withhold an appointment at this time and the vacancy would be filled in March by electing a new Board member.

Sub-Divisions

Sub-divisions continue at a moderate rate. Of course, considerable work was required of the Board in connection with the release of lots in the nine sub-divisions approved last year.

This year we have held nine public hearings of various kinds, namely Final Hearings, Modifications and a Zoning Hearing prior to an Article in the Warrant asking for a change in zoning.

The third paragraph of Section 81-M of Chapter 41 of the General Laws as appearing in Section 4 of Chapter 340 was amended and became effective March 7, 1952. This act known as "Chapter 134" is an act requiring the approval of the BOARD OF HEALTH before the Planning Board may approve a plat. This act made it mandatory that the Planning Board withdraw the approval of four sub-divisions that did not qualify.

Street Numbering

Street numbering continues. Riverview has been completed and the numbers assigned by the Building Inspector. At the present time, Precinct

2 is nearly completed and will be finished as soon as additional funds are available. After this is done, street numbers in Precinct 1 will be assigned. The entire project should be closed during the coming year and after that numbers in sub-divisions will be assigned as each building permit is issued.

Riverview Low-Lands

We decided to acquire the land of John and Paul Luks on Shore Drive and this matter is in the hands of the Town Counsel. This leaves only two parcels in this area which we hope to acquire next year.

Route 30 and Route 20 By-Pass

We have kept in constant touch with the state authorities on both of these routes. We have no definite information to report on these proposed routes or the time of their construction, but have been told that we will be notified as soon as the state reaches its decisions and anything definite is to take place. The Board went on record in favor of a non-commercial, non-access, and state maintained Route 20 By-Pass.

Connecting Link

In accordance with a vote taken at the Town Meeting on March 7, 1951 on Article XXV, the Planning Board was authorized, with the approval of the Selectmen, to lay out a new route between Cochituate Road and Old Connecticut Path over such land as the Wayland Real Estate Company is prepared to give the Town, and to proceed with negotiations for the acquisition of land necessary for the western third of the route. The Planning Board hereby reports that the section referred to on our plan as "Section C" came under a sub-division on October 8, 1952 and is to be constructed by the sub-dividors, namely, James Cazanans and Wayland Real Estate Company. The center section named "Section B" on our plan has been constructed by the Wayland Real Estate Company as a portion of Pequot Road. There remains a distance of about 425 feet of Pequot Road within their property lines to be constructed. "Section A", that portion of the road running from the westerly boundary of the property of the Wayland Real Estate Company out to Old Connecticut Path, also remains to be constructed, which is a distance of approximately 875 feet. Thus, a total of 1300 feet remains to be constructed by the Town.

The water is installed in the center sections and will be carried out to Cochituate Road with the completion of the "C" section. This provides a water line loop from Happy Hollow Road and Goodman Lane to

Pequot Road and out to Cochituate Road. This line will be carried out to Old Connecticut Path providing a through water supply from one side of the town to the other.

This connecting link referred to by the Planning Board as the "Cross-Town Highway" is approximately 3900 feet in total length from Cochituate Road to Old Connecticut Path. The cost to the Town of constructing the entire link would have been about \$58,000.00 using \$15.00 per foot as a basis for estimating surveying, water and road construction. Since about 2600 feet of the road has been or will be constructed by private enterprise, the Planning Board feels that the construction of the remaining portion of the link at a cost considerably less than that originally anticipated for the entire link should be undertaken by the Town during 1953.

Sewage Disposal System

In order that the Planning Board may effectively provide for intelligent long range planning of the community, a knowledge of the general layout of a municipal sewage disposal system is essential. To obtain this knowledge, the Board spent a great deal of time in discussion led by a qualified sanitary engineer and a member of the Board of Health. It was concluded, that while the actual construction of a sewage system may not be required in the immediate future, the value derived from a study of this kind is of inevitable help in making better decisions concerning the location of drainage and sewage requirements of future sub-divisions. The Board is of the opinion that a survey should be made in this matter in order that it may be informed as to:—

1. An estimate of the amount of sewage we may expect from various portions of the community.
2. Laying out of the town into sewer districts as determined by a study of the topography of the ground, with accompanying maps.
3. Line of principal trunk sewer, with probable direction of important sub-mains and laterals.
4. Determine areas which would require sub-stations to pump sewage into main lines at higher grades.
5. Determination of possible points of sewage disposal. This should include the feasibility of tying in all or a portion of the community into the South Metropolitan District Sewer.
6. Estimate cost for initial construction.

With a survey of this sort, we might better be prepared to save a large expenditure by the Town at some future date. The Board feels that

after a competent engineer makes a survey, a committee should be appointed to make a study of the needs of the Town with a recommendation for action.

Rules and Regulations

This year two members of the Board have been working on a revised edition of the Planning Board's Rules and Regulations. This has been accomplished through the cooperation of the Health, Highway and Water Department. Copies of the Rules will be available for public use. In this revised edition several items will be noted, such as the requirements for planting of trees in sub-divisions that are to be located in treeless areas, as well as adequate sized water pipes in the street with properly placed hydrants and good surface drainage installed.

Sub-Committees

The Board members not only attend regular meetings on Monday evenings, Sunday morning field trips and hearings, but delegates from the Planning Board also serve on the Health Union Committee, the Special Fire Survey Committee, the Dump Committee and the School Site Committee. These are all interrelated groups and the information brought back to the other members is of great help in trying to coordinate all work accomplished by the Board.

The constant change in personnel has made it difficult to complete the year's business, but the new members have shown a most sincere enthusiasm for the problems at hand and are well qualified to serve the Town with honest decisions and a thoughtfulness for the future of Wayland.

Respectfully submitted,

REPORT OF THE WAYLAND FREE PUBLIC LIBRARY FOR 1952

The extended activity which we had in 1951 has continued during the past year with a gratifying increase in registrations. The co-operation which we have had from the School Department has been splendid. The important phase of this co-operative effort is in having classes come to the Library accompanied by their teachers and the favorable weather during the year has allowed this activity to take place several times each week. The purpose of the visits, of course, is to acquaint the student in the many ways he or she might use the Library's facilities, but the Library benefits by loaning books to the students and teaching them that a library is not as forbidding and as uninteresting as it seems. We have also been able to loan to the High School Library a number of books that we do not actively circulate and in addition send over to the High School a number of duplicate copies of our volumes.

The Francis Shaw Room continues to serve the community in many ways. Civic and social groups are using it regularly and we again remind the townspeople that the use of this room may be had upon application to the Librarian.

The "Friends of the Wayland Library," under the chairmanship of Mr. Francis E. Hanson, have continued their interest in the children's educational movie program, held on alternate Saturdays throughout the winter months. These movies are run off in the basement. The "Friends" have also sponsored two open lectures and had a well attended "carol sing" on the steps of the Library during the Christmas season. Perhaps their main contribution of the year was their gift of a "Library of Albums of Recorded Classical Music" which was loaned on the same basis as books. A record player and head sets have been furnished for the use of anyone interested in a quiet musical hour at the Library.

The "Great Books Club" has been using the main reading room for their group discussions, while the Civil Defense authorities have established their headquarters in a basement room which has been made available by the Trustees for that purpose. During the past year the Trustees have had constructed a storage room in the basement where books that have lasting value but are not being actively circulated are stored. This space has been needed for many years.

The Cochituate Branch is also enjoying an increase in circulation and we are enthusiastically anticipating the new quarters which we hope the

Branch will occupy in late spring. When we are in occupancy we are sure that Mrs. Harmon will be much better able to supply the wants of the community than at present.

We wish to thank those people who have made gifts during the year of books pertaining to Wayland's history. Mrs. Emily Blair is filing and cataloguing these volumes for future use. The Garden Club has been unusually attentive and has regularly supplied attractive floral decorations. Dr. and Mrs. Martin Edwards have made the Library a gift of a complete set of "Life" magazines, all bound with additional bindings for future use.

Finally, we are pleased to observe the interest which the new residents of the town have taken in their Library. This, of course, is reflected in the circulation figures. We also notice an increased circulation in the books on art subjects, as well as reference and text books for adult students.

The Trustees and I wish to thank the people of the town for their co-operation and many helpful suggestions during the last year.

MRS. DORIS BUSSE

REPORT OF THE WATER COMMISSIONERS

New services completed in 1952 again exceeded expectations with 150 completed by November 20 with probably 10 more to go.

The road to Baldwin Pond pumping station was regraded and oiled and is now in fine condition.

The road to the Happy Hollow station was relocated with a future well in mind and also to prevent washing, since no oil was used to surface this road. Some additional work is required on this road, but is expected to be completed shortly.

The Happy Hollow station was stuccoed on the outside and plastered on the inside. Due to a misunderstanding the \$300 that this cost, and which was included in the estimate on the roads, was unable to be taken from this appropriation and was paid from maintenance.

The new electrical controls were put into operation this month and as a result the water level in the standpipe is always maintained at between 12 and 14 feet. The benefit of these controls will be much more apparent next summer. However, our experience of last summer shows that it is impossible to pump at a rate of over 1.6 million GPD for more than a few hours. The Happy Hollow station will deliver an even output of about 620,000 GPD for as long as has been required. The Baldwin Pond station will deliver 1 million GPD nicely, using one pump, but when both pumps are pumping at the same time the drop in head and the rise in vacuum soon causes an overloaded condition that automatically stops the pumps.

This happened last July 8th when the pumps at Baldwin Pond delivered 1.3 million gallons in 24 hours. After only 6½ hours of operating both pumps together the automatic overload device shut them off and only one pump could be run at a time thereafter.

These were the circumstances that made it necessary to put a ban on the use of hoses for the duration of the drought. With no restriction on the use of hoses, demand, in dry spells in summer, will often be over 2 million GPD. It is evident, therefor, that until greater pumping capacity is provided, the ban on the use of hoses will have to be made permanent. Our experience shows that without a constant check the reduction in use from the ban on hoses, quickly wears off. Time must be given to continual policing to keep the regulation effective.

The new truck was purchased, also a new ditch pump, that was badly needed, and an electronic pipe locator.

The 8" connection was made at State Road, Old Connecticut Path and Westway Road and the three new hydrants were installed. Within an hour after the one on Concord Road was in service, it was used for a fire in the woods back of the new houses.

17 old services were renewed and 7 leaks handled.

A new main was laid on Parkland Drive for a distance of 300 feet north of Grace Road. Arrangements are now being made for a similar extension for a distance of 220 feet south.

The relocation of the 6" main on Oak Street, necessitated by the lowering of the road, was accomplished with as little inconvenience to water users as possible. A 2" by-pass was run over ground to supply the Pleasant Acres section while one portion was being lowered.

Hydrants in service were increased by 23 this year, with several more to be added soon. This makes a total of 258. The payment of rental from the Town is based on a total of 200.

All hydrants were painted and lettered with an identifying number and their water pressure. A card index has been made showing the location, gate measurements, pressure and other pertinent information.

All curb box locations have been kept up to date. As fast as new accounts are added to the records, the locations are drawn on the cards, so that a file of these locations is always in the office as well as in the book on the truck. Locations that were questionable or unsatisfactory have been checked and remeasured. More work is needed on these locations and will be done as time presents itself.

Fixture accounts have been surveyed and those with missing or questionable records have been checked. This has comprised about 40% of the total accounts and resulted in an annual increase in revenue of about \$2000.

FERN TAYLOR, *Chairman*
 ALFRED C. DAMON, *Clerk*
 CHARLES E. POTTER

REPORT OF THE ROAD COMMISSIONERS

For the past year, this Department has operated with no increase in the budget over 1951.

It now becomes necessary to have more money, help and equipment to take care of the growing needs of the town.

We have asked for three automatic sand spreaders. Each can be operated by the driver of a truck. With this equipment, the Department will be able to give better and quicker service.

This year the 1946 Ford 2 Ton Truck was replaced by a 1952 International 5 Ton Truck.

Road Commissioners,

RONALD S. CAMPBELL
 G. M. BLOMGREN
 JOSEPH H. DECATUR

REPORT OF THE HIGHWAY SURVEYOR

The following is a summary of the work done by the Highway Department during the past year:

General Highway appropriation has been used for regular maintenance work, such as gravelling, surface treatments, maintenance of fences and cleaning of drainage systems. East Plain Street and Old Connecticut Path East, were surface treated. Approximately 6000 feet on Moore Road and Glezen Lane has been gravelled and surfaced.

Under Chapter 90 Maintenance, Old Sudbury Road and Old Connecticut Path West, were resurfaced. Cement guard posts, covering a distance of approximately 600 feet, were installed between the bridges on Old Sudbury Road.

The Chapter 90 Construction appropriation was used on Oak Street. The excavating, gravelling and drainage has been done and final surfacing will be completed in the spring.

Under Betterment Construction, the following work has been done:

Edgewood Road — Major portion of drainage installed.

Parmenter Road — Completed.

Fuller Road — Completed.

Westway Road — Drainage installed.

Timber Lane — Drainage installed.

The Highway Department assisted in the Dutch Elm Disease project.

A Parking Lot has been built at the Station in Wayland, eliminating some of the parking problems which existed in the center of the Town.

Early in the Spring, the outlet from Dudley Pond was cleaned, thereby relieving some of the high water inconvenience to some of the homes in the Dudley Pond area.

Respectfully submitted,

ALBERT E. POTVIN,
Highway Surveyor.

VOTES ENACTED AT THE ANNUAL TOWN MEETING, MARCH 5, 1952

Town Clerk's Office,
Wayland, Massachusetts

Howard S. Russell, Moderator:—

Pursuant to the following warrant the inhabitants of the Town of Wayland met this day and after the Moderator declared a quorum present preceeded to transact the following business.

Article 1. To hear reports of the Town Officers, Agents and Committees, and act thereon.

A report was made by Mr. Leo F. McKenney of the Planning Board in regard to a new route between Old Connecticut Path and Cochituate Road. The Board has prepared detailed plans and exact layouts of the proposed route but estimated costs will be delayed until on-the-spot construction estimates can be made. Voted to accept the report.

The report of the committee to investigate the feasibility of the Town setting up its own system of manufacture and distribution of electric power was submitted by Mr. John A. Brownell. The report was accepted and the committee was asked to continue its investigation.

Mrs. D. Marguerite Moss gave a report on Wayland joining a health union. The committee feels that it cannot give the town enough financial data to recommend a union at this time. The report was accepted and the committee was asked to continue its investigation.

Article 2. To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Voted that John Connelly, Frederic A. Gibbs and George W. Shepard act as Trustees of the Allen Fund.

Voted that the Selectmen act as Fence Viewers.

Voted that the Constables act as Field Drivers.

Voted that Thomas F. Linnehan, Melville Loker and Arthur F. Marston act as Surveyors of Lumber.

Voted that Joseph Decatur, Thomas F. Linnehan and Arthur Marston act as Measurers of Wood and Bark.

Voted that the Moderator appoint the committee for Memorial Day.

The following resolutions were unanimously voted by a standing vote of the Town

Whereas, M. Alice Neale has concluded to retire from the office of Town Clerk

Whereas, She will this month have completed twenty-six years of service to the Town in that capacity

Whereas, She has faithfully performed the duties of the office and has given generously of herself for many years at but nominal compensation

Now, therefore, Be it resolved by the Citizens of Wayland in Town Meeting assembled

That there be officially spread upon the records of the Town, the appreciation of her fellow Townsmen for a job well done, and their gratitude for the many courtesies which she has extended to them, often taking of her time and energy far beyond the requirements of her office; and that the Selectmen, in behalf of the Town, be directed to present to her an appropriate copy of this vote.

Article 3. To grant money for necessary Town purposes.

Voted unanimously that the Report of the Finance Committee be accepted and its recommendations adopted; that the sums of money recommended in the Finance Committee budget as printed with the addition of \$3,000 for Snow Removal, \$530 for Garbage removal, and with the subtraction of \$100 from "Interest—School Bonds—\$140,000 Issue—1949" be granted, appropriated and assessed for the several purposes designated, making a total budget appropriation of \$614,245.50 and that the same be expended only for the purposes shown under the direction of the respective boards, committees and officers of the Town;

That the funds provided in the budget under Preliminary Town Expense of Betterments—Fund be expended under the supervision of the Board of Selectmen;

That the Town office force be constituted as follows: Town Accountant, Chief Clerk, also serving as Deputy Collector; and such other clerical assistants as is deemed necessary to perform the duties and assume the responsibility for work as outlined in the Finance Committee Report of 1949; and that such force supply clerical assistance to the Town Collector;

That the operation of dumps be under the supervision of the Highway Department;

That the money from Dog Taxes be allocated in its entirety to the Library Expense Account;

That the District and School Nurse continue under the supervision of the School Committee;

That the work on Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

That the Tax Collector continue to act as collector for the Water Department;

That the office of the Town Clerk be established in the Town Hall;

That the unexpended balance in the following accounts be transferred to "Excess and Deficiency";

Fire Department	
Tree Trimming	\$ 41.50
Highway Department	
Chapter 90 Maintenance	.22
Chapter 90 Construction	
Main Street, Wayland	598.87
Main Street, Cochituate	5.60
Main Street, Cochituate	33.22
Street Betterment—	
Riverview Circle, 2nd.	27.31
School — Special Accounts

Article 4. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by Section 108, Chapter 41, General Laws, as amended, and set the effective date of such salary and compensation.

Voted unanimously that the Town fix the salary and compensation of all elective officers of the Town as provided in the budget as voted under Article 3, the effective date of such salary and compensation to be from January 1, 1952.

Article 5. To see if the Town will vote to authorize the Board of Selectmen: (1) to sell, or otherwise dispose of, the present police car in connection with the purchase of a new car; (2) to sell, or otherwise dispose of, the Board of Welfare's present visitor's car in connection with the purchase of a new car; (3) to sell, or otherwise dispose of the Water Department's present $\frac{1}{2}$ -ton Ford pick-up truck in connection with the purchase of a new $\frac{1}{2}$ -ton pick-up truck; and (4) to sell, or otherwise dispose of the Highway Department's 1946 $1\frac{1}{2}$ -ton Ford in connection with the purchase of a new $2\frac{1}{2}$ -ton truck — the funds for the police car, the visitor's car and the highway truck being provided for in the budget of the respective departments and the funds for the truck for the Water Department being provided for in Article 7, or do or act.

Voted that the Town authorize the Board of Selectmen (1) to sell, or otherwise dispose of, the present police car in connection with the purchase of a new car; (2) to sell, or otherwise dispose of, the Board of Welfare's present visitor's car in connection with the purchase of a new car; (3) to sell, or otherwise dispose of the Water Department's present $\frac{1}{2}$ -ton Ford pick-up truck in connection with the purchase of a new $\frac{1}{2}$ -ton pick-up truck; and (4) to sell, or otherwise dispose of the Highway Department's 1946 $1\frac{1}{2}$ -ton Ford in connection with the purchase of a new $2\frac{1}{2}$ -ton truck — the funds for the police car, the visitor's car and the highway truck being provided for in the budget of the respective departments and the funds for the truck for the Water Department being provided for in Article 7.

Article 6. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1952 and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

Voted unanimously that the Town authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1952, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

Article 7. To see if the Town will appropriate sums of money for the following: (1) Water coupon notes, water bonds and water registered note — maturing in 1952 — payment of Principal; (2) water coupon notes, water bonds and water registered note — payment of interest due in 1952; (3) Water Department maintenance; (4) Town office clerical salaries; (5) purchase of a new truck; (6) installation of a water main connection on Westway Road and State Road East at Plain Road; (7) installation of three new hydrants, one each, on Concord Road, Plain Road and Cochituate Road; (8) construction work on Water Department roads to pumping station; and (9) the installation of electrical controls between the standpipe and the pumping station, the entire amount to be taken from Water Available Surplus, or do or act.

Voted unanimously that the Town appropriate the following sums of money for the following purposes:

1. Water Department debt — payment of principal — \$13,000;
2. Water Department debt — interest — \$2,665;
3. Water Department maintenance — \$30,000;
4. Town office clerical salaries — \$1,000;
5. Purchase of new 1/2-ton pick-up truck — \$1600;
6. Installation of Water main connection at Plain Road — \$2,150;
7. Installation of three new hydrants — \$1,050;
8. Construction work on Water Department roads to pumping stations — \$1,200;
9. Installation of Electrical controls between the standpipe and the pumping station — \$4,500;

the entire sum of \$57,165.00 to be taken from Water Available Surplus.

Article 8. To see if the Town will vote to cancel the authorization for expenditure and borrowing of the unused \$10,000.00 of the \$20,000.00 voted under Article 6 of the Special Town Meeting of April 28, 1948 and Article 1 of the Special Town Meeting of November 30, 1949, or do or act.

Voted unanimously that the Town cancel the authorization for expenditure and borrowing of the unused \$10,000 of the \$20,000 voted under Article 6 of the Special Town Meeting of April 28, 1948 and Article 1 of the Special Town Meeting of November 30, 1949.

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action in relation thereto.

Voted unanimously that the Town appropriate and assess the sum of \$5,000 for the reconstruction and improvement of Oak Street, Cochituate from the Natick line to Commonwealth Road East, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, provided that only so much of \$5,000 shall be used as is matched as follows: \$1 from the County for every \$1 of Town money, and \$2 from the State for every \$1 of Town money, the work to be done by the Road Commissioners.

Article 10. To see if the Town will vote to appoint a Committee of nine persons, composed of one member from each of the following boards or committees; the Board of Health, Planning Board, Road Commissioners, Selectmen and the Finance Committee and four persons to be chosen at large by the representatives so designated, to make a study and prepare recommendations for presentation to the Town at the next Special or Annual Meeting, for additional dump facilities in Cochituate, or do or act.

Voted unanimously that the Town appoint a committee of nine persons, composed of one member from each of the following boards or committees; The Board of Health, Planning Board, Road Commissioners, Selectmen and the Finance Committee and four persons to be chosen at large by the representatives so designated, to make a study and prepare recommendations for presentation to the Town at the next Special or Annual Meeting, for additional dump facilities in Cochituate.

Article 11. To see if the Town will vote to raise and appropriate a sum of money for the following: (1) purchase of two 750-gallon fire truck pumper; (2) construction of a garage for the Fire Department, on the easterly portion of Town-owned land at the corner of Leary Street

and East Plain Street, Cochituate; (3) extension of the fire alarm system from Wayland Center to the Weston line; to determine whether the money shall be provided by transfer from other appropriations previously voted, by taxation, and/or by borrowing; and to authorize the committee appointed under Article 12 of the Annual Town Meeting of March, 1951, with the approval of the Selectmen, to purchase the equipment, to construct, equip and furnish the fire station and to extend the fire alarm system, and to enter into the necessary contracts and agreements therefor, or take any other action relative thereto.

Mr. F. Clifton Haynes, Chief of the Fire Department, gave the report of the Special Fire Survey Committee stating the needs of the Fire Department and recommendations for better fire protection.

Voted that the Town appropriate the sum of \$87,442.02 to be allocated as follows:

- (1) \$35,000 for the purchase of the two 750-gallon fire truck pumpers, funds to be provided as follows: \$15,000 through appropriation and assessment, \$20,000 through borrowing on 2-year notes, with \$10,000 payable in one year and \$10,000 payable in two years;

- (2) \$45,942.02 for plans, specifications, supervision and construction of the Cochituate fire station on the town-owned lot bounded by North Main Street, East Plain Street and Leary Street, funds to be provided as follows: \$5,000 through appropriation and assessment, \$942.02 to be transferred from "Cochituate Civic Center Building" account and \$40,000 through borrowing on 20-year notes;

Yes 425

No 1

- (3) \$6,500 for the extension of the fire alarm system from the Center to the Weston line, funds to be provided as follows: \$500 through appropriation and assessment, \$1,000 by transfer from "Fire Department — Truck Overhaul" account and \$5,000 by transfer from "Fire Survey Committee" account;

Voted that the committee appointed under Article 12 of the Annual Town Meeting of March, 1951, with the addition of three remaining engineers of the Fire Department, with the approval of the Selectmen be authorized to purchase the fire truck equipment, construct and equip the fire station, extend the fire alarm system and enter into the necessary

contracts and agreements therefor; and that the Treasurer, with the approval of the Selectmen, be empowered to borrow the funds provided for through borrowing.

Voted Yes 407 No 3

Each section of this vote was taken up separately and then the entire vote was made and counted.

Article 12. To see if the Town will vote to raise and appropriate a sum of money for the purpose of constructing an addition to the Wayland High School Building, and for originally equipping and furnishing the said addition; determine whether the money shall be provided for by appropriation from available funds in the treasury, by taxation, and/or by borrowing; authorize the committee appointed in accordance with the vote under Article 19 of the Annual Town Meeting of March, 1947 and continued in office by vote under Article 1 of the Special Town Meeting of June 20, 1951, to construct, equip and furnish an addition to the Wayland High School Building and to enter into the necessary contracts and agreements therefor; or take any other action relative thereto.

Voted to accept the Report of the Special School Building Committee submitted to the Voters with the Town Report.

Voted unanimously that the Town raise and appropriate the sum of \$225,000 for the purpose of constructing an addition to the Wayland High School Building, and for the purpose of originally equipping and furnishing the said addition, and that to meet the said appropriation the sum of \$5,000 be raised in the tax levy of the current year; that the sum of \$10,000 be transferred from the funds appropriated under Article 1 of the Warrant for the Special Town Meeting held June 20, 1951, and Article 1 of the Warrant for the Special Town Meeting held December 19, 1951; and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$210,000 under the authority of and in accordance with the provisions of Chapter 49 of the Acts of 1952, and to issue bonds or notes of the town therefor payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than 20 years from the date of issue of the first bond or note; that the committee appointed in accordance with the vote under Article 19 of the Warrant for the Annual Town Meeting held in March, 1947, and continued in office by vote under Article 1 of the Warrant for the Special Town Meeting held June 20, 1951, be authorized and directed to construct,

furnish, and equip said addition to the Wayland High School and to enter into the necessary contracts and agreements therefor.

Article 13. To see if the Town will vote to establish a Salary and Wage Co-ordinating Committee to consist of one member each from the following Boards: Selectmen, School Committee, Water Commissioners, Cemetery Commissioners, Road Commissioners, two members of the Finance Committee and two members-at-large who shall hold no other Town office and who shall be selected by the committee so designated, such committee to act as a coordinating agency to see that standard rates of salaries and wages are being uniformly applied, revised and kept up-to-date, or do or act.

Voted that the Town appoint a committee of nine persons, composed of one member each from the following boards: Selectmen, School Committee, Water Commissioners, Cemetery Commissioners, Road Commissioners, two members of the Finance Committee and two members-at-large, who shall hold no other Town office and who shall be selected by the committee so designated, to act as a co-ordinating agency to see that standard rates of salaries and wages are being uniformly applied, revised and kept up-to-date.

Article 14. To see if the Town will vote to appropriate a sum of money for the purpose of leasing, renting or otherwise providing suitable headquarters for Wayland Post Veterans of Foreign Wars or otherwise act thereon.

Voted that the Town appropriate and assess the sum of \$500 for the purpose of leasing, renting or otherwise providing suitable headquarters for the Wayland Post Veterans of Foreign Wars.

Article 15. To see if the Town will vote to appropriate and raise a sum of money for the installation of fire sprinkler systems in the high school building and determine how the money shall be raised — by assessment, transfer, borrowing or otherwise, or do or act.

Voted to pass over the article.

Article 16. To see if the Town will vote to appropriate and assess a sum of money for mosquito control, or do or act.

Voted that the Town appropriate and assess the sum of \$1,500, the funds to be used under the supervision of the Board of Health for mosquito control work.

Article 17. To see if the Town will vote to accept as public Town ways, under the provisions of the Betterment Act, in that part of the Town known as "Riverview Terrace", the roads known as "Riverview Circle" and "Shore Drive", or either of them, or any portion of them, as laid out by the Board of Selectmen and as shown on a plan or plans filed with the Town Clerk; and to authorize the Board of Selectmen to acquire any necessary land by eminent domain, by purchase, gift or otherwise; and to appropriate a sum of money for the acquisition of any such land and the construction of such way or ways, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

Voted to pass over the Article.

Article 18. To see if the Town will vote to install water pipes and hydrants in the ways named in the foregoing article, or in any portion thereof, and to appropriate a sum of money for the expenses thereof and determine how the money shall be raised and will authorize such sum, or any portion thereof, to be included in any betterments that may be assessed under the preceding article, or take any action relative thereto.

Voted to pass over the Article.

Article 19. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, that portion of Hayward Road lying between Rich Valley Road and Sylvan Way which has not been previously accepted, and that portion of Sylvan Way lying between Hayward Road and Lundy Lane, or either of them, or a portion of them, and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of Selectmen to acquire necessary land by purchase, gift, eminent domain, or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or ways, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

Voted to pass over the Article.

Article 20. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, the roads known as "Edgewood Road", "Ridgefield Road", "Fairfield Road" and "Parkridge Road", or any of them, or a portion of them, as laid out by the Board of Selectmen, and as shown on a plan, or plans, on file with the Town

Clerk, and authorize the Board of Selectmen to acquire necessary land by eminent domain, purchase, gift or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or ways, or any portion thereof, and determine how the money should be raised, or take any action relative thereto.

Voted to dispense with the reading of the Laying Out of Edgewood Road, Fairfield Road, Ridgefield Road and Parkridge Road.

Voted that the Town accept the laying out as a public way of Edgewood Road, Fairfield Road, Ridgefield Road and Parkridge Road as shown on a plan entitled "Plan and Profile of Edgewood Road, Wayland, Mass., dated December 8, 1951, Everett M. Brooks, C. E." and "Plan and Profile of Fairfield Road, Ridgefield Road and Park Ridge Road, dated, December 8, 1951, Everett M. Brooks, C. E." and as laid out by the Selectmen and filed in the office of the Town Clerk, with assessments under the Betterment Act as provided in the order of laying out; that the Board of Selectmen be authorized to acquire any necessary land (including drainage easements) by eminent domain, purchase, gifts or otherwise; that the Town appropriate and assess the sum of \$5,700 for the acquisition of any such land and the construction of said way and other costs in connection with the project.

Article 21. To see if the Town will vote to install water pipes and hydrants in the ways named in the foregoing article, or in any portion thereof, and to appropriate a sum of money for the expense thereof and determine how the money shall be raised; and will authorize such sum, or any portion thereof, to be included in any betterments that may be assessed under the preceding article, or take any action relative thereto.

Voted that the Town appropriate and assess the sum of \$2,600 for the installation of water pipes and hydrants in Edgewood Road, the work to be done under the supervision of the Water Department and that the Board of Selectmen be authorized to assess betterments therefor under the Betterment Act.

Article 22. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, the roads known as "Blossom Lane" and "Westway Road", or either of them, or a portion of them as laid out by the Board of Selectmen, and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of

Selectmen to acquire necessary land by eminent domain, purchase, gift, or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way, or ways, or any portion thereof, and determine how the money should be raised, or take any action relative thereto.

Voted to dispense with the reading of the Laying Out of "Blossom Lane" and "Westway Road".

Voted unanimously that the Town accept the laying out as a public way of Westway Road and Blossom Lane as shown on a plan entitled "Plan and Profile of Westway Road and Blossom Lane, Wayland, Mass., dated May 24, 1951, Everett M. Brooks, C. E." as laid out by the Selectmen and filed in the office of the Town Clerk, with assessments under the Betterment Act as provided in the order of laying out; that the Board of Selectmen be authorized to acquire any necessary land (including drainage easements) by eminent domain, purchase, gift, or otherwise and that the Town appropriate the sum of \$400 for the acquisition of any such land and the construction of such way and other costs in connection with the project.

Article 23. To see if the Town will vote to accept as public town ways, under the provisions of the Betterment Act, the roads known as "Timber Lane", "Haven Lane" and "Eden Road", or a portion thereof, as laid out by the Board of Selectmen and as shown on a plan, or plans, on file with the Town Clerk, and authorize the Board of Selectmen to acquire necessary land by eminent domain, purchase, gift, or otherwise and to appropriate a sum of money for the acquisition of any such land and the construction of such way, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

Voted to dispense with the reading of the Laying Out of "Timber Lane", "Haven Lane" and "Eden Road".

Voted unanimously that the Town accept the Laying Out as a public way of Timber Lane, Haven Lane and Eden Road as shown on a plan entitled "Plan and Profile of Timber Lane, Haven Lane and Eden Road — in Wayland, Mass., dated February 1, 1952, Everett M. Brooks, C. E." and as laid out by the Selectmen and filed in the office of the Town Clerk, with assessments under the Betterment Act as provided in the order of laying out; that the Board of Selectmen be authorized to acquire any necessary land (including drainage easements) by eminent domain, purchase, gift or otherwise; that the Town appropriate and

assess the sum of \$1,800 for the acquisition of any such land and the construction of said way and other costs in connection with the project.

Article 24. To see if the Town will vote to accept as public ways the following roads, or any of them, or any portion thereof, as laid out by the Board of Selectmen, and as shown on plans on file with the Town Clerk; and to authorize the Board of Selectmen to acquire any necessary land or interests therein by deed or gift and/or by eminent domain without any appropriation of money for further construction of any said roads, under the Betterment Act, or otherwise; or take any action relative thereto, the roads above referred to being the following:

Woodridge Road, from Cochituate Road to Fox Meadow Lane;

Fox Meadow Lane, from Woodridge Road to Shaw Drive;

Shaw Drive, from a point about 650 feet southerly from Old Connecticut Path to a point about 2,000 feet southerly from Old Connecticut Path;

Happy Hollow Road, from Cochituate Road to Rice Spring Lane;

Rice Spring Lane, from Happy Hollow Road to Goodman Lane;

Voted to dispense with the reading of the Laying out of the roads mentioned in the Article.

Voted unanimously that the Town accept the laying out as a public way of the following roads as described in the Order of Laying Out of the Board of Selectmen dated February 26, 1952;

(1) Happy Hollow Road, from Cochituate Road to the westerly edge of the intersection with Rice Spring Lane; and

(2) Rice Spring Lane, from Happy Hollow Road to the easterly edge of the temporary circle;

both roads being shown on a plan entitled "Plan of Land on Happy Hollow Road and Rice Spring Lane in Wayland, Mass." dated April 18, 1950, drawn by Everett M. Brooks, Co. Civil Engineers, which plan has been on file in the Office of the Town Clerk, and which is recorded in the Middlesex South District Registry Book 7603, Page 566.

(3) Woodridge Road, from Cochituate Road to Fox Meadow Lane; and

(4) Fox Meadow Lane, from Woodridge Road to Shaw Drive; both roads being shown on a plan entitled "Subdivision of Woodridge,

Number 1 in Wayland, Mass." dated April 29, 1947, by Everett M. Brooks Co., Civil Engineers, which has been on file in the Office of the Town Clerk and which is recorded in the Middlesex South District Registry Book 7162, and as Plan 1019 of 1947.

(5) Shaw Drive, from a point approximately 800 feet from Old Connecticut Path to a point approximately 625 feet east of the intersection with Fox Meadow Lane, as shown in part on a plan entitled "Subdivision of Woodridge Number 2 in Wayland, Mass." dated November 12, 1947, drawn by Everett M. Brooks Co., Civil Engineers, which plan has been on file in the Office of the Town Clerk and which is recorded in the Middlesex South District Registry Book 7254, Page 361 as Plan Number 182 of 1948; and as shown in part on a plan entitled "Subdivision of Woodridge Number 3 in Wayland, Mass." dated July 19, 1948, drawn by Everett M. Brooks Co., Civil Engineers, which plan has been on file in the office of the Town Clerk and which is recorded in the Middlesex South District Registry Book 7348, Page 543 as Plan 1420 of 1948, and that the Board of Selectmen be authorized to acquire any necessary land by eminent domain, by purchase, gift or otherwise; and that \$1 be appropriated and assessed for the acquisition of any such land and other costs in connection with the project.

Article 25. To see if the Town will appoint a committee to study the adoption of a Board of Public Works.

Voted unanimously that the Town appoint a committee to study the question of adoption of a Board of Public Works for the Town of Wayland, the committee to consist of seven members — one each from the Road Commissioners, Water Commissioners, Cemetery Commissioners, Park Board, Finance Committee and two Members-at-large chosen by those so designated, and that a report be submitted at the next Annual Meeting.

Article 26. To see if the Town will vote to amend the Zoning By-Laws as follows: to change from a residential to a business district that portion of land on the southerly side of State Road East and Old Connecticut Path owned by Harold J. Lundy and Sally A. Lundy, bounded and described as follows:

According to the plan of land formerly owned by Helen L. Clifford and conveyed to petitioners as follows: Bounded easterly by the Weston-Wayland line to a depth of 300 lineal feet from the State Road East to a point; thence westerly

about 300 lineal feet in a parallel line to State Road East and Old Connecticut Path to a point; thence northerly 300 lineal feet along Westway Road to Old Connecticut Path; thence northeasterly 232.20 lineal feet along Old Connecticut Path; and 55.41 lineal feet along State Road East to a point of beginning,

or do or act.

Voted to pass over the Article.

Article 27. To see if the Town will vote to transfer from available funds, the sum of \$25,000.00 to meet any of the appropriations made in the foregoing articles.

Voted that the sum of \$25,000 be transferred from Available Funds, "Excess and Deficiency" to meet the appropriations made under the foregoing articles.

It was noted that Mr. John Connelly was present at the meeting, being his sixtieth Annual Town Meeting.

Voted to dissolve the meeting at 11:05 P. M.

LEILA SEARS
Town Clerk of the Town of Wayland

VOTES ENACTED AT THE SPECIAL TOWN MEETING, OCTOBER 22, 1952

Town Clerk's Office
Wayland, Massachusetts

Howard S. Russell, Moderator.—

Pursuant to the following warrant the inhabitants of the Town of Wayland met this day, and after the Moderator declared a quorum present, proceeded to transact the following business.

Article 1. To see if the Town will vote to appropriate a sum of money for the completion of the construction of the garage for the Fire Department in Cochituate authorized under Article 11 at the Annual

Town Meeting in March, 1952, and to determine whether the money shall be provided for by an appropriation from available funds in the Treasury, by taxation, and/or by borrowing, or do or act.

A report was made by Mr. Robert M. Morgan, of the Finance Committee in regard to the total expenditures, and the over-all plan for meeting the needed expenditures, involved in Articles 1-10 of this warrant.

Voted that the Town appropriate the sum of \$5,420, of which \$1,720 shall be transferred from the balance remaining from the funds appropriated under Article 11 of the Annual Town Meeting of 1952 and \$3,700 transferred from Available Funds in the Treasury; that the funds so provided be used for the completion of the construction of a garage for the Fire Department in Cochituate, authorized under Article 11 of the 1952 Annual Town Meeting, and that the Committee originally appointed under Article 12 of the 1951 Annual Town Meeting, and given further authority under Article 11 of the 1952 Annual Town Meeting, be authorized to enter into necessary contracts and agreements for the construction thereof.

Article 2. To see if the Town will vote to raise and appropriate a sum of money for the purpose of constructing an addition to the new Cochituate Fire Station presently to be built and for originally equipping and furnishing said addition; determine whether the money shall be provided for by appropriation from available funds in the Treasury, by taxation, and/or by borrowing; authorize the committee appointed in accordance with the vote under article 12 of the Annual Town Meeting of March, 1951 and given further authority under Article 11 of the Annual Town Meeting of March 1952 to construct, equip and furnish an addition to the new Cochituate Fire Station and to enter into necessary action relative thereto.

Voted unanimously that the Town appropriate the sum of \$31,000 for the purpose of constructing an addition to the new Cochituate Fire Station, presently under construction, and for originally equipping and furnishing said addition; that to meet the said appropriation the sum of \$11,000 be transferred from Available Funds in the Treasury; and that the Treasurer, with the approval of the Board of Selectmen, be and hereby is authorized to borrow the sum of \$20,000 and to issue bonds or notes of the Town therefor payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond

or note; that the Committee appointed under Article 12 of the Annual Town Meeting of 1951, and given further authority under Article 11 of the Annual Town Meeting of 1952 be authorized to construct, equip and originally furnish the addition to the New Cochituate Fire Station and be authorized to enter into necessary contracts and agreements therefor.

Article 3. To see if the Town will vote to raise and appropriate a sum of money for the purpose of constructing an addition to the Wayland High School building and for originally equipping and furnishing said addition, said money to be used, together with money appropriated for said purpose under Article 12 of the Annual Town Meeting held March 5, 1952; to determine whether the money shall be provided for by appropriation from available funds in the Treasury, by taxation and/or by borrowing; and to give the committee appointed under Article 19 of the Annual Town Meeting of March, 1947 and continued in office by vote under Article 1 of the Special Town Meeting of June 20, 1951, additional authority to construct, equip and furnish the addition to the Wayland High School Building and to enter into the necessary contracts and agreements for the building, original equipping and furnishing of said addition, or take any other action relative thereto.

Voted unanimously that the Town appropriate the sum of \$12,500 for the purpose of constructing an addition to the Wayland High School building and for originally equipping and furnishing said addition, the money to be used, together with money appropriated under Article 12 of the Annual Town Meeting held March 5, 1952; that \$2,500 of the amount be transferred from Available Funds in the Treasury; and that the Treasurer, with the approval of the Board of Selectmen be and hereby is authorized to borrow \$10,000 and to issue bonds or notes of the Town therefor payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than ten years from the date of issue of the first bond or note; that the Special School Building Committee, appointed under Article 19 of the Annual Town Meeting of March 1947, and continued in office by vote under Article 1 of the Special Town Meeting of June 20, 1951, be authorized to carry out the constructing, equipping and furnishing of the addition to the Wayland High School Building and be authorized to enter into the necessary contracts and agreements for the original building, furnishing and equipping of said addition.

Article 4. To see if the Town will vote to appropriate a sum of money to be used in connection with the construction of the addition to

the high school building, for the installation of a water line and hydrants for the high school building and addition, and the construction of an access road, and determine how the money shall be raised, including transfer of all or a part of the unspent funds appropriated under Article 2 of the Special Town Meeting held December 11, 1950 and Article 4 of the Special Town Meeting held December 19, 1951, or take any action relative thereto.

Voted that the Town vote to appropriate the sum of \$15,000 to be used in connection with the construction of the addition to the High School Building for the installation of a water line and hydrants for the High School building and addition and the construction of an access road from Pelham Island Road to the northwest corner of the High School grounds; that \$7,500 of the amount be raised through transfer from Available Funds in the Treasury and \$7,500 be transferred from amounts previously voted for laying of pipe under Article 2 of the Special Town Meeting held December 11, 1950 and Article 4 of the Special Town Meeting held December 19, 1951; and that the Special School Building Committee be authorized to enter into necessary contracts and agreements therefor.

Article 5. To see if the Town will vote to appoint a special committee to make a study and prepare recommendations for presentation to the Town at the next Annual Meeting with regard to a site or sites for additional elementary school facilities and to obtain options on such site or sites as they may determine, or do or act.

Voted unanimously that there be appointed a School Site Committee to make a study and prepare recommendations for presentation to the Town at the next Annual Meeting with respect to a site, or sites, for additional elementary school facilities and to obtain options on such site, or sites, as they may determine, the Committee to be composed of one member of the School Committee, one member of the Planning Board, one member of the Board of Selectmen and one member of the Finance Committee, each to be designated by the respective Boards, and five members-at-large, to be chosen by the four so designated, with due regard to adequate geographical representation.

Article 6. To see if the Town will vote, under the provisions of the Betterment Act, to appropriate a sum of money, additional to that which was voted under Article 20 at the last Annual Town Meeting, for the construction of Edgewood Road, Ridgefield Road, Fairfield Road

and Parkridge Road, or any of them, or a portion of them, and determine how the money shall be raised, or take any action relative thereto.

Voted unanimously that the Town appropriate and assess the sum of \$18,900, to be raised under the 1953 tax levy, to be used with funds voted under Article 20 of the last Annual Town Meeting for the construction of Edgewood Road, Ridgefield Road, Fairfield Road and Parkridge Road, the work to be done under the supervision of the Road Commissioners, and that the Board of Selectmen be authorized to assess betterments therefor under the Betterment Act.

Article 7. To see if the Town will vote, under the provisions of the Betterment Act, to appropriate a sum of money in addition to that which was voted under Article 21 at the Annual Town Meeting held March, 1952 for the installation of water pipes and hydrants in Edgewood Road, Ridgefield Road, Fairfield Road and Parkridge Road, or any of them, and determine how the money shall be raised, or take any action relative thereto.

Voted unanimously that the Town appropriate and assess the sum of \$7,400 to be raised under the 1953 tax levy to be used with funds voted under Article 21 of the last Annual Town Meeting for the installation of water pipes and hydrants in Edgewood Road, Ridgefield Road, Fairfield Road and Parkridge Road, the work to be done under the supervision of the Water Commissioners, and that the Board of Selectmen be authorized to assess betterments therefor under the Betterment Act.

Article 8. To see if the Town will vote, under the provisions of the Betterment Act, to appropriate a sum of money, additional to that which was voted under Article 22 at the last Annual Town Meeting, for the construction of "Blossom Lane" and "Westway Road" or any of them, or a portion of them, and determine how the money shall be raised, or take any action relative thereto.

Voted unanimously that the Town appropriate and assess the sum of \$2,700 to be raised under the 1953 tax levy and used with funds provided under Article 22 of the last Annual Town Meeting, for the construction of Blossom Lane and Westway Road, the work to be done under the supervision of the Road Commissioners, and that the Board of Selectmen be authorized to assess betterments therefor under the Betterment Act.

Article 9. To see if the Town will vote to authorize the lease, purchase, taking by eminent domain or acquisition by other means, of

the whole or part of a parcel of now vacant land located on the westerly side of North Main Street, across from the Highway Garage, now or formerly owned by Rosalthe C. Picard consisting of approximately 12 acres, the land to be used for additional town dump facilities, will appropriate a sum of money for the annual rental, purchase, or acquisition thereof, and will authorize the Board of Selectmen to enter into a lease, or to acquire by purchase, or by eminent domain, or by other means or do or act.

The report of the Committee to Study and Make Recommendations to the Town for Additional Dump Facilities in Cochituate, appointed in accordance with Article 10 of the last Annual Town Meeting, was read by Chairman, Mr. Benjamin Beale.

Voted unanimously that the matter referred to in this Article be referred back to the Committee for further study.

Article 10. To see if the Town will vote to appropriate and assess a sum of money for the payment of interest on Town indebtedness due in 1952, or do or act.

Voted unanimously that the Town appropriate and transfer from Available Funds in the Treasury the sum of \$1,577.33 for the payment of interest on Town indebtedness due in 1952.

Voted to dissolve the meeting at 9:30 P.M.

QUESTION — RENT CONTROL

Shall a declaration be made by popular referendum, pursuant to the Housing and Rent Act of 1947, as amended, that substantial shortage of housing accommodations exists which requires the continuance of federal rent control in this town after September thirtieth, nineteen hundred and fifty-two, until the close of April thirtieth, nineteen hundred and fifty-three, in accordance with the provisions of said act?

Summary

(a) If a voter desires that this town shall declare by popular referendum that a substantial shortage of housing accommodations exists which requires the continuance of federal rent control in this town after September thirtieth, nineteen hundred and fifty-two, and until the close of April thirtieth, nineteen hundred and fifty-three, in accordance with the provisions of the Housing and Rent Act of 1947, as amended, he will vote "Yes" on said question.

(b) If he desires that federal rent control shall cease to be in effect in this town at the close of September thirtieth, nineteen hundred and fifty-two, he will vote "No" on said question.

<i>Vote</i>	<i>Prec. 1</i>	<i>Prec. 2</i>	<i>Total</i>
"Yes"	152	186	338
"No"	212	121	333

Question Number One

A. Shall licenses be granted in this town for the sale therein of all alcoholic beverages (whiskey rum, gin, malt beverages, wines and all other alcoholic beverages) ?

Yes	826	1,071	1,897
No	404	464	868

B. Shall licenses be granted in this town for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages) ?

Yes	802	1,036	1,838
No	380	427	807

C. Shall licenses be granted in this town for the sale therein of all alcoholic beverages in packages, so called, not to be drunk on the premises?

Yes	952	1,270	2,222
No	275	251	526

REPORT OF THE SCHOOL COMMITTEE

The School Committee herewith submits its annual report for the year 1952.

The members of the Committee wish to extend a cordial invitation to parents and all citizens to visit the schools whenever possible to obtain a comprehensive view of the schools' accomplishments and needs. The reports of the superintendent and other staff members describe the program of the schools.

The financial report for the year is included in the Report of the Town Accountant. Detailed information concerning any phase of the financing of the schools is available at the Superintendent's Office or at the Town Hall.

The Committee extends its appreciation for the continued support of the community in meeting the many school needs resulting from the rapid increase in the population of the Town. The eight-classroom addition to the High School, which is nearing completion, is a notable aspect of this support.

Respectfully submitted,

CORNELIUS J. MAGUIRE, *Chairman*

ALLAN R. FINLAY

HARVEY C. NEWTON

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee
Wayland, Massachusetts
Gentlemen:

I am submitting herewith my second annual report and the fifty-sixth in the series of reports of the Superintendent of Schools. In presenting this report I am reflecting the conscientious and effective service of the instructional, clerical and custodial staff, the members of the School Committee, the School Building Committee, the School Site Committee, and other community leaders who have during the past year continued to contribute so much to the school system.

In common with many neighboring school systems, Wayland's public schools have continued to face urgent problems of obtaining adequate school facilities and of securing qualified teachers in this time of teacher shortage.

This nation-wide shortage of teachers has been brought about by sharp increases in enrollment, especially in the elementary schools, together with a major shift in the American economy during recent years. In general, salaries of teachers have changed sufficiently to offset the increase in cost of living. During this period the nation has experienced full employment, booming production, and a wide increase in standard of living. Teachers have shared in only a minor way in this transformation. As a result, many young people who are desperately needed in the teaching profession are entering other fields. Unless the economic lot of teachers can be steadily improved, there will be only a dim hope that our children will receive the quality of education to which they are entitled.

Many communities have made efforts to recognize this basic problem through changes in local salary schedules. The state has increased the statutory minimum salary to \$2,500 per year except in the small towns. Our community has been a part of this trend through the establishment of a salary schedule with a minimum of \$2,600 and a maximum of \$4,000 for a teacher with a Master's degree and ten years or more of teaching experience. This schedule approximates the median of communities in this area. The extent to which the Town's financial resources make it possible to maintain or improve our competitive position with our neighbors will have much to do with our success in selecting the best qualified from the too small numbers available.

A substantial increase in salary level of Massachusetts teachers is necessary if the new recruits are to be attracted to the profession. It appears

certain that the local property tax will not be able to provide the funds necessary to meet this need. Governor Herter expressed the support of his administration in increasing state aids for the schools in his inaugural message. If legislation is passed providing a sufficient utilization of state revenues to support the schools, the means to meet this critical issue will be available.

TEACHING STAFF

The staff has increased to fifty members, of whom sixteen joined our staff during the past year. Seven teachers filled new positions, while nine replaced staff members who resigned to accept positions in other communities or to leave the profession. It is interesting to note that twenty teachers have served our community more than three years.

During the year two of the principalships became vacant, with Stanley Clement becoming principal of Braintree High School and Hubert Ward accepting a position as principal of the Junior High School in Foxboro. W. Maxwell Griffin is the new headmaster of the High School, coming to Wayland from Syracuse University where he was attending the Graduate School of Education and was Director of the Reading Program in the College of Liberal Arts. The new principal of the Cochituate School is Elmer R. Kane, who was on the Concord school staff last year.

SCHOOL FACILITIES

The Town appropriated \$225,000 at the March Town Meeting to construct and equip an eight-classroom addition to the High School. Due to requirements by the State Department of Public Health in excess of those anticipated, an additional appropriation of \$12,500 was made at a Special Town Meeting on October 22, 1952. The Town also appropriated \$15,000 to extend the water main in order to complete a loop from Cochituate Road to Pelham Island Road and to construct a road from the High School to Pelham Island Road. These improvements afford better protection in the event of fire and easier access to the building. All of these appropriations are subject to reimbursements by the State of approximately 40%. The facilities have been planned and constructed under the supervision of the School Building Committee.

The Town established a School Site Committee at the October Special Town Meeting to prepare recommendations for the next Annual Town Meeting concerning the acquisition of a site or sites for an elementary school or schools.

This committee has made a thorough study of the proper location of the new elementary school, which will be required by September, 1954.

This study has included a review of the distribution of elementary school children, the distribution of the pre-school population, the distribution of recent permits to build houses, the location and number of lots in subdivisions now under development, the location and size of new subdivisions presented to the Planning Board, and land readily available for the construction of additional houses.

In the evaluation of this information, several facts guided the recommendation of the committee:

1. As the pre-school population enters school from year to year, both the Center and Cochituate Schools will require relief. Thus, the next new elementary school should be located between the present schools.
2. When the acreage available for houses located south of State Road is completely developed, more than one additional elementary school will be required. This next new school should be located properly in relationship to other future schools as well as the Center and Cochituate Schools. The area of the Town west of Cochituate Road, south of Five Paths, and north of Mansion Inn when fully developed is expected to have as many pupils as can be provided for in a two-room-to-the-grade elementary school.
3. There were 25 pre-school children per year living in this area according to the census of last January. There have been 70 permits for new houses in this area issued after the time when houses could have been built and occupied when the census was taken. In addition, there are many lots under active development, as well as 275 acres available for development. By September, 1954, when the school needs to be available, it is expected that there will be 35 to 45 children per grade in the area. The additional children which the school can provide for will be transported from more sparsely settled areas of the Town.
4. The exact site being recommended by the committee, which is located on high land east of Old Connecticut Path and between the old Weston Aqueduct and Maiden Lane, has the following desirable characteristics:
 - a. Central location geographically and in relation to the present and probable future population.
 - b. Satisfactory size and shape to provide adequate playground areas and proper setback of the building.
 - c. Access from a secondary road to minimize noise and traffic hazards.
 - d. Sufficient reasonably level area for economical development of playground.

- e. High land with good subsoil condition to provide good drainage and waste disposal.
- f. Water and road developments required have long been recognized as essential. These developments in connection with the school will represent an economy.
- g. Minimum interference to abutters. The boundaries include the aqueduct, roads and major change in elevation.

The Town is fortunate to still have such a satisfactory school site available in this area in view of the extensive housing development that has occurred. This points up the importance of making a thorough study of the future school site needs of the Town, so that fully adequate sites can be reserved.

Appropriation articles have been filed for decision at the Annual Town Meeting to acquire the site and to begin the preparation of plans and specifications for the building. After the plans are completed, a Special Town Meeting will be requested to authorize the construction.

GROWTH OF WAYLAND SCHOOLS

The rapid increase in school enrollment has continued in 1952 and will certainly continue in the years immediately before us. The way in which the community meets this situation will have lasting effects upon the education of Wayland children during the next half century.

Part of the increase results from high birth rates in recent years. Another major part results from the construction of new homes in the Town. The enrollment on October 1, 1952, was 101 pupils higher than last year and was distributed through the grades as follows:

1—141	5—110	9— 65
2—127	6— 94	10— 58
3—111	7— 93	11— 57
4—147	8— 84	12— 42

Considerable increase in enrollment will occur as the students in the higher grades graduate and pupils enter the first grade.

A census of pre-school children is made each year by the Town Clerk. The pre-school population on January 1, 1952, was distributed according to year of birth as follows:

1947—141	1949—157	1951—157
1948—146	1950—121	

TREND OF OCTOBER 1 ENROLLMENTS

The known facts of school enrollment and pre-school census have been combined with the average annual change in school enrollment during the past four years resulting from the substantial increase in housing to arrive at an estimate of the enrollment which may be expected in future years.

INSTRUCTIONAL PROGRAM

The quality of the educational experience of each child in school depends upon many considerations. One of the most important factors is the understanding which is brought to each day by each teacher. Before school opened this year, all of the teachers met together for four days to discuss the school curriculum and methods of helping children to learn. This workshop provided an opportunity for the new and the returning members of the staff to become professionally and personally acquainted.

A firm basis for the solution of the upcoming educational problems is created before the teacher meets her class for the year.

GUIDANCE

Guidance as a special function was first recognized in 1950 when Mabel Draper and Jean Nelson were assigned responsibility in the junior and senior high levels, respectively. The time allotted to guidance has been increased and the assignment extended to include the elementary schools.

A significant contribution has been the organization of guidance committees in each of the schools. The purpose of these committees is to extend guidance services to all students, to make case studies, and to coordinate the testing program.

Another significant step has been that of making professional clinical services available to aid teachers and parents in studying personality problems which are affecting the learning experiences of children. The services of social, welfare and medical agencies in the Greater Boston area are utilized as necessary.

HIGH SCHOOL

The high school curriculum continues to offer to students experiences leading to higher education, to the business world, and to the world of more general work opportunity. Integrated within each of these courses are threads of general education which are designed to aid students in the area of human relationships and to develop the social and communication skills necessary to get along with people in this changing world. High schools have accepted this challenge because research has demonstrated that the lack of ability to get along with fellow-workers is the number one reason for job failure.

Instructional programs change as people change and, to this end, two aspects of the Wayland High School program are receiving attention. Recognition is being given to the wide range of differences within a grade and, secondly, attention is being given to the total impact which the school makes on a student as he progresses within a grade and from grade to grade. A few of the current developments are mentioned merely to pinpoint the status of our curriculum development. For example:

1. In recognition of the range of reading levels and interests, a substantial library development is in evidence. About 600 new books and several issues of magazines and periodicals have been procured since

September, 1952. Some of these have been donated and others purchased, but each has been screened with the purpose in mind of developing effective reading habits. The Wayland Public Library has been cooperative in helping to supply needed reading materials. Wayland High School is attempting to meet pupil needs through a wider selection of reading materials.

2. A further development which recognizes the differences in how pupils learn is the audio-visual service. The school has a basic program which includes weekly delivery of films. In addition to this, classroom teachers are free to augment this schedule as they plan their courses with students.
3. The administrative and guidance functions of the school are being closely integrated. Individual conferences are the bases for schedule making. A pupil with a purpose for taking a course is well on his way toward a successful completion.
4. The Laboratory phase of the Science Department is undergoing enrichment. Laboratory time is scheduled, and additional equipment is being acquired. Students going to college have the experience of a laboratory science, and those taking a terminal course have opportunity to work out applications of scientific principles. A Junior High science room in the addition will aid this development.
5. Effective teacher-pupil planning is being encouraged. To facilitate this, a workshop for the staff was held prior to the opening of school in September. Out of this is evolving departmental meetings of teachers from grades 7 through 12. Teachers of English, for example, get together to consider how the work of one grade relates to that of another in a developmental sense.
6. The increase in student population within our high school and the addition of new classrooms offer new opportunities in developing the curriculum. For instance, a new art room and a Junior High science room are now in use. These subjects, taught in their new setting, offer a chance for active pupil participation which tends to develop added interest at the seventh, eighth, and ninth grade levels.
7. The effectiveness of the school day has been increased by the hot lunch program. Lunch is served to three separate age groups, with the result that all students enjoy a more integrated school day of courses and activities.

8. Use is made of community resources. Student groups are transported on field trips to places which offer background for related school work. Resource persons from the community are invited into the classroom. Students have the chance for part-time work experience through cooperation with local employers. There has been cooperation between the Student Council of Wayland High School and the Wayland Kiwanis Club for the purpose of creating wholesome recreation for the youth of Wayland.
9. An Art Room was included in the new wing of the High School. This room has special adjustable desks, display walls, sink, and storage compartments. This addition of a kiln, potter's wheel, loom and woodworking table will complete the equipment necessary for a rounded arts and crafts program. During the year the junior high students prepared an exhibit of United Nations posters which was sent to the United Nations Secretariat in New York. The high school classes made linoleum block prints of original Christmas card designs.
10. Fourteen members of the Class of 1952 have entered advanced schools. Ten have gone to colleges, including Mt. Holyoke, Colby, Boston University, Northeastern, Boston College, Columbia, Michigan State and Rhode Island School of Design. One student entered the Newton-Wellesley Hospital School of Nursing, one student entered Mt. Ida, two students attended Burdett College and Burroughs School of Machine Operation, and another is at the United States Coast Guard Academy. Seven boys entered the Air Force, two the Army, and one the Navy. Twenty-nine students are employed in office work, construction work, telephone operating, and sales.
11. Shirley Bentley was awarded the Wayland Woman's Club Scholarship, the Reader's Digest prize, and the D. A. R. Good Citizenship prize. The Wayland High School P. T. A. awarded scholarships to Shirley Bentley, Gail Osmond, Charles Nixon, and Patricia DiModica. The Cochituate Mothers' Club scholarship went to Bette Richardson. Gail Osmond won the American History award.
12. The College Club, numbering 84 Wayland High School students, completed a successful second year with a program to provide better preparation for college and advanced schools of training through stress on entrance requirements, accurate knowledge about colleges and scholarship opportunities, tutorial help, and opportunity for added social graces. College club members were ushers and usherettes at many school functions throughout the year. They held their Spring

Tea with the help of the College Mothers under the general chairmanship of Mrs. Allan Finlay. Dr. George Rohrbaugh, president of Chandler School for Women, challenged all students to prepare for post-high school training and pointed out many scholarship opportunities. The visitation tours of college campuses and buildings were sponsored by the College Mothers, and plans are under way to sponsor another College Night in 1953.

13. Again this year, with the help of Mr. Roland Darling of Northeastern University, seven occupational meetings are scheduled. Experts in various fields are to come to our school and talk with our young people:

October

Mechanical jobs for men with the airlines and aircraft companies;

What it is like to be a secretary, bookkeeper, or other office worker.

Careers on the stage, in radio or television, or in speech therapy.

November

A day in the life of a nurse;

How young men are trained for mechanical jobs in radio and television;

Preparing for college for a career in accounting, finance, insurance, industrial relations, or business management.

December

What engineers do and where they work;

New and unusual fields of work for men and women;

How young women prepare to become physical therapists or physical education instructors.

January

Careers for men and women in chemistry or physics;

How young women prepare for careers in retailing, fashion, and retail advertising;

How young men are trained to become tool designers, tool makers, pattern makers, draftsmen, steam and diesel engineers, and industrial electronics technicians.

February

Jobs for the summer;
Careers in music and allied fields;
How young women train to become dental hygienists.

March

Careers for young women in home economics and nutrition;
Jobs for high school graduates in industry in June, 1953;
Jobs for high school graduates with the Telephone Company
in June, 1953;

April

Juniors, what are you planning?
How to apply for full-time or summer employment.

14. At various intervals throughout the year representatives from leading colleges visit our school and talk to our students. We encourage employers to visit school to tell us of their needs and to interview students for job placement. Baby-sitting placement has been very active, and Judy Cook, a senior, has done a fine job in the record keeping of our placements.

CLASS OF 1952

OFFICERS

<i>President</i> , Robert Teele	<i>Secretary</i> , Shirley Bentley
<i>Vice-President</i> , William Withington	<i>Treasurer</i> , Gail Osmond

Peace Through Cooperation	Shirley Bentley

COCHITUATE SCHOOL

The work in the Cochituate School for the first half year may be characterized as exploratory in nature, due to the fact that the position of principal has been newly filled.

Preliminary faculty meetings were held to integrate the findings of the pre-school teacher workshop with problems indigenous to the Cochituate School. These exploratory conferences resulted in the determination of large areas of concern as follows:

Guidance. It was felt that the need to be met first was in the area of guidance. Children who had special problems and/or disabilities deserved immediate attention. A Guidance Committee, composed of six teachers, the principal, and Miss Jean Nelson, Director of Guidance, was set up. This committee resulted in a program of referrals, — teachers

would submit their reports on children explaining why they felt that these children required immediate diagnostic attention. Batteries of tests — intelligence, psychological, achievement, and physical — were then administered to determine the exact nature of the problem or problems. Conferences were held involving the teacher, the parent, the principal, and the director of guidance to clearly define the problem(s) to the parent and to establish corrective measures. In conjunction with this work, the school nurse, doctor, and dentist have been of great assistance in isolating physical disabilities.

Testing. The Guidance Committee has also been responsible for the testing program for the Cochituate School along with the other members of the faculty. It was generally felt that the "normal" child required more attention than heretofore had been given to him in this area. A testing program has been set up which provides for regular achievement testing and for intelligence testing on a permanent schedule.

Curriculum Revision. The entire faculty operates as a continuing committee in studying our curricular offerings. The areas of spelling, handwriting, and arithmetic are now under study to determine what changes or revisions are necessary to improve the teaching in these subjects.

Audio-Visual Aids. A workshop for the faculty was held so that they could have demonstrated to them the latest techniques of using equipment such as the slide projector, the tape recorder, the 16-mm. sound projector and the strip-film projector. The workshop has resulted in a greater use of this equipment and in more efficient teaching techniques.

Reporting. A newly created study group has just commenced an analysis of this delicate area. No findings have as yet been reported.

CENTER SCHOOL

The faculty of the Center School is cooperating in the extension of the guidance services in the elementary schools.

The pre-school conference has led to many practical changes in the curriculum of the school.

A study of the system of reporting to parents is being undertaken jointly with a committee of the Parent-Teacher Association.

A notable event was the use of the new addition to the High School by four elementary classes, including all of the sixth-grade children of the Town. These classes are administratively a part of the Center School organization.

A substantial improvement in the Center School building occurred with the installation of hot water, a dishwasher and serving counter in the lunchroom, a teachers' room, and sinks in the two first-grade rooms. Gutters and downspouts were repaired. The basement area was painted and additional lighting installed.

HEALTH SERVICES

Mary McNeill, the School and District Nurse, carried out the nursing services in the schools.

A check on absentees has been made throughout the year. Weight and height of children were recorded. The pre-school clinic was held in May for those children who planned to attend school the following September. The school physician was assisted at the regular physical examinations. The audiometer test and the Massachusetts vision test were given to all cases where defects were indicated. The toxoid clinic, sponsored by the Board of Health, was conducted in the schools. The school physician was assisted in administering the diphtheria injections.

Dr. David R. Corey was the school physician until June. Dr. Charlotte A. Stewart assumed these duties for the 1952-53 school year in accordance with the rotation policy. New legislation governing the regular physical examinations of students will result in a change from brief annual examinations of all students to more complete examinations at less frequent intervals.

Dr. Joseph P. Fournier replaced Dr. Lawrence F. Cusolito as the school dentist in September. The work of the dental clinic has been carried out with one morning each week provided at the Center and Cochituate Schools, respectively.

ATTENDANCE SERVICES

During the year 1952, David J. Allen, the Attendance Officer, investigated 104 cases of questionable absence.

Number of students accompanied to school	6
Number of truants	12
Number having no legitimate excuse	9
Number taken for medical attention	8
Number taken home due to illness	71

Respectfully submitted,

REXFORD S. SOUDER,
Superintendent of Schools

SCHOOL CALENDAR, 1953

Schools reopen	January 5
Winter Vacation	February 23-27
Good Friday	April 3
Spring Vacation	April 20-24
Schools close	June 19
Schools open	September 9
Columbus Day	October 12
Armistice Day	November 11
Thanksgiving Vacation	November 26, 27
(Elementary Schools dismiss at 11:45 and High School dismisses at 12:15 on November 25)	
Christmas Vacation	December 24-January 1
(Elementary Schools dismiss at 11:45 and High School dismisses at 12:15 on December 23)	

SCHOOL ENTRANCE

Any child who is five years and eight months of age on September first of the current school year may be admitted to the first grade, but in every case the admission of a child under six shall be dependent upon the fitness of the child to profit by the work of the school, such fitness to be determined by the Superintendent. Pupils under the age of seven years who have not previously attended school shall not be permitted to enter later than thirty days after the opening of school in September except by special permission of the Superintendent. Certificates of birth and vaccination shall be required at the time of entrance.

NO-SCHOOL SIGNAL

In the event of exceptionally severe weather conditions or when the transportation system is disrupted, WBZ, WEEI, WNAC, and WKOX will broadcast the no-school announcements between 7:00 and 8:00 A. M. In addition, five blasts will be sounded on the fire alarm in Wayland and Cochituate at 7:30 A. M.

We feel these signals are clear and, therefore, urge parents to refrain from flooding the Telephone Office and homes of School Department personnel with telephone calls.

On days when the signal is not used weather conditions may warrant the non-attendance of certain children. Lack of normal health would tend to make it advisable for parents to keep the child at home. Since weather reports are not always reliable, and since the School Department desires to render maximum education service by having the schools open the greatest number of days, storm signals will not be used on ordinary rainy or snowy days or when there is reasonable doubt.

A good education can be built only on good health. Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

WARRANT FOR ANNUAL TOWN MEETING

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX SS.

To any of the Constables of the Town of Wayland, in said County:

Greetings:

In the name of the Commonwealth you are required to notify and warn the inhabitants of said Town qualified to vote in town election to meet at their respective polling places, Precinct 1 in the High School Gymnasium, Precinct 2 in the Legion Hall, on

MONDAY, MARCH 1, 1954

at six o'clock in the forenoon, there and then to bring in their ballots for a Moderator, Town Clerk, Treasurer, Collector of Taxes, one Water Commissioner, one member of the Board of Health, Tree Warden and seven Constables, all for one year;

One Selectman, one member of the Board of Public Welfare, one member of the School Committee, one Assessor, one Water Commissioner, two Trustees of the Public Library, one Cemetery Commissioner, one member of the Board of Health, one Park Commissioner, one Road Commissioner, one Commissioner of Trust Funds and one member of the Planning Board, all for three years;

One member of the Planning Board for four years;

Two members of the Planning Board for five years.

All the foregoing to be voted on the official ballot. The polls will be open at 6:00 o'clock in the forenoon and will remain open continuously until 7:00 in the afternoon, when they shall be closed.

And you are required to notify and warn the inhabitants of said Town qualified to vote in Town affairs to meet at the High School Gymnasium on

WEDNESDAY, MARCH 3, 1954

at 7:45 P. M., then and there to act on the following articles.

Article 1. To hear the reports of the Town Officers, Agents and Committees, and act thereon.

Article 2. To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Article 3. To see if the Town will vote to adopt a by-law establishing a plan classifying any or all positions, other than those filled by popular election and those under the direction and control of the School Committee, into groups and classes doing substantially similar work, or having substantially equal responsibilities; to formulate a plan establishing maximum and minimum salaries to be paid to employees in positions so classified, all in accordance with the provisions of General Laws, Chapter 41, Section 108A; to act upon the recommendations of the committee established by vote under Article 5 of the Warrant for the 1953 Annual Town meeting; or take any other action relative thereto.

At the Annual Town Meeting in 1953, the Town authorized the appointment of a committee to study the problem of compensation to Town employees; to prepare a plan classifying all such employees, the plan to include minimum and maximum salaries and step-rate increases. The committee has had a number of conferences with department heads, has considered the arrangements existing in other towns, has reviewed various town salary scales and will be prepared to make its report at the time of the Annual Town Meeting. It will propose a by-law establishing a plan classifying all town jobs, other than those filled by popular election or those under the direction and control of the School Committee.

After the Special Salary Committee has made its report to the Town, the Finance Committee will be prepared to make its recommendations with respect to the report so made.

Article 4. To grant money for necessary Town purposes.

See Finance Committee Report

Article 5. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by Section 108, Chapter 41, General Laws, as amended, and set the effective date of such salary and compensation.

Since 1947, it has been necessary for the Town to fix, annually, the salary or compensation of each elective officer.

The Finance Committee recommends that the salary for the elective officers be set as indicated in the budget and that they be effective from January 1, 1954.

Article 6. To see if the Town will vote to authorize the Board of Selectmen: (1) to sell, or otherwise dispose of the present 1953 Chevrolet police car, in connection with the purchase of a new car; (2) to sell, or otherwise dispose of the Water Department's: (a) present 1952 Chevrolet pick-up truck and (b) its present 1951 International $\frac{3}{4}$ -ton truck, in connection with purchase of two new trucks; (3) to sell, or otherwise dispose of, the Highway Department's present $4\frac{1}{2}$ -ton 1948 International truck; and (4) to sell, or otherwise dispose of, the Welfare Department's present 1952 Chevrolet—the funds for the police car, the Highway Department truck and the Welfare Department car being provided for in the budget of the respective departments and the funds for the Water Department trucks being provided for in Article 8, or do or act.

The sale or disposal of equipment requires a vote of the Town. The police car and the Water Department pick-up truck are regularly purchased on the basis of an annual trade-in. The Water Department has just completed arrangements for a similar regular annual trade for a nominal price of its $\frac{3}{4}$ -ton truck. The Welfare Department has completed a similar arrangement on the basis of a trade-in every two years. The Highway Department is purchasing a new $4\frac{1}{2}$ -ton heavy-duty truck, toward the price of which the present truck should be traded in. This is consistent with the regular 5-year replacement program of the Highway Department.

The Finance Committee recommends the approval of the article.

Article 7. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1954 and to issue a note or notes therefor, payable within one year and

to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

It is through this article that the Treasurer obtains authority to borrow money in case of need, prior to the receipt of the bulk of the tax money in October and November.

The Finance Committee recommends the approval of this article.

Article 8. To see if the Town will appropriate sums of money for the following:

- (1) Water Coupon Notes Water Bonds and Water Registered note — maturing in 1954 — payment of principal;
- (2) Water Coupon Notes, Water Bonds and Water Registered note — payment of interest.
- (3) Water Department — Maintenance;
- (4) Town Office — Clerical Salaries;
- (5) Purchase of two new trucks;
- (6) Installation of a hydrant at the intersection of Parmenter Lane and Plain Road;
- (7) New meter installation — for existing services.

The entire amount to be taken from "Water Available Surplus" or do or act.

The sums of money required under the article are as follows:

- (1) Water Department Debt —
 payment of principal \$17,000.00;
- (2) Water Department Debt —
 payment of interest 2,940.00;
- (3) Water Department Maintenance:
 Salaries:
 Superintendent \$4,700.00 ;
 2nd Man 3,750.00 ;
 Labor — 3 permanent men 9,700.00
 Appropriation \$25,550.00
- (4) Town Office — Clerical Salaries \$2,000.00;
- (5) Purchase of: (a) a new 1/2-ton pick-up truck \$200.00
 (b) a new 3/4-ton truck \$1,350.00

- | | | |
|-----|--|-------------|
| (6) | Installation of a hydrant at the interesection of
Parmenter Lane and Plain Road | \$350.00 |
| (7) | New meter installation for existing services | \$15,000.00 |

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action in relation thereto.

Last year the reconstruction of Oak Street from the Natick line to Commonwealth Road East was completed. The County and State have approved plans for the rebuilding of Old Sudbury Road and have advised the Town that they are, together, allocating \$9,000 for 1954 — \$6,000 by the State and \$3,000 by the County — against which, the Town will be expected to put up its share of \$3,000. It is presently planned that, this year, the Town will start rebuilding Old Sudbury Road north from the railroad station at the Center. The entire job will take a number of years.

The Town obtains so much from its annual Chapter 90 appropriation that the Finance Committee has regularly supported this type of expenditure.

The Finance Committee recommends the approval of the article and the appropriation of \$3,000 at this time.

Article 10. To see if the Town will vote to appropriate and assess a sum of money for the installation of one or more safety islands at East and West Plain Streets at the junction of North Main Street, or do or act.

There have been a number of accidents at this location. There is a definite tendency to cut the corners because of the large opening at the intersection, and the installation of one or more safety islands would, in all probability, effectively sort out the traffic and reduce hazards at this point. The traffic island on West Plain Street at Old Connecticut Path has worked out satisfactorily.

The Finance Committee feels that this work can be done by the Highway Department at a cost of about \$600. The Finance Committee therefore recommends the approval of the article.

Article 11. To see if the Town will vote to accept as a public Town

way, the road known as "Old Farm Road" or a portion thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk and authorize the Board of Selectmen to acquire by eminent domain, purchase, gift or otherwise, and to appropriate a sum of money for the acquisition of such way or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

This article contemplates the acceptance of Old Farm Road for a distance of 1,191 feet from Old Connecticut Path. It does not include the acceptance of Old Farm Circle. There are 17 approved lots on this street and 15 houses have been built within the last two years. The entire cost of completing the road in finished form has been borne by the abutters and there is no request of the Town to appropriate any money. The article calls only for acceptance of the street. The Planning Board and the Highway Department advise the Finance Committee that the road is ready for the Town to take over.

The Finance Committee therefore recommends the approval of the article.

Article 12. To see if the Town will vote to accept as a public Town way the roads known as: (1) "Happy Hollow Road" from Rice Spring Lane to Pequot Road; (2) "Rice Spring Lane" from Goodman Lane to its end at land now or formerly of Nolan; (3) "Goodman Lane"; (4) "Juniper Lane"; (5) "Pequot Road" from Happy Hollow Road to Juniper Lane, or a portion or portions thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk, and authorize the Board of Selectmen to acquire by eminent domain, purchase, gift, or otherwise, and to raise and appropriate a sum of money for the acquisition of such ways, or any portion or portions thereof, or take any action relative thereto.

This article contemplates the acceptance of several roads in the Happy Hollow section. The work on all roads has been finished to conform to the standards set up at the time this sub-division was approved by the Planning Board.

The Highway Department and the Planning Board advise the Finance Committee that the roads are now ready for acceptance. There are 52 lots with 44 houses located on 3,775 feet of road and no expenditure of money is called for on the part of the Town.

The Finance Committee recommends the approval of the article.

Article 13. To see if the Town will vote to accept the laying out as a public way of Orchard Lane, as described in the order of Laying Out of the Board of Selectmen dated February 16, 1952, and as shown on a plan entitled "Plan and Profile of Orchard Lane in Wayland, Massachusetts" dated November 14, 1952, drawn by Everett M. Brooks Co., Civil Engineers, on file with the Town Clerk, and authorize the Board of Selectmen to acquire the necessary land and easements by purchase, gift, eminent domain, or otherwise, and to assess betterments as provided in the Order of Laying Out; and appropriate and assess a sum of money for the acquisition of such land and easements for the construction of said way and for other costs in connection with the project.

This article came before the Town at the last Annual Town Meeting at which time the Finance Committee opposed the acceptance, solely on the grounds that there was not sufficient money available in 1953 for all proposed betterments. The road extends in from Training Field Road for a distance of 1,400 feet, has 13 approved lots and there are 11 houses which have been completed within recent years. The road has been laid out according to Planning Board specifications applicable at the time the development was approved and there is now required some drainage and regular surfacing. The total cost involved is \$4,800.

The Finance Committee recommends the approval of the article.

Article 14. To see if the Town will vote to accept as a public Town way under the provisions of the Betterment Act, the road known as "Davelin Road," or a portion thereof, as laid out by the Selectmen and as shown on a plan or plans on file with the Town Clerk and authorize the Board of Selectmen to acquire by eminent domain, purchase, gift or otherwise, and to appropriate a sum of money for the acquisition of such land and for the construction of such ways, and determine how the money shall be raised, or take any action relative thereto.

This article contemplates the acceptance of the first 664 feet of Davelin Road in from Old Connecticut Path. There are 8 lots on the road and 8 houses have been built within the last few years. The road has been laid out in accordance with the Planning Board specifications applicable at the time the plan was filed. The work involved is a surfacing job only and will cost about \$1,700.

The Finance Committee recommends the approval of the article.

Article 15. To see if the Town will vote to accept as a public Town way, under the provisions of the Betterment Act, that portion of Hayward Road lying between Rich Valley Road and Sylvan Way which has not been previously accepted, and that portion of Sylvan Way lying between Hayward Road and Lundy Lane, or either of them, or a portion thereof, as shown on a plan or plans on file with the Town Clerk, and authorize the Board of Selectmen to acquire the necessary land by purchase, gift, eminent domain, or otherwise, and appropriate a sum of money for the acquisition of any such land and the construction of such way or ways, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

This article contemplates the acceptance of 268 feet of Hayward Road and 1,200 feet of Sylvan Way. There are 19 lots on the road, 5 of which can probably never be built on because of water conditions, but 12 houses have been erected on the upper part of the road which was not completed in accordance with the requirements of the Planning Board at the time the sub-division was laid out. Despite this, the lots were released a number of years ago.

The Highway Department advises the Finance Committee that a substantial amount of fill will have to be brought in and an extensive grading job done. The present estimated cost is \$9,700 and since this amount is so much in excess of the amount that the Town would ordinarily spend for the job, had the preliminary work been completed, the Finance Committee recommends that the street be accepted only on the condition that the owners of the abutting properties bear the difference between the present actual cost and the amount that the Town would normally spend for such work. This will result in the owners paying 65% and the Town, 35%.

The Finance Committee therefore recommends the approval of the article under the restrictions outlined.

Article 16. To see if the Town will vote to acquire by purchase, gift, eminent domain or otherwise any or all of the parcel of land bounded and described as follows:

Northerly by State Road West;
Northwesterly and Southwesterly by land now or formerly of
Garden City Gravel Corp.;
Southerly by land of the Boston and Maine Railroad;
Easterly by the Sudbury River

and to raise and appropriate a sum of money therefor, or take any other action relative thereto.

This article proposes the purchase of the land now used as the Town dump on State Road West on the west side of the Sudbury River, adjacent to the Town of Sudbury. There are two pieces of property involved, one of which is owned by Marion P. Frost, containing 3 acres and the other which is owned by C. A. Cutting, containing about 10 acres. When the Cochituate dump on North Main Street is filled, this will be the only approved available dumping space for the Town. In order to protect present and future use, it seems advisable to the Finance Committee that the land be acquired. Since most of it is under water for many months of the year, and since it is assessed as of no value, the cost would be relatively slight.

The Finance Committee therefore recommends the approval of the article.

Article 17. To see if the Town will vote to accept various conveyances or gifts made to the Town, or take any other action relative thereto.

The Town Counsel advises the Finance Committee that over a period of years, a number of pieces of property have been conveyed to the Town without the Town's voting acceptance. This article proposes to clarify the matter of ownership.

The Finance Committee recommends the approval of the article.

Article 18. To see if the Town will vote to amend the Town By-Laws by adopting the recommendations of the committee appointed under Article 29 of the Warrant for the 1953 Annual Town Meeting, or take any other action relative thereto.

At the last Annual Town Meeting, a special committee was authorized to revise, renumber and bring up to date, the Town By-Laws. The Town Counsel, on behalf of the committee, will make recommendations at the Town Meeting, since there will be no substantive changes involved and, in view of the necessity of putting the By-Laws in proper shape, the Finance Committee recommends the approval of the article. The revised by-laws are being distributed with the Town Report.

Article 19. To see whether the Town will vote to amend the Town By-Laws by adding to Article 7 thereof an additional section as follows, or take any action relative to the subject matter thereof:

SECTION 6. No person shall fire or discharge any firearm or explosives of any kind within the limits of any highway, park or other public property, except with the permission of the Board of Selectmen, or on any private property except with the consent of the owner or legal occupant thereon; provided, however, that this by-law shall not apply to the lawful defense of life or property, nor to any law enforcement officer acting in the discharge of his duties.

This is a matter upon which the Finance Committee prefers to make no recommendation, since it feels it has not had sufficient information from those who might be interested in the passage of the article, or from those who might be opposed to it.

Article 20. To see if the Town will authorize the acquisition for recreational purposes all or any part of the land shown on a plan entitled "Wayland, Mass. Plan of Riverview Terrace, Edward Howard, C. E." dated May, 1924 and recorded with Middlesex South District Registry of Deeds, Plan Book 339, Plan No. 41; to raise and appropriate a sum of money therefor; or take any other action relative thereto.

Over a period of many years, with the co-operation and assistance of the residents of Riverview Terrace, the Town has been gradually acquiring vacant lots and dilapidated buildings in the Riverview area. Much of the land so acquired is under water a portion of the year and is unsuitable for dwelling use. The program is now drawing to a close, but there are a number of properties which, in the opinion of the Finance Committee, should be acquired to prevent their future use for dwelling purposes.

The Finance Committee, therefore, recommends the approval of the article and the appropriation of \$1,500 for the purpose.

Article 21. To see if the Town will vote to authorize the purchase of any, or all, of the following parcels of land located on Hawthorne Road and Lake Shore Drive:

- (1) Land now or formerly of Dorchester House, Inc., being Lot 87 and Part of Lots 86 and 88 Castle Gate North;

- (2) Land now or formerly of Hurvitz, et al, being Lots 83 and 84, Castle Gate North;
- (3) Land now or formerly of Albert J. and Dorothy R. Scott, being Lot 85 Castle Gate North;
- (4) Land now or formerly of Joseph T. Tansey, being Lot 89 Castle Gate North;

to raise and appropriate a sum of money therefor, or take any other action relative thereto.

This article contemplates the acquisition by purchase of additional property on Lake Shore Drive necessary to straighten out and remove a very dangerous curve in the road. At the last Special Meeting, the Town voted to purchase Lot 90. The assessed value of all the property here involved comes to \$4,900 and the Finance Committee feels that for about \$5,000, the Town can acquire all the land necessary to make the improvement.

The Finance Committee therefore recommends the approval of the article.

Article 22. To see if the Town will authorize the acquisition by purchase, gift, eminent domain, or otherwise, of any or all of the following land, located on Bent Avenue, George Street, and Cottage Road:

Lots 1-39; 42-91 and 106-115 of Dudley Lake Shores Section B to raise and appropriate a sum of money therefor, or take any other action relative thereto.

The Finance Committee is in the process of working out a complete report on this project and will make its final report at the Town Meeting.

Article 23. To see if the Town will vote to amend the Building Code and Plumbing Code, or take any other action relative thereto.

There is an increasing necessity for having up to date codes in both cases. The Finance Committee recommends the approval of the article. Copies of the proposed codes are to be distributed with the Town Report.

Article 24. To see if the Town will vote to amend the Zoning By-Laws by providing that an area zoned as Business, Industrial, Neighborhood

Business or Limited Commercial Districts shall not be used for residence purposes.

This article calls for a change in the Zoning Laws by which permits would not be granted for residential use within Business, Industrial, Neighborhood Business or Limited Commercial districts so as to keep the districts free for the use for which they are are zoned.

The Planning Board will have held a public hearing on this matter and will make a report to the Town.

The Finance Committee feels that the Town should be guided by the recommendations so made.

Article 25. To see if the Town will amend the Zoning Map by zoning as a Limited Commercial District any or all of the parcels of land bounded and described as follows:

- (1) Southerly by State Road West;
Easterly and Northerly by the Sudbury River;
Northwesterly by land formerly of J. Fred Wheeler;
Westerly by the town line between Wayland and Sudbury.
- (2) Southerly by State Road West and the Boston and Maine Railroad right of way;
Northeasterly and Southeasterly by the land now or formerly of Audrey A. and Natalie K. Bill;
Northeasterly by a line 250 feet southwesterly of and parallel to Old Sudbury Road;
Northwesterly by land now or formerly of Ruth N. Burbank;
Westerly by the Sudbury River.

This article would provide for the inclusion within a limited commercial district, two substantial pieces of property — one on the west side of the Sudbury River and one on the east side of the Sudbury River, both bounded on the south by the State Road.

The Planning Board will have held a public hearing on this matter and will make a report to the Town. The Finance Committee feels that the Town should be guided by the recommendations so made.

Article 26. To see if the Town will vote to amend the Zoning By-Laws by providing for Site Plan Approval by the Zoning Board of Appeals in Business, Industrial, Limited Commercial, and Neighborhood Business Districts so that no business or commercial business in such a zone shall be constructed or externally enlarged, or commercial or business use established or expanded on the ground area, except in conformity with a site plan bearing an endorsement of approval by the Zoning Board of Appeal, said Site Plan showing all existing and proposed structures, drive-ways, parking areas, utilities, drainage facilities and landscape features, or take any other action relative thereto.

This article would amend the Zoning Laws to permit the imposing of various types of protective restrictions in business or manufacturing districts.

The Planning Board will have held a public hearing on this matter and will make a report to the Town. The Finance Committee feels that the Town should be guided by the recommendations so made.

Article 27. To see if the Town will vote to amend the Zoning By-Laws by creating a new type of district to be known as a Neighborhood Business District, and by regulating the businesses and other uses to be permitted therein; or to take any other action relative thereto.

This article contemplates the setting up of a new type of district to be known as a "Neighborhood Business District." Its primary purpose will be to provide the possibility of creating a small amount of retail store area where necessary for surrounding residential property.

The Planning Board will have held a public hearing on this matter and will make a report to the Town. The Finance Committee feels that the Town should be guided by the recommendations so made.

Article 28. To see if the Town will vote to amend the Zoning By-Laws and Zoning Map by changing to a "Residence Zone 60,000 square feet 210 feet Front" any part or all of the following area:

Beginning at the interesection of Shaw Drive and Old Connecticut Path East, at land of the Commonwealth of Massachusetts Weston

Aqueduct; thence proceeding westerly and southwesterly along Old Connecticut Path East to Cochituate Road; thence southerly along Cochituate Road to the southerly bound of land now or formerly of Rocco D. LaPenta; thence easterly along the southerly line of said land of LaPenta, and along a continuation thereof in a straight line to High Rock Road; thence easterly along High Rock Road to Woodridge Road; thence southerly along Woodridge Road to the southerly bound of Lot 7-18; thence easterly along the southerly bound of Lot 7-18; thence northerly along the easterly bounds of Lots 7-18, 7-17, 7-7, 7-6A and 7-5A to the southeasterly corner of land now or formerly of Peter and Mary M. Salvucci; thence in a straight line to the northwesterly corner of land now or formerly of Dorothy Draper Hamlen; thence northwesterly along land now or formerly of Mainstone Farm Trust, and along the boundary of the existing district zoned as a "Residence Zone 60,000 square feet 210 feet Front" to the point of beginning,

or do or act.

This article was filed by the individual owners of the property affected. It provides for the inclusion within the 60,000 square foot residential area of the land bounded westerly from Shaw Drive on the north by Old Connecticut Path, on the West by Cochituate Road, and southerly by the southern boundary of the Rocco LaPenta land. The area immediately to the east is now zoned in the 60,000 square foot area. Substantially all of the owners of the land affected have requested this change.

The Planning Board will have held a public hearing on this matter and will make a report to the Town. The Finance Committee feels that the Town should be guided by the recommendations so made.

Article 29. To see if the Town will vote to accept Sections one, three, six, seven, and eleven to sixteen inclusive of General Laws, Chapter 142 as amended, or take any other action relative thereto.

These sections provide for the supervision of plumbing in the Town and acceptance of the sections is a necessary part of having a plumbing code.

The Finance Committee recommends the approval of the article.

Article 30. To see what sum, if any, the Town will vote to transfer from available funds to meet any of the appropriations made under the foregoing articles.

The Finance Committee recommends the approval of such action as may be suggested by the Town Treasurer.

And you are required to serve this Warrant by posting copies thereof, attested by you, at the Town Hall, at each Post Office in Town, and at the Legion Hall, at Cochituate, seven days, at least, before the time of holding said election.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk on or before March 1, 1954.

Given under our hands and seal this first day of February in the year of our Lord one thousand nine hundred and fifty-four.

GERALD HENDERSON,
JOHN W. LEAVITT,
WILLIAM A. LOKER,
Selectmen of the Town of Wayland.

A true copy, attest:

Constable of the Town of Wayland

REPORT OF THE FINANCE COMMITTEE

The Finance Committee regularly reports to the Town its stewardship of the "Reserve Fund." During 1953 the Fund of \$12,500 was disbursed as follows: Selectmen: Expense — Civilian Defense, \$2,498.64; Fire Department — expense, \$3,167.76; Snow Removal, \$927.77; Park Department, \$623.35; Town Counsel and Legal Claims, \$888.50; Schools, \$503.63; and thirteen other accounts of less than \$500.00 each totalling \$2,583.84. The unexpended balance remaining in the account as of December 31 was \$1,306.51.

Included in the appropriation recommended for 1954 is \$15,000.00 instead of \$12,500.00 for the "Reserve Fund." The Finance Committee feels that an increase in the appropriation is necessary in view of the increase in the size of the overall budget and inasmuch as it is impossible to accurately anticipate the requirements of certain departments.

The continued growth of the Town is best illustrated in the number of building permits issued and the increased assessed valuation.

	1949	1950	1951	1952	1953
Building Permits	63	141	155	140	181
Increases in Real Estate Assessed Valuations	374,000	342,000	800,000	974,000	1,389,000

The budget recommended for 1954 carries some adjustments in salaries and hourly wage levels and provides for reclassification of some appointive positions. The Finance Committee has kept its recommendations on the levels which are being recommended to the Town by the "Salary and Wage Coordinating Committee" appointed at the last annual meeting. In general the salaries recommended for elected positions, the Finance Committee feels, are in proportion with levels recommended for appointive positions.

The 1954 budget as reported amounts to \$823,994.50. The following table illustrates the steady growth in the amount which has been recommended to the Town as being necessary to cover the cost of local government. Because the school budget accounts for such a relatively large proportion of the total, the school budget is set forth for the same period.

	1949	1950	1951	1952	1953	1954
Budget	\$414,000	\$491,000	\$534,000	\$614,000	\$726,000	\$823,000
Increase over prior year	67,000	77,000	43,000	80,000	112,000	97,000

School

Budget	131,000	171,000	196,000	240,000	294,000	356,000
Increase over prior year	16,000	40,000	25,000	44,000	54,000	62,000

The principal increases in the 1954 budget over that of 1953 are as follows:

Police Department — Expense	\$6,000.00
Fire Department — Expense and alarm system	7,600.00
Schools — operating total	62,000.00
Collection of garbage	2,400.00
Highways — Maintenance and salaries	5,200.00
sidewalk construction	2,000.00
Welfare — Aid to Dependent Children	2,000.00
Disability Assistance	3,000.00
Old Age Assistance	5,000.00
Reserve Fund	2,500.00
Water Department — hydrant rental	2,000.00
Interest — schools	5,500.00

The principal decreases are:

Town Hall — Maintenance	\$3,600.00
Welfare — appropriation	3,000.00
Library — furniture and equipment	4,000.00
Park Department — new truck and equipment	3,100.00

The articles recommended for 1954 are as follows:

Chapter 90, New Construction	\$3,000.00
Traffic Island, West Plain Street	600.00
Orchard Lane — Betterment	4,800.00
Davelin Road — Betterment	1,700.00
Sylvan Way — Betterment	9,700.00
Land Purchase — Dump Operation	200.00
Riverview Terrace — Miscellaneous Lots	1,500.00
Lake Shore Drive — Miscellaneous Lots	5,000.00
Bent Avenue — Miscellaneous Lots	6,000.00
Other articles	2.00

\$32,502.00

The combination of the appropriations requested in the budget, \$823,994.50, and that provided for in the articles, \$32,502.00, is the only Town appropriation which will have to be provided for in the 1954 cur-

rent tax levy. At the special town meeting held November 30, 1953, \$17,603.58 was appropriated but it was charged against "Excess and Deficiency" and therefore was not a charge against the tax rate. No borrowing is contemplated at this time and no charge against "Excess and Deficiency." As contrasted with this picture for 1954, last year the 1953 tax rate had to provide for the current year's budget of \$726,000 and the articles voted at the annual meeting, \$39,700.00, and the articles voted at the special town meeting on October 22, 1952 of \$29,000.00. The comparative figures, therefore, as between 1953 and 1954 and their effect upon the tax rate of their respective years are as follows:

1953 — \$794,700.00

1954 — \$856,496.50

The Finance Committee wishes to take this opportunity to call to the attention of the Town the desirability and the necessity for replacing the existing Town Hall at the earliest possible date. Such a building should be built on land now owned by the Town, purchased and given to the Town for this purpose, and should house in fireproof quarters the Wayland Center Fire Department facilities, the offices of the Town Selectmen, Town Accountant, Assessors, Town Clerk, Collector, Water Department Collector, Building and Plumbing Inspectors and in addition should provide quarters for the Town Treasurer, Planning Board, Board of Health and such other departments as are now performing their work in the residences of individuals. It is suggested that the facilities should be of the same pattern of construction as were used for the fire station, library, welfare, and police department quarters in Cochrane and that if a building is constructed on this basis the work could be done for an amount in the vicinity of \$100-\$125,000.00. It appears to the Finance Committee that such facilities are much needed and are necessary for the proper operation of the Town's various departments. It feels that it would be entirely possible for the Town to carry forward the construction of such a building by easing up on all other major capital expenditures for a period of about two years, thus enabling the Town to pay for the facilities out of the current tax rate without borrowing except temporarily for one year.

The Finance Committee recommends that:

The Town Office force be constituted as follows: Town Accountant, Water Clerk, Assessors' Clerk, Collector's Clerk (also serving as Asst. Collector) and such other clerical assistants as is deemed necessary to perform the duties and assume the responsibility for work as outlined in the Finance Committee Report of 1949;

The operation of the dumps be under the supervision of the Highway Department;

The money from Dog Taxes be allocated in its entirety to the Library — Expense Account;

The District and School Nurse be under the supervision of the Health Department and assigned for school work during appropriate hours of the day;

The work on Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

The supervision of the job of street numbering and the appropriation therefor be the responsibility of the Planning Board;

The gift to the Library pursuant to the Town vote of November 30, 1953 be made available for expenditure along with other amounts appropriated by the Town under the budget for general expenses of the library;

The Tax Collector continue to act as Collector for the Water Department and that fees for demands on overdue water bills be credited by the Collector to the Water Department;

The salaries of the Cemetery Superintendent and the Moth Superintendent be paid as one salary;

The salaries of the Building and Wire Inspector and Oil Burner Inspector be paid as one salary;

The wage rate for hourly employees in all departments be as set forth in the plan as proposed by the Salary and Wage Coordinating Committee;

The number of hours per work week be set at 48 for the Water Department and at 44 for the Highway Department;

The unexpended balances in the following accounts be transferred to "Excess and Deficiency":

Purchase Fire Truck Pumpers	\$480.10
Chapter 90 Maintenance — 1953	1.10
Fuller Road — Betterment	132.32
Woodridge Road — Acceptance	1.00
High School Flagpole	44.00
Purchase of land for School, Road, Water	2.00
Oak Street — Relocation of water main	147.71
	\$808.23

and the following accounts be transferred to "Water Available Surplus":

Water Department Maintenance — 1953	\$7,272.01
Construction of Road to Pumping Stations	.16
Installation Electric Controls	944.64
Installation—2 new hydrants—Lincoln and Hazel- brook	43.36
	\$8,260.17

In addition to the sum of \$1,300.00, included in the budget to meet* the Town's share of the cost of Chapter 90 Maintenance, and \$3,000.00 in Article 9 to meet the Town's share of Chapter 90 New Construction, the sum of \$2,600.00 for Chapter 90 Maintenance and \$9,000.00 for Chapter 90 New Construction be transferred from "Unappropriated Available Funds" in the Treasury to meet the County's and State's shares of the cost of the work, the reimbursement from County and State to be restored upon their receipt to "Unappropriated Available Funds" in the Treasury.

The Finance Committee is steadily impressed with the amount and quality of the work performed by Town officials and employees both paid and unpaid, and wishes to express its appreciation for the cooperation it regularly receives from all departments.

The Finance Committee budget recommendations for the year 1954 are as set forth in the attached schedule.

Respectfully submitted,

LEWIS W. AVARD,
GEORGE V. DEVERELL,
FRANK A. LARSON,
ROBERT M. MORGAN,
CHARLES Y. WADSWORTH,
FREDERICK S. WHITESIDE,
DONALD B. WILLARD,

Finance Committee, Town of Wayland.

February 1, 1954

REPORT OF THE BOARD OF SELECTMEN — 1953

The membership of the Board of Selectmen remained the same throughout the year 1953 as a result of the reelection of Mr. John W. Leavitt at the Town Meeting held in March. Following the election the Board organized by electing Mr. William A. Loker as Chairman, whose term expires in March 1954; and Mr. John W. Leavitt as Clerk. At the same time Mr. Edward N. Perry was reappointed as Secretary to the Board, and Mr. Roger P. Stokey as Town Counsel.

The year 1953 was another busy one for the Selectmen due to the continuous growth of the Town. In addition to our regular meetings to approve bills, discuss particular problems, with groups or individuals, and conferences with department boards, several special meetings were held.

One of the many problems which required and will require in the future, careful consideration, is that of traffic control and parking. The following amendments to the Traffic Regulations were adopted:

1. No parking on easterly side of Main Street from intersection of East Plain to ten feet beyond the property line of Lillian B. Sumter and Town of Wayland.
2. No parking on westerly side of Main Street from boundary line of Wayland-Cochituate Legion Building Association, Inc. and George Marshall to a point opposite the property line of Lillian B. Sumter and the Town of Wayland.
3. That all traffic shall proceed in an easterly direction on Pelham Island Road from Route 20 to Route 126 and on Library Lane from Old Sudbury Road to Route 126.
4. No parking either side of Concord Road from the Railroad Crossing to junction of Bow Road.
5. Voted to erect a Stop and Enter Sign at the junction of West Plain Street and Route 126. The safety island installed at this intersection has been of great value to motorists entering and leaving West Plain Street.

The Allen Fund Trustees with the Board of Public Welfare met with the Board at a meeting held January 5, 1953. All income received during the year 1952 was distributed as provided in the various Trusts.

A number of small buildings and the old Fire House were condemned as unfit for occupancy. We are advised by the Board of Health that other

buildings which do not meet the minimum requirements for occupancy will be recommended from time to time for similar action.

All regular appointments as required by statute were made and these appear in the list of Town Officers and Committees. The Selectmen, acting jointly with the surviving members of various elected Town Boards, were called upon to fill a number of vacancies. The State Civil Service Commission advised the Town that the office of Plumbing Inspector must be filled under Civil Service requirements. Timothy J. Daly, the incumbent, was appointed provisionally, and after competitive examination was appointed to the office.

The vacancy resulting from the resignation of Charles E. Potter as a member of the Water Board was filled by the appointment of Mr. Robert W. Hanlon.

Mr. L. William Bertelsen and Mr. Edward F. Thorburn were appointed to the Planning Board to fill the vacancies caused by the resignations of Mr. Frank S. Tarr and Mr. Thayer Rudd.

Mr. John C. Quinn and Mrs. Joyce Bertelsen were appointed as members of the Board of Health to fill the vacancies due to the resignations of Dr. Katherine Andrews and Mr. Benjamin Beale.

Mrs. George Earley was appointed to fill the vacancy caused by the resignation of Mr. Arthur H. Dudley as Trustee of the Public Library.

The following were appointed a Committee to study the problems of compensation of all Town employees, etc. as provided under Article 5 at the 1953 Annual Town Meeting:

Mr. John Brownell

Mr. Archibald Cox

Mr. Dominic Anzivino

Mr. John Simoni

Mr. Edward A. Venio

The Town lost one of its outstanding public servants on May 8, 1953 with the passing of Mrs. Alice M. Neale. Mrs. Neale served as Town Clerk from 1926 to 1952.

It is the considered opinion of our Board that certain steps must be taken to augment the Police and Fire Departments in order to safeguard life and property in Wayland at all times. With the present rate of growth, we know additional personnel will have to be added to the two departments. In July we appointed Mr. Edward J. Burke as an additional full time Police Officer.

A committee was appointed at the Special Town Meeting to study the personnel required to furnish adequate fire protection. In 1954 the New England Telephone & Telegraph Co. will install dial telephones both in Wayland Village and Cochrane. Thus the exchange in Wayland Village will then no longer be able to assist the Fire Department in the operation of the present alarm system. Therefore, one suggested method will be to have someone permanently on duty at the Fire House at Cochrane. We also suggest that the Committee consider the advisability of increasing the number of full time policemen, who could also be members of the Fire Department.

We are very proud of our present Volunteer Fire Department, and wish to congratulate them for their fine services.

At the Annual Meeting in 1954 the Town will be asked to accept the following Private Ways as laid out by the Selectmen under the Betterment Act:

Orchard Lane

Pequot Road, Happy Hollow Road, Juniper Lane, Goodman Lane
and Rice Spring Lane

Old Farm Road

Davelin Road (first portion)

Sylvan Way and a portion of Hayward Road

It is the policy of our Board that no applications for acceptance of Private Ways under the Betterment Act will be recommended at the succeeding Annual Town Meeting unless presented to us on or before July 15th. We have found this necessary due to the many requirements of processing the applications which in some cases takes several months.

The Jury list appears under a separate heading in the Town Report. The following were drawn as jurors:

Lawrence W. McKnight

Philip C. Poutasse

Vake Stone Tashjian

George Pearce

George R. Fleck

Gordon Holmes

Robert W. Hanlon

Charles T. DeMartini

A Special Town Meeting was called for November 30, 1953 to consider those problems which could not be postponed for action at the Annual Town Meeting, the most important of which were the erection of additional school facilities and acceptance of the Workmen's Compensation Act. The results of the meeting appears under a separate heading in the Town Report.

The Department of Corporations and Taxation made an audit of the Town as of October 8, 1953. The report of the financial condition is on file at the Town Hall.

Over 200 licenses of various kinds were issued during the year. One additional permit to store gasoline was granted. The revenue from licenses issued by our Board is about \$8,000.00 yearly.

The Selectmen would like to commend the heads of the various departments under their jurisdiction for their administrative ability, and to thank the employees in these departments for their good work during the year. We are very appreciative of the cooperation of other elected officials of the Town. We would also like to thank all committees for their efforts in behalf of the Town during the year.

WILLIAM A. LOKER, *Chairman*

JOHN W. LEAVITT, *Clerk*

GERALD HENDERSON

Board of Selectmen

STATE AUDIT OF ACCOUNTS

Mr. Herman B. Dine
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Wayland for the period from August 1, 1951, the date of the previous audit, to October 8, 1953, and report thereon as follows:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and verified by comparison with the reports and records of the treasurer and the town accountant.

The ledger accounts were analyzed for the period covered by the audit, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments. The appropriation accounts and loan authorizations were checked with the town clerk's records of town meeting proceedings, and the recorded transfers from the reserve fund were checked with the authorizations of the finance committee.

The necessary correcting entries resulting from the audit were made, a trial balance was taken off, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on October 8, 1953.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were checked with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury, while payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book additions were verified, and the cash balance on October 8, 1953 was proved by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited and by actual count of the cash in the office.

The payments made for maturing debt and interest were compared with the amounts falling due and with the cancelled securities and coupons on file.

The savings bank books and securities representing the investment

of the trust funds in the custody of the own treasurer were examined and listed. The income was proved, and the transfers to the town were verified by comparison with the treasurer's recorded receipts.

The records of tax titles held by the town were examined and checked. The amounts transferred to the tax title account were verified by comparison with the collector's records, the reported redemptions were checked with the treasurer's cash book, and the tax titles on hand were listed and reconciled with the controlling accounts in the general ledger. The tax title transactions were further verified by comparison with the records at the Registry of Deeds.

The payroll deductions for withholding taxes and the county retirement systems were examined and checked. The receipts were proved by comparison with the treasurer's recorded receipts and the payments to the Director of Internal Revenue and the county treasurer were verified.

The books and accounts of the tax collector were examined and checked in detail. The accounts outstanding at the time of the previous audit, as well as all subsequent commitments, were audited and proved with the assessors' warrants issued for their collection. The payments to the treasurer were verified, the recorded abatements were compared with the assessors' records of abatements granted, the transfers to the tax title account were checked, and the outstanding accounts were listed and reconciled with the controlling accounts in the general ledger.

The collector's cash balance on October 8, 1953 was verified by reconciliation of the bank balance with a statement furnished by the bank of deposit and by actual count of the cash in the office.

The records of deferred assessments were examined and checked. The balances deferred at the time of the previous examination and all subsequent apportionments were audited and proved. The payments in advance were verified by comparison with the treasurer's recorded receipts, the amounts added to taxes were checked with the collector's records, and the amounts not due were listed and proved with the deferred accounts in the town accountant's ledger.

The records of departmental and water accounts receivable were examined and checked in detail. The accounts outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and proved. The reported payments to the treasurer were verified, the abatements were compared with the records in the departments authorized to grant them, and the outstanding accounts were listed and reconciled with the respective controlling accounts in the accountant's ledger.

Verification of the outstanding tax and departmental accounts was obtained by mailing notices to a number of persons whose names appear on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The financial accounts of the town clerk pertaining to licenses issued were examined and checked. The recorded receipts for dog, sporting, and miscellaneous licenses were checked, the payments to the town being verified by comparison with the treasurer's recorded receipts and the payments to the State being verified by inspection of the receipts on file. The cash balance was proved by reconciliation of the bank balance with a statement furnished by the bank of deposit and by actual count of the cash in the office.

The available records of receipts of the school department from miscellaneous charges, as well as from the lunch program and athletic activities, were examined. It was found that the records kept were inadequate for audit purposes and, accordingly, it is recommended that the proper cash books and other necessary records be installed and kept up to date.

The records of receipts of the board of selectmen, the board of health, the sealer of weights and measures, and the building and plumbing inspectors, and of the library and cemetery departments, as well as of all other departments collecting money for the town or committing bills for collection, were examined and reconciled with the treasurer's books and with the records of the town accountant.

The surety bonds of the various officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

In addition to the balance sheet, there were appended to this report tables showing reconciliation of the treasurer's, tax collector's, and town clerk's cash, summaries of the tax, motor vehicle and trailer excise, assessment, tax title, tax possession, departmental and water accounts, as well as tables showing the condition and transactions of the trust funds.

During the progress of the audit cooperation was extended by the various town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ

Assistant Director of Accounts.

WS:JRB

REPORT OF THE TOWN ACCOUNTANT

For the Year 1953

To the Honorable Board of Selectmen:

In compliance with the provisions of Chapter 41, of the General Laws and amendments, I hereby submit the following report of the Accountant's Department.

REPORT OF THE BOARD OF ASSESSORS

For the Year 1953

During the year 1953, re-valuation of older properties in the Town has progressed considerably, thereby getting a better proportional value on all properties and also correcting any inequalities which might have existed in the past.

Besides doing their field inspection of the entire town during the months of October, November and December, the Assessors have at other times during the year conducted field surveys of particular areas, in the process of revaluation. Also, they have found it necessary to have weekly Board Meetings to keep pace with the abnormal development of the Town, and they are making a concerted effort to eliminate irregularities for the year 1954.

Re-valuation has been speeded-up during the year 1953 because of the additional information available through the Permanent Card System instituted by the Assessors in 1951.

Below are the figures showing the increased valuation over the last ten year period:—

	<i>January 1, 1943</i>	<i>January 1, 1953</i>
Real Estate	\$5,345,822.50	\$9,915,957.56
Personal Property	482,510.00	516,593.00
	\$5,828,332.50	\$10,432,550.56
Increase in valuation		\$4,604,218.06

Statistics for the year ending December 31, 1953

Real Estate Assessed January 1, 1952	\$8,558,110.00
Personal Property Assessed January 1, 1952	463,263.00
Real Estate Owned by Metropolitan District	
Commission	41,892.56
	\$9,043,265.56

Real Estate Assessed January 1, 1953

Land Exclusive of Buildings	\$2,000,465.00	
Buildings Exclusive of Land	7,873,600.00	
Real Estate Owned by M. D. C.	41,892.56	
		\$9,915,957.56

Personal Estate Assessed January 1, 1953

Stock in Trade	\$41,175.00	
Machinery	352,226.00

MARRIAGES

Registered in the Town of Wayland for the Year 1953

JANUARY

- 2 Richard Eugene Reil, Marie Isabel LeBlanc at Wayland by Rev. Otis F. Kelly, Priest.
- 26 Paul Herbert Gasset, Frances Dorothy Sleeper at Needham by Winthrop M. Southworth, Justice of the Peace.
- 26 Albert Edward McManus, Phyllis Ann Kadra, at Manchester, N. H. by Charles B. McLaughlin, Justice of the Peace.

FEBRUARY

- 2 Lawrence H. Berg, Isabel Ann Weirs at Wayland by Rev. John T. O'Neil, Priest.
- 7 Lawrence Carlton Neale, Jane Porter Wentworth at Holden by Rev. William Reid Usher, Clergyman.
- 8 Ralph R. Shampine, Evelyn Lorraine Harlow at Natick by Rev. Arthur B. Carlson, Clergyman.
- 14 Norman Edgar Rhodes, Barbara Lucille Terzian at Wayland by Rev. Otis F. Kelly, Priest.
- 15 Paul M. Sweeney, Dorothy L. Kohler at Wayland by Rev. John T. O'Neil, Priest.
- 15 Herbert H. Leach, Marion Hanagan at Wayland by Rev. Otis F. Kelly, Priest.
- 15 Burton E. Tupper, Louise M. Kimball at Framingham by Rev. Andrew Connell, Priest.

MARCH

- 7 Richard Louis Bourette, Marjorie Jane Thomas at Framingham by Rev. John M. Walker, Minister.
- 10 Thomas J. Lupien, Alice Louise Reed at Wayland by Rev. George A. Hodgkins, Minister.
- 20 Arthur H. Dudley, Jr., Barbara Ann Dearborn at Ashland by Rev. Camille C. Bedard, Minister of the Gospel.
- 21 Thomas H. Egan, Lois Campbell (nee Kenney) at Waltham by Rev. Joseph H. Benard, Priest.

APRIL

- 5 William A. Marquis, Elizabeth F. Greenleaf at Natick by Rev. James C. Brewer, Minister of the Gospel.

- 18 Nelson Miles Silk, Jane Plump at West Newton by Rev. Robert Clyde Yarborough, Clergyman.
- 19 Vincent J. Mascia, Velma H. Babine at East Boston by Rev. Paul H. Sweeney, Priest.
- 19 Frederick R. Gersbach, Lois Ann Connors at Wayland by Rev. John T. O'Neil, Priest.
- 19 Frederick Rousseau, Jean Anzivino at Framingham by Rev. Andrew Connell, Priest.
- 25 Alfred Lewis Twitchell, Harriet Mary Smith at Amesbury by Nimrod E. Olsson, Justice of the Peace.

MAY

- 2 James J. Bolton, Jr., Anne Moore Stingel at Brookline by Rev. Thomas J. Heagney, Priest.
- 2 Alfred C. Damon, Jr., Marianne Nocera at Waltham by Rev. John A. Cantwell, Priest.
- 2 Justin Yvon Nuttelman, Elizabeth Harrington at Wayland by Rev. George A. Hodgkins, Minister.
- 16 Richard Douglas Povall, Pauline Miriam Holbrook at Quincy by Rev. Charles A. Wing, Minister.
- 27 Leroy Waldo White, Barbara Ann O'Connell at Wayland by Rev. Otis F. Kelly, Priest.
- 30 Herbert William Torres, Arlene Frances Benson at Watertown by Rev. Joseph W. Leahy, Priest.
- 31 Robert Allan Harris, Elizabeth Ada Amos at Wayland by Rev. George C. Gutekunst, Clergyman.

JUNE

- 7 Francis Henry Moore, Ellien Mary Morrissey at Wayland by Rev. Otis F. Kelly, Priest.
- 13 Roland Eli Stanhope, Cora Alice Revell at Wayland by Rev. George C. Gutekunst, Clergyman.
- 13 John Thomas Sherman Bates, Mary Louise Nelida Mailly at Wayland by Rev. William J. Carty, Priest.
- 14 Louis Philip Lockwood, Dorothy May Place at Wayland by Rev. George A. Hodgkins, Minister.
- 14 Thomas G. Noonan, Ruth E. Cusack at Wayland by Rev. Otis F. Kelly, Priest.
- 20 Will G. Metz, Jr., Romaine L. Pushee at Weston by Rev. Palfrey Perkins, Clergyman.

- 27 Richard B. Dew, Jr., Beverly Jean Savage at Framingham by Rev. William A. Knight, Minister.
- 28 Roy F. Hallenbrook, Catherine E. Hallenbrook (nee Wight) at Natick by Rev. Clifford A. Browne, Clergyman.

JULY

- 3 Robert Edwin Lohnes, Beverly June Collins at Wayland by Rev. George A. Hodgkins, Minister.
- 4 Eugene Richard Risso, Laura May Torres at Watertown by Rev. Alfred V. Preccini, Priest.
- 4 Leo Ronan Boudreau, Delphine Mary Turnbull at Nashua, N. H. by David P. Stevens, Justice of the Peace.
- 6 Cornelius J. Maguire, Doris G. Currier at Wayland, by Rev. Otis F. Kelly, Priest.
- 18 Charles Stansby Bamforth, Marjorie Emma Tuthill at Belmont by Rev. James E. Beveridge, Clergyman.
- 25 Stanley Van Ness Murkland, Jr., Jacqueline Ann Noonan at Berlin by Harris G. Field, Justice of the Peace and Town Clerk.
- 26 Charles Boodey Ferguson, Mary Madeline Trudel at Somerville by Rev. John H. O'Donnell, Priest.
- 26 Robert Edward Lehman, Marie Louise Perodeau at Wayland by Rev. Louis E. Sullivan, S. J., Priest.

AUGUST

- 1 Charles Filmore Masterman, Barbara Brooks (nee Barry) at Wayland, by Rev. Claude H. Voorheis, Clergyman.
- 1 Hayden R. MacDonald, Helen M. Devereau at Wayland by Rev. Otis F. Kelly, Priest.
- 3 Herbert Clifford Harrington, Dorothy May Reeves at Waltham by Rev. Arnold R. Person, Clergyman.
- 8 Frederick J. Pillion, Jr., Anne M. Doucette at Wayland by Rev. William J. Carty, Priest.
- 14 Rocco Intinarelli, Dorothy L. Winship (nee Caulfield) at Needham by Winthrop M. Southworth, Justice of the Peace.
- 16 John Morton Yarlott, Patricia Ann Malloy at Concord by Rev. George O. Eknall, Clergyman.
- 22 Wiliam Hamlin Bosworth, Jr., Pauline E. Malloy at Cambridge by Rev. Philip S. Krug, Clergyman.
- 23 Kenneth V. Parker, Jr., Louise B. Marsh at Wayland by Rev. George V. Gutekunst, Clergyman.

- 29 Joseph Norman Paul Boyer, Bessie Eva Gaudet at Wayland by Rev. John T. O'Neil, Priest.
- 29 Walter Neilan O'Connell, Loraine Marie Jackson at Worcester by Rev. Richard F. Riley, Priest.
- 29 Robert John Cain, Jeanne Alice Delaney at Waltham by Rev. Daniel J. Kelleher, Priest.
- 30 Joseph Josselyn Lavash, Jr., Barbara Anne Daly at Wayland by Rev. John T. O'Neil, Priest.
- 31 John William Roche, Bertha Elizabeth Phylis at Wayland by Rev. John T. O'Neil, Priest.

SEPTEMBER

- 5 Parker Lee Bogan, Mary Elizabeth Bond at Wayland by Rev. George C. Gutekunst, Clergyman.
- 10 John A. Forte, Jr., Barbara J. Bragg at Somerville by Rev. N. Properzi, Priest.
- 12 William James Zumwalt, III, Elizabeth Nay at Weston by Rev. E. F. Chauncey, Clergyman.
- 13 Edward J. Burke, Rita I. Palmer at Wayland by Rev. Otis F. Kelly, Priest.
- 17 Joseph Leo LeBlanc, Jr., Janet Ann MacNeil at Newton by Rev. Peter F. Brudzyuski, Priest.
- 19 Joseph P. Roveto, Jr., Eloise M. Parrish at Boston by Emil N. Winkler, Justice of the Peace.
- 26 Richard A. Sandwell, Marjorie E. Arsenault at Marlboro by Rev. Richard F. Callahan, Priest.

OCTOBER

- 4 William A. O'Connell, Phyllis Jane Perry at Wayland by Rev. John T. O'Neil, Priest.
- 10 Leo P. Birmingham, Helen Louise Powers at Wayland by Rev. George C. Gutekunst, Clergyman.
- 18 Lester H. Gray, Jr., Joan Crimmin at Weston by Rev. William Clifton Moore, Minister.
- 18 Donald Arthur Bacon, Jessie Elizabeth Lee at Nashua, N. H. by Rev. Willis Hubert Porter, Minister.
- 23 John Alexander Carley, Joan (nee Keir) Scherer at Wayland by Rev. Edward W. Hale, Clergyman.

- 31 Gerald Maloney, Judith W. Sanders at Natick by Rev. William J. Ogle, Clergyman.

NOVEMBER

- 21 Richard Arthur Wallace, Beverly Ruth Hay at Waltham by Rev. Claude H. Voorheis, Clergyman.
28 Robert F. O'Rourke, Patricia A. O'Connell at Wayland by Rev. Philip G. McGinty, Priest.

DECEMBER

- 19 Calvin M. Clifton, Jane O. Sargent at Boston by Rev. Samuel Tyler, Jr., Clergyman.

REPORT OF THE WAYLAND FREE PUBLIC LIBRARY FOR 1953

Report of the Trustees

The year was a busy one for the Trustees. In addition to the regular monthly meetings a number of extra meetings were necessary because of changes in personnel and the construction and furnishing of the Cochituate Branch.

A change in the membership of the Board was occasioned by the resignation of Mr. Arthur H. Dudley because of pressure of business and the appointment of Mrs. George E. Earley to replace him. Mrs. Earley is a graduate of the Library School of the University of Michigan and has been branch librarian at the West Newton Library since 1947.

The resignation of Mrs. John Busser was regretfully accepted in April after her three years of conscientious effort as head librarian. We are greatly indebted to our library assistants, Mrs. Frank Bentley and Mrs. Richard F. Lincoln, for the splendid manner in which they conducted the library's affairs until such time as a new librarian could be appointed.

To succeed Mrs. Busser we selected Miss Ruth H. Scannell of Canton, Massachusetts, who assumed her duties the first of July. Miss Scannell's professional background includes, in addition to her library work, extensive teaching experience in Massachusetts, New York and California, and various research and editorial activities in the educational and publishing fields. She comes to us directly from three years' connection with the Houghton Mifflin Company in Boston as co-author of literature texts now in preparation for publication. We are confident this breadth of experience qualifies her to give helpful service to the patrons of our library.

In Cochituate we were affected by the resignation, for personal reasons, of Mrs. Daniel Harmon after eighteen months of extremely competent service. We have found a worthy successor to Mrs. Harmon in the person of Mrs. Donald B. Willard, who has performed very capably during the difficult transition period. We are pleased that Mrs. Harmon is again available for substitute work in the library system.

The entire library staff has been extremely loyal and to them we extend our sincere thanks and appreciation.

HELEN C. MORGAN,
Secretary Library Board of Trustees

Report of the Librarian

This report for 1953 will indicate continuing growth in the services and activities of the Library Department. Both in the main library and in the new Cochituate branch the increase in circulation and registration figures measures in part the maintenance of a lively interest in the Library and its contribution to the educational and reading interests of the community.

Service to the Schools

Beginning in October this service was resumed, and nine different elementary and high school groups have been making regular visits to the library every two weeks, each class-member taking out books on his own card and learning how to use the library facilities for both information and pleasure. Also, loans of classroom collections have been made available periodically to eight primary and elementary teachers for teacher-use and for supplementary reading.

It is hoped that our facilities for this worth-while service can be expanded the following year, for the young people's response to library opportunities has been so immediate and so enthusiastic that their interests and requests for assistance frequently outrun our present supply of materials.

It is apparent that, by co-operating with the schools in helping to stimulate and maintain an interest in reading, the library can be a useful agent in the learning program. Laying a foundation for the "library habit" encourages children and young people to look upon the library as a "friend in need," whether that need be information, or ideas, or simply the fun of reading.

Stack space for convenient arrangement of books continues to be a problem, especially in the crowded Children's Corner. An effort is being made to increase shelving space here and to provide shelving arrangement that will make the books more readily accessible. A start has been attempted with the little tots' books.

Service to Reading and Study Groups

Attempts have been made to supply the needs of various reading and study groups and to anticipate their requests for current books including those for which a special demand may have been stimulated by guest reviewers, such as Marion Rudkin and Alice Dixon Bond.

Another interesting service is frequently required by an increasing number of adult students in specialized fields of study or research. To an unusual degree for a library of this size, these demands have been met from our own resources. But, whenever necessary, assistance has been rendered through the inter-library loan system of the State Division of Library Extension. The Weston Public Library has also generously extended to us the courtesy of loans to help meet these needs.

Exhibitions and Lectures

Through the generosity of individual library patrons several interesting exhibits have been on display. During the summer the crafts classes of Mrs. Lillian Jones supplied weekly exhibits of their work. In the fall Mr. and Mrs. Norman D. Harris lent the library a valuable collection of mounted birds together with a selection of bird books chosen for their special interest to Wayland birdlovers. An unusual exhibit of stones and minerals, including petrified wood, belonging to Miss Catherine Cochrane, together with a unique snake-skin coat (Boa) contributed by Mrs. Mary Harris, was arranged for display in December. Through the co-operation of Mrs. Mildred E. Kingsbury and the Art Department of the public schools parents had the opportunity during the fall to enjoy a display of their first-grade children's artistic interpretations of a unit on "The Family." We hope that in the coming year library patrons will continue to supply interesting exhibits for the enjoyment of our growing library community.

Book Week with its theme, "Reading is Fun," was appropriately introduced on October 13 by a well attended lecture on "Science is Fun" by Mr. Norman D. Harris of the Boston Museum of Science. He was assisted by some of his lively entertaining Museum inmates. The meeting, followed by refreshments, was arranged by the Friends of the Library under the chairmanship of Mr. George Lewis.

As reported in 1952, the Francis Shaw Room continues to serve the community in many ways; civic and social groups are using it regularly. The room is always available without charge, and the librarian will be glad to reserve it for any group that notifies her of plans in advance.

Gifts and Services to the Library

Special appreciation is extended to the Friends of the Wayland Library for their popular gift of fourteen volumes of "Book House," which are kept in constant use. The Friends have furthermore generously offered their services in assisting patrons who may need transportation to the

Library. This service may be obtained by calling the librarian. The Friends are also planning the processing and cataloging of their gift collection of records (mentioned in last year's report) so that these records may be put into circulation early in the new year.

Equally worthy of special mention is the faithful continuation of the work of the Wayland Garden Club in contributing weekly to the home-like charm of the Library with flower arrangements and seasonal decorations. A further contribution by the Club during the year consisted of a gift of four books on gardens and flower arrangements. These gifts of floral decorations and of books have excited great interest and given decided pleasure throughout the year to patrons and librarians alike.

Other welcome gifts to the Library have been made by many individual donors and consist of approximately one hundred books, numerous pamphlets and magazines, bulletin board material, six books of classical records, and a two-drawer pamphlet filing case. Allen H. Morgan has continued to supply our bookmarks as his father formerly did. Each gift has made a fine contribution to the service the Library renders.

Circulation Statistics

	Wayland		Cochituate Branch	
Circulation	1952	1953	1952	1953*
Adult	13,476	13,732	6,867	6,064
Juvenile	6,649	7,434	4,600	4,320
	20,125	21,166	11,467	10,384
New Registrations	226	343	179	210

*(Note: The Cochituate figures represent less than eleven months of the year, as no books circulated during the five weeks the library was closed for moving operations).

RUTH H. SCANNELL,
Librarian

December 31, 1953

Report of the Assistant Librarian — Cochituate

The year 1953 has witnessed the realization of a dream for the Cochituate Branch Library — the achievement of a goal to which the townspeople have aspired ever since the founding of the "Cochituate

Reading Room" as a branch of the Wayland Free Public Library. In September, 1953, the library was moved from rented quarters in a block of stores on Main Street to its own quarters, much larger, much more modern, and much more attractive, in a wing of the new Fire Station.

A formal opening was delayed by many things, among them the arrival of the new furniture for both the adult and juvenile sections of the room. Nevertheless, the library was christened by the children on Saturday morning, October 24th, with the beginning of a series of "story hours" conducted on alternate Saturday mornings by Mrs. John T. Howard of Wayland, and a new resident of the town, and a former children's librarian at the Cleveland Public Library in Ohio. A generous allotment of money for new books made the reopening of the library a success for the adults, and the gratifying increase in circulation ever since October 24th, plus 75 new registrations since then, show that the townspeople are making use of the library facilities in ever-increasing numbers.

The children account for the greater number of the 210 new "borrowers" registered during 1953, and working with them is the most satisfying and rewarding part of library experience. In December they began coming from the Cochituate School in regular classroom groups, accompanied by their teachers, and I have tried to keep abreast of their needs by bringing books from the main library for them. They take a genuine civic pride in their new library, and cooperate in trying to keep it clean and attractive. The Cochituate Garden Club has helped immensely in this respect by keeping us supplied with beautiful and seasonal arrangements. We have also had the loan of exhibits for our showcase in the corridor leading into the building.

As a further illustration of the interest of the townspeople, we have had colorful new book markers presented to us by Mr. George Lewis of the Lewis Real Estate Agency in Cochituate, which have the new library hours printed on them. Since we are now open on Tuesday afternoons and Wednesday evenings, which was not the case last year, this has been a real help in acquainting people with the library schedule.

As in the past, the Girl Scouts of Cochituate have given much free time in assisting the librarian, thereby helping to earn their badges, and making several tasks easier for me. It has been hard work to succeed the extremely capable former librarian, Mrs. Daniel Harmon, who resigned April 15th, but with the help and cheerful cooperation of the library patrons, it has been a truly rewarding experience.

December 31, 1953

SHIRLEY M. WILLARD

REPORT OF THE PLANNING BOARD FOR THE YEAR 1953

Several major programs were carried out by the Planning Board during 1953. Of primary importance was the preparation of recommendations to the Town, with regard to changes in residence zoning, which were voted on favorably at the Special Town Meeting, November 30. Other programs included working with developers and other Boards and Departments to prepare subdivision plans which would be acceptable to the Town, of which six were approved by the Board; revision of the Planning Board's subdivision regulations; work of individual Planning Board members on various subcommittees appointed by the Town; and finally, planning ahead for the orderly future growth of the Town.

In planning for the future of Wayland following the recent revision of the residential zoning by-laws, the Planning Board will propose the adoption of a new zoning by-law which will be suitable for neighborhood-type shopping centers. We also are working on a long-range program to prepare suitable recommendations to the Town with regard to the advisability of extending our present limited commercial zone area and for a course of action in obtaining suitable companies to locate in such areas. We are also planning to bring our present zoning by-law up to date, providing suitable regulations which will insure that future business development will be consistent with the desirable characteristics of the Town. The Planning Board will also continue the study of land use in the Town and prepare recommendations for Town action regarding acquisition of substandard lots and land for other future Town purposes.

As seems to be usual, the composition of the Planning Board changed during the year due to the resignations of Thayer Rudd and Frank S. Tarr. L. William Bertelsen III and Edward F. Thorburn were appointed by the Selectmen to replace them. The Planning Board particularly misses the guidance of its former chairman, Mr. Tarr and the experience of Thayer Rudd, although the members replacing them have performed an excellent job in helping to keep the Planning Board programs under way.

The Planning Board has found itself under considerable pressure in approving subdivisions, layouts for road betterments, and other matters of an engineering nature. The Board has used the services, on a moderate basis, of Everett M. Brooks, Engineers, for engineering assistance and retained as a consultant Mr. John T. Blackwell of Lexington to advise on matters related to neighborhood business zoning. The Planning Board

feels that the time has come for the Town to establish the position of Town Engineer to provide engineering assistance on a regular basis not only to the Planning Board but to the other boards and departments, particularly to the Highway Department and to the Board of Health.

Matters of particular interest to the Town which have been considered by the Planning Board during the year are outlined below:

Subdivisions

Six subdivisions have been approved this year providing 251 new lots. This rate of development was considered excessive and was a primary reason that the Planning Board felt it imperative to increase the residential zoning requirements. Additional subdivisions were discussed with the Planning Board in a preliminary manner, but have not yet been filed for approval, although some are expected in the near future.

Residence Zoning

The Town approved at the Special Town Meeting, November 30, 1953, a general increase in our residential zoning by-law. The Planning Board's Report and Recommendations on these zoning changes are attached and made a part of this annual report to the Town.

Business and Commercial Zoning

Now that our residential zoning seems to be in order, the Planning Board wishes to proceed on revising the various business zoning-by-laws to make them more applicable to the current and future needs of Wayland. Specifically, a by-law is needed which will provide for a neighborhood-business zone which will allow only certain retail activities, provide minimum yard set backs and parking areas, provide restrictions regarding advertising display signs, etc. The intent of this by-law will be to allow certain retail establishments to be built at neighborhood shopping centers without detracting from the appearance and value of the surrounding residential areas. It was because no such by-law existed that the Planning Board recommended passing over the articles in the warrant last March which provided for changing an area at Old Connecticut Path and Stone's Bridge Road from residential zoning to business zoning. More restrictive provisions are similarly needed in our present Business Zone by-law. While this by-law should permit a broader range of business activity than the Neighborhood Business Zone, set-back and parking requirements should be established and types of display signs regulated.

The Planning Board feels that there may be considerable merit in a plan to attract suitable industry to locate in Wayland, as such industry

could represent substantial tax revenue to the Town without imposing undue hardship with regard to increasing of the Town's services. It does feel that the Town should be very careful, however, in selecting particular industries and areas for their location. We, therefore, have a long-range program under way to study this entire problem and to prepare recommendations to the Town. As a part of this plan, the extension of the limited commercial zone now adjacent to Sudbury on the State Road West, easterly toward the center of Wayland along the state road and railroad tracks seems to be desirable. This change in zoning coupled with a new provision in our by-laws, also to be proposed, which will prohibit construction of residential dwellings in business and limited commercial zones, will keep this area available for future commercial development, if such a plan proves to be advantageous to the Town. Further studies will be directed at finding a means for locating and encouraging suitable specific industries to establish themselves in Wayland.

Planning Board Regulations and Subdivision Control Laws

A completely new set of regulations for subdivisions was adopted by the Board on June 8, 1953. These regulations clarify the procedures which must be followed by subdividers in preparing plans for Planning Board approval and increase the requirements of subdivision improvements which should further reduce future costs to the Town after these roads are accepted by the Town. Specifically, an improved road surface is required which should reflect lower future maintenance costs. A fire alarm system is also required, eliminating the need for the Town to make these installations.

A new law was passed by the State Legislature and made effective in October this year which clarifies certain points in the law with regard to the Planning Board's authority and responsibilities. This law should make the work of the Planning Board more effective in the future with regard to subdivision control.

Subcommittees

Individual members of the Planning Board have served during the year on the following committees appointed by Town meeting: School Site Committee, a Committee to study the acquisition of land for park purposes and other Town purposes, a Committee to study the water system and advisability of installing water meters, a Committee to study drainage problems in Town, a Committee to study existing by-laws, and a Committee on Health Union.

Toll Road

The Planning Board made every effort to obtain information from the Massachusetts Turnpike Authority regarding proposed routes of the Toll Road. We were unable to obtain any information regarding such proposed routes prior to public announcement in the newspapers. Following these announcements, however, we were shown plans of study lines so announced by the Turnpike Authority which we could locate on the Town Atlas. These plans were used by the Assessors and the Toll Road Committee in determining possible effects of the Toll Road on the Town. We have extended our offer to the Turnpike Authority to work with the Planning Board on specific engineering details regarding road layout, although they have not as yet discussed these details with us.

Respectfully submitted,

FREDERICK G. PERRY, JR.

MARY N. BALDWIN
L. WILLIAM BERTELSEN, III
GEORGE F. BOWERS, JR.
EDWARD F. THORBURN

REPORT OF THE DEPARTMENT OF VETERANS SERVICES

This department operates under the provisions of Chapter 115, as amended, of the General Laws of Massachusetts. Honorably discharged veterans of all wars including the Korean conflict and their dependents, if in need, may receive financial assistance.

In all cases having a legal settlement in Wayland which are approved by the Commissioner of Veterans Services, a fifty per cent reimbursement is sent to the Town by the Commonwealth. If not approved by the Commissioner, all monies expended for Veterans' benefits must be raised by local taxation. The amount expended during 1953 appears in the report of the Town Accountant.

Respectfully submitted,

JOHN W. LEAVITT,
Veterans' Agent

REPORT OF THE CEMETERY COMMISSIONERS

The overabundant rainfall through the spring and the fall added greatly to the labor of caring for the cemeteries, both in the need for more frequent mowing, and in the much greater number of sunken graves requiring grading up and reseeded.

Development work on the new areas at the North Cemetery and Lakeview has been continued as time allowed, and now both lots are in good condition of tilth and fertility.

The first section of the Lakeview addition, perhaps one-fourth of its area, was opened this summer offering about 110 lots. Five of these have been sold and two more are reserved by request.

The eastern half of this tract, as well as the entire new area at the North Cemetery, are entirely bare of trees, and would be made more attractive by the proper planting of trees, and occasional flowering shrubs.

We hope that funds may be made available in the coming year to rebuild and "hot top" the entrance road at Lakeview from the gate to the tomb, and for two slopes on other roads that wash badly in every heavy rain, and require frequent repair. This would prove through the years to be a measure of economy.

Five Perpetual Care Funds have been given this year, as follows:

January 13, the "Helen M. Joslyn Fund" for the perpetual care of lot 92, Sec. C Lakeview	\$150.00
April 24, the "Charles E. Lucier Fund" for the perpetual care of Lot 27, Sec. D Lakeview	150.00
May 26, the "Elbridge Carter Fund" given by Alfred A. Carter for the perpetual care of Lot 14, Sec. D Lakeview	150.00
December 1, the "Hattie Alice Allen Fund" for the perpetual care of lots 8 and 10, North Cemetery	150.00
December 7, the "Clark-Tyrrell Fund" given by Kenneth E. Clark for the perpetual care of lot 3, Sec. G Lakeview	100.00

Thirteen lots have been sold. ten in Lakeview, two in the North and one in the South Cemeteries.

Forty-nine interments have been made in the town's three cemeteries; thirty-eight in Lakeview, ten in the North, and one in the South Cemeteries.

One Hundred Nineteen lot owners have paid \$507.00 for the yearly care of their lots.

Foundations have been prepared on eleven lots for which \$180.00 has been received.

WARREN D. VALENTINE
ERNEST SCHLEICHER
RALPH YETTON

Cemetery Commissioners

REPORT OF BOARD OF COMMISSIONERS OF TRUST FUNDS

During the year 1953 several U. S. Series "G" bonds matured. The proceeds were invested, after careful consideration of the fluctuating state of the prevailing interest rates, in bonds yielding a somewhat larger return. In accordance with prior establishment of a reserve for such purpose, premiums are charged to such reserve fund and all investments are carried at par. The increasing size of savings bank dividends have been of some assistance in enlarging the return from invested funds. The limitations of the authority to invest outside the statutory limitations give the Commissioners little flexibility and a very meager opportunity to increase yields.

We call all citizens' attention to the fact that a legacy for some Town purpose is a form of charitable bequest which is worthy of consideration and which seems to have been overlooked in recent years.

J. WARREN OLMSTED
J. REED MORSS, *Chairman*
J. SIDNEY STONE, *Secretary*

REPORT OF THE ROAD COMMISSIONERS

The appropriation for new equipment this year was used to purchase three automatic sand spreaders and a power-driven street sweeper. For 1954, we recommend that the 1948 International Dump Truck be turned in for a new one.

Due to the growth of the Town, it will be necessary, in the near future, to provide room for additional equipment. At this time, the Highway Garage is inadequate to properly house our present equipment. We also feel that additional appropriation is needed to surface some of our gravel roads and to build sidewalks.

If the people would co-operate with the Highway Department by using the Town Dumps, thereby keeping the roadsides clean, it would be greatly appreciated by everyone.

JOSEPH DECATUR
GUSTAF M. BLOMGREN
RONALD S. CAMPBELL

*Town of Wayland
Road Commissioners*

REPORT OF THE HIGHWAY DEPARTMENT

In addition to the general maintenance of Town roads, the Highway appropriation was used as follows: another section of Glezen Lane, West, amounting to approximately 1800 ft., was widened and surfaced, thereby completing the surfacing of this street; 31,000 gallons of asphalt were used for surface treatments on other Town Roads.

Under Chapter 90 Construction, Oak Street has been completed. The appropriation for maintenance of Chapter 90 roads was used to resurface Sudbury Road from the Railroad tracks to the Bridges, and to resurface 2000 ft. of Commonwealth Road. Drainage has been installed between Main Street and Winter Street.

Surfaced sidewalks have been constructed on both sides of Main Street, Cochituate, between Damon Street and Legion Square, and in Wayland Centre, between Cochituate Road and the Post Road.

A Safety Island was built in Mansion Inn Square, helping to relieve a serious traffic hazard.

Under Betterment Construction, Edgewood Road, Ridgefield Road, Fairfield Road, Parkridge Road, Westway Road and Blossom Lane were completed except for a small amount of fine grading, thereby adding more than a mile to our surfaced Town Roads.

Respectfully submitted,

ALBERT E. POTVIN,
Highway Surveyor

REPORT OF THE ANIMAL INSPECTOR

I wish to submit my report as Animal Inspector for the Town of Wayland for the year 1953.

Inspected 205 Interstate Cattle
522 Native Cows
10 Bulls
190 Young Stock
159 Swine
20 Horses
2 Mules
49 Sheep
5 Goats

Quarantined 12 Dogs

Respectfully submitted,

WARREN F. LAWRENCE
*Animal Inspector for
The Town of Wayland.*

REPORT OF THE BOARD OF HEALTH

December 31, 1953

The Board of Health submits the following report for the year ending December 31, 1953.

There were eleven regular meetings and four special meetings.

The year 1953 again showed tremendous growth of building in Wayland. This necessitates close cooperation between the Board of Health and the Planning Board, as drainage requirements for subdivisions must be approved as well as sewer disposal permits issued by the Board of Health before approval can be had from the Planning Board.

The Board of Health published its minimum standards in the Town Crier, to acquaint the town with these facts.

Two cases of Para-Typhoid B broke out in the Spring. The splendid cooperation of the Red Cross and Dr. Corey of this town, aided materially in effective countermeasures which were taken immediately with State recommendation. The Board of Health wishes to thank the Red Cross and Dr. Corey for this service.

At present, more time is spent than is reasonable in the investigation, condemnation and follow-up of dwellings unfit for human habitation for health reasons. The Town Counsel is thanked for his tireless cooperation and devotion to town affairs and in particular to the Board of Health. Necessary aid that we are now seeking for the Board of Health, will increase the efficiency of the Board of Health, in the performance of this duty, so important to the well-being of Wayland.

The Board of Health expresses regret that other duties forced the resignation of Dr. Katherine Andrews on September 1st. She gave unsparingly of her knowledge, ability and judgment as Chairman to the Board of Health.

Mr. John C. Quinn was appointed to fill the vacancy and is a valued member. We thank the Planning Board for its cooperation and list below Board of Health statistics:

The Board issued the following permits:

To construct Cesspool	201
To maintain undertaker establishment	1
To manufacture ice cream	1

To sell Methyl Alcohol	14
To sell Milk	33
To sell Oleomargarine	13
To transport and dispose of Garbage, Offal	3

There were one hundred forty-five cases of communicable diseases reported:

Chicken Pox	57
Dog Bites	21
Measles	46
Scarlet Fever	7
Polio	4
Whooping Cough	8
Para-Typhoid B	2

Dog Clinics

A total of 87 dogs were inoculated and protected against rabies at the 2nd annual clinics conducted under the direction of Dr. Paul R. Granholm, Boston Post Rd., Weston, and Leila Sears. Protection against rabies must and should be given freely, as a sudden outbreak of dog bites can be injurious to the welfare of the community.

Respectfully submitted,

JOHN C. QUINN, *Chairman*

NORMAN G. FAIR, *Clerk*

JOYCE BERTELSEN

Board of Health

REPORT OF THE DISTRICT NURSE

I hereby submit my annual report for the year ending December 1953:

Nursing visits, bedside and other care	1061
Prenatal visits	42
Postnatal visits	38
Infant visits	46
Pre-school	10
Tuberculosis (Follow-up)	25
Advisory visits	39
Friendly visits	19
Patients referred to hospital	2
Patients accompanied to hospital	2

During the course of the year, I have had several conferences with the State Consultant for this district, which proved to be very helpful.

Respectfully submitted,

MARY McNEIL,
District Nurse.

REPORT OF THE MOTH SUPERINTENDENT

The Gypsy Moth Program has been successfully carried out throughout the Town. The trees on all existing streets and roadways, including new developments, have been sprayed and examined.

During the past year, twenty-four elm trees have been removed and destroyed due to the Dutch Elm Disease. These trees were all roadway trees and were a threat to wires and traffic. Dutch Elm Disease still continues to plague our elms.

Samples of the remaining suspects have been sent to Amherst for culture. All of these samples came back positive Dutch Elm Disease. The trees from which these samples were taken have been properly tagged as requested by the State.

Respectfully submitted,

JOHN E. NELSON,
Moth Superintendent

REPORT OF THE WATER COMMISSIONERS

New services in 1953 dropped off somewhat with a total of 90 completed and three on hand on December 1. However, the rebuilding of Edgewood, Fairfield, Ridgefield, and Parkridge Roads, and the relocating of the 2" main on Bent Avenue, required the relocating of 53 old services.

The 12" pumping main connecting Old Connecticut Path and Cochituate Road was put into service, and the mains on Glezen Lane were connected giving us two feeder mains to North Wayland.

Two new hydrants were installed, one on Hazelbrook Lane and the other on Lincoln Road.

The appearance of the entrance to the Baldwin Pond pumping station was greatly improved by rebuilding the walls and grading around the driveway.

The new pumping station is nearing completion and will be put into service in 1954.

1.8 miles of main were added to the system in 1953. New hydrants on roads already approved by the Planning Board, but not yet built, will add at least 25 to the total hydrants as given below.

Statistics 1953 (December 1)

Renewals	10
Relocations	53
Leaks	9
New services Dec. 1	90 3 on hand
Hydrants in use	280
Gallons water pumped	238 million gallons

FERN A. TAYLOR
ALFRED C. DAMON
ROBERT W. HANLON

REPORT OF THE BOARD OF PUBLIC WELFARE

The duties and responsibilities of this Board continue from year to year without much change in the general problems, but with ever varying and frequently challenging special cases. The mandatory requirements of the statutes and the regulatory restrictions of both State and Federal government make it impossible for the Board to deal with many cases in the manner in which it would act if it had unfettered authority.

It is apparent that growth of population will increase the burdens in cases in which elderly relatives move into town with new home owners, as well as in cases in which low cost older properties prove available to those seeking low costs. The efforts of the Board of Health to restrict and reduce substandard buildings are noted with approval and commendation.

Expense for medication, doctors' services and hospital or rest home care, continues to be great, and no means have been devised by which the Board can satisfactorily check for abuse of the privileges afforded, and can in any realistic manner exert restrictions so that all real needs are supplied, and the tendency of liberality of expense when some one else is making the payment not exercised to the detriment of the taxpayer without much, if any, benefit to the recipient.

We have had one sale of real estate and a few recoveries, showing the favorable results of the lien law. The Board is making an earnest effort to protect the taxpayer from exploitation, and at the same time to relieve all legitimate distress of the worthy cases in all categories.

The attached welfare statistics show what has been expended this year and in recent years. The Accountant's figures will show to what extent the burden fell on the Town

Board of Public Welfare.

CIVIL DEFENSE ANNUAL REPORT

The year 1953 saw the completion of the organization of one of the most important arms of the Town's Civil Defense organization, the Auxiliary Police. More than sixty Auxiliary Police officers have been appointed by the Selectmen and many of them have been engaging in regular monthly training. Weekly training sessions on the pistol range have been inaugurated under the direction of an expert instructor and the various Auxiliary Police squads are undertaking pistol training on a rotation basis.

During the past year the Chief of Police called members of the Auxiliary Police to active police duty on two occasions. The first of these was during the summer to combat a wave of false alarms in Precinct 1. It is significant that this wave suddenly ended when the Auxiliary Police went on duty. The second occasion involved Auxiliaries in both precincts who were on active duty during two evenings over the Hallowe'en week-end who succeeded in preventing the turning in of a number of false alarms and other malicious acts. The Auxiliary Police have been equipped with badges, whistles and billy clubs. A supply of white plastic helmet liners have been purchased for use on disaster duty and Civil Defense provided the police with two .22 caliber revolvers for use by all members of the Department in pistol practice.

The Communications section has been augmented by an assistant. The two fixed radio stations are complete and in operation on the 16-meter band for emergency communications and may be operated using emergency generators. Mobile equipment is available for mounting in any convenient vehicle should the need arise.

An excellent start has been made during the year 1953 in organizing the Warden Division with almost 100 women in Precinct 1 having agreed to serve as wardens. The organization in Precinct 2 has lagged, but it is hoped that during the first part of 1954 Precinct 2 will catch up in this division.

Emergency feeding in time of disaster, natural or military, will be handled directly by Red Cross personnel who are equipped and trained for this purpose and no attempt is being made to set up a separate organization.

The Town has not been allocated any first-aid equipment by the State, but it is hoped with the completion of the Parmenter building that

arrangements can be made for the setting up of emergency first-aid facilities under the control of the personnel of the Parmenter project.

Now that the Fire Department has completed its efforts in connection with building the Cochituate Fire Station and acquiring two new fire trucks, we have turned our attention to recruiting and training two companies of Auxiliary Firemen under Captain Francis J. Hartin, Auxiliary Chief.

At the end of the year we lost our Assistant Director, Benjamin Beale, and the vacancy created is expected to be filled in the near future by the Selectmen.

The main report center in the basement of the Public Library has been virtually completed with its radio station and communications desk. In both the main report center and the secondary report center in Precinct 2, three extra telephones have been installed making a total of four lines at each command post at no cost to the Town except for installation service. The extra lines may be connected on a few minutes notice directly at the telephone company switchboard, thus giving the necessary extra communications channels if they should be needed.

A new director of the Civilian War Aid Division, whose responsibilities are primarily of a welfare nature, has been appointed and with the aid of the Red Cross Canteen and the Warden Section (who will conduct the housing survey) it is hoped that this division will complete its initial work before the end of 1954.

The Worcester tornado disaster occasioned an alerting of Wayland Civil Defense personnel, but it was not necessary to furnish any aid to the stricken area other than to dispatch the Fire Department emergency lighting unit with two men for several nights following the storm. Your Director attended a meeting in Worcester at which the operations of the Worcester and State Civil Defense agencies were reviewed. It can be said that at the present time the Town of Wayland is probably better prepared to cope with a disaster of this type than was the city of Worcester when the twister hit.

During 1953 the Town spent approximately \$2,500 for Civil Defense, this being the sum allocated from the Reserve Fund for this purpose. Of the \$2,500, however, some \$500 went to pay for equipment purchased in 1952. The Town expects to be reimbursed by the Federal Government under the Matching Funds program of the Federal Civil Defense Administration for certain of the communications equipment purchased during

1952 and 1953, thus reducing by several hundred dollars the total cost to the Town of the Civil Defense program.

The accomplishments of the past year would not have been possible without the untiring efforts of our overworked volunteers who are all busy people and who have nevertheless taken valuable time to perform what to many appear to be thankless tasks. To them I extend a vote of thanks both in behalf of myself and the Town.

Respectfully submitted,

W. R. HULBERT,
Director.

PARK DEPARTMENT

The Board of Park Commissioners sets forth below its report for the year 1953.

Insofar as the various Park Department properties are concerned, the Board wishes to report that there have been no substantial changes in the properties or the policy of maintaining them. It has been the effort of the Commissioners to keep the Park Areas and Heater Pieces in good condition; they have been rewarded by the number of citizens who have made note of the improvement over other years, and who have so advised the Board.

With the support and cooperation of the residents of the town, the 1953 season continued the trend of recent years at the Lake Cochituate Beach. The attendance for the past summer was 34,785 residents for the season and 1064 guests, as compared to 28,393 residents and 574 guests in the year 1952. Accidents were negligible and infraction of the rules few. The Park Department has attempted to improve constantly the Beach Area for the benefit of the residents and hopes that additional progress can be made in 1954.

The Park Commissioners wish to thank the Officials and the People of the Town who aided them in 1953 in the discharge of their duties.

FRANK S. TARR, *Chairman*
NATHANIEL HAMLEN
THOMAS J. MURRAY
Wayland Park Commissioners.

1953 REPORT OF THE WORK OF THE MIDDLESEX COUNTY EXTENSION SERVICE IN WAYLAND

The Middlesex County Extension Service is a publicly supported, educational institution to serve all the towns of the county in agriculture and home economics. In agriculture the work is developed county-wide under the direction of county councils made up of leading farmers in each of the main commodities as vegetables, fruit, poultry, dairying, livestock, and commercial flowers. A County Bulletin is mailed monthly to all co-operating farmers and timely information sent to anyone on request.

4-H Club Work is developed under a town committee and leaders, and the home economics work is available through a town director, organized groups, or direct requests. Your town director furnishes counsel to the Extension Office on the needs of the towns, services desired, or leadership needed.

Information and assistance were made available on the planning and operation of a poultry farm or enterprise covering the subjects of poultry housing and equipment, ventilation and litter management, brooding and rearing, marketing, and management for egg production.

Specialized information on turkey and poultry health was made available through the 1953 Middlesex Flock Health Program.

The Middlesex County Extension Service renders many services to the dairymen in this area. There are in the county herd testing facilities which include complete herd records, pasture, hay and silage production programs which aim at producing more and better roughage at a lower cost, and a soil testing laboratory where a complete analysis can be run to determine needed soil nutrients. Also, on application for membership, any dairyman has access to one of the best bull studs in the northeast for use in his own herd through the artificial breeding program.

Samuel Cutler is a real leader in the county's dairy industry. Other active participants are Arthur Schofield, DeWitt Mitchell, and Walter Harrington. Dairy twilight meetings were held at Mainstone Farm and Knottarock Farm with about 40 people at each meeting.

Of interest to the commercial vegetable growers was the timely information sent out on pest control similar to the service that has been rendered the fruit growers of the county. Marketing has also been a vital part of the program, and efforts have been concentrated on the Boston

Market and on proper packaging and grading. Consumer packaging has received a great deal of attention.

The homemakers of Wayland have been very much interested in the various programs offered by the Extension Service, taking part in the meetings on Making Slip Covers, Clothing, and "Your School-Age Child." Mrs. Leslie Reid and Mrs. Fred Gelinis are members of the Executive Board of the Women's Advisory Council.

4-H Club members in Wayland Center in 1953 were enrolled in gardening, horse, clothing, and boys' craft. Mr. Aiden Gierasch was leader of the Garden Club; Mrs. Archibald Cox, leader of the Horse Club; Miss Mary Reid, leader of the Clothing Club; and Mr. John Cain, leader of the Boys' Craft Club. Mrs. B. Allen Benjamin served as 4-H Town Chairman in Wayland Center. Assisting on the Town Committee were Mrs. Leslie Reid, Mrs. Mabel Draper, Mrs. Richard Best, Mrs. John Tanger, Mrs. Kenneth Larkin, Mrs. Donald Tarbell, and Mr. George Small.

Mr. Elmer Bigwood was 4-H Town Chairman for Cochrane. Mr. Bigwood also led a 4-H Agricultural Club. Mrs. John Arnold led a Girls' Craft Club, and Mrs. William Erwin led a Foods Club. Mr. John Arnold led a Boys' Craft Club and a Conservation Club. Miss Louise Taylor led a Clothing Club. Mr. and Mrs. Fern Taylor served on the 4-H Town Committee and Mr. Taylor has contributed greatly to the success of Camp Middlesex. Many 4-H boys and girls attended Camp Middlesex in Ashby and exhibited at the Middlesex County 4-H Fair.

Respectfully submitted,

JOSEPH DECATUR,
Town Director.

REPORT OF THE TREE WARDEN

General cleaning and trimming of dead wood on all trees throughout the Town was done this year. There were twelve dangerous trees taken down, and twenty-three Maple Trees were set out.

Respectfully submitted,

CHARLES L. FULLICK,
Tree Warden

115

This list includes arrests made by the State Police.

This list does not include juvenile arrests.

The Wayland Police served during 1953, One Hundred and Thirty Seven summonses, Twenty Two Subpoenas, Seventeen Summonses to show cause, Four summonses to children and Sixteen warrants.

The total number of automobile accidents has again increased over the past year. We have again posted more safety signs along the highways to help keep our accident rate down. We had one fatal this year. We received a citation from the Seventh Governor's Highway Safety Conference presented to The Town of Wayland in recognition of outstanding highway safety achievements in completing the year 1952 without a fatal motor vehicle traffic accident.

I wish to thank the Wayland Lumber Co. for their safety calendars that they purchased and donated to the police department to distribute in the town.

I wish to thank the Honorable Board of Selectmen for giving me another full time patrolman.

I wish to thank the Auxiliary Police for the fine cooperation that they have given me when I have asked for their assistance.

I wish to thank Chief Shea and the Natick Police Department, my fellow officers, the various department heads and the loyal citizens of Wayland for their tolerance and continued cooperation. It is this type of stimulated cooperation combined with an integration of efforts that makes it possible for me to say to all — "a job well done." Again accept my sincere thanks and my pledge that ever continuing advances will be made by the department which I so proudly head.

Respectfully submitted,

ERNEST H. DAMON,
Chief of Police.

REPORT OF PLUMBING INSPECTOR

During 1953, there were one hundred thirty-seven (137) Plumbing Permits issued for which Six Hundred Six dollars (\$606.00) was collected and turned over to the Town Treasurer. All jobs were inspected and passed.

I recommend that the Town of Wayland adopt the State Board of Examiners of Plumbers Code in 1954, so that future installations would comply with all safety requirements and avoid any tragedies such as the explosion in Cochrute this year.

Respectfully submitted,

TIMOTHY J. DALY

The Fire Department has answered more fire alarms this year than in any previous year. Each year, as the town grows in population, the number of fires and other emergency calls increases in proportion. For comparison we list the number of fire-calls for each of the past four years:

1950 — 107

1951 — 145

1952 — 171

1953 — 223

Inasmuch as the Fire Department still is operating on a call man basis without any full-time firemen, either officers or men, the question arises: How much longer can this call Fire Department serve effectively with our ever increasing number of calls each year?

During the month of March the two new Mack fire engines arrived. Shortly thereafter a series of tests were conducted at the Gate House on Lake Cochituate. These impartial and gruelling tests, run by an official of the Board of Underwriters, proved not only that the trucks could pass the Class A requirements for 750 gallon pumpers, but even that they went above and beyond the claim of the manufacturer. After the contracts were signed, (acceptance by the Town having been based upon this report of the Underwriters), the Mack Motor Truck Co. sent us a very competent instructor, who spent many hours with the personnel of the Department, teaching them the various phases of pump operation and how to drive the vehicles properly

The men of the Department have been highly enthusiastic over these two new pieces of equipment and the morale of the group has been boosted immensely.

There has been only one large fire since the new trucks went into service: This was the cow barn at the Watertown Dairy. The new pumpers operated hour after hour, providing many effective, hard-hitting streams of water.

In April a severe ice storm hit this area, coating the utility wires, as well as the fire alarm system, with a tremendous amount of ice. In many places our fire alarm wires were stretched down to the ground by the

burden, and in many spots the wires were broken. Members of the Department filled in at both Fire Stations until temporary repairs were made and until the air whistles were again in operation. The permanent repairs to the alarm system, in labor and materials, costing about \$450, depleted our fire alarm budget considerably.

After the spring grass fire season, when the fire calls lessened, the men of the Cochituate Station turned their attention to fixing up a small pumping unit for woodland use, where the larger fire trucks could not be driven. A war surplus engine and pumps were mounted on a Buick chassis with a suitable hose compartment. Much credit is due to the men who gave so freely of their time in constructing this vehicle.

In the late spring, when the change of time gave more daylight hours in the evenings, joint drills were held each week, with the Cochituate, Wayland and Weston companies attending. These evenings gave the personnel of all three companies the opportunity to meet, and to work out together problems of proper fire-fighting procedure.

During the month of June the new fire station on Main Street was nearing completion. And on July first the contractor turned over the keys of this new building to the Board of Engineers. That same evening the firemen, eager in anticipation of becoming established in their new quarters, made a ceremony of removing the fire trucks from the old Harrison Street station and padlocking the door. They then proceeded, with some flourish, to the new station, where they further celebrated, with light refreshments, this important event.

On July 9th, in a matter of hours after the devastating Worcester tornado hit, a call was broadcast for aid from outlying towns for police, firemen and other rescue agencies. The Board of Engineers is proud to report that it was able to help by sending the service truck from the Cochituate Station for five nights until the emergency was over. Two firemen accompanied the truck each night and served without pay from dusk until dawn.

In September our part in the mutual aid fire circuit from Wayland to Weston was finished and placed in operation. In addition, four new boxes were added to the alarm system to serve the area of Happy Hollow and Pequot Roads and Rice Spring, Goodman and Juniper Lanes.

On Sunday afternoon, the twenty-seventh of September, sudden misfortune struck the home of Mr. John Wales on Edgewood Road. A gas explosion had severely burned a member of his family, and had torn his

house apart, rendering the structure unsafe and totally useless. A minor fire ensued which was quickly extinguished. Then the Department shored up the dangerous sections of the house and roped off the entire area in an attempt to keep out unauthorized persons and to protect the public from possible injury from collapsing timbers

The sprinkler system at the High School was tied in electrically to the fire alarm system this year. This completes this phase of fire alarm construction, for now the sprinkler systems of all three schools are connected to the fire alarm. The purpose of these connections is immediate notification to the fire department should a sprinkler head start delivering water either in case of fire, or of mechanical injury.

In November two children were drowned in Farm Pond in Framingham. Wayland was in a position to help this mutual aid problem by sending two boats fully equipped for dragging operations. A detail of men was sent from each station to operate the equipment and they stayed at the scene until the bodies were recovered.

Th officials of the Telephone Company have advised us that by the spring of 1954 the dial telephones will be in operation, in both precincts. This means a radical change in the handling of fire calls by telephone, in that we no longer can enjoy the friendly cooperation of the Wayland operators, who have served faithfully for so many years.

While it would be easy to take their services for granted, for we *always* have relied on them, we feel it is appropriate at this time, when we witness the passing of another era, to express the gratitude felt by everyone for their heroic handling of emergency calls of all kinds.

A list of all existing fire alarm boxes is published in this report. The Board of Engineers suggests that each citizen of Wayland check this list of boxes, in order to become familiar with the number and location of the box nearest his respective home. It is further suggested that fire alarm boxes be used in preference to the telephone, not only during the telephone changeover, but at all times in case of fire. It is by far the most positive means of summoning the fire department, defining the location of the call as clearly as possible.

We are aware that certain areas of town are not yet covered in this respect. But the lines of the fire alarm system have been, and will continue to be extended as rapidly as Town finances permit.

When dial conversion is completed a letter will be sent immediately to all citizens, informing them of the new telephone fire alarm coverage, the new telephone numbers to be used, and any other needed information pertinent to the fire department.

In accordance with the provisions of G. L. Chapter 148, the oil storage and oil burner inspections, which have been in progress for the past five years, have continued this year.

Oil dealers have been notified not to put oil into any storage tank unless an inspection slip is posted near the tank.

During 1953 471 oil storage inspections have been made, and where the oil equipment was found to be in order a permit was issued. 36 installations have been found defective, and permits denied until repairs were made by the owner. Fees collected from new oil burner permits for 1953 have amounted to: \$53.50 and have been turned over to the Town.

At this time the Board of Engineers would like to extend its thanks and appreciation to the men of the Department for their loyalty and cooperation, with special mention to the men who volunteered for duty after the Worcester tornado; to our neighboring towns of Natick, Weston, Framingham, Sudbury and Lincoln for their mutual aid services; to the local Red Cross Canteen service, which has brought refreshments to the men at the fire lines in all kinds of weather, whenever a fire was of lengthy duration; to the local and neighboring police and to the State and Conservation Police Departments for their aid in apprehending individuals who had set wood-fires and turned in false alarms; and to citizens who from time to time have helped at the scene of a fire.

Respectfully submitted,

F. CLIFTON HAYNES, *Chief*
HOMER L. MacDONALD, *Assistant Chief*
FRANK CARTER, *Deputy Chief*
PARKER GROTON, *Deputy Chief*

Board of Engineers.

REPORT OF THE BUILDING INSPECTOR

The Building Inspection Department submits the following report for the year ending December 31, 1953:

The number of permits issued during 1953 are as follows:

- 36 Alterations
- 181 New Houses
- 2 Greenhouses
- 12 Garages
- 3 Storage Sheds
- 1 Car Port
- 1 Commercial Building
- 1 Telephone Exchange
- 1 Clinic
- 1 School

Wiring Permits

- 37 Alterations
- 66 New Houses
- 21 Oil Burners
- 9 Ranges
- 14 Electric Hot Water Heaters
- 10 Dryers
- 1 Electrically Controlled Gas Heater
- 2 Old Houses
- 1 Storage Shed
- 2 Air Conditioning Units

The total estimated cost of all building permits issued, (which includes new houses, garages, alterations, etc., but does not include any non-taxable property such as the new elementary school or the medical clinic), amounted to \$2,128,500.00. This year 181 new-house permits were issued, which figure surpasses the previous record of the year 1951, by 26 houses.

Two new housing developments were started late in the year: The first, on Old Connecticut Path, on the former Snow Day School property, will contain 41 new houses upon completion. The second, located on East Commonwealth Road, on the former Damon Farm, has been issued 30 new house permits.

For the purpose of comparison, a list of figures for the past few years is shown below:

<i>Year</i>	<i>New Houses</i>	<i>Estimated Cost</i>
1950	141	\$754,500.00
1951	155	875,000.00
1952	140	1,203,150.00
1953	181	2,128,500.00

NEW HOUSE DEVELOPMENT BY PRECINCT

<i>Year</i>	<i>Cochituate</i>	<i>Wayland</i>
1950	30	111
1951	62	93
1952	40	101
1953	97	84

In every phase of the work involved in building inspection this past year of 1953 has equalled or surpassed any year since this department was established — even the year 1951 when there was a marked increase in the activities of this office.

It may be of community interest to note that a permit was issued this year for our first commercial building, on State Road West in the Limited Commercial Zone. A permit has been issued for the new telephone exchange, also on State Road West. In Cochituate a permit has been granted for the new medical center near the junction of School and Main Streets; and on Maiden Lane for the new School.

As in former years most of our new homes that have been completed this year have been built to satisfy individual requirements instead of for speculation.

Forty three cases of zoning variations were prepared and brought to the Zoning Board of Appeals for decision. There were two more cases than in the previous year.

Fees collected from both wiring and building permits during 1953 have amounted to \$3,299.00 and have been turned over to the Town Treasurer.

The Building Department would like to thank the Town Officials and citizens who have helped in the affairs of this office during the past year.

Respectfully submitted,

HOMER L. MacDONALD

Building Inspector.

TOWN OF WAYLAND
REPORT and RECOMMENDATIONS
of the
PLANNING BOARD
on the
Zoning Changes Proposed for the
Special Town Meeting
of November 30, 1953

The zoning changes presented in Articles 13, 14, 15 and 16 of the Warrant for the Special Town Meeting on November 30, 1953, call for a general increase of one-third in building lot sizes and a general increase of one-fifth in the frontage requirements. A comparison of the proposed zones with the present zones is shown in the following table:

<i>Present Zoning</i>		<i>Proposed New Zoning</i>	
Area	Frontage	Area	Frontage
15,000 sq. ft.	100 ft.	20,000 sq ft.	120 ft.
22,500 sq. ft.	125 ft.	30,000 sq. ft.	150. ft.
30,000 sq. ft.	150 ft.	40,000 sq. ft.	180 ft.

In addition, a new zone for the rural undeveloped areas is proposed in which lot sizes of 60,000 sq. ft. having 210 ft. frontage will be required. The proposed new zoning of the Town is shown in the map distributed with the Warrant.

A notice of hearing on these Articles was published October 9, 1953, and the hearing was held before the Planning Board on November 2, 1953

In order to avoid unnecessary hardship to present landowners who have acted on the basis of the present zoning laws without knowledge of the proposed changes, the Planning Board recommends that the proposed amendments to the zoning laws do not apply to existing building lots lawfully recorded before October 9, 1953, nor to lots approved in subdivisions presented to the Planning Board on petition for approval before November 2, 1953.

The zoning changes are proposed by the Planning Board as part of a long range program to minimize the cost of town government; to assure the Town that future expansion and development will not destroy the beneficial effects of its rural nature; and to regulate future growth to the

Town's capacity to accommodate it. Also included in this program is a study of encouraging industrialization of a limited area of the Town, and the rezoning in population centers to provide for neighborhood business areas.

These amendments are proposed at this time because it is believed apparent that the present rate of development is beyond the Town's capacity to accommodate it without encountering serious problems, both financial and from the point of view of the health, safety, welfare and convenience of the Townspeople. So far this year, subdivisions providing for about 226 new houses have been brought before the Planning Board for approval, and 133 building permits had been issued as of October 29.

From the following Table it will be seen that increasing burdens on the Town have accompanied its growth since 1946, and the present indications are that the burdens will increase rapidly unless development is regulated and channelled as recommended.

Year	Building Permits	No. of Dwelling	School Budget	Total Budget	Tax Rate
		Units Assessed for Taxes			
1946	32	1319	\$92,000	\$249,000	\$33
1947	64	1332	111,000	278,000	36
1948	40	1387	115,000	347,000	43
1949	63	1439	132,000	415,000	44
1950	141	1489	172,000	491,000	49
1951	155	1592	197,000	535,000	53
1952	140	1758	241,000	614,000	54
1953	133 to date		291,000	717,000	56

The present rate of growth of the Town is considered abnormal and caused primarily by an unusual pace of new housing developments, rather than by a normal desire of new families to select Wayland over other communities. The pressure for development in Wayland is at least in part caused by the fact that in neighboring towns having comparable areas available for development, the zoning requirements are higher than those presently in force in Wayland, as will be seen from the tabulation below. As a result, Wayland is favored for speculative building over its neighboring communities.

RESIDENTIAL ZONING REQUIREMENTS OF NEIGHBORING TOWNS

	Area, Sq. Ft.	Width, Ft
Lincoln	40,000	120
Weston	40,000	125
(3 zones)	30,000	125
	20,000	100
Sudbury	30,000	150
Concord	40,000	150
(3 zones)	20,000	100
	no. min.	80
Framingham	43,650	125
(4 zones)	20,000	100
	12,000	85
	8,000	65
		} Municipal Sewerage system serves these
Natick	40,000	140
(4 zones)	20,000	120
	15,000	100
	12,500	90

The zoning amendments are designed not to curtail normal growth of the Town, but rather to regulate future growth to permit town services to be used and expanded in an orderly and efficient manner. As long as the zoning requirements of the neighboring towns are generally higher than those of Wayland, a normal rate of future growth in Wayland cannot be expected.

The proposed amendments, in providing for areas in which required lot sizes will range from 20,000 sq. ft. to 60,000 sq. ft., present a zoning pattern permitting extensive future growth, but in a manner that can better be accommodated by the Town. Each of the proposed new zones contains large undeveloped areas available for future building. The proposed changes will accordingly not limit new growth to the areas requiring the larger lots, but will allow development of many home sites for families desiring smaller lots.

From the health point of view, an increase in the lot size requirements to at least 20,000 sq. ft. is desirable in assuring adequate drainage. With lots as small as permitted in some areas, increased development there

presents a real threat that a municipal sewerage system will, in time, be required. The cost of such a service would be enormous.

The 60,000 sq. ft. zone is proposed for areas in which the existing public roads are generally below average quality for the Town, and in which town water is for the most part not available. In this zone, new homes will generally require both wells and septic tanks or cesspools, and a minimum lot size of 60,000 sq. ft. will assure adequate area for such facilities. Few existing lots in these areas do not already conform with the proposed requirements. This zone will accordingly tend to channel new development into regions better served by town facilities without changing the present character of the area.

The Planning Board believes that the proposed zoning changes will serve the best interests of the Town in:

1. Regulating future development to a rate which the Town can accommodate with its present and proposed services.
2. Channeling new development into areas best served by the Town's services.
3. Bringing the Wayland Zoning Laws into conformity with those of its neighboring towns.
4. Spreading out future population to preserve the rural character of the Town, and to prevent the dangers of overcrowding.

The Planning Board believes that the proposed new zoning changes will not cause any substantial hardship to any of the Town's residents or taxpayers, since all existing lots, as well as lots shown in sub-division plans now before the Board for approval, are recommended for exemption. The general effect of the changes will be to keep Wayland a desirable community to live in.

The Planning Board, by unanimous vote of its members, accordingly recommends APPROVAL of Articles 13, 14, 15 and 16.

VOTES ENACTED AT THE ANNUAL TOWN MEETING, MARCH 4, 1953

Town Clerk's Office
Wayland, Massachusetts

Howard S. Russell, Moderator:—

Pursuant to the following warrant the inhabitants of the Town of Wayland met this day and after the Moderator had declared a quorum present proceeded to transact the following business.

Upon a resolution of the Moderator, a rising vote of acceptance and appreciation was made in honor of a gift to the Town of a gavel, made by Mr. Gerald Henderson of the Board of Selectmen.

Voted unanimously: That the Clerk be asked to send appropriate greetings and expressions of regret to Mr. Gerald Henderson, of the Board of Selectmen; and to Mrs. M. Alice Neale, former Town Clerk: Both of these long-time officers of the Town were unable to be present due to serious illness, and their absence was keenly felt.

Article 1. To hear reports of the Town Officers, Agents and Committees, and to act thereon.

A report was made by Mr. John A. Brownell, Chairman of the Committee appointed to investigate the feasibility of the Town's setting up a system for manufacture and/or distribution of electric power. The Committee reported that although Wayland had about the highest rates for residential electricity in the entire country for areas of over 50,000 population, it still would not be practical to manufacture, or purchase for distribution, such power because of the limited size of our town. It would be more practical, however, if any nearby towns should be interested in a joint solution to our mutual problem.

Voted to accept the report of the Committee on the Feasibility of Manufacture and Distribution of Electric Power.

Voted: That the voters of the Town of Wayland, in order to require the Boston Edison Company to conform to the modern practise of installing high voltage lines underground through residential communities as is now done in nearby towns such as Concord, and in order to prevent substantial damage to real estate values and the beauty of the town which will result from the proposed installation of overhead high voltage lines through the center of Wayland, do most strongly urge both

Houses of the Legislature to pass House Bill No. 1612 and hereby expressly request the selectmen and the citizens of the town to register their desire that the Legislature pass House Bill No. 1612.

A report was made by Mr. Benjamin Beale of the Disposal Area Survey Committee, recommending that the present dump site in Precinct Two be used until it is filled; and that thereafter the present Town Dump on Route 20 be used to take care of all dumping within the Town.

Voted: To accept the report of the Disposal Area Survey Committee.

Article 2. To choose all necessary Town Officers, Agents and Committees, not elected by the official ballot.

Voted: That John Connelly, Frederic A. Gibbs and George W. Shepard continue to serve as Trustees of the Allen Fund.

Voted: That Joseph Decatur, Thomas F. Linnehan and Arthur F. Marston continue to serve as Measurers of Wood and Bark.

Voted: That Thomas F. Linnehan, Melville Loker and Arthur F. Marston continue to serve as Surveyors of Lumber.

Voted: That the Selectmen act as Fence Viewers.

Voted: That the Constables act as Field Drivers.

Voted: That the Moderator appoint a committee of seven to serve as a Memorial Day Committee.

Article 3. To grant money for necessary Town purposes.

Voted: That the report of the Finance Committee be accepted, and that its recommendations be adopted; subject to the following amendments:

"That there be added to the amounts provided for in the Finance Committee for the operation of the Park Department, \$1,000 for the expense of operating a summer baseball program for the year 1953;

"That there be added to the amounts provided for in the Finance Committee budget for the operation of the Park Department, \$3,000 for the purchase of lighting equipment for the Cochituate ball field, such purchase to be made by the Park Department, with the approval of the Selectmen."

That the sums of money, with the addition of \$2,000 for snow removal; \$2,055 for garbage collection; \$155.65 for Town Reports; \$500 for Cemetery Service; \$500 for Highway Department new equipment, be granted, appropriated and assessed for the several purposes designated, making a total budget appropriation of \$726,053.08 and that the same be expended only for the purposes shown, and under the direction of the respective boards, committees and officers of the Town;

That the Town office force be constituted as follows:

Town Accountant, Water Clerk, Assessors' Clerk, Collector's Clerk (also serving as Deputy Collector), and such other clerical assistants as is deemed necessary to perform the duties and assume the responsibility for work as outlined in the Finance Committee Report of 1949;

That the operation of the dumps be under the supervision of the Highway Department;

That the money from Dog Taxes be allocated in its entirety to the Library-Expense Account;

That the District and School Nurse be under the supervision of the Health Department and assigned for school work during appropriate hours of the day;

That the work on the Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

That the Tax Collector continue to act as Collector of the Water Department;

That the office of the Town Treasurer be established in the Town Hall;

That the salaries of the Cemetery Superintendent and the Moth Superintendent be paid as one salary;

That the salaries of the Building and Wire Inspector and Oil Burner Inspector be paid as one salary;

That the wage rate for hourly paid employees in departments be not in excess of \$1.35 per hour, with the exception of the second man in the Highway Department whose rate shall be not in excess of \$1.48 per hour;

That the unexpended balance in the following accounts be transferred to "Excess and Deficiency":

Highway Department:

Chapter 90 Maintenance	\$13
------------------------------	------

Street Betterment Construction:

Rich Valley Road and Hayward Road	5.88
Parmenter Road	1.81
Timber Lane	12.44

Library and Reading Room:

General Repairs	19.94
-----------------------	-------

Recreation:

Preliminary Expense — Purchase:

Sudbury River Meadows	200.00
Lake Cochituate Beach Expense	1.14

Public Service Enterprises:

Water Betterment — Fuller Road	55.98
--------------------------------------	-------

and that the following accounts be transferred to "Water Available Surplus":

Public Service Enterprises:

Water main connection — Plain Road	.76
New Truck	400.00
Installation of 3 hydrants	65.90

In addition to the sum of \$2,000, included in the budget to meet the Town's share of the cost of Chapter 90 Maintenance, and \$5,000, in Article 9 to meet the Town's share of Chapter 90 New Construction, the sum of \$4,000 for Chapter 90 Maintenance and \$15,000 for Chapter 90 New Construction be transferred from "Unappropriated Available Funds" in the Treasury to meet the County's and State's shares of the cost of the work, the reimbursement from County and State to be restored upon their receipt to "Unappropriated Available Funds" in the Treasury.

Article 4. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by Section 108, Chapter 41, General Laws, as amended, and set the effective date of such salary and compensation.

Voted: That the Town fix the salary and compensation of all elective officers, as provided, in the budget as voted under Article 3, the effective date of such salary and compensation to be from January 1, 1953.

Article 5. To see if the Town will vote to appoint a committee to study the problem of compensation of all Town employees; to prepare a plan classifying all such employees into groups doing substantially similar work or having substantially equal responsibilities, and providing minimum and maximum salaries to be paid to such employees in positions so classified, and for the attainment of such maximum salaries by periodic step-rate increases, such salaries to be related, if possible, to a reliable cost-of-living index, and to report at the next Annual Town Meeting its recommendations as to what action should be taken with respect thereto, or take any other action relative thereto.

Voted: That the Selectmen be authorized to appoint a committee of five, no member of which shall hold a Town office, either elective or appointive, to study the problem of compensation of all Town employees; to prepare a plan classifying all such employees doing substantially similar work, or having substantially equal responsibilities, and providing salaries to be paid to such employees in positions so classified, and to report at the next Annual Town Meeting its recommendations as to what action shall be taken with respect thereto.

Article 6. To see if the Town will vote to authorize the Board of Selectmen: (1) to sell, or otherwise dispose of the present police car in connection with the purchase of a new car; (2) to sell, or otherwise dispose of the Water Department's present 1952 Chevrolet in connection with the purchase of a new truck; and (3) to sell or otherwise dispose of 5 traction type sand spreaders—the funds for the police car being provided for in the budget of the department and the funds for the Water Department truck being provided for in Article 8, or do or act.

Voted: That the Town authorize the Board of Selectmen to sell, or otherwise dispose of the present police car in connection with the purchase of a new car; that the Town authorize the Water Commissioners, with the approval of the Selectmen, to sell, or otherwise dispose of the present 1952 Chevrolet in connection with the purchase of a new truck; that the

Town authorize the Road Commissioners, with the approval of the Selectmen, to sell, or otherwise dispose of 5 traction type sand spreaders.

Article 7 To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1953 and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

Voted unanimously: That the Town authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1953 and to issue any note or notes therefor payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 17, Chapter 44, General Laws.

Article 8. To see if the Town will appropriate sums of money for the following:

- (1) Water Coupon Notes, Water Bonds and Water Registered note — maturing in 1953 — payment of principal;
- (2) Water Coupon Notes, Water Bonds and Water Registered note — payment of interest due in 1953;
- (3) Water Department maintenance;
- (4) Town Office Clerical salaries;
- (5) Purchase of a new truck;
- (6) Installation of a water main connection and hydrant in Glezen Lane;
- (7) Installation of two new hydrants — one on Hazelbrook Lane and one on Lincoln Road

the entire amount to be taken from "Water Available Surplus," or do or act.

Voted: That the Town appropriate:

- (1) The sum of \$13,000 for the payment of principal due on Water Coupon Notes, Water Bonds and Water Registered Note — maturing in 1953;
- (2) The sum of \$2,410 for the payment of interest due in 1953 on Water Coupon Notes, Water Bonds and Water Registered Note;

- (3) The sum of \$40,100 for Water Department — Maintenance, divided: \$4,500 — Salary of the Superintendent; \$3,550 — Salary of the second man; \$3,050 for maintenance appropriation; \$32,050 for maintenance appropriation;
 - (4) The sum of \$1,500 for payment of joint Town Office Clerical Salaries;
 - (5) The sum of \$200 for the purchase of a new 1/2 ton pick-up truck;
 - (6) The sum of \$5,000 for the installation of a 6-inch water main connection of about 1,350 feet and a hydrant in Glezen Lane; and
 - (7) The sum of \$700 for the installation of two new hydrants — one on Hazelbrook Lane and one on Lincoln Road
- the entire sum, \$62,910, to be taken from "Water Available Surplus."

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action in relation thereto.

Voted unanimously: That the Town appropriate and assess the sum of \$5,000 for the reconstruction and improvement of Oak Street, Cochituate and/or other Chapter 90 roads, said money to be used in conjunction with any money which may be allocated by the State or County, or both, for this purpose, provided that only so much of the \$5,000 shall be used as is matched as follows: \$1.00 from the County and \$2.00 from the State for each \$1.00 of Town money, the work to be done under the supervision of the Road Commissioners.

Article 10. To see if the Town will vote to authorize the purchase, taking by eminent domain and/or acquisition by other means, on behalf of the Town, for school purposes, of all or any part of a parcel of land containing about 15 acres, more or less, and bounded westerly by Old Connecticut Path, northerly by land of the Commonwealth of Massachusetts Weston Aqueduct; easterly by land of George L. Nolan and land of the Wayland Real Estate Company; and southerly by Pequot Road, by land of Theodore L. and Eloise D. Parker, by Maiden Lane, and by other land of Theodore L. and Eloise D. Parker; and appropriate a sum of

money for the foregoing purpose, and determine how the money shall be raised; or take any action relative thereto.

Voted unanimously: That the Town authorize the Selectmen to purchase, take by eminent domain, or otherwise acquire, for the Town for school purposes a parcel of land, believed to belong, in part, to George L. Nolan, in part, to Theodore L. and Eloise D. Parker, and in part, to the Wayland Real Estate Company, said parcel being bounded and described as follows:

Beginning at a point on the easterly line of Old Connecticut Path at property of the Commonwealth of Massachusetts (Weston Aqueduct); thence proceeding in a southwesterly direction for 45.05 feet and 300.51 feet by said Old Connecticut Path to a point; thence south 79-03-47 east for 90.71 feet, south 80-05-44 east for 100.11 feet, and south 80-05-42 east for 79.18 feet, all by land now or formerly of Theodore L. and Eloise D. Parker to a point; thence south 16-52-05 west for 564.95 feet by land of now or formerly of said Theodore L. and Eloise D. Parker to a way known locally as Maiden Lane; thence south 32-16-00 east for 160.00 feet by said Maiden Lane, thence south 22-31-00 east by said Maiden Lane for 129.88 feet to a point; thence north 74-26-20 east for 543.79 feet by other land of said Theodore L. and Eloise D. Parker to land now or formerly of Wayland Real Estate Company; thence north 22-41-40 west for 2.59 feet and north 20-19-43 west for 51.65 feet by land now or formerly of Wayland Real Estate Company dedicated as Pequot Road; thence south 87-38-56 east by said Pequot Road for 154.22 feet to a point; thence north 13-12-56 west by land now or formerly of Wayland Real Estate Company, of Charles F. Fredey, Jr., and of George L. and Mary Alice Nolan, for 846.16 feet to land of the Commonwealth of Massachusetts (Weston Aqueduct); thence north 84-45-48 west by said Weston Aqueduct for 261.87 feet to a stone bound; thence north 68-03-48 west for 318.21 feet by said Weston Aqueduct to the point of beginning.

A part of said parcel being shown on a plan entitled "Plan of Land in Wayland, Mass." dated January 2, 1953 drawn by Everett M. Brooks Co., Civil Engineers, as a part of Land Court Case 7010, as parcels A-2 and B-4; a part of said parcel being shown on a plan entitled "Plan of Land in Wayland, Mass." dated Jan. 5, 1953 drawn by Everett M. Brooks Co., Civil Engineers, as a part of Land Court case No. 189, as a parcel of 3.871 acres; and part being shown on a plan entitled "Plan of Land in Wayland, Mass. showing takings

by Town of Wayland" dated Dec. 31, 1952 drawn by Everett M. Brooks Co., Civil Engineers, as parcels D and E.

and that the Town appropriate and assess therefor the sum of \$12,000.

Article 11. To see if the Town will vote to authorize the purchase, taking by eminent domain and/or acquisition by other means, on behalf of the Town, for school purposes, or for road purposes, or for a water line, of an easement or fee, in the following: (1) land of the Wayland Real Estate Company, from the intersection of Juniper Lane and Pequot Road running in a westerly direction to land of Theodore L. and Eloise D. Parker; (2) land of said Theodore L. and Eloise D. Parker running in a westerly direction to Maiden Lane; (3) land in and along Maiden Lane in a northwesterly direction to Old Connecticut Path; and appropriate a sum of money for the foregoing purpose, and determine how the money shall be raised; or take any action relative thereto.

Voted unanimously: That the Town authorize the Selectmen to purchase, take by eminent domain, or otherwise to acquire, for the Town for the purpose of providing access to the school land authorized to be acquired under Article 10 the following tract of land believed to belong in part to the Wayland Real Estate Company and in part to Robert A. and Joan M. Mills:

Beginning at a point on the boundary of property now or formerly of Theodore L. and Eloise D. Parker and property now or formerly of Wayland Real Estate Company, 160.70 feet bearing south 20-19-43 east from a concrete bound; thence south 87-38-56 east by land now or formerly of Wayland Real Estate Company for 376.22 feet to a point; thence on a curve to the left with a radius of 50.00 feet (with a center bearing north 2-21-04 east from said point) for 84.14 feet by land now or formerly of Wayland Real Estate Company to a point; thence in a southwesterly direction about 203 feet to a point; thence in a northwesterly direction, on a curve to the left with a radius of 200.00 feet (with a center bearing south 65-57-40 west from said point) for 222.04 feet by land now or formerly of Robert A. and Joan M. Mills to a point; thence north 87-38-56 west by land now or formerly of Wayland Real Estate Company to land of Theodore L. and Eloise D. Parker; thence north 22-41-40 west for 2.59 feet and north 20-19-43 west for 51.65 feet by said land now or formerly of Theodore L. and Eloise D. Parker to the point of beginning.

Being shown as the westerly arm of Pequot Road on a plan entitled "Plan of Land in Wayland, Mass. showing Takings by Town of Wayland" dated December 31, 1952 drawn by Everett M. Brooks Co., Civil Engineers.

any such acquisition in the discretion of the Selectmen to be subject to rights to use said parcel as a highway or for any other purpose for which a highway is ordinarily used, and that the Town appropriate and assess therefor the sum of two dollars.

And that the Town authorize the Selectmen to purchase, take by eminent domain, or otherwise acquire, for school purposes the following tract of land in and along Maiden Lane believed to belong in part to Millie A. Palmer and in part to Theodore L. and Eloise D. Parker;

Beginning at the northwesterly corner of the parcel, on the southeasterly side of Old Connecticut Path, at the northwesterly corner of property now or formerly of Millie A. Palmer; thence north 65-03-32 east by Old Connecticut Path for 39.39 feet to a concrete bound; thence in an easterly direction on a curve to the left of radius 545.06 feet by Old Connecticut Path for 92.05 feet to a point; thence in a southerly direction, on a curve to the left with a radius of 30.00 feet for 63.43 feet by land now or formerly of Theodore L. and Eloise D. Parker to a point; thence south 65-46-07 east by said land of Parkers 24.60 feet to a point; thence on a curve to the right with a radius of 332.24 feet for 81.88 feet to the north-easterly line of the way known locally as Maiden Lane; thence south 65-46-07 east along said northeasterly line of Maiden Lane by land now or formerly of said Parkers for 38.21 feet to a point; thence south 32-16-00 east for 456.89 feet, and south 22-31-00 east for 129.88 feet to a point, both courses being along the easterly line of Maiden Lane by land now or formerly of said Parkers; thence south 67-29-00 west by land now or formerly of said Millie A. Palmer for about 156.55 feet more or less to a stone wall being the westerly boundary of the property now or formerly of said Millie A. Palmer; thence north 33-13-30 west for about 218.38 feet, more or less to a point; thence north 31-50-21 west for 145.03 feet to a point; thence north 31-47-51 west for 153.19 feet to a point; thence north 30-25-50 west for 116.49 feet to a point; thence north 32-18-12 west for 50.01 feet to a point; thence north 34-27-52 west for 52.97 feet to the point of beginning;

any such acquisition to be subject, in the discretion of the Selectmen, to easements to use all or a part of said parcel as a highway, or for any other

purposes for which a highway is ordinarily used, and subject, in the discretion of the Selectmen, to restrictions on the construction of buildings, and that the Town appropriate and assess therefor the sum of \$1,501.

Article 12. To see if the Town will vote to authorize the School Building Committee, appointed under Article 19 of the Warrant for the 1947 Annual Town Meeting, to proceed with the preparation of building plans and specifications for an elementary school; and to see if the Town will vote to raise and appropriate a sum of money for the purpose of employing an architect to prepare plans and specifications for said school, including a provision for such road and water developments within and beyond the site which are related to the school building; and for other necessary expenses of the Committee.

Voted: That the Town authorize the School Building Committee, appointed under Article 19 of the Warrant for the 1947 Annual Town Meeting, to proceed with the preparation of plans and specifications for an elementary school to be located on the land described and to be acquired under Article 10, and that there be appropriated, the sum of \$21,000 for the expenses of the Committee, including the employment of architects to prepare plans and specifications for the school and school site.

Article 13. To see if the Town will vote to appropriate a sum of money for the construction of a road from the intersection of Juniper and Pequot Road, westerly to Maiden Lane and along Maiden Lane to Old Connecticut Path, or take any action relative thereto; and determine how the money shall be raised; or take any action relative thereto.

Voted: To pass over the article.

Article 14. To see if the Town will vote to raise and appropriate a sum of money for the construction of a connecting 12-inch water line from the existing 12-inch water line in Pequot Road across the land of the Wayland Real Estate Company and the land of Theodore L. and Eloise D. Parker to Maiden Lane, along Maiden Lane to Old Connecticut Path and along Old Connecticut Path to the existing 12-inch water main from the Happy Hollow well, and determine whether the money shall be provided for by appropriation from available funds in the treasury, by taxation and/or by borrowing, or do or act.

Voted unanimously: That the Town appropriate the sum of \$18,000 for the construction of a connecting 12-inch water line from the

existing 12-inch water line in Pequot Road to the existing 12-inch water main on Old Connecticut Path from the Happy Hollow well, the work to be done under the supervision of the Special School Building Committee originally appointed under Article 19 of the Warrant for the Annual Town Meeting of March 1947; that to meet this appropriation, the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow said sum of \$18,000 and to issue bonds or notes of the Town therefor, payable in accordance with the provisions of Chapter 44 of the General Laws, Ter. Ed., as amended, so that the whole loan shall be paid over a period of not more than fifteen years from the date of issue of the first bond or note; and that the Special School Building Committee, with the approval of the Selectmen and the Water Commissioner, be and hereby is authorized to enter into the necessary contracts and agreements in connection therewith.

Article 15. To see if the Town will vote to authorize and appropriate a sum of money for the installation of a new well, pump station, pump and controls and a connecting water line with the existing Happy Hollow water line and will transfer from available funds and/or borrow a sum of money for the purpose, or do or act.

Voted unanimously: That the Town appropriate the sum of \$20,000 for the installation of a new well, pump station, pump and controls and a connecting water line with the existing Happy Hollow water line; that the work be done under the supervision of the Water Commissioners, with the approval of the Selectmen; that the funds be raised through borrowing; that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow an amount not exceeding \$20,000 and to issue bonds or notes of the Town therefor payable in accordance with the provisions of G. L. (Ter. Ed.) Chapter 44 as amended, such issue to be payable in not more than fifteen years from the date of the bonds or notes.

Voted unanimously: To return to Article 1.

Voted: That a special committee be appointed to study the advisability of more extensive use of meters in connection with the town water system, the committee to report at the next town meeting and to consist of one member of the water board, one member of the finance committee, and one member of the planning board and two members to be appointed by the Moderator.

Article 16. To see if the Town will vote to appoint a special committee to study the desirability and practicability of fluoridating the Town water supply and to make recommendations to the Town, or do or act.

Voted: That the Town appoint a special committee to study the desirability and practicability of fluoridating the Town water supply and to make recommendations to the Town at the next Annual Town Meeting, said committee to consist of three persons — one member of the Board of Health to be designated by that Board, one member of the Water Board to be chosen by that Board and a third member-at-large to be chosen by the two so designated.

Article 17. To see if the Town will vote to appropriate and assess a sum of money for the purpose of installing a traffic light, safety island and a "stop" sign at the junction of West Plain Street and Old Connecticut Path, or do or act.

Voted: That the Town appropriate and assess the sum of \$200 for the installation of a safety island and "stop" sign at the junction of West Plain Street and Old Connecticut Path, the work to be done by the Highway Department generally in accordance with the plans submitted by the Department of Public Works.

Article 18. To see if the Town will vote to authorize the School Site Committee created under Article 5 of the Special Town Meeting held on October 22, 1952, to continue a study of additional school site or sites and to prepare recommendations for presentation to the Town at future Town Meetings with regard to said site or sites as they may determine, and to appropriate a sum of money for engineering service and other necessary expenses of the Committee, or do or act.

Voted: That the Town authorize the School Site Committee, created under Article 5 of the Special Town Meeting of October 22, 1952, to continue the study of an additional site or sites and to prepare recommendations for presentation to the Town at the next Town Meeting.

Article 19. To see if the Town will vote to appoint a Special Committee to make a study and prepare recommendations for presentation to the Town with regard to sites for additional park, playground or recreational facilities and to obtain options on such site or sites as they may determine, or do or act.

Voted: That the Town appoint a special committee to make a study of sites for additional park, playground or recreational facilities and

to prepare recommendations for presentation to the Town at the next Annual Town Meeting, the committee to be composed of five members chosen as follows: one member of the Planning Board, one member of the Park Department, one member of the School Committee, each to be designated by his respective board, and two members-at-large to be designated by those so chosen.

Article 20. To see if the Town will vote to accept as a public Town way under the provisions of the Betterment Act, the road known as "Orchard Lane" or a portion thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk and authorize the Board of Selectmen to acquire by eminent domain, purchase, gift or otherwise and to appropriate a sum of money for the acquisition of such and the construction of such way, or any portion thereof, and determine how the money shall be raised, or take any action relative thereto.

Voted: That the Town shall not accept the laying out as a public way of Orchard Lane as described in the Order of Laying Out of the Board of Selectmen dated February 16, 1952, and as shown on a plan entitled "Plan and Profile of Orchard Lane in Wayland, Massachusetts" dated November 14, 1952, drawn by Everett M. Brooks, Co., Civil Engineers.

Article 21. To see if the Town will vote to abandon a right-of-way across land of Fred Berg, running to Dudley Pond, and will vote to accept a right-of-way to Dudley Pond across the land of Fred Berg, or do or act.

Voted unanimously: To abandon a right-of-way across land of Fred Berg, running to Dudley Pond, and to accept a right-of-way to Dudley Pond across the Land of Fred Berg.

Article 22. To see if the Town will vote to amend the Zoning By-Laws as follows: to change from a residential to a business district, the following portions of land located on Old Connecticut Path:

- (a) Land owned by Francis J. and Nora M. Lavin described as follows: Northwest from Old Connecticut Path and Commonwealth of Massachusetts 329.95 feet to a point; thence Northeast 298.42 feet to Stonebridge Road; thence Southeast 10.36 feet to a point; thence Southwest 102.73 feet to a point; thence Southeast 177.23 feet to a point; thence Northeast 47.86 feet to a point; thence Southeast 139.26 feet to Old Connecticut

Path; thence Southwest 248.06 feet to the point of beginning.

- (b) Land owned by Dorothy W. Emerson described as follows: Northwest from Old Connecticut Path and land of Francis J. and Nora M. Lavin 139.26 feet to a point; thence Southwest 47.86 feet to a point; thence Westerly 177.23 feet to a point; thence Northeast 102.73 feet to Stonebridge Road; thence Southeast 309.5 feet to Old Connecticut Path; thence Southwest 79.4 feet to the point of beginning.
- (c) Land owned by Percy H. Steele described as follows: Southeast from Old Connecticut Path 174 feet to a point; thence Northeast 242.1 feet to Massasoit Path; thence Northwest 174 feet to Old Connecticut Path; thence Southwest 260.3 feet to the point of beginning.
- (d) Land owned by Ralph E. and Alice J. McMillen described as follows: Southeast from Old Connecticut Path 174 feet to a point; thence Northeast 245 feet to land of Charles F. and Esther B. Flynn; thence Northwest 174 feet to Old Connecticut Path; thence Southwest 242.4 feet to the point of beginning.

or do or act.

Voted: To pass over this article until the next Town Meeting.

Article 23. To see if the Town will vote to amend the Zoning By-Laws as follows: to change from a residential to a business district that portion of land designated as Section "B" on plan of land in Wayland, Massachusetts, prepared by Everett M. Brooks, C. E., November 8, 1946, containing 26,864 square feet, more or less, located on the southerly side of Stonebridge Road at the intersection of Old Connecticut Path, Cohituate, Massachusetts, and extending 304.07 feet from Old Connecticut Path to the land designated as that owned by Alfred W. and Frances A. Hommel.

Voted: To pass over the article.

Article 24. To see if the Town will vote to amend the Zoning By-Laws as follows: To change from a residential to a business district that portion of land bounded by Commonwealth Road, School Street and E. Plain Street containing about 34,292 sq. ft., owned by Raphael P. and Ethel R. Porcella.

Voted: Not to amend the Zoning By-Laws, nor to change from a residential to a business district that parcel of land bounded by Common-

wealth Road, School Street and E. Plain Street containing about 34,292 sq. ft., owned by Raphael P. and Ethel R. Porcella.

Article 25. To see if the Town will vote to appropriate and assess a sum of money for mosquito control, or do or act.

Voted: That there be appointed a committee of five to study the desirability and practicability of mosquito control and to make recommendations to the Town at the next Annual Town Meeting, the committee to consist of one member of the Board of Health, one member of the Finance Committee and one member of the Planning Board, each to be designated by his respective Board and two members-at-large to be chosen by those so designated.

Article 26. To see if the Town will vote to accept Section 30A of Chapter 40 of the General Laws (Ter. Ed.), which reads as follows: §30A. Reconsideration of Appeal or Petition for Variance from Terms of Ordinance or By-Law after Unfavorable Action.—After acceptance of this section as provided in section four of chapter four, no appeal or petition under paragraph 3 of section thirty for a variance from the terms of such an ordinance or by-law with respect to a particular parcel of land, and no application under section thirty for a special exception to the terms of any such ordinance or by-law, which has been unfavorably acted upon by the board of appeals shall be considered on its merits by said board within two years after the date of such unfavorable action except with the consent of all members of the planning board or of the board of Selectmen in a town having no planning board.”

Voted: That the Town shall not accept Section 30A of Chapter 40 of the General Laws.

Article 27. To see if the Town will vote to amend the Town By-Laws so as to provide for the appointment of a Planning Board of Appeals, in accordance with the provisions of General Laws (Ter. Ed.), Chapter 41, Section 81R.

Voted: That the By-Laws of the Town of Wayland be amended by adding thereto the following new Article entitled “Planning Board of Appeals”:

Section 1. There shall be a Planning Board of Appeals, consisting of three members and of two associate members. Such board shall have the duties and authority provided for it by law or given to it by vote of the town. In the case of vacancy, inability to act or

show interest on the part of a member of such board, his place shall be taken by an associate member designated by the chairman. The members and associate members of such board shall be members and associate members respectively of the Zoning Board of Appeals.

Vote: "Yes" 106 "No" 3

Approved June 23, 1953 by George Fingold, Attorney General.

Article 28. To see if the Town will vote to amend Article 4 of the Town By-Laws so as to increase the membership of the Finance Committee from five to seven, and to change the provisions regarding the appointment of members, or take any other action relative thereto.

Voted unanimously: That Article 4 of the By-Laws of the Town of Wayland be amended by striking out Sections 1 and 2, and by inserting new Sections 1 and 2 as follows:

Section 1. There shall be a committee called the Finance Committee appointed by the Board of Selectmen as hereinafter provided. Such committee shall consist of seven registered voters who shall serve without pay and none of whom during his service on such committee shall hold regular elective or appointive town office having to do with the expenditure of town money. Five members of such committee shall be appointed to serve for terms of three years. Two members of such committee shall be appointed to serve for terms of two years. No person appointed to a full two-year term shall upon the expiration of that term be eligible for appointment to succeed himself in such two-year term.

Section 2. The Board of Selectmen, not later than December first in each year, shall appoint to serve for a term of three years one or two members of the Finance Committee as shall be necessary to fill out the vacancy or vacancies caused by expiration of three-year terms, and shall appoint to serve for a term of two years one member of the Finance Committee to fill the vacancy caused by the expiration of a two-year term. Appointments to fill unexpired terms shall be made by the Board of Selectmen as vacancies occur.

Approved June 23, 1953 by George Fingold, Attorney General.

Article 29. To see if the Town will vote to appoint a Special Committee to make recommendations to the Town regarding revision of the Town By-Laws.

Voted: That the Town appoint a special committee of three, to consist of one Selectman and one member of the Planning Board, each to be designated by his respective Board, and the Town Counsel, and that the committee be directed to make recommendations to the Town at the next Annual Town Meeting regarding the revision of the Town By-Laws.

Article 30. To see if the Town will vote to transfer from available funds, the sum of \$25,000.00, or any other amount, to meet any of the appropriations made in the foregoing articles.

Voted: That the sum of \$15,000 be transferred from available funds to meet any of the appropriations under the foregoing articles.

Voted: Not to return to Article 3, for further discussion of the question of lighting for the Cochituate ball field.

Voted: To adjourn the meeting at 11:35 P. M.

LEILA SEARS,
Town Clerk of Wayland

VOTES ENACTED AT THE SPECIAL TOWN MEETING November 30, 1953

Town Clerk's Office

Howard S. Russell, Moderator:—

Pursuant to the following warrant the inhabitants of the Town of Wayland met this day and after the Moderator declared a quorum present proceeded to transact the following business.

The Moderator thanked the group of students from the Wayland High School, who were serving as ushers for the Meeting; and

Introduced Mr. Lawrence R. Groves, Clerk of the Massachusetts House of Representatives, who was present on the stage to observe the meeting as a guest.

Article 1. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum or sums of money for the operation and expenses of any or all of the following:

- (1) Fire Department,
 - (2) Police Department,
 - (3) School Department,
 - (4) Welfare Department,
 - (5) Town Counsel and Legal Claims,
 - (6) Insurance, and
 - (7) Highway Department — Snow Removal,
- or do or act.

Voted unanimously: That the Town appropriate and transfer from available funds the following sums of money for the operation of the following departments:

- (1) Fire Department — \$2,000
- (2) Police Department — \$1,000
- (3) School Department — "Operation of School Plants — Miscellaneous of Operation" — \$3,500
- (4) Town Counsel — \$624
- (5) Insurance — \$1,412.90.

Article 2. To see if the Town will vote to raise and appropriate, or transfer from available funds, a sum of money for garbage collection, or do or act.

Voted unanimously: That the Town appropriate and transfer from available funds the sum of \$1,066.68 for garbage collection.

Article 3. To see if the Town will vote to raise and appropriate, or transfer from available funds, a sum of money for the payment of interest on Town indebtedness due in 1953, or do or act.

Voted unanimously: That the Town appropriate and transfer from "Water Available Surplus" the sum of \$176.67 for the payment of interest for Town indebtedness, due in 1953.

Article 4. To see if the Town will vote to raise and appropriate, or transfer from available funds, a sum of money for the completion of the construction of the Cochituate Fire Station and addition thereto, including landscaping and construction of drives and walks, or do or act.

Voted unanimously: That the Town appropriate and transfer from available funds the sum of \$3,500 for the completion of the construction of the Cochituate Fire Station and addition thereto, including landscaping and construction of drives and walks.

Article 5. To see if the Town will vote to raise and appropriate a sum of money for the purpose of constructing a school building on land of the Town east of Old Connecticut Path in the vicinity of Maiden Lane, and for originally equipping and furnishing the said building; determine whether the money shall be provided for by appropriation from available funds in the treasury, by taxation and/or by borrowing; or take any action in relation thereto.

Mr. Allan R. Finlay, Chairman of the School Building Committee, summarized the report of the Committee, which was placed on file with the Town Clerk.

Voted: *Not* to vote on this Article by secret, written ballot.

Vote: "Yes" 106 "No" 321 Total: 427

Voted: That the sum of \$603,000 be raised and appropriated for the purpose of constructing a school building on land of the Town easterly of Old Connecticut Path in the vicinity of Maiden Lane, and originally equipping and furnishing the said building, and that to meet said appropriation the sum of \$3,000 be appropriated from available funds in the treasury, and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$600,000 under the authority of Chapter 645 of the Acts of 1948 as amended by Chapter 528 of the Acts of 1950, Chapter 447 of the Acts of 1951, and Chapter 389 of the Acts of 1952, and to issue bonds or notes of the Town therefor payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note; that the committee originally appointed in accordance with the vote under Article 19 of the Warrant for the Annual Town Meeting held in March 1947, be authorized and directed to construct, furnish and equip said school building and to enter the necessary contracts and agreements therefor.

Vote: "Yes" 498 "No" 42 Total: 540

Article 6. To see if the Town will vote to establish a committee to make a preliminary study and report to the Town of the probable advantages and disadvantages to the Town of a Regional School District.

Voted unanimously: That the Town establish a committee to make a preliminary study and to report to the Town on the probable advantages and disadvantages to the Town of a Regional School District, the committee to be composed of: one member of the School Committee, one member of

the Finance Committee and one member of the Planning Board, each to be chosen by the respective boards, and six members-at-large chosen by the three so designated.

Article 7. To see if the Town will vote to accept a sum of money for the support of the Library, from the general agents for insurance for the Town, or do or act.

Voted unanimously: That the Town accept as a gift from John C. Paige & Co. for the Town the sum of \$3,500 for the support of the Library for the year 1954.

Article 8. To see if the Town will vote to raise and appropriate, or transfer from available funds, a sum of money for the establishment and operation of a full-time Fire Department, or take any other action relative thereto.

Voted: That the Town appoint a special committee for the further study of the necessity of maintaining a full-time Fire Department, the committee to be composed of: one member of the Board of Engineers of the Fire Department, one Selectman, one member of the Finance Committee, each to be chosen by the respective boards, and two members-at-large, to be chosen by the three so designated; and

Voted: That the Committee also make a study as to the advisability of having the "full-time" Fire Department on Civil Service.

Article 9. To see if the Town will vote to authorize the Selectmen to sell at public or private sale the old Cochituate Fire Station lot located on Harrison Street, after demolition of the building thereon has been completed, or do or act.

Voted unanimously: That the Town authorize the Selectmen to sell at public auction the old Cochituate Fire Station lot located on Harrison Street, after the completion of the demolition of the buildings located thereon.

Article 10. To see if the Town will vote to sell, or otherwise dispose of the land on Harrison Street, Cochituate, now occupied by the old Town Fire Station, to the Cochituate Methodist Church, or do or act.

Voted: That this article be passed over.

Article 11. To see if the Town will vote to authorize the purchase by the Town of either, or both, of the following parcels of land:

- (1) Land now or formerly of George R. Laurence, located on Cedar Crest Road and Indian Road described as Lots 873-876 Woodland Park; and
 - (2) Land now or formerly of Madeline C. Owens located on Hawthorne Road described as Part Lot 90, Castle Gate North;
- and to raise and appropriate, or transfer from available funds, a sum of money for the purpose.

Voted unanimously: That there be appropriated and transferred from available funds the sum of \$1,500 for the purchase of the following parcels of land for municipal purposes, and that the Selectmen, with the approval of the Town Counsel, be authorized to accept deeds in connection with the transfer thereof:

- (1) Land now or formerly of George R. Laurence, located on Cedar Crest Road and Indian Road described as Lots 873-876 Woodland Park; \$1,000; and
- (2) Land now or formerly of Madeline C. Owens located on Hawthorne Road described as Part Lot 90, Castle Gate North — \$500.

Article 12. To see if the Town will vote to determine, under the provisions of General Laws (Ter. Ed.) Chapter 152, Section 69 as amended, and Acts of 1936, Chapter 403, that the terms "laborers," "workmen," and "mechanics," as used in General Laws (Ter. Ed.) Chapter 152, Sections 68 to 75, inclusive, shall include all employees of the Town, regardless of the nature of their duties, except members of the fire and police forces.

Voted unanimously: That the Town, under the provisions of General Laws (Ter. Ed.) Chapter 152, Section 69 as amended, and Acts of 1936, Chapter 403, determine that the terms "laborers," "workmen" and "mechanics," as used in General Laws (Ter. Ed.) Chapter 152, Section 68 to 75, inclusive, shall include all employees of the Town, regardless of the nature of their duties, except members of the fire and police forces.

Article 13. To see if the Town will vote to amend the existing Zoning By-Laws, Section IX, paragraphs (e), (f) and (g) in any, or all of the following ways:

- (1) In every instance where the wording "Residence Zone 15,000 sq. ft. 100 ft. Front" or the like appears, the number "15,000" shall be amended to read "20,000"; and in every instance where the wording "fifteen thousand square feet" appears it shall be amended to read "twenty thousand square feet."
- (2) In every instance where the wording "Residence Zone 22,500 sq. ft. 125 ft. Front" or the like appears, the number "22,500" shall be amended to read "30,000"; and in every instance where the wording "twenty-two thousand and five hundred square feet" appears it shall be amended to read "thirty thousand square feet."
- (3) In every instance where the wording "Residence Zone 30,000 sq. ft. 150 ft. Front" or the like appears, the number "30,000" shall be amended to read "40,000"; and in every instance where the wording "thirty thousand square feet" appears it shall be amended to read "forty thousand square feet";

or to amend said By-Laws by increasing the area required under Section IX (e), (f) and (g) otherwise, or to take any other action relative thereto.

Mr. Frederick G. Perry, Jr., Chairman, read the Report of the Planning Board, a copy of which had been sent to each registered voter prior to the meeting, and a copy of which was placed on file with the Town Clerk. This report pertained to the subject matter of Articles 13-16, inclusive, of the Warrant for this meeting.

Voted: That the Town amend the existing zoning by-laws, Section IX, paragraphs (e), (f) and (g) as follows:

- (1) In every instance where the wording "Residence Zone 15,000 sq. ft. 100 ft. Front" or the like appears, the number "15,000" shall be amended to read "20,000"; and in every instance where the wording "fifteen thousand square feet" appears it shall be amended to read "twenty thousand square feet."
- (2) In every instance where the wording "Residence Zone 22,500 sq. ft. 125 ft. Front" or the like appears, the number "22,500" shall be amended to read "30,000"; and in every instance where the wording "twenty-two thousand and five hundred square feet" appears it shall be amended to read "thirty thousand square feet."
- (3) In every instance where the wording "Residence Zone 30,000 sq. ft. 150 ft. Front" or the like appears, the number "30,000" shall be amended to read "40,000"; and in every instance where

the wording "thirty thousand square feet" appears it shall be amended to read "forty thousand square feet."

- (4) By adding at the end of paragraph (e) the following:

If a lot of land conformed or was considered to conform to the requirements of the Zoning By-Law before the adoption of an amendment or amendments to said Zoning By-Law changing the area or frontage requirements enacted under the warrant for the Special Town Meeting called for November 30, 1953, but did not conform to the requirements as amended, and if such lot meets either of the following two conditions:

- (1) It is shown on a plan, or described in a deed, recorded at the Registry of Deeds on or before October 9, 1953; or
- (2) It is shown on a plan of a subdivision which was submitted to the Planning Board for approval on or before November 2, 1953, and which was approved by the Planning Board and recorded in the Registry of Deeds not later than twenty days after November 30, 1953;

then such lot shall be considered to meet the area and frontage requirements as amended; but no division of such parcel or lot shall be made which will increase the extent of non-conformity between the lot and the amended requirements of the Zoning By-Laws.

Vote: "Yes" 469 "No" 93 Total: 562

Approved December 29, 1953 by George Fingold, Attorney General.

Article 14. To see if the Town will vote to amend the existing Zoning By-Laws, Section IX, (e), (f) and (g) in any or all of the following ways:

- (1) In every instance where the wording "Residence Zone 15,000 sq. ft. 100 ft. Front" or the like appears, the number "100" shall be amended to read "120"; and in every instance where the wording "one hundred feet" appears, it shall be amended to read "one hundred and twenty feet";
- (2) In every instance where the wording "Residence Zone 22,500 sq. ft. 125 ft. Front" or the like appears, the number "125" shall be amended to read "150"; and in every instance where the wording "one hundred twenty-five feet" appears, it shall be amended to read "one hundred and fifty feet";

- (3) In every instance where the wording "Residence Zone 30,000 sq. ft. 150 ft. Front" or the like appears, the number "150" shall be amended to read "180"; and in every instance where the wording "one hundred and fifty feet" appears, it shall be amended to read "one hundred and eighty";

or to amend said Zoning By-Laws by increasing the frontage required by said Section IX (e), (f) and (g) otherwise, or to take any other action relative thereto.

Voted: That the Town amend the existing zoning by-laws, Section IX, paragraphs (e), (f) and (g) as follows:

- (1) In every instance where the wording "Residence Zone 15,000 sq. ft. 100 ft. Front" or the like appears, the number "100" shall be amended to read "120"; and in every instance where the wording "one hundred feet" appears, it shall be amended to read "one hundred and twenty feet."
- (2) In every instance where the wording "Residence Zone 22,500 sq. ft. 125 ft. Front" or the like appears, the number "125" shall be amended to read "150"; and in every instance where the wording "one hundred and twenty-five feet" appears, it shall be amended to read "one hundred and fifty feet."
- (3) In every instance where the wording "Residence Zone 30,000 sq. ft. 150 ft. Front" or the like appears, the number "150" shall be amended to read "180"; and in every instance where the wording "one hundred and fifty feet" appears, it shall be amended to read "one hundred and eighty feet."

Vote: "Yes" 420 "No" 9 Total: 429

Approved December 29, 1953 by George Fingold, Attorney General.

Article 15: To see if the Town will vote to amend the present Zoning By-Laws by creating a new type of single residence district by amending subparagraph IX (e) as follows:

- (1) By changing the word "three" to "four" so that said Section IX (e) shall begin: "For the purposes of this subparagraph (e) and for the purposes of subparagraph (f) of this Section IX, the single residence district shown on the map referred to in Section III hereof is hereby divided into four types of zones . . ."

- (2) By adding to the designated types of zones a new type: "4 Residence Zone 60,000 sq. ft. 210 ft. Front."
- (3) By inserting a new sentence before the final sentence reading: "Any building lot laid out in a zone designated 'Residence Zone 60,000 sq. ft. 210 ft. Front' shall contain a minimum of sixty thousand square feet, and shall have a frontage of not less than two hundred and ten feet on a street line."

Voted: That the Town amend the existing zoning by-laws by creating a new type of single residence district by amending Subparagraph IX (e) as follows:

- (1) Changing the word "three" to "four," so that said Section IX (e) shall begin "For the purposes of this subparagraph (e) and for the purposes of subparagraph (f) of this Section IX, the single residence district shown on the map referred to in Section III hereof is hereby divided into four types of zones . . ."
- (2) By adding to the designated types of zones a new type "4," Residence Zone 60,000 sq. ft. 210 ft. Front."
- (3) By inserting a new sentence before the final sentence reading: "Any building lot laid out in a zone designated 'Residence Zone 60,000 sq. ft. 210 ft. Front' shall contain a minimum of sixty thousand square feet, and shall have a frontage of not less than two hundred and ten feet on a street line."

Vote: "Yes" 336 "No" 16 Total: 352

Approved December 29, 1953 by George Fingold, Attorney General.

Article 16. To see if the Town will vote to amend the Zoning By-Laws by changing to a "Residence Zone 60,000 sq. ft. 210 ft. Front" and or all of the areas bounded and described as follows:

- (1) Beginning at the northeasterly corner of the Town of Wayland, thence proceeding: Northwesterly along the Town line with the Town of Lincoln, about 1800 feet more or less to the westerly turning of Waltham Road; thence *Westerly* along Waltham Road to Lincoln Road; thence *Southerly* along Lincoln Road about 2400 feet more or less to the southerly boundary of land now or formerly of William F. Curley; thence *Westerly* along the boundary between land now or formerly of William F. Curley and land now or formerly of Dorothy C. Stone to land now or formerly of Ernest G. and Mabel H.

Maloney; thence due *West*, true, about 1150 feet more or less to Concord Road; thence *Southerly* along Concord Road to a point 300 feet in a southerly direction beyond the intersection of Concord Road with Claypit Hill Road; thence *Southeasterly* along a line parallel to and 300 feet distant from the center line of first Claypit Hill Road and then Plain Road to the northwesterly bound of the business zone on State Road East; thence *Northeasterly* along the boundary of said business zone to Plain Road; thence *Southeasterly* along Plain Road to State Road East; thence *Easterly* along State Road East to the town line with the Town of Weston; thence *Northerly* along the Town Line with the Town of Weston, and along the Town line with the Town of Lincoln to the point of beginning;

- (2) Beginning at the *Southeast* corner of the Town at the Town bound at the intersection of the Town lines of Wayland, Weston and Natick; thence proceeding *Westerly*, along the line between the Towns of Wayland and Natick and along a continuation of that line in a straight line to a point one thousand (1000) feet beyond the westerly line of Rice Road;; thence due *North*, true, to land now or formerly of Dorothy Draper Hamlen; thence *Northwesterly* on various courses and arcs along the southwesterly boundary of said land of Hamlen to land now or formerly of Mainstone Farm Trust; thence *Northwesterly* on various courses along the southwesterly boundary of said land of Mainstone Farm Trust to land now or formerly of Richard and Katherine D. Stackpole; thence *Northerly* and *southwesterly* along the southern boundary of said land of Stackpole to Shaw Drive; thence *westerly* and *northerly* along said Shaw Drive to Old Connecticut Path; thence *Easterly* along Old Connecticut Path by land of Commonwealth of Massachusetts Weston Aqueduct to land now or formerly of Walter H. and Katherine Davis Wilcox; thence *Northeasterly*, then *easterly* by various courses, along the *southeasterly* and *southerly* line of said land of the Commonwealth of Massachusetts Weston Aqueduct to the town line between Weston and Wayland; thence *Southerly* along said town line between Weston and Wayland to the point of beginning.
- (3) Beginning at a point on the southerly line of Oxbow Road at its intersection with the town line between Lincoln and Wayland about thirty-five feet, more or less, northwesterly from the

northeast corner of land now or formerly of E. Winchester Denio; thence *Southeasterly* about thirty-five feet, more or less, along said southerly line of Oxbow Road to said northeast corner of said land of Denio; thence *Southwesterly* on various courses along the southeast boundary of said land of Denio to land now or formerly of Thomas B. Hoye; thence *Southerly* on various courses along the boundary between said land of Hoye and land now or formerly of J. S. Hays Company and along the boundary between land now or formerly of Dominic L. and Lucille W. Bartholomew and land now or formerly of J. S. Hays Company to Sherman's Bridge Road; thence *Westerly* along Sherman's Bridge Road to the Sudbury River and the Sudbury Town line; thence *Northerly* along said Sudbury town line, following the Sudbury River, to the Lincoln town line; thence *Southeasterly* along the Lincoln-Wayland town line to the point of beginning.

Voted unanimously: That the Town amend the zoning by-laws and map by changing to a "Residence Zone 60,000 sq. ft. 210 ft. Front" the areas bounded and described as follows:

- (1) Beginning at the northeasterly corner of the Town of Wayland, thence proceeding *Northwesterly* along the town line with the Town of Lincoln, about 1800 feet more or less to the westerly turning of Waltham Road; thence *Westerly*, along Waltham Road to Lincoln Road; thence *Southerly*, along Lincoln Road about 2400 feet more or less to the southerly bound of land now or formerly of William F. Curley; thence *Westerly*, along the boundary between land now or formerly of William F. Curley and land now or formerly of Dorothy C. Stone to land now or formerly of Ernest G. and Mabel H. Maloney; thence *Due West*, true, about 1150 feet more or less to Concord Road; thence *Southerly*, along Concord Road to a point 300 feet in a southerly direction beyond the intersection of Concord Road with Claypit Hill Road; thence *Southeasterly*, along a line parallel to and 300 feet distant from the center line of first Claypit Hill Road and then Plain Road to the northwesterly bound of business zone on State Road East; thence *Northeasterly*, along the boundary of said business zone to Plain Road; thence *Southeasterly*, along Plain Road to State Road East; thence *Easterly*, along State Road East to the Town line with the Town of Weston; thence *Northerly*, along the

town line with the Town of Weston, and along the town line with the Town of Lincoln to the point of beginning.

- (2) Beginning at the southeast corner of the town at the town bound at the intersection of the town lines of Wayland, Weston and Natick; thence proceeding Westerly, along the line between the Towns of Wayland and Natick, and along a continuation of that line in a straight line, to a point one thousand (1000) feet beyond the westerly line of Rice Road; thence Due North, true, to land now or formerly of Dorothy Draper Hamlen, thence Northwesterly, on various courses and arcs, along the southwesterly boundary of said land of Hamlen to land now or formerly of Mainstone Farm Trust; thence Northwesterly, on various courses, along the southwesterly boundary of said land of Mainstone Farm Trust to land now or formerly of Richard and Katherine D. Stackpole; thence Northerly, then southwesterly, along the southern boundary of said land of Stackpole to Shaw Drive; thence Westerly and Northerly, along said Shaw Drive to Old Connecticut Path; thence Easterly, along Old Connecticut Path, by land of Commonwealth of Massachusetts Weston Aqueduct to land now or formerly of Walter H. and Katherine Davis Wilcox; thence Northeasterly, then easterly by various courses, along the southeasterly and southerly line of said land of the Commonwealth of Massachusetts Weston Aqueduct, to the town line between Weston and Wayland; thence Southerly, along said town line between Weston and Wayland to the point of beginning.
- (3) Beginning at a point on the southerly line of Oxbow Road, at its intersection with the town line between Lincoln and Wayland about thirty-five feet, more or less, northwesterly from the northeast corner of land now or formerly of F. Winchester Denio; thence Southeasterly, about thirty-five feet, more or less, along said southerly line of Oxbow Road to said northeast corner of said land of Denio; thence Southwesterly, on various courses, along the southeast boundary of said land of Denio to land now or formerly of Thomas B. Hoye; thence Southerly, on various courses, along the boundary between said land of Hoye and land now or formerly of J. S. Hays Company and along the boundary between land now or formerly of Dominic L. and Lucille W. Bartholomew and land now or formerly of J. S. Hays Company to Sherman's Bridge Road; thence West-

erly along Sherman's Bridge Road to the Sudbury River and the Sudbury Town line; thence Northerly, along said Sudbury town line, following the Sudbury River, to the Lincoln town line; thence Southeasterly; along the Lincoln-Wayland town line to the point of beginning.

Approved December 29, 1953 by George Fingold, Attorney General.

Voted: To adjourn the Meeting at 11:00 P. M.

REPORT OF THE SCHOOL COMMITTEE

The School Committee herewith submits its Annual Report for the year 1953. One change in the membership of the Committee occurred when Allan R. Finlay did not seek re-election due to the press of business affairs. Mr. Finlay was a member of the Committee for nine years and three times chairman between 1943 and 1953. During the decade of Mr. Finlay's service on the Committee, Wayland's school needs increased acutely like those of most other communities. From the outset of this growth the Town has recognized the challenge. Allan Finlay has made a major contribution in developing this community understanding. He has worked effectively in planning solutions to these school needs. Mr. William A. Waldron was elected to fill this vacancy on the Committee.

The reports of the Superintendent and other staff members describe the program of the schools. The financial report for the year is included in the report of the Town Accountant. Detailed information concerning any phase of the schools is available at the office of the Superintendent of Schools.

The eight-classroom addition to the high school authorized in 1952 has been completed and has been placed in full use during the present school year. The twelve-room elementary school authorized at a special Town Meeting on November 30, 1953 is now under construction.

The School Committee wishes to extend its appreciation for the understanding support which the Town has given in meeting the growth needs of the public schools.

Respectfully submitted,

HARVEY C. NEWTON, *Chairman*
CORNELIUS J. MAGUIRE
WILLIAM A. WALDRON

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee
Wayland, Massachusetts

Gentlemen:

This is my third Annual Report and the 57th in the series of reports of the Superintendent of Schools. This report reflects the dedicated and effective service of the school staff, members of the School Committee, the School Building Committee, and the School Site Committee, as well as other community leaders who have continued to give so generously of their time in the ongoing development of the community's schools. While during the past year a very large measure of attention has been given to the building needs of the schools it is appropriate to re-emphasize the community function which the schools serve.

Deep within our American heritage lies our commitment to public education, a commitment which has grown constantly stronger with the years. Our public schools are one chief and effective means of making our democratic aspirations fully meaningful in the lives of succeeding generations. The public school can meet its responsibilities effectively only if it considers the diversity as well as the commonality of interest and experience which characterizes our people. The success with which the public school does its job depends upon the interest, support and participation of all the citizens of every American community; but more than this it depends upon their understanding of those educational principles and practices without which the democratic aspiration cannot survive. All who are engaged in the work of American public education must be free to provide learning situations which exemplify democracy at its best and to participate as individuals in constructive citizenship and democratic practices. Our richest resource in the fight to maintain a free society lies in our people. The strength of the public schools in the years ahead may well be critical in winning this fight.

During the past year the Wayland public schools have continued to meet urgent problems of obtaining adequate school facilities and of maintaining a superior teaching staff. A major step was taken in meeting the school building needs through the purchase of a site; the planning of a twelve-room elementary school by the School Building Committee; and the authorization to construct the school at a Special Town Meeting on November 30. The School Site Committee, which planned the location of the elementary school now under construction is continuing its long range studies of sites for future schools as they become necessary. The

Special Town Meeting also authorized the creation of a Regional School Study Committee to review Wayland's interest, if any, in the development of regional schools.

The second major problem of maintaining and developing our schools arises from the nationwide shortage of teachers. This shortage has been primarily at the elementary school level resulting from sharp increases in enrollment. This enlarged enrollment will soon be entering high school and will create a similar deficiency at that level. In a time when more teachers have become essential a major change in the American economy has occurred which has resulted in a relative decline in the standard of living of the teaching group causing a reduction in the numbers of young people entering the profession as well as a loss of personnel to other fields. Salary schedules have been increased in response to this competitive situation. The salary schedule in Wayland has been increased in each of the past two years and will need to be changed again in 1954 in order that salaries become more nearly comparable to the typical salary in the six adjacent towns. The extent to which our competitive position is improved will have much to do with our success in selecting and holding the best qualified teachers from the insufficient numbers available. The elimination of large classes and the provision of improved buildings will also aid in the development of a superior teaching staff.

TEACHING STAFF

The teaching staff has increased to fifty-eight members with twenty-six joining our staff during the past year. Eight teachers filled new positions, while eighteen replaced those who left the system. Twenty-two teachers have served in our community more than three years. During the year there was one principalship change with Mrs. Reta Hubler, who was on the Brookline School Staff last year, replacing James McLaughlin at the Center School.

After thirty-two years of most noteworthy service to the young people of Wayland, Mrs. Mabel S. Draper retired from the school system last June. No tribute can indicate the true contribution which Mrs. Draper has made to the pupils under her charge at the Center School and in the Junior High School. All who know Mrs. Draper were most regretful that it became necessary for her to withdraw from active teaching service.

SCHOOL FACILITIES

The Town appropriated \$12,000 at the March Town Meeting to purchase a fifteen-acre school site east of Old Connecticut Path and between

the Old Weston Aqueduct and Maiden Lane. The Town also appropriated \$21,000 to plan a twelve-class-room elementary school to be located on this site. At a Special Town Meeting on November 30, the Town appropriated \$603,000 to develop the site, and to build and equip this school. All of these appropriations, except that for the purchase of the site are subject to reimbursement by the State of approximately 45% based on the formula at this time. The exact reimbursement is computed after the project is completed.

The Town also appropriated \$18,000 to extend a water main from the pumping station on Old Connecticut Path along Old Connecticut Path, Maiden Lane, and Pequot Road to connect with a main in the Happy Hollow project. The appropriation to construct the building includes the reconstruction of Maiden Lane from Old Connecticut Path West to Pequot Road and the building of the section of Pequot Road from Maiden Lane to Juniper Lane. This water and road development completes the connection between Old Connecticut Path West and Cochituate Road. Doing this work in connection with the school building assured economy in construction costs and makes it possible for the maximum State reimbursement to be received by the Town.

GROWTH OF WAYLAND SCHOOLS

The enrollment of the schools increased again in 1953. High birth rates account for a portion of this increase; the remainder results from the construction of new homes in the Town. The enrollment on October 1, 1953 was 102 pupils higher than that of the previous year and was distributed through the grades as follows:

1—167	5—132	9— 74
2—151	6—117	10— 57
3—129	7— 86	11— 49
4—127	8— 91	12— 51

A census of pre-school children is made each year by the Town Clerk. The pre-school population on January 1, 1953 was 67 higher than in 1952 and was distributed according to year of birth as follows:

1948—153	1950—134	1952—144
1949—168	1951—190	

These factors in relation to the school enrollment in the past five years have been used in developing the estimate of future enrollment.

SCHOOL TAX RATE

The Board of Assessors under a new State law established a tax rate for schools which appeared on your property tax bill for the first time in 1953. The computation of the school tax rate is based on all appropriations for the operation of the schools including salaries of all personnel, supplies, books, repairs, and equipment. It is also based on all expense in connection with planning, construction and equipping school buildings including payments for debt and interest. It also includes any special appropriations under various Warrant Articles.

Incomes from sources other than the property tax are credited. These include all state aids distributed to the Town for school purposes and a proportionate share of the general receipts of the Town which are not assigned to specific functions of various Town departments.

The school tax rate will vary from year to year depending upon the balance of these factors. Unless increased incomes become available from other than the property tax it is likely that the school tax rate will rise in response to the rapid increase in the number of pupils and the necessity of maintaining salaries which are competitive with those of neighboring communities.

JUNIOR-SENIOR HIGH SCHOOL

W. Maxwell Griffin has continued his able leadership of the Junior-Senior High School.

In describing certain developmental aspects of the six-year instructional program, it is appropriate to begin with the junior-high division. In this two-year growth period designated as the 7th and 8th grades, each student receives instruction in English, Social Studies, Art, Shop or Home Economics, Arithmetic, Science, Music, and Physical Education. The program is characterized by a daily schedule which permits a student to study English and Social Studies with the same teacher for approximately two hours daily. This longer period of time offers opportunity for the organization of effective learning experiences, for extended use of community resources, for individual and group planning, and for meaningful drill and corrective measures. The classrooms are of a self-contained nature with ready reference material and furniture adaptable for different learning activities. Providing these rooms with adequate resource material is a part of the Library development.

Through differentiated assignments, the more able student is encouraged to tackle jobs at his level of maturity and often groups of such

students work together toward common goals. Each teacher gets to know each student well and plays the role of a guidance person. This relationship tends to offer stability for the youngster who is meeting departmentalized instruction for the first time. Helping students select courses for the ninth grade is an example of the guidance work at the eighth grade level.

The art program reflects definite enrichment patterns in that Mrs. Lillian Jones is now working full time in the Junior-Senior High School. The new art room is now fully equipped, including six hand potters wheels, an electric potters wheel and an electric kiln. Each student will have a chance to make at least one piece of "real pottery." An exhibit of ceramics work will be held in the Library near the end of the year.

The schedule permits the teaching of art either as a separate subject of an integrated part of the English-Social Studies classes. The students have made pictures and murals to illustrate literature they are studying. Later they will make puppets and write plays to give to other groups. During the year they do one or more projects with cut paper, pastel chalks, water color, tempera paint, clay, paper mache, charcoal, colored pencils, linoleum block printing and finger painting.

The new junior-high science room is fast becoming a functional unit. It now has a demonstration table with gas and electricity, several permanent pieces of scientific equipment including weather instruments and an aquarium, and several "home-made" pieces of apparatus. Adjacent to the science room is a dark room which is being equipped to carry out the common photographic processes.

Accompanying these developments has been a concentrated staff effort to study the junior high program in relationship to the grades below and above it.

The senior high school program designated as grades nine through twelve reflects certain changes from a year ago. There are now three sections at the ninth grade level. This increase in number of sections affords a more purposeful selection of elective subjects. All freshmen take English, Orientation, General Science, and either General Mathematics I or Algebra I. The elected subject for college-bound students is Latin I; business students take General Business Training; and general education students take Shop or Home Economics. In terms of the daily schedule, this means that students with like purposes are grouped together and share the same subjects together.

Other ninth grade subject changes are as follows:

1. Orientation in addition to its "How to Study" guidance function has become a ninth grade social studies course aimed at developing understandings of local government.
2. General Business Training is an introductory course for students interested in the business field and is now the beginning course in that sequence.
3. All freshmen now take a mathematics course whereas in former years it was necessary to make a choice between General Business Training and General Mathematics. The present requirement insures that all students progressing through high school will have two units in mathematics. This, it is felt, strengthens the backgrounds of general education and business students.
4. The General Science course currently includes a unit in "first aid." A student through this class can qualify for a Red Cross Certificate.

At the tenth grade level a new course "World Civilizations" has been added. This is an elective course but one which is designed to add a developmental sequence to the four-year social studies program. This course brings together learnings formerly included in World Geography at the tenth grade level and World History for a few students at the twelfth-grade level. The four-year sequence of Orientation, World Civilizations, American History, and Problems of American Democracy now gives a desirable pattern for developing understandings of our American heritage.

General Mathematics II is now available for General Education and Business students. This course is part of the plan to offer more mathematics to our students and at the same time enable some of our students to meet the two unit mathematical requirement of advanced schools.

Biology, an elective subject, is now taught as a laboratory science. Each section has one scheduled laboratory period per week in which the fundamental experiments recommended for college entrance work are performed. The laboratory now has three microscopes as well as many other group and individual pieces of apparatus and it is now possible for Biology students to do thirty-five fundamental biological experiments.

Courses entitled "High School Art" and "Music Appreciation" are available for grades eleven and twelve. Chemistry is scheduled with a

double laboratory period. New laboratory equipment enables students to do several of the experiments on an individual basis.

The driver education program has been extended and revised so that the classroom instruction is scheduled for sophomores, and the "behind-the-wheel" driving for those who are sixteen years of age. The driver's license then becomes the culminating objective. The driver education car is furnished through the courtesy of Cochituate Motors.

The business department has added three additional classes in typing permitting any student to acquire this skill. This development will aid the college bound student as well as those seeking more immediate employment.

Occupational meetings are being held through the school year with the assistance of Northeastern University. Specialists in the several areas aid the seniors to understand the nature of various occupations and the specific advanced education that is needed:

November

- What it is like to be a nurse (all levels).
- How young men and women train to become engineers.
- Jobs for high school graduates in large stores.

January

- Careers in advertising and selling.
- Careers for young men in cabinet and furniture making, sheet metal work, watch repairing, jewelry-making and repairing, and piano tuning.
- Careers for girls in nursery school teaching.

February

- Careers for girls in medical technology, physical therapy, and occupational therapy.
- Jobs with airlines (mechanical and clerical).
- Applying for jobs in the trades, or with the government.

March

- How girls are trained for careers in beauty culture.
- Careers in teaching.
- How to become an auto mechanic.

April

- What it is like to be a social worker.

Opportunities for young men in physical education.
Jobs for high school graduates in large offices.

AWARDS AND SCHOLARSHIPS

Jane Campbell was awarded the Woman's Club Scholarship. The High School Parent Teachers Association Scholarships were received by Frances Kane, Raymond Humphrey and Linda Robinson. The Cochituate Mother's Club award went to Betty Bragg. Joan Campbell received the Bausch Lomb Science Award and Judy Cook won the D. A. R. Good Citizenship Award. The Becker Junior College Business Key was won by Shirley Hakanson. Frances Kane earned the Social Studies Award.

With more students enrolling for training beyond high school there is an increasing need for scholarship funds.

Twenty-two members of the Class of '53 were placed in advanced schools. Twelve have gone to colleges including Bethany, Brandeis, Boston University, Mount Saint Mary, Norwich, Framingham State Teachers College, Brown University, Connecticut College for Women, Northeastern University and the Coast Guard Academy. Ten students entered St. Elizabeth's Hospital Technical Training Program, Cushing Academy, the Garland School, the Chandler School for Women, Middlesex Secretarial School, the Waltham Hospital, Attendant Nursing program, and Westbrook Junior College. Eight students entered factory or construction work and twelve students are employed in secretarial and clerical positions. It is very gratifying to note the increase during the last five years in the number of students attending some form of post-high school training. Advanced training is becoming more and more necessary if young people are to become successful both in work and in civic life.

ELEMENTARY SCHOOLS

Elmer R. Kane has continued as principal of the Cochituate School and Mrs. Reta A. Hubler assumed this responsibility in the Center School last September.

All of the increase in elementary enrollment has been provided for in connection with the Center School during the first two years by utilizing the recent addition to the High School for fifth and sixth grade classes. During this school year seven 5th and 6th grade classes are housed in this addition with nine classes in grades one to four in the Center School building completing the school under Mrs. Hubler's supervision. Thirteen classes in grades one to five are located in the Cochituate School. The thirteenth classroom is made possible by using the conference room.

When the new elementary school is completed the elementary schools will be reorganized with the Cochituate School having twelve classes in grades one to six, the new school being similarly organized, and the Center School having eight or nine classes in grades one to six. In revising the areas of the town to be served by each school, children will be placed nearest to their homes when possible. In some cases the efficient planning of bus routes will need to govern school placement. Whenever possible all elementary children in a given family will attend the same school.

Some members of the teaching staff will transfer to the new school providing a nucleus of present staff members in each school to insure a continuity of program and an awareness of individual pupil progress.

It is hoped that weather conditions and other factors will make it possible to open the new school in September. If this is not possible temporary arrangements will need to be made in September. The exact plan will depend upon the date when the building will be ready.

The program of the elementary schools is designed to offer learning experiences in which the pupil masters the basic skills of each subject and then uses these skills for further learning. The faculty works in close cooperation between grade levels and meets often to establish close coordination within grade levels. Faculty meetings have been held with the Junior High School staff to develop improved coordination of the curriculum between the upper grades and the Junior High School.

All new teachers are given much assistance in clarifying the program and in directing their activities so as to insure maximum teaching efficiency.

Faculty meetings concern themselves with all school problems including curriculum developments. Experts in various fields of the curriculum have engaged in workshops with the faculties which has resulted in greater understanding of many specific professional problems.

REVISION OF REPORTING SYSTEM

A revised reporting system was established at the Center School after careful study by a parent teacher organization committee under the chairmanship of Mrs. Warren Olmsted. This system provides three ways of reporting children's progress. Conferences by the parents and teachers are held to increase mutual understanding so that the parent can coordinate his efforts with those of the school and the teacher can provide a more precisely developed individualized instruction program. These conferences

require much additional time on the part of the teaching staff. The teachers feel that the results make the effort worthwhile. A written report is sent to the parents regularly as a second method of communication. This report is designed to give information as to the pupil's progress. The marking system provides for five grades — A, B, C, D and E instead of the four grades previously used. This factor and more precise definition of the meaning of each grade results in numerous marks being one grade lower than under the former system. It is believed that this more realistic grading will aid to stimulate learning by the students. As a third means of reporting the teacher provides the pupil with a progress report as the need arises. The Report Card Committee of the Cochituate School has made its preliminary studies and plans to make a final report this spring. Parent teacher conferences are being held throughout the year in addition to reporting methods utilized in previous years.

GUIDANCE

The role of guidance services in the elementary level is felt to be highly significant with a three part program in effect:

- a. Intelligence and achievement tests are given at regular intervals so that progress may be noted and so that the program may be more closely geared to the needs of the child.
- b. The classroom teacher is recognized as the center of much guidance counseling in many phases of school and personal growth.
- c. Professional clinical services are made available to those children who evidence personality problems which interfere with their own or their classmates' learning experiences. Many conferences are held with teachers, principals, the director of guidance, parents and the professional clinical staff to identify problems and to establish therapeutic measures.

HOT LUNCH PROGRAM

A welcome part of the school program is the lunch period. A hot lunch is served to all the children who desire it, which gives an opportunity for the teaching of health habits and table manners.

THE LIBRARY PROGRAM

The books in the inadequate central libraries in each school were distributed to classrooms where room libraries are organized with a resulting greater use of reference and reading materials by pupils and teachers.

Several hundred new library books were purchased for the schools and are in daily use.

COMMUNITY RESOURCES

The moving of the Cochituate branch of the Wayland Public Library to new quarters has served the Cochituate school children as a valuable source of reading and reference material. The school and the public library have cooperated in meeting the reading needs of the school students. The Center School fifth and sixth grades have made regular trips to the Wayland Library.

REPAIRS AND RENOVATIONS

The Center School had several improvements made including the installation of new classroom lighting, replacement of worn and discolored shades, and the painting of the exterior of the building. The unbalance the heating system in the two small rooms was corrected in connection with the renovation of the hot air portion of the heating system.

Improvements were also made at the Cochituate School including replacement of all shades in the eight rooms of the old wing. The auditorium shades were re-hung and plywood shields were installed to prevent light seepage around the windows making it possible to completely darken the auditorium during the day for film programs. New lighting fixtures were installed in one room of the old wing. New bookcases and tack-boards were installed in each of the old wing rooms thereby enlarging display space and storage space for books and room libraries. Bookcases and a magazine rack for the professional library were installed in the faculty room.

FINE ARTS

As a result of increasing enrollments Mrs. Mildred Kingsbury was added to the staff to continue the development of the art program in the Center and Cochituate Schools.

The art program seeks to promote an appreciation of art, to develop the thrill of creating, and to use art as an aid to learning. Every class in the elementary schools receives a half hour instruction period from the art specialist each week. Between the specialist's visits the classroom teacher conducts the art program. The art specialist and classroom teachers have weekly conferences to discuss activities which are later expressed in murals, clay modeling, weaving, paper sculpture, and attractive sand table displays by the children. In these different ways learning is made exciting.

Some art periods take the form of discussions of great works of art. Sometimes the upper grades discuss the purchasing of their clothes and means of decorating their rooms at home. Trips to the Children's Museum and The Museum of Fine Arts often climax a unit of study. Excellent exhibits are borrowed from these museums.

The children learn to express themselves in many media such as tempera, water color, crayon and pastel. Weaving, textile painting, clay modeling and paper mache are added materials. The children feel the joy of creating their own work, and enjoy having their work exhibited in the school and in the Library.

PHYSICAL EDUCATION

The physical education program in the elementary schools includes every child regardless of his or her level of motor ability. While the "athlete" is encouraged to develop his or her skill the program is organized with the idea that there is room for everyone in physical education.

Good sportmanship, worthy use of leisure time, and a desire for health are emphasized as desirable attitudes. In the elementary grades basic rhythmical activities, fundamental body mechanics, stunts, simple team games, and dramatic creativeness through story plays are developed.

Visual aids are incorporated into the physical education program. Films, technique charts, and posters help to make the subject matter more meaningful. Although hygiene is not presented as a separate course, wholesome attitudes of healthful living are integrated into all physical education classes.

GUIDANCE DEPARTMENT

Jean Nelson, Director of Guidance, is serving the Wayland pupils throughout all schools, from grades one to twelve. The guidance functions of the school system have been more closely integrated with the administrative functions, with greater coordination between the superintendent, principals and guidance director. This has made possible more extended service to the students, parents and the community.

Last summer individual intelligence tests were administered to most entering first grade children and conferences were held with parents. When school opened in September teachers knew from the first day who their children were, what the expected capacity of each child might be, where they could begin teaching skills, how fast a rate each child could

be expected to maintain, and what, if any, handicaps needed to be considered.

Parents and the school desire what is best for each child and as the relationships between the homes and school are strengthened the needs of the children can better be met. Many parent-student conferences were held with principals and teachers and it is felt that this practice made possible better understanding between the home and school. This has been mutually beneficial.

The Pupil-Personnel Services Clinic has continued its activities during the year. Besides parent-student work, opportunity was given teachers to avail themselves of these services and have consultations regarding individual students. Mary S. Palmer, consulting physician, held these professional clinics on Thursday afternoons. Much use was made this year of the diagnostic clinics and hospitals in greater Boston.

INSTRUMENTAL MUSIC

Mr. Lester MacArthur joined our staff last September to develop the expanding program in instrumental music. At present approximately twenty-five students are participating in the group activities of the instrumental music program. Instruction is available on all brass and woodwind instruments as well as violin, drum, piano and recorder. In addition to regularly scheduled band and orchestra rehearsals, the brass, woodwind and string sections are rehearsed separately. The orchestra has been rehearsing on a bi-weekly basis with Sudbury's school orchestra. Plans are being completed for marching rehearsals to be available to all instrumental students.

As a result of a demonstration of musical instruments given to the sixth through ninth grades in October, there was a registration of one hundred prospective instrumental students. Individual aptitude tests are being given in order to make sure that the student is musically and physically suited to the instrument of his choice. In many cases a student will be tested on several instruments in order to determine the one which is likely to work out best. This should result in a more stable and dependable program embracing a higher percentage of students.

A program soon to be initiated of instruction on tonettes will reach every student in the third and fourth grades. This pre-band instruction will be followed by recorder instruction as a stepping stone to other instruments.

A band concert was given in December which raised approximately two hundred fifty dollars to start a uniform fund. It is early to know how

rapidly groups will develop since five years is frequently required to develop a sound instrumental program. We hope to have an instrumental group available to play at football games by next fall. A small but fairly well balanced band should be ready by 1955. Our orchestra, which is larger and more advanced, may be ready for participation in state music festivals within two years.

VOCAL MUSIC

The two highlights of the vocal program this year were the Spring Music Festival and the High School graduation exercises. The festival was given in the auditorium of the Cochituate School where a demonstration of vocal music from the first through the sixth grades was presented to a full house of parents and friends. An evening of singing, rhythm band work, early American songs and dances, and harmonic music ended with several selections of two part singing presented by the combined fifth grades of the Center and Cochituate elementary schools.

Mrs. Pauline Radford, Music Specialist, felt that the program presented by the High School chorus at graduation time was much better than in previous years. Being assigned to the stage of the auditorium for rehearsal throughout the year greatly facilitated the working together of a large group.

In September Mrs. Radford's time was increased from three to four days a week permitting the music program to be increased. A course in music appreciation and history was made available to Junior and Senior students. During the first half of the year emphasis has been placed primarily on instrumental music and the musical instruments of the symphony orchestra. The second half of the year will be spent in the study of American music from its early beginnings to the present day. Consideration will be given to early Indian and Negro influence; to the ballads, folk songs, frontier and occupational work songs of the American white man; and to the more recent influences of the movies, theatre, radio and television. Developments will be traced in jazz and the art music of North and South America.

HEALTH SERVICES

Mrs. Mary McNeil, School and District Nurse, provides the nursing services in the schools.

The school program has been revised somewhat as a result of new state health regulations. The school physician examined children in grades three, five, seven, eleven and all participating in athletics.

The pre-school clinics were conducted in May. Weight and height measurements were recorded on the health cards once during the school year. The toxoid clinic, as in the past, was sponsored by the Wayland Board of Health. The Massachusetts vision test was given to pupils in grades one, three, five, seven and eleven. Parents of children having visual defects were notified. Local committees of the Salvation Army, the Red Cross and the Veterans of Foreign Wars assisted by providing glasses when necessary. The audiometer test was given to pupils in grades one and three, since the other grades were tested the previous year. Emergency aid was provided and when further treatment was necessary children were taken home. We find the great majority of the children to be in very good physical condition.

Dr. Charlotte A. Stewart was the school physician until June with Dr. David R. Corey assuming these duties for the present school year. Dr. Joseph P. Fournier has continued to carry out the work of the dental clinic one morning each week at the Center and Cochituate Schools.

ATTENDANCE SERVICES

During the year 1953, David J. Allen, the Attendance Officer, investigated 123 cases of questionable absence.

Number of students accompanied to school	5
Number of truants	22
Number having no legitimate excuses	19
Number taken for medical attention	4
Number taken home due to illness	107

Respectfully submitted,

REXFORD S. SOUDER,
Superintendent of Schools.

SCHOOL CALENDAR, 1954

Schools reopen	January 4
Winter Vacation	February 22-26
Good Friday	April 16
Spring Vacation	April 19-23
Memorial Day 'Holiday'	May 31
Schools close	June 18*
Schools open	September 8
Columbus Day	October 12
Armistice Day	November 11
Thanksgiving Vacation	November 25-26
(minimum day on November 24)	
Christmas Vacation	December 24-31
(minimum day on December 23)	

* High School may close later depending upon the number of no-school days.

SCHOOL ENTRANCE

Any child who is five years and eight months of age on September first of the current school year may be admitted to the first grade, but in every case the admission of a child under six shall be dependent upon the fitness of the child to profit by the work of the school, such fitness to be determined by the Superintendent. Pupils under the age of seven years who have not previously attended school shall not be permitted to enter later than thirty days after the opening of school in September except by special permission of the Superintendent. Certificates of birth and vaccination shall be required at the time of entrance.

NO-SCHOOL SIGNAL

In the event of exceptionally severe weather conditions or when the transportation system is disrupted, WBZ, WEEL, WNAC, and WKOX will broadcast the no-school announcements between 7:00 and 8:00 A. M. In addition, five blasts will be sounded on the fire alarm in Wayland and Cochrane at 7:00 A. M. for "no school, all schools" and 7:30 A. M. for "no school elementary schools only."

We feel these signals are clear and, therefore, urge parents to refrain from flooding the Telephone Office and homes of School Department personnel with telephone calls.

On days when the signal is not used weather conditions may warrant the non-attendance of certain children. Lack of normal health would tend to make it advisable for parents to keep the child at home. Since weather reports are not always reliable, and since the School Department desires to render maximum education service by having the schools open the greatest number of days, storm signals will not be used on ordinary rainy or snowy days or when there is reasonable doubt.

A good education can be built only on good health. Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

MEMBERSHIP BY AGE AND GRADE
